*Alabama Central.*—In default since January, 1872. Negotiations pending for a new adjustment.

*Alabama & Chattanooga.*—Road sold May 3, 1875, for $1,200,000, subject to lien of receiver's certificates. Time for bondholders to accept extended to Jan. 11, 1876. (V. 20, p. 289, 476, 570; V. 21, p. 38, 62, 253, 302, 322, 511; V. 22, p. 61, 87.)

*Albany & Susquehanna.*—This road is leased for 150 years from 1870 to Delaware & Hudson Canal Co., at 7 per cent per annum, on stock and bonds—lessee assuming the payment on both.

*Alleghany Valley.*—This road was embarrassed in 1874, and compromised with creditors. Abstract of operations in 1874 in annual report, V. 21, p. **37**. V. 19, p. 15, 117, 246, 582.)

*Alexandria & Fredricksburg.*—The Pennsylvania Railroad holds $512,000 of the bonds and controls the road. Loss on operation in 1873, $25,074.

*Arkansas Central.*—Most of the bonds were sold in London, where $600,000 of 2d mortgage bonds were also hypothecated. (V. 19, p. 365.)

*Ashtabula, Youngstown & Pitts.*—It is leased and operated by Pennsylvania Co. at cost. Net earnings paid to lessor, but lessee guarantees interest on 1st mortgage for five years. Common stock, $1,500,000; preferred, $500,000. Annual report V. 20, p. **426**.

*Atchison & Nebraska.*—Interest was in default September, 1873, and coupons funded. Gross earnings, 1874, $353,204; net, $82,880; unpaid coupons, $450,000. Annual report V. 20, p. **403**.

*Atchison, Topeka & Santa Fe.*—Interest is paid on $976,000 of the 2d consol. mortgage bonds, but on the balance of that issue the coupons are funded to Oct. 1, 1876. (V. 20, p. 161 357 515; V. 21, p. 63, **136**, 323, 591.)

*Atlanta & Richmond Air Line.*—Defaulted in 1873, and now in litigation. A decree of sale in foreclosure was made October, 1875. (V. 20, p. 14, 85; V. 21, p. 14, 85, 323, 418, 488, 612.)

*Atlanta & West Point.*—The road has paid 8 per cent dividends for some years; it has about $200,000 of bonds.

*Atlantic & Great Western.*—This road was leased to the Erie for 99 years from May 1, 1874, but the lease did not go into effect. Shortly after (in July, 1874) default was made on its bonds. The last annual report, to Oct. 1, 1874, will be found in V. 19, p. **637**. Proceedings looking to re-organization are in progress, and a considerable amount of securities has been deposited by holders with the London Committee. (V. 19, p. 16, 142, 617; V. 20, p. 85, 139, 289, 499, 592; V. 21, p. 136, 159, 290, 393, 440.

*Atlantic & Gulf.*—Gross earnings in 1874 were $1,032,256; net earnings, $285,636. The Company also has $500,000 10 per cent coupon notes outstanding. Annual report in V. 21, p. **275**, also p. 488.

*Atlantic, Mississippi & Ohio.*—Of the stock $5,845,700 is common, $800,000 preferred, and $276,200 guaranteed; the company, itself, holds $3,441,200 of the common, all the preferred, and $165,700 of the guaranteed stock. Gross earnings year ending September 30, 1874, $1,825,343; expenses, $1,097,723; net earnings, $727,619. There was a decrease of gross revenue by $368,114 08, or 16 per cent; a decrease of current expenses of $181,988 74, or 14 per cent, and a decrease of net revenue of $186,415 34, or 20 per cent. Of the $15,000,000 loan enough is held to retire all the old debt. The company funded one coupon Jan., 1874, but paid subsequent coupons in part. Funding notes due 1875 and 1879 were issued. In October, 1875, in London, the company made a proposal to pay three per cent cash on consolidated coupons till 1881, and balance, if earned. This proposition is still before the bondholders for their assent. The president remarked in his report of 1874-75: "During the past two years the company has retired, in round numbers, $550,000 of the past due indebtedness of the divisions; besides it has made a net expenditure of about $140,000 on property account in the past year, while it has not increased its own indebtedness, and for these disbursements is entitled to be re-imbursed by the sale of bonds whenever they can be advantageously disposed of. There are of such bonds, subject to the purposes of reconstruction and equipment, the sum of $1,166,000, face value." In addition to this, and as against the floating debt, they had in cash $75,821 92, and available bills $175,000, besides store-house supplies $176,842 96, and other assets $125,000. (V. 20, p. **380**; V. 21, p. 569, 591.)

*Atlantic & Pacific.*—This was a consolidation, in Oct., 1870, of the Atlantic & Pacific and So. Pacific. The land grant amounts to some 1,000,000 acres. Interest was passed Jan., '74, on the land grant bonds, the 2d mortgage and the intercst scrip, but coupons funded. A break in the company's affairs occurred in October, 1875; the Missouri Pacific lease was surrendered and complicated litigation against the Atlantic & Pacific Company commenced on the ground of fraud in the Missouri Pacific management. Interest of January, 1876, on land grant bonds was not paid, and interest on the 3d mortgage bonds of the Missouri Pacific is also unpaid. The latter are mostly held by the Atlantic & Pacific Company for improvements claimed to have been put on the Missouri Pacific road. (V. 19, p. 397; V. 20, p. 288; V. 21, p. 9, 418, 440, 466; V. 22, p. 61.)

*Atlantic & St. Lawrence.*—Leased for 999 years, from July, 1853, to Grand Trunk Railway of Canada. Annual rent, 6 per cent on bonds and stock.

*Augusta & Savannah.*—Leased to Central of Georgia for $73,000 per annum; has $129,000 bonded debt.

*Bald Eagle Valley.*—Leased to Pennsylvania Railroad at 40 per cent of gross receipts. The Pennsylvania Railroad holds all the 2d mortgage bonds.

*Baltimore & Ohio.*—The B. & O., in comparison with its rival trunk lines, claims a much smaller capital account in proportion to the value of its property. The gross earnings of main stem and branches, and financial condition of B. & O. Co. for four years were as follows:

| | Gross Earnings. | Net Earnings. | Stock and Debt. |
|---|---|---|---|

The gross earnings of the main and all leased lines in 1874-75 were $14,426,552, and net earnings, $4,490,098. The company claims a surplus of $34,023,566, in the value of its assets above its stock and debt, which surplus is represented chiefly by securities of branch lines, received for advances made by the B. & O. In Dec., 1875, the operating contract with Pittsburgh & Connellsville road was ratified, by which B. & O. guarantees $10,000,000 bonds. See report in CHRONICLE, V. 21, p. **487**; V. 20, p. 183, 381, 404, 453, 592; V. 21, p. 371, 511, 591.

*Baltimore & Potomac.*—This is the line of the Pennsylvania Railroad from Baltimore to Washington. The bonds are guaranteed by Penn. RR. and Northern Central. Last annual report V. 21, p. **37**.

*Belleville & Southern Illinois.*—Leased and operated by St. L. Alt. & T. H. Co. on a percentage of gross earnings. Gross earnings, '74, $273,311. (V. 20, p. 380.)

*Belvidere Delaware.*—Leased to United Companies of N. J., and operated by Pennsylvania RR. at cost; net earnings go to lessor where they exceed interest on debt, which is guaranteed by lessee. In 1874 net earnings of Belvidere Del. were $416,367. Floating debt, $1,247,166. (V. 20, p. 488.)

*Berkshire.*—Leased to Housatonic, at 7 per cent per year on stock.

*Boston & Albany.*—The Boston & Albany is the main western trunk line of New England. In past three years the following has been its exhibit:

| | Gross Earnings. | Net Earnings. | Total Stock and Debt. |
|---|---|---|---|
| 1874-5..... | $7,634,139 | $2,262,147 | $26,478,282 |

| 1872-3..... | 9,708,033 | 2,236,873 | 24,183,100 |

$5,000,000 new bonds were authorized in Feb., 1875. (V. 20, p. 14, 162, 592; V. 21, p. **464**.)

*Boston, Clinton & Fitchburg.*—The stock outstanding is $872,600. Net earnings for the year ending September, 1875, $401 202; a dividend of 3 per cent paid on pref. stock Jan., 1876. (V. 21, p. 84, **591**.)

*Boston, Concord & Montreal.*—Gross earnings for the year ending with March, 1875, were $664,194; net earnings, $140,208. There are also $76,000 old bonds due in 1865. (V. 20, p. **520**.)

*Boston & Lowell.*—Operated with the Nashua & Lowell, which receives 31 per cent. (V. 20, p. 85; V. 22, p. 42)

*Boston & Maine.*—Net income, 1874-5, over interest payments, $607,974. Is worked in connection with Eastern of Mass. (V. 20, p. **14**, 614; V. 21, p. **533**.)

*Boston & N. Y. Air Line.*—Formerly N. Haven Middletown & Wil. Road cost about $6,000,000, represented now by $3,000,000 pref. stock and $1,000,000 common.

*Boston & Providence.*—The bonds and also $934,000 notes have been issued for purchase of branch roads. Total income, 1874-5, $1,581,258; net, over operating expenses, $447,246. (V. 21, p. **569**.)

*Buffalo, Bradford & Pittsburgh.*—Under perpetual lease to Erie at $40,600 per year.

*Buffalo, New York & Erie.*—Leased to Erie in 1863, for 490 years, at 7 per cent on stock and interest and sinking fund on bonds. In 1873 Erie bought $500,600 of the stock at $150 per share. (V. 20, p. 61, 614.)

*Buffalo, New York & Philadelphia.*—This is the connecting line of the Philadelphia & Erie with Buffalo. In 1874 the net earnings were $186,813.

*Burlington, Cedar Rapids & Minnesota.*—In 1874 default was made in interest. A decree of sale in foreclosure was made November, 1875. (V. 20, p. p. 235, 520, 545, 570; V. 21, p. 85, 277, 591.)

*Burlington & Missouri River.*—An agreement of consolidation and a perpetual lease to Chicago, Bur. & Quincy, was made in Oct., 1872. In August, 1875, stock of Chic. Burl. & Q. was issued in place of stock of this Co. and for convertible bonds. Annual report V. 20, p. **335**. (V. 20, p. 139; V. 22, p. 87.)

*Burlington & Missouri in Nebraska.*—The stock is $8,583,750. A report of company's operations, &c., to Jan. 1, 1875, has not been published, but we have the net earnings in 1874 as $445,940. The land grant has proved very valuable, and total sales to Jan. 1, 1875, amounted to $6,312,954; in 1874 sales were $2,159,842. (V. 20, p. 289, 593.)

(V. 19, p. 246; V. 20, p. 60, 264; V. 21, p. 253.)

*Central Ohio.*—Leased to Balt. & Ohio RR. in 1866 for 20 years, rent 35 per cent of gross receipts for 5 years, and 40 after. Pays 6 per cent dividends.

*Central Pacific.*—Gross earnings in 1874 were $14,531,355 (currency), and net earnings $8,682,378. Land grant statement, V. 21, p. 136. An abstract of the annual report for 1874 is given in the CHRONICLE, V. 21, p 251, and earnings and expenses later, to July, 1875, on p. 242, showing net earnings for six months of $1,229,753 in mixed coin and currency. Regular dividends of 8 per cent a year now to be declared. A settlement with bondholders of California Pacific has been proposed, by which the Central Pacific guarantees certain new bonds to a limited amount (V. 20, p. 8, 37, 42, 178, 182; V. 21, p. 159, 488; V. 22, p. 61.)

*Charlotte, Columbia & Augusta.*—Net earnings in the year ending September 30, 1875, $250,004, against $225,736 the previous year. Increase in local business, 19 per cent. (V. 21, p. 590.)

*Chartiers.*—Leased to Pitts. Cin. & St. Louis, and operated by Penn. Co. Net earnings go to lessor. (V. 20, p. 427.)

*Cherry Valley, Shar. & Al.*—Transferred to Delaware & Hudson Canal Co., April, 1875. Interest unpaid in December, 1875. (V. 20, p. 404.)

*Chesapeake & Ohio.*—After the panic, default was made on interest. Net earnings in 1874-75, $346,858. Receiver appointed October, 1875, and foreclosure proceedings will probably be had for the purpose of re-organization. A very complete statement of outstanding liabilities and the plan of re-organization are given in V. 21, p. 509. (See V. 20, p. 162, 184, 357; V. 21, p. 323, 371, 417, 441, 534, 569, 612; V. 22, p. 42, 87.)

*Cheshire.*—Net income, 1874-75, $76,927. Dividends, 4 per year. (V. 18, p. 295; V. 21, p. 590.)

*Chester Valley.*—In hands of trustees and leased to Philadelphia & Reading.

*Chicago & Alton.*—The report for 1874 is given at length in v. 20, p. 265, and shows gross earnings of $5,126,228, and net earnings of $2,224,876, against $2,121,286 in 1873. Joliet & Chicago RR. is leased for interest on stock and bonds. St. L., Jack. & Chic. Railroad leased at $240,000 per year. Louisiana & Mo. RR. built and operated under contract. (See V. 19, p. 479; V. 20, p. 129.) The Chicago & Illinois River bonds had not been sold to January, 1876, and there was some litigation. (V. 18, p. 350; V. 19, p. 16, 479; V. 20, p. 176, 265, 289, 500; V. 21, p. 185, 6 2.)

*Chicago, Burlington & Quincy.*—Stock was issued in exchange for that of the Burl. Mo. River in Sept., 1875. Gross earnings of the consolidated line for 1874 were $11,645,817; expenses, $6,513,512; net earnings, $5,131,805. The C. B. & Q. leases numerous branch roads, giving them a traffic guarantee (usually 40 or 50 per cent) for purchasing their bonds. Enough of the consolidated mortgage is reserved to take up prior debts. In August, 1875, stock of this Company was issued in exchange for Burlington & Missouri River Railroad stock, and the same is also given for the convertible bonds of Burlington & Missouri River Railroad. (V. 20, p. 15, 37, 60, 184, 335, 499.)

*Chicago & Canada Southern.*—Connection of Canada Southern. Interest funded.

*Chicago, Cincinnati & Louisville.*—No information furnished.

*Chicago, Clinton & Dubuque.*—This road defaulted in 1873. It was built by construction companies in which directors of C. B. & Q. were stockholders. (V. 20, p. 85, 134; V. 21, p. 14, 612.)

*Chicago, Danville & Vincennes.*—There is also a 2d mortgage for $1,000,000 and a chattel mortgage of $1,000,000, most of which are pledged. Default was made in 1873, and coupons partly funded, subsequently receiver appointed, and litigation in progress. (V. 20, p. 15, 42, 60, 241, 266, 289, 313, 357, 382, 404, 453, 499, 570; V. 21, p. 157, 185, 347; V. 22, p. 87.)

| Net earnings. | 3,081,900 | 2,451,663 | 2,262,155 |

The issue of consol. bonds of 1875 was made to substitute for that of 1874; of these bonds $27,339,000 are reserved to take up old debt. Lacrosse Eastern div. 8 per cent extended bonds, due 1874, were paid January, 1876. The dividend on preferred stock March, 1874, was paid in consol. bonds. The sterling bonds of 1872 are convertible into dollar gold bonds of $1,000 each. Dividends have been paid since 1869—on preferred stock in 1874 7 in bonds, 1873, 7, 1872 7, 1871 7, 1870 7 and 3 scrip; on common stock in 1871 7 scrip, 1870 3 cash and 7 scrip. (V. 20, p. 60, 163, 185, **474**, 476, 593; V. 21, p. 38, 186, 253, 612.)

*Chicago & Northwest.*—The fiscal year ends with May. The last annual report will be found in the CHRONICLE, V. 21, p. **206.** The net surplus of the year on the Chic. & Northwest. lines proper, after paying interest, was $1,366,167, and on the whole system, including proprietary roads, $518,266. The net earnings of proprietary roads were $282,004, and the interest on their bonds, $1,129,905. Lands of the company are 2,108,643 acres unsold, and 1 were only recently placed in market. In 1874-4, 24,296 acres were sold at an average price of $1 78 per acre. The nominal surplus balance of the Company, May 31, 1875, was $2,637,612. Operations for the last six fiscal years compare as follows:

| | Gross earnings. | Expenses and taxes. | Net earnings. |
|---|---|---|---|
| 1874-75 | $12,707,726 | $7,984,694 | $4,723,031 |
| 1873-74 | 14,410,124 | 9,334,450 | 5,075,673 |
| 1872-73 | 12,736,607 | 8,178,237 | 4,568,370 |
| 1871-72 | 11,402,161 | 6,810,026 | 4,592,135 |
| 1870-71 | 11,694,914 | 6,3 1,506 | 5,383,408 |
| 1869-70 | 12.535,428 | 8,013,317 | 4,522,111 |

The trust deed of the gold loan provides contingently for a possible issue of $48,000,000, by ultimately absorbing all the other bonds and also all subsequent issues, including all the bonds of the proprietary roads of the company, together aggregating $35,349,000, which amount is reserved from the $48,000,000. The residue of the gold loan, viz., $12,651,000, represents all the additional indebtedness resulting from the mortgage. Dividends have been paid—July, 1873, 3½ on preferred; December, 1872, 3½ on both; June, 1872, 3½ on preferred: December, 1871, 3½ on preferred; June, 1871, 5 on both; December, 1870, 5 on both; June, 1870, 2 on preferred; December, 1869, 5 on preferred, 4 on common; June, 1869, 5 on both; December, 1868, 5 on both. (V. 19, p. **295,** 375 528: V. 20. p. 136, 186, 593; V. 21, p. 109.)

*Cincinnati, Richmond & Fort Wayne.*—Leased to Grand Rapids for 99 years. Interest on bonds is guaranteed by Grand Rapids, Cincinnati Hamilton & Dayton, and by Pennsylvania Co. (V. 20, p. 15.)

*Cincinnati, Sandusky & Cleveland.*—In the year ending June 30, 1875, gross earnings were $857,695; expenses, $561,775; net earnings, $295,919, or just about $30,000 better than in 1873-4. (V.21, p. **591.**)

*Cincinnati & Springfield.*—Leased in perpetuity to Clev. Col. C. & I., with guarantee of interest; on first mortgage half of interest is also guaranteed by Lake Sh. & M. S.

*Cincinnati, Wabash & Michigan.*—Passed interest Jan., 1876. Some bonds held by Lake Shore & M. S., but no indorsement by that company.

*Cleveland, Columbus, Cincinnati & Indianap.*—The latest annual report is given in the CHRONICLE, V. 20, p. **335.** Net earnings in 1874, $1,066 451, against $1,464,050 in 1873. Floating debt, $543,224. Later statement July, 1875. (V. 18, p. 248, 266, 374; V. 20, p. 241; V. 21, p. 63, 253.)

*Cleveland & Mahoning Valley.*—Was leased to Atlantic & Great Western, but that company defaulted on the rent. See V. 17, p. **512**; V. 20, p. 85, 139.

*Cleveland, Mount Vernon & Delaware.*—This company defaulted July, 1874; the Pennsylvania Railroad owns much of its stock. Made a compromise with its bondholders, by which all the coupons due July, 1874, and one-half of coupons from January 1, 1875, to and including July 1, 1877, are to be postponed for ten years to January 1, 1885, and the remaining half to be paid. See report, V. 20, p. **380.**

*Cleveland & Pittsburgh.*—Leased November, 1871, to Pennsylvania Railroad Co. at 7 per cent on stock, besides expenses and interest. Report for 1874, V. 20, p. **139, 426.** (V. 19, p. 638.)

*Cleveland, Tuscarawas Valley & Wheeling.*—This road was sold under a 2d mortgage, Jan. 27, 1875, and re-organized. See V. 20, p. 6', 140, 336.

*Columbus & Hocking Valley.*—Gross earnings, 1874, $717,490; net, $357.077, against $376,159 in 1873. See annual report V. 20, p. **476.**

*Columbus, Chicago & Indiana Central.*—This was a consolidation (Dec. 4, 1867). On January 22, 1869, it was leased to the Pittsb. Cin. & St. Louis, the lease being guaranteed by the Pennsylvania Railroad. A new or amended lease was made February 1, 1870, also guaranteed by P. R. The first lease guaranteed interest on $15,000,000 of first and $5,000,000 of second mortgage bonds, the amended lease on only $15,821,000 of first and second bonds. Aug., '74, default was made on the $5,000,000 seconds and suit is pending. The Presidents of the Pittsb. Cincinnati & St. L. Company, lessee, and the Pennsylvania Railroad, guarantor, wrote a joint letter to the trustees of the $15,821,000 mortgage bonds, authorizing public notice to be given that the interest on the said $15,821,000 of bonds would be regularly paid by the Pitts. C. & St. L. Co., but the interest on these has not been paid since Oct., 1875, and suit against the Penn. Railroad is pending. Net earnings, 1874, were $933,990. (V. 20, p. 29, 61, 140, 162, 241, 325, 355. 382, **426**, 593; V. 21, p. 13, 317, 511, 534.

*Columbus & Xenia.*—This road is leased to the Little Miami Co., and both roads for 99 years to Pittsburg Cinc. & St. Louis Co.; the lease is guaranteed by Pennsylvania Railroad, and the terms are 8 per cent on stock and interest on bonds.

*Concord.*—Pays 10 per cent a year; net receipts in 1874-5, $310,904. (V. 20, p. **499.**)

*Concord & Portsmouth.*—Leased to Concord RR. at $25,000 per year.

*Connecticut & Passumpsic.*—Annual report to June, 1875, showed net earnings for year $226,575 against $272,790 in 1873-4. Div. passed Aug., 1875 The new mortgage of $1,500,000 will retire previous issues. (V. 21, p. 277.)

*Connecticut River.*—Net earnings 1873-4, $295,067. Surplus account Oct. 1, 1874, $518,039. (V 20, p. 61.)

*Connecticut Valley.* Hartford to Saybrook—The stock paid is $1,034,600; floating debt, $1,177,000 cost of road, &c., $2,833,819. (Vol. 21, p. 534.)

*Connecticut Western.*—Net earnings 1874-5, $184,295; interest, &c., $221,296. (V.21, p. **611.**)

| Div. on stk's 8 p. c. | 336,000 | 336,000 | ..... |

In May, 1875, this company, with the Central Georgia, purchased at foreclosure sale the Western Railroad of Alabama. (V. 19, p. 247; V. 21, p. 395.)

*Gilman, Clinton & Springfield.*—This company defaulted in 1874, and is now in receiver's hands. (V. 19, p. 143, 398, 583; V. 20, p. 404, 570, 615; V. 21, p. 39, 63, 110.)

*Grand Rapids & Indiana.*—An official description of bonds was given when they were put on the call of the New York York Stock Exchange, in January, 1875, as follows: $4,000,000 are "Guaranteed Bonds." Principal and interest guaranteed by the Pennsylvania Railroad Company, and are also a lien upon the land grant. No. 1 to 4,0 0. $3,020,000 are "Unguaranteed Bonds," which are secured by the same mortgage as the guaranteed bonds on the entire land grant. $980,000 are "Ex. Land Grant Bonds," being a part of the orignal $1,000,000 unguaranteed bonds, which have from time to time been redeemed by the operations of the sinking fund. When the land certificate is detached they are no longer a lien on the land, but, by the terms of the trust-deed, remain a first mortgage on the whole line and appurtenances. No. 4,001 to 8,000. Coupons April and October. Annual report, V. 21, p. 510. (V. 21, p. 110, 534.)

*Grand Trunk (Canada).*—These figures represent pounds sterling. Gross earnings in half year ending July 1, 1875, £393,148; expenses, £717,743; net earnings, £175,405. Consolidated debenture stock authorized July 9, 1874. (V. 17, p 439; V. 19, p. 169, 351, 422, 503; V. 20, p. 569; V. 21, p. 440.)

*Great Western (Canada).*—These figures are given in pounds sterling. Company leases several roads in Canada, amounting to 156¼ miles, and the Detroit & Milwaukee, 189 miles. For the half year ending July 31, 1875, the gross receipts were £411,188; working expenses, £393,793; net earnings, £17,394. (V. 20, p. 569, V. 21, p. 412, 540.)

*Greenville & Columbia.*—This company defaulted several years since, but compromised with its bondholders. See CHRONICLE, V. 16, p. 220; V. 17, p. 460, 752; V. 20, p. 568.

*Gulf, Western Texas & Pacific.*—Net earnings, 1874-5, $50,000. Cost of road and equip't, $1,919,752. (V. 20, p. 428.)

*Hannibal & St. Joseph.*—Of the Missouri State loan $1,500,000 was extended for 20 years. It is stated that they have about $2,500,000 in land notes, and 90,000 acres yet unsold. A change in the directors took place Nov., 1875. (V. 18, p. 273, 601; V. 21, p. 442, 488.)

*Harrisburg, Portsmouth, Mount Joy & Lancaster.*—Leased to Pennsylvania Railroad, which owns a majority of the stock.

*Hartford, Providence & Fishkill.*—This road forms a part of the proposed line of the Boston, Hartford & Erie. The bonds fell due Jan., 1876, but city of Providence declined payment and suit is pending. (V. 22, p. 87.)

*Housatonic.*—Leases Berkshire Railroad, Stockbridge & Pittsfield, and West Stockbridge. Gross earnings in 1874-5 were $632,009; net, $132,740. The mort. bonds due 1877 paid off Nov., '75.

*Houston & Texas Central.*—Gross earnings in 1874 were $3,166,365; net earnings, $1,264,754. Capital, $6,500,000. The company built a large part of its line out of net earnings, and subsequently distributed a large amount of stock. (V. 17, p. 77; V. 20, p. 77, 140.)

*Huntingdon & Broad Top.* Capital stock is $1,998,250. Gross earnings in 1874 were $284,720; net, $100.379. Interest passed on 3d mortgage bonds.

*Illinois Central.*—Net revenue in 1874 was $2,775,362 on the road and $367,756 from lands The compsny guarantee $6,000,000 bonds of N. O.: also hold $4,842,000 of their 7s gold against I. C. 5s above mentioned. The bonded debt in proportion to stocks is still small as compared with most other compsnies. The management of the road has been one of the best in the country, and its land grant highly profitable. The direct line to New Orleans formed in 1873-4 has not been long enough in operation to show its full effects upon the company's receipts. In 1874 dividends were reduced to 8 per cent. The following is a comparison for four years:

| Year. | Gross Earnings. | Net Earnings. | Interest, &c. |
|---|---|---|---|
| 1874 | $7,900,721 | $2,775,362 | $413,610 |
| 1873 | 8,268,325 | 2,530,890 | 558,437 |

| 1871 | 8,401,142 | 2,732,817 | 573,182 |

—(Last annual report, v. 20, p. **140, 288**; see also p. 61; V. 21, p. 489; V. 22, p. 16.)

*Indiana & Illinois Central.*—This road was sold April 26. 1875, and re-organized as Springfield Decatur & Indianapolis. (V. 20, p. 162, 429, 521; V. 21, p. 40.)

*Indianapolis, Bloomington & Western*—Default was first made July, 1874, and affairs are yet unsettled. Receiver's certificates issued to Aug. 1, '75, $205,000. The Danville, Urbana, Bloomington & Pekin is part of this road. (Vol. 20, p. 61, 405; V. 21, p. 245, 277, 348, 395; V. 22, p. 16, 61.)

*Indianapolis, Cincinnati & Lafayette.*—The company was re-organized in June, 1873, and has since been doing a good business. The last annual report was in V. 21, p. **464**. Gross earnings, 1874-75, $1,767,231; net, $670,980. (V. 20, p. 162, 357; V. 21, p. 207, 277, 465.)

*Indianapolis & St. Louis.*—The stock, $600,000, is owned by Pennsylvania Co. and C. C. C. & I. This company forms part of the Pennsylvania system, and leases the St. Louis, Alton & Terre Haute. (V. 21, p. 395.)

*Indianapolis & Vincennes.*—Road is leased to Pennsylvania Company at 30 per cent of gross earnings, but rental guaranteed to be $206,000 per annum. Gross earnings in 1874 were $274,595; net, $83,207. (V. 20, p. **426.**)

*International & Great Northern (Texas).*—This is a consolidation of the International and the Houston Great Northern. Full report V. 18, p. **519.** Interest passed and funding proposed. The company had an issue of Texas bonds granted it, but the grant was repealed and land given instead. (Vol. 19, p. 17; V. 20, p. 186, 291, 313, 383.)

*Iowa Falls & Sioux City.*—Leased to Illinois Central at 35 per cent. on earnings. Dividend 2½ per cent, Jan. 1, 1876, on $4,625,000 stock.

*Iron Mountain, Chester & Eastern.*—This was formerly the Chester & Tamaroa. Bonds are in default since 1873, and a receiver has been appointed. (Vol. 19, p. 520.)

*Jacksonville, Pensacola & Mobile.*—This road is mortgaged for a like amount of Florida State bonds. In default and litigation. Case decided in U. S. Supreme Court, Dec., 1875; (V. 19, p. 629. V. 21, p. 591.)

*Jefferson.*—Leased to the Erie Railway Company, which pays interest on the bonds. (V. 14, p. 628.)

*Jeffersonville, Madison & Indianapolis.*—Leased in 1871 to Pittsburgh, Cincinnati & St Louis Railroad for interest and sinking fund of bonds and 7 per cent. a year on stock. Lease transferred December, 1872, to Pennsylvania Company. In 1874, net earnings, $519,070. (V. 20, p. **426.**)

*Jersey City & Albany.*—Road was in progress but was stopped in panic of 1873. Bondholders held off. (V. 19, p. 365; V. 21, p. 613.)

*Joliet & Northern Indiana.*—Mich. Central offered to extend with a 6 per cent. bond but court decided that total rent must be applied to principal and interest of bonds; still in litigation. (V. 20, p. 85, 140, 429; V. 21, p. 110.)

*Junction (Phil.)*—Owned by connecting companies. Cost of road $898,321; paid-up stock, $185,000.

*Kansas City, St. Joseph & Council Bluffs*—In addition to these, there are also funding bonds of about $640,000 in different issues. Annual report for 1874 in V. 20, p. **475**, gives the funding arrangements in full. Gross earnings in 1874, $1,436,073; net, $494,908. Stock, $2,776,000. Interest defaulted Sept., 1873. (V. 20, p. 475.)

*Kansas Pacific.*— In 1874 net earnings were $1,685,704, against $1,446,308 in 1873. The land grant is in two trusts, 2,000,000 acres in the first, from the 1st to the 380th mile, and 3,000,000 acres in the second, from 380th mile westward. Interest on income bonds is payable in lands or cash, only out of net earnings. The company now pays half the current interest on its bonds, (except the incomes) as about four-fifths of bondholders have funded. An important settlement with Union Pacific made in May, 1875. See annual report, V. 21, p. **252.** (V. 19, p. **271**, 365; V. 20, p. 8, 85, 476, 501, 544; V. 21 p. 466, 613.)

*Kent Co.*—This road was completed in 1872, but defaulted in 1873. No recent information received.

*Kentucky Central.*—This was formerly Covington & Lexington. The prolonged litigation regarding this Co. has been settled. (V. 20, p. 500; V. 21, p. 39.)

*Keokuk & Des Moines.*—Formerly East. Div. of Des M. Valley. Int. on first mort. is funded to April, 1876, except on $452,000 bonds reserved by Co. to be sold. The stock is $1,524,000 pref. and $2,400,000 common. In year 1874-5 gross earnings were $757,381; net, $282,868. (V. 19, p. 82, 583; V. 20, p. **520.**)

*Lake Erie & Louisville.*—This road was a reorganization, and has been financially embarrassed. There is a second mortgage of $500,000. See V. 19, p. 366.

| Total debt | 38,035,000 | 38,373,421 | 32,835,020 |

The company's statement of earnings for last half of 1875, on which the dividend was declared January, 1876, showed surplus over interest of $1,075,000. The 2d general mortgage for $25,000,000 was created to pay floating debt and bonds of 1882 with $12,000,000 and balance to be held for improvements: (V. 19, p. 345; V. 20, p. 16, 85, 140, **451**; V. 21, p. 9, 252, 418.)

*Lake Superior & Mississippi.*—This was leased to North Pacific, but lease vacated. Land grant, 1,632,000 acres. (V. 20, p. 86, 140, 383; V. 21, p. 372, 570.)

*Lawrence.*—Leased to Pittsburg, Fort Wayne & Chicago at 40 per cent on gross earnings. Lease transferred to Pennsylvania Company. Gross earnings, 1874, $174,643. Sinking fund has $10,000 bonds. (V. 20. p. **425**.)

*Leavenworth, Lawrence & Galveston.*—Defaulted on interest July, 1873. (V. 19, p. 39; V. 20, p. 140, 162, 266, 521; V. 21, p. 137, 591.)

*Lehigh & Lackawanna.*—Operated by Central of New Jersey as a coal road.

*Lehigh Valley.*—This company's earnings are chiefly from anthracite coal. The gross receipts in year ending Nov. 30, 1874, were $6,759,391; net, $3,287,973; in 1873—gross, $6,710,565; net, $2,825,705. The new general mortgage is to retire the old debt, and the balance for new expenditures. The company's report gives no details of the construction account, nor of the cost or value of its miscellaneous investments. The Amboy branch was completed June, 1875, and $2,450,000 L. V. stock (10 per cent increase of capital) to be issued to stockholders at par to pay for it. A comparative statement for two years is as follows:

| | 1873-3. | 1873-4. |
|---|---|---|
| Passengers carried one mile | 16,478,563 | 17,460,832 |

* Anthracite.
(V. 18, p. 297, 504, 527; V. 20, p. **311**, 593.)

*Little Miami.*—This company leases the Columbus & Xenia, and both are leased to Pittsburg, Cincinnati & St. Louis, guaranteed by Pennsylvania Rlt., lessees assuming interest payment on bonds and 8 per cent on stock. (V. 20, p. **427**.)

*Little Rock & Fort Smith.*—Foreclosed Dec. 16, 1874. Re-organized and stock issued for old bonds. The new mortgage is for construction to Fort Smith. (V. 19, p. 583, 617, 639; V. 20, p. 62; V. 21, p. 418.)

*Little Rock, Pine Bluff & New Orleans.*—Sold in foreclosure Dec. 16, 1875, for $35,000. V. 21, p. 535, 613.

*Little Schuylkill.*—Leased and operated by Philadelphia & Reading. Dividends, 7 per cent.

*Logansport, Crawfordsville & S. W. of Ind.*—Defaulted in 1874. The total liabilities, September, 1875, reported at $4,097,000, of which $322,000 were receiver's certificates. Litigation in progress. (V. 20, p. 86, **312**, 521, 593; V. 21, p. 302, 613; V. 22, p. 63.)

*Long Island.*—No reports are made except those to the State. In year 1872-3 gross earnings were $895,716. Change of management April, 1875. (V. 20, p. 383.)

*Louisville, Cincinnati & Lexington.*—There are also $60,000 old bonds. Gross earnings in 1872-3 were $1,212,027; expenses, $976,574; net earnings, $235,452. $1,800,000 new stock was sold to Chesapeake & Ohio RR., at 50, and $900,000 of old stock at 65. The company, after paying dividends on preferred stock for some years, defaulted on interest 1873-4. Receiver took possession in September, 1874. (V. 19, p. 351; V. 20, p. 242, 383; V. 21, p. 277, 395.)

*Louisville, New Albany & St. Louis Air-Line.*—This road is projected from Louisville to St. Louis, and has 28 miles built. The managers hope to go on if they can sell bonds; few of those out were sold to the public. (V. 17, p. 753; V. 20, p. 16, **357**, 453; V. 21, p. 86.)

*Louisville & Nashville.* Annual report for year ending June 30 1875, in V. 21, p. **369**. Gross earnings of main stem and branches, $4,308,952, net, $1,516,398. General result of operating whole system and leased lines was a deficit of $34,793, after paying interest and all charges. Nashville & Decator is leased, and liabilities for the South & North Alabama are assumed. (V. 20, p. 16.)

*Louisville, Paducah & S. W.*—Formerly Elizabethtown & Paducah, to which Louisville city loaned $2,000,000. In September, 1874, interest was not paid. Foreclosure in progress. (V. 20, p 357, 405; V. 21, p. 323, 395, 489.)

*Lykens Valley.*—Leased to Summit Branch Railroad at $62,500 per annum.

*Macon & Augusta.*—Leased and operated by the Georgia Railroad, which guarantees all the bonds except $100,000 of first mortgage. (V. 21, p. **157**.)

*Macon & Brunswick.*—This road being in default was sold June 2, 1875, and bought for the State: offered again for sale or lease January, 1876. The Georgia Legislature declared fraudulent $600,000 of the endorsed bonds issued in 1870. (V. 20, p. 405, 501, 546, 570, 593, 615; V. 22, p. 3 of advertisements.)

*Madison & Portgage.*—Consolidated as Chicago & Superior. No bonds could be negotiated after the "Potter law." (V. 21, p. 15.)

*Maine Central.*—A contract for operating was made with the Eastern, Mass., in June, 1873. The Maine Central leases several roads. The report of the year's operations, ending Dec. 31, 1874, showed: The total earnings for 1873 were $2,068,077.78; total for 1874, $2,094,080.55, showing an increase of $26,002.77. The operating expenses for 1873 were $1,330,501.44; net earnings for 1873, $737,576.34. The operating expenses for 1874 were $1,281,681.25; net earnings for 1874, $812,399.30; an increase for 1874 of $74,822.96. Receipts from passengers were $910,281.89; from freight, $1,028,965.41; from all other sources, $154,683.25. The report says that a general stagnation of business materially affected the road, so that its gross receipts have only been increased over those of 1873 some $26,000; but the practice of rigid economy in working the road has given an increase of net earnings over last year of $74,822.96. During the year the bonded debt of the company was reduced by the payment of the

These liabilities were met by the sale of consolidated bonds, and by notes payable, increasing liabilities only $14,332. Since the date of the Treasurer's report $10,700 of the Somerset and Kennebec bonds have been paid, which leaves but about $12,000 of these bonds outstanding. (V. 19, p. 190; Vol. 20, p. 313, **356**.)

*Manchester & Lawrence.*—Formerly operated with the Concord Railroad as one line. Net earnings 1874-5, $101,117. (V. 20, p. 569.)

*Mansfield, Coldwater & L. M.*—Leased by Penn. Company for net earnings. In hands of mortgage trustees. (V. 20, p. **426**; V. 23, p. 42.)

*Mansfield & Framingham.*—Leased to Boston, Clinton & Fitchburg, at 25 per cent of gross earnings. Consolidation made June, 1875. (V. 20, p. 615.)

*Marietta, Pittsburgh & Cleveland.*—Net earnings in 1874 were $40,717. Defaulted and in receiver's hands August, 1875.

*Marietta & Cincinnati.*—Gross earnings for the year 1874 were $2,094,510; expenses, $1,571,359; net earnings, $523,150 against $432,539 net earnings in 1873. This road forms a part of the through route, and is operated in close connection with the Baltimore & Ohio Railroad, which has made large advances for recent construction on the "Short Line." Annual report V. 20, p. **356**.

*Marquette, Houghton & Ontonagon.*—This is a consolidation of Marquette & Ontonagon and Houghton & Ontonagon. Lands amount to 425,000 acres, chiefly timber and mineral. Stock, $2,306,600.

*Maryland & Delaware.*—This line was leased by the New Jersey Southern, to form part of the through route. Lately proceedings looking to foreclosure have been started. (V. 21, p. 242.)

*Memphis & Charleston*—This road was leased to the Southern Railway Security Co., but in 1874 the lease was cancelled and Mr. R. T. Wilson, President of the East Tennessee, Virginia & Georgia, road was elected President of the Memphis & Charleston, with a new board of directors. No recent report has been obtainable. (V. 19, p. 424.)

*Memphis & Little Rock.*—Interest has been in default since November, 1872. (V. 17, p. 380, 649; V. 20, p. 336, 615; V. 21, p. 15.)

*Michigan Central.*—The annual report to May 31, 1875, (V. 21, p. **109**.) showed gross earnings on main line and branches of $7,102,286, and net earnings, $2,034,188, or $76 250 less than previous year. The floating debt June 1, 1875, was $770,015, against $1,056,452 on the 1st of June, 1874. The J., L. & S. debt is assumed by Michigan Central, which also pays $70,000 per year on the stock, one-third of which it owns. Semi-annual report to Dec. 1, 1875, in V. 22, p. **41**, showing net income of $185,092 above interest charges, &c. Interest was passed on the Detroit & Bay City bonds, not guaranteed, Nov., 1875. (V. 19, p. 143; V. 20, p. 101; V. 21, p. 15; V. 22, p. 41.)

*Michigan Lake Shore.*—Defaulted 1872, and in receiver's hands. (V. 18, p. 248, 504; V. 21, p. **110**.)

*Midland Pacific.*—This was one of the roads represented by Messrs. Turner Bros. in New York, of which Benj. E. Smith was president. Default in interest was made in February and August, 1875. No litigation as yet.

*Milwaukee & Northern.*—This road defaulted on interest January, 1875. Circular to bondholders, V. 20, p. 615. It is leased to Wisconsin Central and there is said to be some prospect of resumption.

*Milwaukee, Lake Shore & Western.*—In 1873 the net earnings were $7,000; cost of road and equipment, $3,750,000. Sold in foreclosure for $2,509,788, Dec. 10, 1875. (V. 21, p. 277, 591.)

*Mine Hill & Schuylkill Haven.*—Leased to Philadelphia & Reading, May 1864, for 999 years; 8 per cent dividends on stock.

*Mineral Point.*—Total receipts 1873, $128,121; expenses and interest, $130,614; cost of road, &c., $1,200,000.

*Mississippi, Ouachita & Red River.*—Land grant 257,000 acres. Sold in foreclosure, Dec. 16, 1875, for $25,000. (V. 20, p. 495; V. 21, p. 535, 613.)

*Mississippi & Tennessee.*—Net earnings fiscal year ending Sept. 30, 1874, $224,695.

*Missouri, Kansas & Texas.*—This road was building under most favorable auspices and showing good earnings, but succumbed in December, 1873, and passed interest. A compromise with bondholders reported as accepted June, 1875. (V. 21. p. 137.) Receiver was appointed, December, 1874. Land grant is about 4,565,142 acres. Last report and details of debt in CHRONICLE. V. 19, p. **29**. (V. 20, p. 16, 141, 501; V. 21, p. 87, 186, 207, 253, 395.)

*Missouri River, Fort Scott & Gulf.*—The stock is $5,950,000. Interest passed Oct., 1873, on 2d, and Jan., '74, on 1st m'tgs. Net income of 1874, $301,712. Coupons of January, 1874, paid July, '75, one half cash and one-half in 6 mos. notes. (V. 20, p. **403**; V. 21, p. 15.)

*Mobile & Girard.*—The Central Railroad of Georgia endorses $212,500 of the first and all the second mortgage bonds. Net earnings 1874-5, $22,685.

*Mobile & Montgomery.*—Sold in foreclosure, November, 1874. Stock was first given to old bondholders, but new bonds are to be issued. (V. 20, p. 62, 501.)

*Mobile & Ohio.*—The company has been in default since March, 1875. A full account of its affairs, with annual report for 1874 is in V. 20, p. **452**; later statement, V. 21, p. **605**, W. B. Duncan and A. F. Elliot are Receivers. (V. 20, p. 358, 452, 501, 571; V. 21, p. 605.)

*Montclair.*—The 2d mortgage was foreclosed December, 1874, and road sold again Sept. 25, 1875. (V. 20, p. 16, 290, 323, **488**, 501, 571; V. 21, p. 186, 278, 323, 395.)

*Montgomery & Eufaula.*—Interest has been in default since January, 1873. It is one of the State aid roads, and advertised for sale Dec. 6, 1875. (V. 21, p. 489.)

*Monticello & Port Jervis.*—Defaulted in 1873. Sold July 7, 1875. (V. 19, p. 89, 143, 503; V. 20, p. 358, 383; V. 21, p. 39, 592.)

*Morris & Essex.*—Leased in perpetuity to the Delaware, Lackawanna & Western. The lessees assume all liabilities and pay 7 per cent on stock, and 8 after 1871, if they then earn 10 net on Morris & Essex road. (V. 20, p. 85, 477, **488**.)

*Nashville, Chattanooga & St. Louis.*—Gross earnings of 1874-5, $1,6:0,826; expenses, $1,151,954; net earnings, $528,871. (V. 21. p. **370**.)

*Nashville & Decatur.*—Leased May 4, 1871, to Louisville & Nashville Company for thirty years.

*Nashua & Lowell.*—Net earnings in 1874-5, $56,464. (V. 21, p. 590.)

*Naugatuck.*—Net earnings 1874-5, $222,327. (V. 21, p. **611**.)

*Newark, Somerset & Straitsville.*—Leased to Sandosky, Mansfield & Newark. Guaranteed by Baltimore & Ohio.

*New Bedford.*—This road is leased and operated by the Boston, Clinton & Fitchburg for 8 per cent on stock and interest on debt.

*New Castle & Beaver Valley.*—Leased to Pittsburgh, Fort Wayne & Chicago, and lease transferred to Pennsylvania Company. (V. 20, p. **425**.)

*New Haven & Derby.*—Net earnings 1873-4, $24,832. New Haven city guarantees $225,000 of the bonds.

*New Haven & Northampton.*—Gross earnings, 1874-5, $595,164; operating expenses, $399,250; net earnings, $195,913. (V. 21, p. **590**.)

*New Jersey & New York.*—This was a consolidation of the Hackensack & N. York and Hackensack Extension, and further built to Haverstraw. The old bonds are about $300,000, 7 p. c., due May, 1890. (V. 20, p. 488.)

*New Jersey Midland.*—Defaulted after the panic of 1873 and funded coupons. The company, having exhausted its capital and credit in construction, leased to the New York Midland for 7 per cent on its cost; it had at the time a floating debt of about $400,000. After the panic of 1873 the road came back without sufficient rolling stock and without means to pay interest. The bondholders funded coupons, but default was again made. Several plans of re-organization are proposed. (V. 20, p. 242, 258, 313, 358, **488**; V. 21, p. 39, 64, 86, 280, 348, 395, 442, 466, 489; V. 22, p. 87.)

*New Jersey Southern.*—This was a consolidation of several roads, and leased the Vineland, Maryland & Delaware, and Kent County roads. Interest in default since October, 1873. Litigation in progress. Comprehensive plan of re-organization, V. 21, p. 466. (V. 19, p. 399; V. 20, p. **313**, 488; V. 21, p. 466, 489.)

*New Jersey West Line.*—In foreclosure. (V. 19, p. 640; V. 20, p. 383.)

*New London Northern.*—Operated under lease till 1891 by Vermont Central for $150,000 a year. Net income of road in 1874-5, $127,982. (V. 21, p. **590**.)

*New Orleans, Mobile & Texas.*—The Western Division of this road was sold Nov. 18, 1874. Interest in default since 1872. A trustees' circular for re-organization of Western Division is given in V. 21, p. 231. (V. 20, p. 16, 62, 79, 313, 477; V. 21, p. 231, 535.)

*New Orleans, St. Louis & Chicago.*—Gross earnings year ending June 30, 1875, $3,184,326; net, $1,363,943. Operated by the Southern Railroad Association, and in connection with Ill. Cent. Of the consol. mortg. the issue is $8,000,000 on each road, enough being retained to redeem old debt. Ill. Central buys up $200,000 per year of consol. mortgage bonds. The Miss. Cent. 1st mort. bonds, due Nov., 1874, were not all paid, and Nov. 1, 1875, and Jan., 1876, there was some delay in payment of interest. (V. 21, p. 15, 613; V. 22, p. 63.)

*New York, Boston & Montreal.*—Proposed consolidation of several roads from New York to Rutland. Company defaulted in 1874 and now in hands of receiver; foreclosure pending. (V. 20, p. 236, 358, 383, 405; V. 21, p. 16, 349.)

*New York & Canada.*—The bonds are guaranteed by the Delaware & Hudson Canal Co. Road opened through Oct., 1875. (V. 21, p. 207.)

*New York Central & Hudson River.*—The consolidation of New York Central and Hudson River was made Nov. 1, 1869. In 1868 the stock of the separate companies was $42,712,700. The scrip dividend on New York Central of 80 per cent was made in Dec., 1868. On consolidation, another 27 per cent was distributed on Central stock and 85 per cent on Hudson. The mortgage loan for $40,000,000 is to retire prior debt, and the balance for laying third and fourth track and other improvements. These tracks were nearly completed from Buffalo to Albany Jan. 1, 1875, thus furnishing a double track road exclusively for freight traffic. The Harlem Railroad

*Owensboro & Russellville.*—Now Evansville, Owensboro & Nashville. Embarrassed.

*Pacific of Missouri.*—Road was leased July, 1872, to Atlantic & Pacific Railroad and dividends guaranteed. In Sept. and Oct., 1875, the price of stock fell from 47⅝ to 7½, the principal causes being a decrease of $602,996 in earnings since January 1; the failure of A. & P. to pay the October dividend advertised, and the fact that the road was so heavily loaded with debt to A. & P. Co. The lease was surrendered Nov., 1875, and litigation is pending. Interest on 3d mortgage and on Lexington & St. Louis in default, December, 1875. (V. 20, p. 288, 429, 593; V. 21, p. 40, 372, 396, 412, 418, 466, 499, 535, 571, 592; V. 22, p. 10.)

*Paducah & Memphis.*—Foreclosure proceedings commenced. (V. 21, p. 110.)

*Panama.*—A steamship line proposed; see basis, V. 21, p. 489. (V. 20, p. 358; V. 21, p. 207, 231; V. 22, p. 88.)

*Paris & Danville.*—Foreclosure in progress. (V. 21, p. 186, 297.)

*Paris & Decatur.*—Consolidation. Now Illinois Midland. (V. 19, p. 351; V. 21, p. 613.)

*Paterson & Newark.*—Lately operated by Erie. Stock is $250,000.

*Pekin, Lincoln & Decatur.*—Leased to Toledo, Wabash & Western for 47 years. (V. 17, p. 514; V. 17, p. 155, 650, 753.)

*Peninsular.*—There is also a second mortgage for $540,000. Defaulted May 1, 1872. Coupons unfunded. Consol. with Pt. Huron & L. M. July, 1873. W. L. Bancroft, Receiver. (V. 17, p. 155, 650, 763.)

*Pennsylvania.*—The report for 1874 is given in V. 21, p. **243.** The report of the investigating committee is in V. 19, p. 275, 388, 394. In May, 1875, the dividend was changed to the rate of 8 per cent per annum. The direct funded debt of the company is $54,000,000; liability as a guarantor of principal and interest on $33,983,600 bonds; annual liability additional on guarantees of interest or rentals, $13,862,319. On all operations east of Pittsburg, in 1874, the report shows a net surplus of $3,168,332 over all payments, including dividends. The following is a comparison for four years on main line and branches in Pennsylvania:

| | Gross Earnings. | Net Earnings. | Total Stock and Debt. |
|---|---|---|---|
| 1874 | $22,642,371 | $9,396,921 | $113,010,000 |
| 1873 | 24,886,009 | 9,445,704 | 105,784,075. |
| 1872 | 22,012,525 | 8,247,852 | 82,589,537 |
| 1871 | 18,719,837 | 6,896,404 | 69,782,715 |

The Pennsylvania *Company* is a corporation distinct from the Pennsylvania Railroad, formed to operate all the leased lines west of Pittsburg. The stock is owned by the Penn. RR. In 1874 the operations showed net profit of $844,338, including receipts from the Company's investments. A very complete exhibit of the operations and financial condition of all its leased roads was published in V. 20, p. **425,** &c. (V. 18, p. 192, 285, 350, 504, 584, 630; V. 19, p. 377, 473, 504; V. 20, p. 16, 86, 267, 314, 425; V. 21, p. 130, 361, 458, 592.)

*Pennsylvania & Delaware.*—The lease of this road to the Pennsylvania Railroad was ratified in 1874. Previously operated under temporary lease.

*Pennsylvania & New York.*—Operated in close connection with the Lehigh Valley. Net earnings 1873, $448,361. Dividend of 7½ per cent paid on preferred stock, $2,000,000; common stock is $1,061,700.

*Philadelphia, Germantown & Norristown.*—Leased for 999 years to Philadelphia & Reading at 12 per cent. on stock.

*Pittsburg, Cincinnati & St. Louis.*—This company leases several roads and is itself controlled by the Pennsylvania Company, which holds a majority of the capital stock. Annual report V. 21, p. **13**. (V. 20, p. 292 358, **426**, 491.)

*Pittsburg, Fort Wayne & Chicago.*—This company having previously earned a surplus above 10 per cent dividends, was leased July 1869, for 999 years, to Pennsylvania Railroad, at a rental equivalent to interest, sinking fund of debt, and 7 per cent on $19,714,286 stock, which was increased at that time from $11,500,000. The lease was transferred subsequently to the Pennsylvania Company. The lessees to keep the road in repair, and also pay taxes, expenses, etc. Pittsburg, Fort Wayne & Chicago leases the Newcastle & Beaver Valley and the Lawrence roads; which in turn are leased again by Pennsylvania Company. New stock of $4,100,000 issued to Pennsylvania Railroad for improvements, &c., is under article 16 of lease; guaranty on old stock not affected. Net earnings have paid lessees thus far a handsome profit. (V. 18, p. 455, 630; V. 20, p. **425**.)

*Pittsburg Virginia & Charleston.*—Of these bonds the Pennsylvania Railroad owns $500,000.

*Pittsburg Washington & Baltimore.*—This was formerly Pittsburg & Connellsville. Interest was in default to city of Baltimore, which owned a large amount of the bonds, and a transfer was made May, 1875, to Baltimore & Ohio RR. for $1,000,000. (V. 18, p. 528; V. 19, p. 17; V. 20, p. 291, 546; V. 21, p. **161**.)

*Plymouth, Kankakee & Pacific.*—In foreclosure. (V. 19, p. 121; V. 21, p. 311, 491; V. 21, p. 372.)

*Port Huron & Lake Michigan*—This forms part of the Chicago & Lake Huron consolidation, with Peninsular of Michigan. Interest was in default Nov., 1873, and coupons funded for three years. (V. 18, p. 192, 253, 376, 455, 608; V. 20, p. 357.)

*Portland & Ogdensburg.*—The two divisions were consolidated March 1875 as one company, and a mortgage of $8,000,000 on whole line is proposed. Vermont division in progress. (V. 20, p. 291, 358, 453; V. 21, p. 130, 396, 613.)

*Portland & Rochester*—This is the old York & Cumberland sold out in 1865. Net earnings year ending August 31, 1874, $47,288.

*Portland, Saco & Portsmouth*—Leased March 18, 1871, to Eastern Mass. Railroad for 99 years at 10 per cent per annum; modified Dec., 1875. (V. 21, p. 372, 434, 592.)

*Port Royal.*—The Georgia Railroad guarantees $500,000 of these bonds; balance in default. (V. 20, p. 291, 453; V. 21, p. 78.)

*Portsmouth, Great Falls & Conway.*—Opened in 1872, and is leased by Eastern Railroad, Massachusetts.

*Providence & Worcester.*—Net earnings year ending September 30, 1875, $230,278; floating debt, $1,370,000. (V. 21, p. **590**.)

*Reading & Columbia.*—This road is operated and controlled by the Philadelphia & Reading Railroad. Floating debt, $1,093,494.

*Reading & Lehigh.*—This was the Berks County road; sold out, and leased to Philadelphia & Reading, March, 1875, for 99 years. (V. 20, p. 267.)

*Rensselaer & Saratoga.*—Leased May 1, 1871, to Delaware & Hudson Canal Company, which pays interest on bonds and 8 per cent on stock. In 1872-3 the net surplus to lessee was $204,597. (V. 20, p. 244.)

*Richmond & Danville.*—Gross earnings 1874-5, $923,057; net, $323,547. This company leases the North Carolina Railroad and the Piedmont Railroad, and forms a through route with the Atlanta & Richmond Air-Line. The Penn. Railroad owned $600,000 stock of the Richmond & Danville, and took $1,000,000 of the new bonds at 80. (V. 17, p. 835; V. 20, p. 8, 291, **568**; V. 21, p. 614.)

*Richmond, Fredericksburg & Potomac.*—Gross earnings, $382,298; expenses, $180,049; net earnings, $202,248. (V. 21, p. **612**.)

*Richmond & Petersburg.*—Gross earnings year ending Sept. 30, 1875, $164,935; net, $78,251. Interest charge, $24,149; bonds paid off, $50,500. (V. 22, p. **15**.)

*Rockford, Rock Island & St. Louis.*—Sold in foreclosure August 16, 1875, for $1,320,000. $5,000,000 of the bonds have a priority. (V. 20, p. 63, 163, 267, 291, 314, 383, 522, 591, 616; V. 21, p. 87, 110, 160, 186, 207, 231, 245, 319, 396, 458, 489.)

*Rome, Watertown & Ogdensburg*—The last report, in V. 20, p. **311**, shows gross earnings in 1874 of 1,132,868; expenses, $770,256; net earnings, $362,611. Against the bonded debt the company holds $617,183 in sinking funds. The Lake Ontario Shore Road has been consolidated with the Rome, Watertown & Ogdensburg, and is in progress to Niagara. (V. 19, p. 169; V. 20, p. 8, 163, **311**; V. 21, p. 442).

*Rutland.*—Leased January, 1871, to the Vermont Central. Terms modified in July, 1874. Default made on rental, and lease will probably be cancelled. (V. 19, p. 120; V. 20, p. 186; V. 21, p. **185**, 490.)

*St. Joseph & Denver City.*—The road was sold in foreclosure Nov. 4 and 5, 1875 (V. 19, p. 40, 518; V. 21, p. 40, 418, 442, 505.)

*St. Louis, Alton & Terre Haute.*—The main line—Terre Haute to E. St. Louis—was leased June, 1867, for 90 years, to Indianapolis & St. Louis at 30 per cent of gross earnings up to $2,000,000 (but in no year to be less than $450,000). In 1874 gross earnings were $1,254,136, against $1,318,652 in 1873. In 1872 the company paid three years' dividends on preferred stock in the same, increasing said stock by $428,400. The Belleville Branch, and Belleville & Southern Illinois (leased) earned net in 1874, $259,667. (V. 18, p. 584, 608; V. 20, p. **380**, 546, 571; V. 21, p. 64.)

*St. Louis, Lawrence & Denver.*—Leased to Pacific of Mo. A decision of much interest to bondholders of leased roads was rendered by Judge Dillon in a suit against the lessee for interest, but that suit was discontinued, and another brought in name of Trustees. (V. 19, p. 377; V. 21, p. 372.)

*St. Louis & Southeastern.*—In hands of receiver. Coupons of January, 1874, on Evansville, Henderson & Nashville were paid February, 1875. (V. 19, p. 17, 191, 248, 480; V. 21, p. 137, 418, 442; V. 22, p. 88.)

*St. Louis, Vandalia & Terre Haute.*—The com. stock is $2,378,458, pref. $1,281,700. This road is leased to Terre Haute & Indianapolis at 35 per cent of gross earnings. Bonds guaranteed by Terre Haute & Indianapolis, by Columbus, Chicago & Indiana Central, and Pittsburg, Cincinnati & St. Louis. (V. 18, p. 631.)

*St Paul & Pacific.*—The bonds are nearly all held abroad, and an agreement for re-organization was made by Dutch bondholders Nov., 1875. (V. 19, p. 480; V. 20, p. 429; V. 21, p. 186, 245, 442; V. 22, p. 88.)

*St Paul & Sioux City.*—This company has a land grant of 703,436 acres. The stocks are secured by liens, there being no bonds issued. (V. 19, p. 191; V. 20, p. 544, 576.)

*Sacramento Valley.*—Bonds fell due July 1, 1875, and 5 p. c. notes offered in payment. (V. 21, p. 15,159.)

*Sandusky, Mansfield & Newark.*—This road is one of the Baltimore & Ohio system; it is leased to the Central Ohio, and the lease guaranteed by Baltimore & Ohio. (V. 19, p. 584.)

*Savannah & Charleston.*—Interest in default. Road in hands of State Comptroller. (V. 20, p. 453, 491; V. 21, p. 16.)

*Savannah & Memphis.*—The road was in progress, but became embarrassed after the crisis of 1873, and passed interest. A funding proposition was offered. (V. 19, p. 366.)

*Schuylkill Valley.*—Leased to Philadelphia & Reading, with 10 per cent dividends.

*Seaboard & Roanoke.*—Net earnings year ending March 1, 1875, $181,152. Report V. 21, p. 276.

*Selma & Gulf.*—The proposed line was Selma to Pollard, 100 miles. Interest in default.

*Selma, Marion & Memphis.*—Defaulted 1872. (V. 17, p. 156, 650; V. 19, p. 366.)

*Selma, Rome & Dalton.*—This was formerly the Alabama & Tennessee River. Interest in default and road to be sold. (V. 19, p. 40.)

*Shamokin Valley & Pottsville.*—Leased February, 1863, to North. Cent. at 7 p.c. on bonds and 6 on stock.

*Sheboygan & Fond du Lac.*—This is one of the Wisconsin roads in progress in 1873 which went to default. A funding plan has been offered.

*Shenango & Alleghany.*—This is one of the leased lines of the Atlantic & Great Western, on which "rental trust bonds" were issued. The net earnings 1873 were $86,851.

*Shore Line.*—Leased to New York & New Haven at $100,000 per year. Old stock was exchanged for new in July, 1873.

*Sioux City & Pacific.*—This is one of the United States Government subsidized roads. For year ending June 30, 1874, gross earnings were $319,819, and net earnings $56,115. Pays 7 p. c. on pref. stock, $169,800, semi-annually, A. & O. (V. 20, p. 8.)

**THE CONTINENTAL**

WAS THE

*FIRST COMPANY TO SUBMIT TO THE RESTRICTIONS OF THE SURPLUS LAW OF* 1874.

By the provisions of this Law the Company is compelled to limit its dividends to stockholders to 7 per cent. per annum, and to deposit one half of the remainder of its earnings in the Insurance Department of this State, as a SPECIAL RESERVE SAFETY FUND, for the PROTECTION and SAFETY of such policy holders as may not be burned out at the time of a conflagration so great as to destroy the ability of all Companies, to pay their losses in full, thereby avoiding the necessity of placing the Company in the hands of a Receiver in Bankruptcy.

Some of the benefits of submission to this law are as follows:

*First*—To the assured, who are claimants for losses at the time of the great fire.

It will give them more money than can be obtained under the requirements of any other law on this subject, because it exempts the Company from receiver's fees, legal costs, or other expenses of bankruptcy.

It requires the Company to maintain at all times a "GUARANTEE SAFETY FUND" equal in amount to the "Special Reserve Fund," for the greater protection of policy holders generally.

It will prevent any encroachment upon it by later losses under uncancelled policies.

It compels just and prompt adjustments and payments, no matter how great the fire or loss.

*Second*—To the policy-holders whose property is not involved in such fire—a hitherto neglected class:

It will give a deserved protection and provide for the payment of their later sustained losses, as if no great fire had occurred.

It will save them from vexatious and serious loss of time and money in seeking and paying for new insurance, while waiting indefinitely for the return of what is due from the Bankrupt companies whose policies have become worthless, and whose assets may be in the clutches of a slow-paced Receiver.

## LITTELL'S LIVING AGE.

In 1876 THE LIVING AGE enters upon its thirty-third year. It has never failed to receive the warmest support of the best men and journals of the country, and has met with constantly increasing success. Having recently absorbed its younger competitor, "EVERY SATURDAY," it is now without a rival in its special field.

During the year it will furnish to its readers the productions of the ablest authors, above-named and many others; embracing the Serial and Short Stories of the

**LEADING FOREIGN NOVELISTS,**

and an amount unapproached by any other periodical in the world of the most valuable literary and scientific matter of the day, from the pens of the FOREMOST ESSAYISTS, SCIENTISTS, CRITICS, DISCOVERERS AND EDITORS, representing every department of Knowledge and Progress.

*A weekly Magazine*, of sixty-four pages, THE LIVING AGE gives more than

**THREE AND A QUARTER THOUSAND**

double column octavo pages of reading matter yearly. It presents in an inexpensive form, considering its amount of matter, with freshness, owing to its weekly issue, and with a *satisfactory completeness* attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

It is, therefore, invaluable to every American reader, as the only thorough as well as fresh compilation of a generally inaccessible but indispensable current literature,—*indispensable* because it embraces the productions of the

**ABLEST LIVING WRITERS**

in all branches of Literature, Science, Art, and Politics.

PUBLISHED WEEKLY at $8 00 a year, *free of postage;* or for $10 50 (*covering prepayment of postage on both periodicals,*) THE LIVING AGE and *either one* of the American *four dollar* monthly Magazines (or *Harper's Weekly* or *Bazar*, or *Appleton's Journal*, weekly) will be sent for a year; or, for $9 50, THE LIVING AGE and Scribner's *St. Nicholas.*

## THE NEW ENGLAND
# Mortgage Security Co.

OFFERS FOR SALE, AT PAR,

SEVEN PER CENT TEN-YEAR BONDS

SECURED BY

FIRST MORTGAGES of IMPROVED REAL ESTATE.

GUARANTEED, PRINCIPAL AND INTEREST,

BY ITS

CAPITAL STOCK OF $500,000.

Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next-due Coupon being stamped so as to denote that interest begins at the date of purchase.

A Pamphlet with full information will be sent on application to the Company's Office,

43 Milk Street, Boston.

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever loaned under a like Guarantee.

The security of each Bond is not confined to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western states, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and interest are more promptly paid; and upon the success of Agriculture depends that of almost every Industrial Investment.

## WILL MONEY BE EASY THIS SEASON?

This is a question which at this period of the year has usually awakened a livelier interest among our business men than it seems able to provoke at present. We have often had occasion to show that as one consequence of the rapid development due to the gold discoveries of 1848, the money markets of the world have been more or less brought into close sympathy, and have undergone during some years a number of common changes, which like the tidal movements of the sea were directed by great general causes, and offer many of the same features to the observer. From these general causes of monetary ease or stringency this country has suffered, and to them our mischievous paper money system has added a multitude of local derangements, by which our loan market has been violently and spasmodically disturbed for many years past. These local troubles seem since the panic to have lost part of their force. The heavy pressure exerted by the over-expanded credits, the bankrupt railroads, and the inordinate inflation of 1872 and previous years, having been shaken off by the Jay Cooke revulsion, we escaped in 1875 very many of the local causes of monetary stringency which had in previous years been so formidable an obstacle to business. The question now is whether a similar freedom from these local sources of financial danger is likely to be enjoyed hereafter, and, if so, to what extent and for how long?

It is not easy to deal with this problem, except we assume that the currency agitation in Congress will not be permitted to take an unexpected new shape. At present the business community have made their arrangements in the belief that no novel legislation of importance will be passed in regard to the currency; and that if anything whatever is done by Congress this session, it will be of a subordinate, conservative character. There is, of course, a busy crowd of adventurers and speculators, who now, as in past years, are on the watch to profit in Wall street by any fluctuations in stocks and in gold, such as currency legislation seldom fails to set in movement from the time of its first agitation. These men are said, however, to have lost money in former years, and to have found their trade unprofitable; hence they are not so formidable in number or activity as formerly. Passing over these and some other exceptional persons, the active business men of the country are acting, we believe, under the hope and belief that the currency laws will not be further tampered with, until time and experience shall have enabled the nation to see clearly what is the legitimate effect of the existing statutes as lately remodelled, and what further steps should next be taken to consummate the benefits or check the evils which have been newly introduced into our financial system. Looked at from this point of view, the solution of the question above is freed from one of its chief difficulties. Still, enough of uncertainty remains. The future ease of the money market depends, as every one knows, on three things.

The chief requisite is an abundant supply of capital. The loan market cannot be easy, except there be in its reservoir a sufficiently copious supply of idle capital awaiting borrowers. In proportion as this supply falls below, or rises above, the demand, does the index of the money market ascend to the tranquil standard of ease, or fall to the stormy level menacing stringency and fore-

boding panic. The barometer of the money market has its indications, and on their skill in reading these hieroglyphics and in swiftly applying them to the business of to-day, our merchants, bankers and financial men depend, most of them, for their present prosperity and their future success. These indications, however, of the monetary future are not to be looked for wholly and exclusively in the reservoir of idle capital. In England, after the panic of 1866, this reservoir was so full that money could be borrowed at 2 per cent on call, while for time-loans mercantile borrowers found it closed; for the simple reason that confidence was paralyzed and destroyed. For a very similar reason it is that the recuperation has has been so slow from the effects of the panic of 1873, in this country and abroad. Confidence has been shaken and it is still weak. There is an abundance of idle capital, but the owners of that capital have not the confidence to lend it, except in certain directions and on favorite terms. Thus, while banks and financial institutions in England and on the continent of Europe have more money on deposit than they can use, there is somewhere or other a fatal distrust among the owners of capital, which makes loans harder of negotiation in some directions and easier in others, while the greater number of men seem to prefer keeping their money in such a form that they can command and control it at short notice.

We must inquire into these things if we would form an opinion on the immediate future of the money market here or abroad. With regard to the prospects here, they certainly seem favorable in regard to both the questions referred to. Our supplies of idle capital are augmenting, and there is more confidence in the financial circles. Still, there is enough of uncertainty to cause our merchants to move with caution.

Finally, there is a third point which is just as important to be investigated as either of the two we have mentioned. We refer to the banking mechanism through which the capital of the country passes to and fro between the borrower and the lender. We have often compared the money market of a community to its arrangements for water supply. In our Croton water mechanism, with its system of reservoirs and pipes, as organized to keep up its steady service, three things are of fundamental necessity: The water must be sufficient in the reservoir, and it must flow freely thence into the pipes; but this is not enough except from the pipes it flows freely where it is wanted for use among the citizens. Just so is it in the organization of the money market. The banks are, as it were, the system of pipes through which the floating capital of the country is collected into the reservoirs and distributed thence throughout the community. As a French statesman admirably said, on a recent occasion, the banks "gather together and *condense* the diffused capital of the country, which would much of it be otherwise scattered and wasted, dissipated and destroyed; and when the banks have thus created, as it were, a new mass of capital, by gathering and utilizing it, they lend it as a beneficent stimulus--a mighty productive power to supply the wants of commerce and trade." To the question whether our banking system generally is in a healthy condition, we suppose but one answer can be given. Our banking machinery has many defects, and the defects are made worse by the fact that the mechanism is badly worked. There is room for numerous improvements in the practical operation of our banking system, composed as it is of four heterogeneous parts, the national banks, the State banks, the private banks, and the savings banks. But notwithstanding all these subordinate defects, it has been doubted very much whether we have ever seen a time in this country when our banking system, taken generally, possessed more of the elements of strength. Without assuming so much as this, we may safely infer that, so far as our present argument is concerned, the banks are not in a condition, either as to their reserves or their general management, to cause much anxiety as to whether any evil influences from them are to be apprehended in the money market.

Without pressing this inquiry any further, we may say that on the whole the conclusion suggested by the facts and principles we have passed in review is that the money market may be expected to exhibit the same symptoms as last year, with these two exceptions: First, business will probably be more active, and, if so, the demand for money will be more active too. Hence the rates of interest will be likely, other things being equal, to rule somewhat higher. Secondly, we must not forget that the foreign money markets are in a somewhat uncertain condition, and that from the foregoing argument all consideration of possible monetary trouble in Europe, with its contingent effects here, was excluded.

## THE PUBLIC DEBT AND THE PUBLIC CREDIT.

The report of the public debt, which will be found in another column, is, on many accounts, peculiarly interesting. It gives a satisfactory reply to several of the questions we have recently discussed about the public credit. Up to the 1st of February, the aggregate of the new fives is now reported at $493,318,450, of which $291,482,100 are registered and $273,836,350 are coupon. A month previous the aggregates were $218,470,100 of registered and $257,088,350 of coupon bonds. From these figures it appears that about 20 millions of the new fives have been taken during the month of January, and that above 7 millions remain to be settled for prior to the 15th of February, when the contract of the Syndicate expires. The calls for five-twenties, it will be remembered, were 10 millions for 1st February, and $12,785,350 for 15th February, giving a total of $22,785,350 of maturing five-twenties to be paid off in gold this month. The subjoined table shows the advance which has been made during the past year in the negotiation of the new fives:

| | *Feb.* 1, 1876. | *Jan.* 1, 1876. | *June* 1, 1875. | *Feb.* 1, 1875. | *Jan.* 1, 1875. |
|---|---|---|---|---|---|
| Registered. | $291,482,100 | $218,470,100 | $203,358,150 | $197,661,550 | $195,454,800 |
| Coupon.... | 273,836,350 | 257,088,350 | 192,448,300 | 169,536,350 | 165,243,100 |
| Total..... | $493,318,450 | $475,558,450 | $395,806,450 | $367,197,900 | $361,697,900 |

The slow progress of the work of putting these bonds on the market has been the subject of much comment, and it has been argued on one side that the delay might have been easily avoided, while on the other side it has been held that the negotiations, as hitherto conducted, have tended better than any other to establish the credit of the United States and to develop a demand for our bonds in foreign markets. In confirmation of this view, we are reminded that another rise has just taken place in the new fives in London, while the coupon bonds are getting quite scarce in this market. So active is the demand for the new fives that the project has been seriously discussed of organizing a new Syndicate to offer to take 500 millions of these bonds at a premium of 5 per cent. Another scheme is, to take an equal sum of the 4½ per cents at par if the bonds can be made to run a longer period. Both these plans labor under disadvantages. Neither of them is believed to be so favorable to the government as to accord with the improved state of the public credit; and neither of them is in harmony with the spirit and

the letter of the Funding law of 1870, which contemplated a refunding of the mass of the debt at 4 per cent. As Mr. Bristow was reported on Thursday to have been in consultation with the Committee of Ways and Means on this subject, it is not impossible that some definite proposition may at an early day be laid before Congress. In our future funding operations the fundamental principle of the law of 1870 should of course be kept paramount, and we must avoid adding to the existing multiplicity of our government bonds. Our whole public debt, as soon as possible, ought to be funded in one uniform security like the French Rentes and the English Consols. Thus only shall we be able to avail ourselves of the full force of the present and prospective advantages which the foreign money markets seem to be offering to our government securities.

Another point of importance in the debt statement is the information it gives of the steady progress we are making in the liquidation of the national debt. The decrease during the last month was $1,599,155. Since July last the decrease has been $10,455,686. No other country in the world, we believe, except our own, is making so much advance in the liquidation of its public debt. The *Pall Mall Gazette*, in a recent article, expressed the opinion that in the year 1876 the British debt, or else its burden of taxation, would perhaps be diminished by a surplus revenue of £2,000,000 or £2,500,000. During the year 1875, however, no such reduction has been possible, and in the other countries of Europe the public debts are rather increasing than diminishing. The general depression of business throughout the commercial world is unfavorable to any large efforts for the reduction of national debts, while the increase of the European war establishments, and the unprecedented spectacle of seven millions of men in the Continental armies, offer peculiar temptations in many quarters to incur new debts, instead of paying off old ones. In the stagnant state of commerce in this country and abroad, it is somewhat gratifying to find so much of elasticity in our national resources. A year ago our process of liquidating the public debt had been almost arrested. During the seven months ending February 1, 1875, the aggregate debt was reduced no more than $908,000, while, as we have seen, the reduction during the seven months ending February 1, 1876, amounted to ten millions of dollars. There is little doubt that to this elasticity in our national resources we must in part ascribe that notable improvement in our national credit abroad, which is destined, no doubt, to afford us facilities for the future solution of some of the difficulties of our monetary system.

Thirdly, the statement before us illustrates the gradual but continuous changes which are going on in our paper currency. The greenbacks are now $371,341,607. A year ago they were reported at $382,072,147. The reduction is slow, but it is more important than it seems. It is a part of a series of wholesome changes which are clearing away the obstacles from the path leading to resumption. These changes are going forward steadily, but surely. Our progress is complained of by several opposing parties. It is too slow for some and too precipitate for others. The important point is that we should move safely. If the old Roman maxim *Sat cito si sat bene*, is the basis of our monetary policy, and if in our anxiety for safety the achievement of resumption should thereby be deferred a little longer, still we have the satisfaction of knowing that a task of such magnitude could not be safely accomplished without due precautions and conservative delays. If the work of specie payments is to be successfully realized, all the preliminary arrangements must be so adjusted as to go on together. The needful Treasury balance of coin must be accumulated, the business of the country must not be over-expanded, and the volume of the greenback currency must be brought within such salutary limits that no avoidable mischance shall disturb, and no violent rush of greenbacks into the Treasury for redemption shall convulse, the first movements of the era of resumption. In such arrangements looking towards specie payments, we may not be marching with as rapid strides as some of the more sanguine of our sound currency men desire. Still, as the debt schedule shows, we are making some progress in these and other directions, tending to establish our public credit and to give it a firmer strength and a broader activity. Among the numerous illustrations contained in the papers before us of the elasticity of our national resources, we may mention the favorable report of the internal revenue. The receipts for January were $8,833,511, and for the last seven months, $66,671,663. We have thus an increase of more than 5 millions over the receipts for the corresponding period of last year. This aspect of our finances has, however, some discouraging features which we must reserve for a future article.

## GENEVA AWARD AND INSURANCE CLAIMS.

Governments, like individuals, are supposed to have some reason for all their acts. And yet we fail to discover any plausible excuse which can be offered for holding on to any portion of the Geneva money. An individual might reap some advantage in the keeping back of trust funds. But invested as this is in a government bond, securely locked up in a government safe, who is the better for any hesitancy in fixing upon the claimants and paying them. And if no one is interested in the delay, certainly speedy settlement is the natural course in any case, and in this, special causes would seem to make it an imperative duty. Particularly is this true with regard to the insurance Claims, for which no provision has yet been made.

For a moment go back to the time of the War; to a period when vessels were fitted out by English men, with English capital, to capture and burn vessels and cargoes belonging to American citizens. The motive for doing this it is unnecessary to discuss; the result was the piling up of actual losses many millions of dollars in amount. These vessels and cargoes were insured in numerous Companies; and when the losses happened they were paid by those Companies, and each claim, on payment, was transferred by action of law to the Company paying it. At that time there was much said about the liability of England for these losses; and the proofs of the mode, circumstances and extent of them were immediately gathered, which were promptly laid before the Government and notice filed with it that the Company held the English Government responsible for the damages.

Here is the basis of what were called the "Alabama Claims." The then Secretary of State, William H. Seward, immediately forwarded the statements and proofs so filed with him, to the English Government, "with a view to such reparation as may be justly "due." The Department of State invited the Companies to present these proofs, and they were gathered, of course, at much trouble and expense; and the Secretary was particular in each case to make acknowledgment and to give notice that he had transmitted them to our Minister at London, &c. The Government, the Secretary of State, the Companies and citizens in general, all

then understood that these were claims belonging to the Insurance Companies, as much a part of their assets as any other demand they held. Several Companies failed, the result, probably, of these very losses. Such was the position of this question during the War.

Now, let us go one step further. The War closes. The United States was one nation again—more powerful than ever. England, it was thought, could not afford to leave these demands as precedents, so the prospect of payment brightened, and the insurers began with renewed energy to press their claims. At length the English House of Commons gave evidence of favoring a formal adjustment, and in December, 1870, the President, in his annual message, called attention to these "private claims," and suggested that the United States purchase them. Why he should propose to purchase them is not perfectly clear; but we recall the fact simply as further evidence of the standing of the insurers with the Government at that time. It acknowledges, it is seen, that it still thinks they were "private claims," and were of necessity to be the basis of all negotiation—the ground work upon which alone it rested. Finally, after much diplomacy, the Washington Treaty was made and ratified, and herein again we have the same confession. The very first article recites the differences between the two Governments "growing out of the "acts committed by the several vessels which have given "rise to the Claims generally known as the Alabama "Claims;" "and in order to * * provide for the speedy "settlement of such Claims," * * it was agreed that "all the said Claims growing out of acts committed by "the aforesaid vessels, and generally known as the "Alabama Claims," should be referred to a tribunal of arbitrators to sit at Geneva. What could be clearer than the position of those insurers under this treaty, and in the opinion of the makers of this treaty? The claims that the Companies had filed; that the Government had requested them to file; that Mr. Seward had acknowledged and forwarded to England, and urged our Minister to press for payment—are at length made the basis of a treaty, and by that treaty submitted to arbitration.

But this is not all. When the Court of Arbitration sat, effort was made by the United States to bring in indirect damages. The question was raised, was argued, was submitted; but the Court ruled against us, holding in substance that only the direct damage—the private Alabama Claims—should be considered. Thereupon, the very proofs presented by the underwriters to the Secretary of State were laid before the Commissioners together with the correspondence, and commented on at length by the counsel on both sides. No government damages were awarded; no damages for the people at large or the Government as their representative were allowed to be even considered; but private claims and private proofs were introduced and made the basis, in fact the very subject matter of an award for a large amount of money. If the reader will only examine the case and evidence submitted, and the arbitrators' decisions embodied in the award, he will at once see how the award was made up, even almost to each item—the vessels, the cargoes, lost wages, &c.

Up to this point everything appears clear beyond question. But suddenly a fog settles upon the whole subject, shutting out every glimmer of daylight. This fifteen millions of dollars in its passage from England to the United States has become changed, wholly changed. In the hands of England it represented the damages these private claimants had suffered; it passed over to the United States to pay such damages; in the hands of the United States—what has it become? Let the Massachusetts Statesman (the one so celebrated for his loose ideas of the laws of *meum* and *tuum*) tell us—it is "*the* "*money of the United States to be disposed of at its pleas-*"*ure, subject to no trust*, and especially to no legal rights "in any individual or corporation, by whom a legal or "equitable claim can be set up or maintained, to any part "of the sum awarded, as against the United States." In simple English he means—we, having used your paw to take this roasted chestnut out of the fire, propose now to eat it. Delicious doctrine! And can we wonder that dishonesty in official life is everywhere cropping out when such an idea as this is not only boldly set up at our seat of government, but finds votes enough in Congress to pass a law actually postponing these insurance Claims? What a standard of morality for our Government to set up!

But we hear it said there are reasons for taking this position. Of course there are. We never knew a man, or a set of men, to act a mean or dishonest part but could fully justify it. These whiskey thieves think, because they gave some of their money to help the party, the transactions they were engaged in are honorable. And have we not heard how wrong it was in Governor Tilden to expose the canal ring—a guileless, simple-minded set of men—stealing, to be sure, but innocently, because in a way long custom had sanctioned? Do not imagine, then, that we think our Massachusetts Statesman would have laid down such a proposition without ingeniously defending it. But he entangles himself in a web of sophistical speculation and illogical reasoning, forgetting that in denying the personal claims of individuals to the indemnity, he really cuts away the foundation for any damages having been awarded us at Geneva. Of course there is no civil process known to our law by which any private citizen or company can recover a single dollar of it from the Government; and hence his position is strong in this particular, that the power is on that side.

One argument has been used against the payment of Insurance Company Claims, which perhaps we should refer to. Remember, however, in this connection, that it was not urged until the money was obtained, and, if it had been, the indemnity never would have been paid or ever awarded. The argument, however, is, that the Companies were paid a premium for a war risk, and that such extra premium is a full compensation for that class of risk; that they expected to meet with some losses, and that the privateer insurance business was profitable to the Companies in spite of their losses. This is a very ingenious statement, but we cannot see how (even if it were true, which it is not) it could deceive any one. The award was obtained on the assertion of our Government that these were *bona fide* claims, and it would seem to be a little late to deny it now. Besides, the insurance business is a very important branch of our commercial machinery. As carried on by most of the companies that hold these claims, it is under the mutual system—simply a combination of persons who pay premiums into a general fund, in order that they may average and apportion their losses. The assured are in one sense co-partners; the capital is the premiums paid in by these co-partners; the payments are the losses and the returned savings. Each year's business account is kept distinct, and the surplus is paid back to the persons who paid the premiums from which it arose. Now, when any legislator insists that the claim of such a body of men who unite to insure one another, in any way differs from the claim of one man who insures himself, he seems to us to

give evidence either of a very rudimentary mind, or of an intention to misinterpret the simplest facts.

But it is useless to dwell upon this point, for it, in truth, does not rightly form any part of the discussion. This indemnity money was either obtained on these claims, or it was not; and if it was thus obtained (and this admits of the most positive proof), it must be paid out to satisfy them, or else should be paid back to England. No part of it ever belonged to the United States, or ever can. That kind of damages was all struck out of the case, and only as the Government was the representative of these and other actual claimants for actual losses had it any standing in the court of arbitration. We cannot account, therefore, for the long delay in the settlement of these matters, and it becomes the Government to extricate itself from its false position as soon as possible.

## THE PROPOSED TARIFF CHANGES.

It is perhaps premature to criticise at any length the new tariff which has this week been introduced into the House. Before it is reported by the committee having it in charge, so many changes may be made as to almost revolutionize its chief characteristics and crudities. Still, it is an extremely important measure, and, although we think its passage at this session of Congress is perhaps more than doubtful, yet, should it become a law, it will necessarily affect large interests.

In this connection, however, it is to be observed that the new duties are arranged not with a view of effecting a total change in the tariff system so much as for the purpose of starting in that direction, and indicating a disposition to make such change. Many are disappointed on this account. They want a tariff simply for revenue, and this, they say, is certainly not such a measure. Very true; but nothing can be clearer than the impolicy of violent transitions in our tax legislation. During many years all industries have been protected. Under the influence of that protection extensive industries have grown up, resulting in large investments of capital which are to be materially affected by such legislation. A complete change of system perfected at once would, therefore, paralyze many departments of trade. Hence this new measure is wisely framed in this respect, that it avoids extreme modifications in the ruling policy of the country. If revenue and not protection is to be the aim of our tariff legislation hereafter, a gradual reduction of duties, in some cases it may be extending through several years, is the plan which wisdom would dictate, so that all industries can be prepared. We believe that the country can in this way make the change proposed without sacrificing any important interest, and the manufacturers, themselves, will, by these slow degrees, be educated up to the idea of standing alone. Many are fully able to do it now and to profit by it. Our cotton industry is in that position, as we have shown on a previous occasion; and with free wool our woolen manufacturers will find new markets opening to them under the new system. In a word, if our legislators act wisely, all the prominent manufacturing interests of the country can go through the change without actual harm, many new economies being induced by the prospective lower duties, and many others being made possible through them. For these reasons we think the present proposed law more desirable, because it is less radical than many seek to make it.

While, however, it is thus conservative, two other features seem to run through the bill as introduced. One of these is an apparent purpose to simplify the tariff; and to this end it repeals in many cases the ad valorem duty where the duties are now both specific and ad valorem. And the other object is to relieve our great manufacturing industries of burdens, especially such as are imposed through a tax of the raw material and of such chemicals and dyestuffs as enter into their manufacture. These ends are certainly very desirable. How far they will be attained, or whether the changes made will, in every case, help to accomplish the objects sought, are questions we need not enter upon now.

In fact, the details of the bill it is unnecessary to discuss at any length. When it sees the light again we have no doubt it will be more complete. As an illustration of its imperfections take the one little article of putty. There are about six firms in this city engaged in its manufacture. As is well known, it is made of whiting and linseed oil. Under this proposed law putty is put in the free list, and yet whiting and linseed oil are left without change. This is certainly an oversight, and there are others of the same description which also require attention. In fact, at this juncture, the advice and knowledge of the leading merchants in the several trades affected could be used to advantage. Preparing a tariff bill is a very perplexing and difficult work, especially when it is not intended for revenue only. A little practical experience would go far towards rectifying the crudities which are now apparent.

One provision of the measure proposed will meet with general favor. We refer to the re-imposition of the tax on tea and coffee. There never was any reason urged for the repeal of those duties except the political advantage which was supposed to follow the idea of a free breakfast table; while, on the other hand, every consideration of public policy unites in marking these articles as peculiarly suitable for revenue purposes.

## FINANCIAL REVIEW OF JANUARY.

The course of affairs in January was very much what had been predicted at the opening of the month. Money continued to grow easier until call loans were quoted at 3@5 per cent.; investment securities were strong; speculative stocks also strong, and in some cases even buoyant; gold and exchange were steady. There was a decided improvement in tone, and a generally cheerful feeling in regard to the situation, with sanguine expectations of a much better business during 1876 than in 1875.

There was a decided movement in United States securities, and a large importation of these bonds from foreign markets, attracted hither by the high prices prevailing. Notwithstanding the supply from abroad, our market was well sustained by heavy purchases of financial corporations and other careful investors.

Railroad bonds and some stocks also showed a considerable advance, and were pretty active under free purchases. Among the noteworthy features was the rise in some of the second mortgage or other bonds not ranked as first-class, which had previously been selling at low figures. Several of these showed an improvement of 5@10 per cent. Speculative stocks, without extraordinary activity in the leading favorites, showed a well-distributed business at advancing prices. The impression had evidently gained ground that railroad earnings in the present year would be decidedly better than in 1875, and this, together with a prospective repeal or modification of the granger laws in some of the Western States, were the principal causes which led to a notable buoyancy in the prices of many of the prominent stocks.

The following table will show the opening, highest, lowest and closing prices of railway and miscellaneous stocks at the New York Stock Exchange during the months of Dec. and Jan.:

Gold was quiet throughout, and not disturbed by any unusual influences. The importation of United States bonds from abroad led to the anticipation that coin shipments would take place at an early date in the year, but exchange did not approach the specie shipping-point up to the close of January.

Foreign exchange was naturally more active than in the closing months of last year, and business was increased by the placing of railroad loans in London to the amount of about $16,000,000. A demand for remittances to a considerable amount, was also made by the return movement of United States securities to this country.

## Latest Monetary and Commercial English New

[From our own correspondent.]

LONDON, Saturday, Jan. 15, 1876.

The commercial demand for money continues on a very moderate scale, and as the supply of money seeking employment is still large, the best three months' bills are now taken at 4 per cent. Neither is there any expectation of better rates, as six months' bank bills have, during the present week, been discounted at 3½ per cent. The influence of a 5 per cent. official *minimum* upon the exchanges has been very satisfactory. As regards all the leading Continental countries, they are now in our favor, and the result has been that some moderate amounts of gold coin have been received from Belgium and France. We have not, however, as far as is known, received any gold from Germany; but no large supplies have been sent away to that country. It is understood, however, that a further sum of £500,000 will be purchased on account of the German Mint; but, like most of the previous transactions, the operation will not, in the present state of the money market, be very perceptibly felt. The trade of this country is still being conducted with much caution. There is no disposition, on the part of the mercantile community, to extend their operations, or to speculate to any important extent. There is, however, a fair, legitimate business in progress; profits may be small; but trade is conducted with less loss and, consequently, with more satisfactory results than in the last two years. The crisis which prophets told us was due in 1876, is not likely to occur. On the contrary, there is every reason to believe that our greatest difficulties have been surmounted, and that our commercial position is steadily improving. There may, perhaps, be difficulties in the way, as grave doubts exist in some minds regarding the issue of the perplexing Eastern question, while the failures of last year are also quite fresh in the recollections of the community, and the banks and discount houses exercise extreme caution in making advances. As the year progresses, however, an increase of confidence is regarded as probable, and, although 1876 is not expected to be a year of any unusual activity, yet a fairly animated and remunerative business is looked forward to.

Although there has been a settlement in the Stock Exchange, this week, the demand for money has been exceedingly moderate, and the open market rates of discount are fully one per cent below those current at the Bank. There has been a moderate accumulation of gold at the Bank, caused, not only by importations, but also by receipts from the Provinces. It seems pretty clear that as long as the value of money in France and Germany remains where it is, five per cent. in London will be sufficient to correct the exchanges and attract gold to this market. With an official *maximum* of 5 per cent., and with money obtainable "out of doors" at 4 per cent., and even less, there can, of course, be no interruption to legitimate trade, and hence an important drawback to a revival in trade is removed. As long as the German Mint requires gold for its coinage operations, and is compelled to purchase it in this market, some uncertainties will exist, but as matters stand at present, there is no reason to apprehend dear money. On the contrary, the tendency is just now in favor of the borrower. The following are the quotations:

Since the improvement in the exchanges the stock markets have become firmer, and an almost general improvement in prices has taken place. Two of our principal railway companies—the London & Brighton and the South Eastern—have declared their dividends, which, although satisfactory to the shareholders, have disappointed speculators, who had anticipated half per cent more. The dividend of the London & Brighton Company will be at the rate of 7½ per cent against 6½; and of the South Eastern Company at the rate of 7½ per cent, against 6½ per cent, per annum. The dividends of these undertakings have been annually increasing. About ten years ago the Brighton Company was involved in such complications, chiefly in connection with branch lines, that dividend payments were suspended, while the latter company was also compelled to distribute much smaller profits. During the last few months the railway companies have derived advantage from comparatively cheap coal and from cheap iron. Their working expenditure has been much less, and hence the reports for the past half year are generally expected to show satisfactory results. It is remarkable that the traffic receipts for the past year should have been so large, the total being £57,548,037, against £55,788,067 in 1874, showing an increase of £1,759,970. In the year 1854 they were only £20,215,724, so that in 21 years they have been augmented by rather more than £27,000,000. This is a large increase, and although we have many things to complain of in reference to last year's trade, yet an increase of £1,760,000 in the traffic receipts of our railway companies is an indication that there must have been prosperity somewhere.

Egyptian Government securities, which were very depressed at the close of last week, have been in renewed demand, and the fall in prices which then took place has been nearly recovered. Turkish stocks have remained dull, although the dividends have been announced for payment. The railway share market has on the whole been firm. United States Government securities continue in demand for investment, and the first mortgage bonds of the leading American railway companies are still inquired for.

A SAFEGUARD AGAINST MASKED BURGLARS.—Bank vaults and safes should be protected by locks that cannot be unlocked during certain hours even by those acquainted with the combinations and having keys.

By a simple arrangement, Messrs. Herring & Co., the well-known safe and lock manufacturers, attach a chronometer movement to their bank locks. These are set to unlock at a certain time, and cannot, under any circumstances, be unlocked before the expiration of that time. It possesses the peculiarity and advantage over other time locks, that it combines the protection of both a time and combination lock, and should the movement stop running, or by any means get out of order, it can yet be operated and unlocked, but this operation would require the same length of time as that remaining unexpired at time of stoppage. Thus, if the movement were to stop after nine hours, when it was set for twelve hours, it would require three hours to unlock.

Such an event as the stopping of the movements is not probable, as they are of the finest workmanship. But banks using the ordinary time lock have been locked out. As will be readily seen, there is no such risk with the new Herring lock.—*Evening Post.*

—The annual statement of the Atlantic Mutual Insurance Company appeared last week, and will be found to-day in our advertising columns. This statement is looked for with much interest, not only by merchants in New York, but in all cities having shipping interests; and the extremely favorable exhibit it is always able to make is a source of great satisfaction. During the year 1875 it has received in premiums $8,295,394, and now has $16,019,910 82 of assets. They make their usual 40 per cent. scrip dividend, and pay up in full the issue of 1872.

—We notice the formation of a new copartnership in the "Street" under the firm name of Buckingham & Underhill. Both gentlemen are old members of the Stock Exchange, of high standing and long experience. They propose to do a strict commission business in the purchase and sale of stocks, bonds, gold and investment securities. We call attention to their card in our to-day's issue.

—The Safe Deposit Company of New York gives notice that in addition to the security, heretofore offered by them, for the safe keeping of all kinds of securities, valuables, etc., they have recently added the "Chronometer" or "Time-Lock" to their vaults, thus rendering them, so far as practicable, absolutely without danger of loss.

—We call the attention of capitalists to the advertisement of Mr. Samuel Shaw in this number of the CHRONICLE. Mr. Shaw makes a specialty of dealing in commercial paper, and with his long experience should be able to offer merchants and others every facility in his line of business.

*To the Public:*

In view of the excitement and anxiety in the public mind aroused by the robbery at the Northampton Bank, and the discussion resulting therefrom of the advisability of the use of the "Time Lock" as an additional security, we would inform the public that though there is no parallel between the provisions for security made by this company since its organization and those provided by any bank, we have superadded the "Chronometer" or "Time Lock" to the other ample security we offer.

## FRIDAY, FEBRUARY 4, 1876—6 P. M.

**The Money Market and Financial Situation.**—Money, gold and foreign exchange have been quiet and without features worthy of special mention. Government bonds have still been in active demand, but railroad bonds and some of the speculative stocks have shown quite a reaction within the past few days. After the considerable advance which had taken place, a reaction was to be looked for.

The money market has shown continued ease, and the prevailing rates on call loans are 3@4 on government collaterals and 4@5 on stocks. Commercial paper is in increased demand, and rates are easier in consequence, the quotations on choice paper being 5@6 per cent. The banks are ready purchasers of prime paper, anticipating that the money market will now be easy for some months to come.

On Thursday the Bank of England returns showed a gain of £109,000 in bullion for the week, but the percentage of reserve to liabilities had declined from 43¼ to 42⅝. The Bank of France gained 19,668,000 francs in specie. The Imperial Bank of Germany has reduced its discount rate to 4 per cent.

The weekly statement of the New York City Clearing-House Banks, issued January 29, showed an increase of $695,675 in the excess above their 25 per cent. legal reserve, the whole of such excess being $15,505,725, against $14,810,050, the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

The annual report of Hon. Dewitt C. Ellis, Superintendent of the Banking Department of the State of New York, has been presented to the Legislature. One year ago there were eighty-one banks organized under the general law of the State. Since then eleven have been formed, among them the Commercial Bank of New York City, and the Fifth Avenue Bank of New York City. Five banks were closed during the year, and four of them converted into national banks. The New York and Erie bank failed, and a receiver was appointed to wind up its affairs. The New York Loan and Indemnity Company voluntarily closed, paying all its obligations. The Central Trust Company was organized with a capital of $1,000,000, and began business on the 1st of September. The condition of the banks Sept. 18, 1875, was as follows:

**United States Bonds.**—There has still been quite an active movement in government bonds, but with some peculiar features in the character of the demand. The five-twenties have been comparatively neglected and show a decline, while the sixes of 1881 and the currency sixes have met with a sharp inquiry and are higher than last week. This is probably in consequence of the talk about further funding operations and the introduction of a bill into Congress (having Mr. Bristow's approval), for the authorization of $500,000,000 of 4½ per cent bonds, with 30 years to run, instead of the $300,000,000 15 year 4½ per cents authorized under the existing law. The sudden change in the views of purchasers seems to be one of the curiosities of the market, as the uncertainty of the passage of any financial bill introduced into Congress, and the length of time which would be required at best to reach the five-twenties of 1867 in funding the old bonds, would seem to make the causes too remote to affect prices so materially at this present time. Some of the leading bond dealers seem to think that it is inadvisable to increase the amount of 4½ per cent bonds beyond $300,000,000, as the successful negotiation of those, with their term changed to 30 years, instead of 15, would prepare the way for a 4 per cent bond having 50 years to run, which could then be negotiated as easily as a 4½ per cent with 30 years to run, and the saving of ½ per cent yearly for 50 years on $200,000,000 of bonds would be an item of some importance.

**State and Railroad Bonds.**—Among State bonds Tennessees have been weak, and the old bonds sold to day at 45¼, new series at 44¼. There seems to be no present anticipation that anything will be paid on these bonds before the meeting of the new Legislature in 1877, and some compromise with bondholders is discussed in the State, although it seems extraordinary that Tennessee can not manage a debt which has been so successfully reduced to about $20,000,000. Louisiana and South Carolina consols are in demand, and have advanced on a home demand. Virginia bonds are weaker, as the payment which was being made on the July, 1874, interest, has been discontinued; the consol coupon bonds are returning to some extent from abroad.

Railroad bonds have been moderately active, but during the past few days the prices of the popular bonds have been lower in sympathy with stocks. There is a good deal of speculative business in the active, low-priced bonds, and after a rapid advance of 4 or 5 per cent. or more, such as had recently taken place, there is very apt to be a partial reaction; so far as any definite cause is apparent, this seems to account most satisfactorily for the decline referred to. The Pacific Railroad securities have been steady on a moderate business, as the attention of bond-buyers has recently been diverted from these to the low-priced bonds of Western roads—St. Paul, Northwest, Ohio & Mississippi, etc. There has been some activity lately in C. C. & I. C. first mortgage consols (in default), but we are unable to ascertain that any proposition has been made by the Pennsylvania Railroad. Canada Southern bonds, with coupons on, sold to-day at 70; there seems to be little doubt of some sort of interest obtained by New York Central or Lake Shore parties, but what its particular shape may be has not yet transpired.

**Railroad and Miscellaneous Stocks.**—Stocks were strong early in the week, and, under the lead of Western Union Telegraph, which sold up to 80½, prices were buoyant. Later there was a decided reaction, and a downward movement took place, in which Pacific Mail was most conspicuous, declining under heavy sales to 34⅛. Western Union, in the reaction, sold down to 75¾ to day. It is currently reported that the prominent operator who has been so largely interested in Union Pacific and Pacific Mail, has been a heavy seller of the latter, and that this accounts for the decline. Railroad earnings, so far as reported for the month of January, are quite favorable, as compared with the same month in 1875. Ohio and Mississippi, for three weeks, is reported as showing an increase of $66,300, including the profits of the Springfield division; St. Paul shows an increase of $61,000 for the month; Missouri Pacific, St. Louis Kansas City and Northern, and St. Louis Iron Mountain and Southern all show a considerable improvement.

The present decline has the appearance of a temporary reaction rather than a decided change in the tone of the market, except so far as Pacific Mail is concerned, and as to that the transactions are not yet exactly understood.

**The Gold Market.**—Gold remains without feature of special interest, and the prospect of shipping coin seems now to be less imminent than it appeared last week. To day, the price was a little weaker, and it was reported that the introduction of Mr. Wood's funding bill had something to do with it. On gold loans the rates to day were 3½, 3 and 4 per cent for carrying. On prime sixty days' gold paper the quotations are 6@7 per cent. Customs receipts of the week were $2,144,000.

**Foreign Exchange.**—Exchange has been comparatively dull. There was some scarcity of bills early in the week, and prime 60 days' sterling was marked up to 4 86½; this proved to be too high, as there was not demand enough to support it, and business was checked. The rates were afterwards reduced ½ point, but this failed to encourage much buying, and the market closed dull. There appears to have been some delay in receipt of cotton bills from the South, as the supply from that source is reported to be less than there was reason to anticipate.

## ANNUAL REPORTS.

### Chesapeake & Ohio.

(*For the year ending September* 30, 1875.)

The report of the President says: "The transportation accounts show that, notwithstanding the continued depression of the general business of the country, there has been a steady increase in the local business of the road. The small amount of through business which has been done is attributable: 1st. To the want of a connection, by rail, from its western terminus with the great centres of trade in the West, Southwest and Northwest. 2d. To the low rates for freight which have prevailed during the greater part of the year on competing lines. 3d. To the financial embarrassments of the Company, which are well known, and which have induced many large shippers of freight to seek other routes of transportation, who would otherwise have entrusted this Company with the transportation of their property."

In conclusion he says:

"The property is a very valuable one—too valuable to be wasted by litigation—and if a plan of reorganization can be agreed upon before much more valuable time is lost, and before the value of the property is impaired by the costs of litigation, which costs, if incurred, must finally be paid out of the property, then your President and Board of Directors will give their attention earnestly to the work of securing such connections and extensions of the line as are needed, and they will do so in the confident belief that, although the investments in the securities of the Company have thus far proved unproductive, they will finally prove to be satisfactory in the returns they will yield to the holders of them, and that all the hopes and expectations which have been indulged in, in regard to the great enterprise we have so much at heart, will ultimately be realized."

The report of the operations of the Transportation Department for the year ending September 30th, 1875, was as follows:

| *Earnings.* | | *Expenses.* | |
|---|---|---|---|
| Passenger fare | $409,626 71 | Train expenses | $322,179 04 |
| Freight | 993,862 50 | Depot expenses | 120,642 24 |
| Express freight | 15,458 25 | Miscellaneous | 43,635 27 |

| | | Salaries | 66,510 92 |
| Total | $1,459,199 48 | Total | $1,112,320 70 |

In addition to the above sum of $1,112,320 70, there was charged during the year 1874–5, to Transportation Expenses, $23,033 78, which belonged to previous years.

The increase and decrease in earnings as against 1873-4, was as follows:

| | INCREASE. | DECREASE. |
|---|---|---|
| Passenger Fare | | $43,749 69 |
| Freight | $43,550 17 | |

| Total decrease of earnings as against 1873-4 | | $1,000 45 |
| Earnings over operating expenses, 1874-5 | | 846,868 78 |
| Increase of earnings over operating expenses over 1873-4 | | $101,019 33 |

### Charlotte Columbia & Augusta.

(*For the year ending September* 30, 1875.)

A brief abstract of the annual report was published in THE CHRONICLE a few weeks since. The complete report of Col. John B. Palmer, President, furnishes the following details:

RECEIPTS.

| | Through. | Local. | Total. |
|---|---|---|---|
| Passengers | $78,197 17 | $117,608 61 | $195,805 78 |

| Decrease in expenses, other than iron and taxes | | | $55,557 19 |

The saving in expenses is stated, therefore, to have been legitimate, and not at the expense of the service or property of the road.

FINANCIAL.

The debt of the company is as follows: Total bonded debt, $1,508,500; floating debt, balance, $699,335 40; total debt, ($11,322 23 per mile) $2,207,835 40; against last year, $2,264,-631 44; exhibiting a decrease in debt of $56,796 04.

The President remarks: "We have on hand, unsold, $492,000 first mortgage bonds, and $1,000,000 second mortgage bonds. If shareholders and bondholders will subscribe for the $492,000 first mortgage bonds, and an equal amount of second mortgage bonds, at an average price, of say, seventy cents (with an agreement on the part of the company that no more second mortgage bonds shall be sold at less than eighty-five cents on the dollar), the floating debt will be cleared off, the stockholders in possession of first class securities, yielding ten per cent on their cost, and the road placed in a condition to appropriate its surplus, after necessary outlays on its track, etc., to dividends on its stock.

"The following are the net earnings the last four years: 1872, $236,807 20; 1873, $276,386 06; 1874, $225,023 90; 1875, $250,004 25; total, $989,121 41, being an average, yearly net, of $247,280 35; interest on $2,492,500, at 7 per cent, $174,475; excess, $72,805 35, which is over three per cent on the stock upon which the company is liable to pay dividends. It is apparent, therefore, that the project is feasible."

The proposition for a lease of this road by the South Carolina Railroad was not considered satisfactory and was therefore declined.

The report concludes: "Although business of all kinds has been depressed to a most unusual degree, we have fully maintained our receipts, and by a rigid system of economy we have reduced our expenses, other than those for iron rails and for taxes paid, over $55,000; we have reduced the percentage of operating expenses to 59·28—a reduction of 4 per cent, and we have largely decreased our floating debt. A most gratifying feature is that our local business has increased nineteen per cent, thus showing that the towns along our lines are continuing to improve."

### North Pennsylvania Railroad Company.

(*For the year ending October* 31, 1875.)

The total earnings in the fiscal year were very nearly the same as in the preceding year.

The gross earnings of the main line, including those of the Doylestown Branch, were $1,417,734 61, showing a decrease of $6,728 57; while those of the North East Pennsylvania Railroad have increased $6,495 38, and those of the Stony Creek Railroad have increased $2,009 87; so that on the total railroad mileage worked by the North Pennsylvania Railroad Company the increase was $1,776 68.

The earnings and expenses of the North Pennsylvania Railroad, in the fical year, were as follows:

*Earnings.*

| | | | |
|---|---|---|---|
| From passengers | $484,302 90 | From through freight | $336,081 45 |
| From coal | 354,289 06 | From mails | 6,195 00 |
| From pig iron | 22,778 01 | From miscellaneous | 18,740 36 |
| From lumber | 18,875 12 | | |
| From local freight | 276,382 71 | Total | $1,417,734 61 |

*Expenses.*

| | |
|---|---|
| For maintenance of way | $200,624 10 |
| For motive power | 281,674 85 |
| For maintenance of cars | 102,895 77 |
| For conducting transportation | 286,821 35 |
| For general expenses | 33,526 20 |
| Total expenses | $905,542 27 |
| Gross earnings | $1,417,734 61 |
| Expenses | 905,512 27 |
| Net earnings | $512,192 34 |
| Interest on bonded debt, ground rents, interest on mortgages, insurance, &c., less interest received | $306,023 75 |
| State and municipal taxes | 45,641 58 |
| Balance of interest and taxes | $351,665 33 |
| Net earnings | $512,192 34 |
| Interest and taxes | 351,665 33 |
| Balance carried to profit and loss | $160,527 01 |

At the close of the fiscal year, the balance standing to the credit of the profit and loss account was $367,152 41.

Two semi-annual dividends have been declared of three per cent. each; the first payable on the 2d day of August, 1875, and the other on the 1st day of February, 1876.

The accounts of the Delaware River Branch, from Jenkintown to the middle of the Delaware River, have been kept separate from the other accounts of the North Pennsylvania Railroad Company; and the expenditure on account of that work, up to the end of the fiscal year, was $1,095,367 53. The track upon the new branch has been laid with steel rails of 66 pounds per yard.

The early opening of the Delaware and Bound Brook Railroad will complete the new and direct line to New York, 88 miles long, by the way of Bound Brook and the Central Railroad of New Jersey, which will be known hereafter as "the New York and Philadelphia *New Line*."

## GENERAL INVESTMENT NEWS.

**Atlanta and Richmond Air Line.**—Mr. John B. Peck, Master of Transportation, has submitted to the receivers a report for the eleven months and five days from November 25, 1874, to October 31, 1875. The road is 266 miles long, from Atlanta, Ga., northeast to Charlotte, N. C. The equipment owned consists only of 6 engines, 2 first-class and 2 second-class passenger and 5 baggage and express cars; 15 box, 1 stock, 31 flat and 2 caboose cars. Other equipment necessary for the working of the road was hired from the Richmond & Danville and other companies.

The earnings and expenses are stated as follows:

| | 1874-75. | 1873-74. | Inc. or Dec. | Per c. |
|---|---|---|---|---|
| Gross earnings | $501,308 57 | $439,035 51 | Inc.. $62,271 06 | 14.2 |
| Expenses | 447,525 99 | 421,255 80 | Inc.. 26,170 19 | 6.2 |
| Net earnings | $53,782 58 | $17,779 71 | Inc.. $36,002 87 | 202.3 |
| Gross earnings per mile. | 1,855 | 1,651 | Inc.. 231 | 14.2 |
| Net earnings per mile... | $202 | $67 | Inc.. $135 | 202·3 |
| Per cent of expense..... | 89.27 | 95.95 | Dec.. 6.68 | 7.0 |

Included in the expenses for the year, however, are $26,527 50 paid for new depots, water-tanks and improvements of the road; $2,690 70, partial payment on four locomotives; $6,000 for legal expenses, and $40,705 02 for hire of equipment—a total of $75,923 22. Deducting this amount, it leaves the actual working expenses $371,602 77, or 74.13 per cent of the earnings, which would leave net earnings of $129,705 80, or $488 per mile.

The road has been maintained in fair order. The equipment is in good condition and all in active use.

Proceedings in foreclosure are now pending.

**Alabama & Chattanooga.**—It was decided by the United States Circuit Court in its recent decree that the high-numbered bonds, from 4,721 to 5,220, are entitled equally with the others to share in the proceeds of the sale. It appears that the company was authorized to issue and the Governor of Alabama to indorse bonds to the amount of $16,000 per mile. The road being 295 miles long, the issue should have been confined to 4,720 bonds of $1,000 each; but in fact 500 more were issued and indorsed, and the rights of these 500 were questioned. The Court held that the holders of these bonds had a right to presume that the officers of the company, the trustees and the Governor of the State had not violated their trust. They were not bound to ascertain the exact length of the road, and if they had done so they could not be certain that their bonds were outside of the limits. These bonds must be held to be of equal validity with the rest.

**Eastern Railroad (Mass).**—The annual report of the directors was issued in Boston this week. It places the present debt of the road at $14 904,429 55, and estimates the losses from accidents and mistaken and bad investments at $8,245,980. The present capital stock of the road is $4,997,000; the total earnings for 1875 were $2,787,143 25; the total operating expenses were $2,045,040 54; rents paid other companies, $175,916, leaving a net income of $566,186 71. Interest paid, $956,230 47, leaving a deficit for the year of $390,043 76. The report says if the bill now before the Legislature to fund the outstanding debts of the road in mortgage bonds is passed, the road will recover from its embarrassments.

—The cable, February 3, reports from London that *The Hour* says, concerning the embarrassments of the Eastern Railroad of Massachusetts, that Baring Brothers, the bankers, have issued a circular saying that, having shared the general confidence reposed in the company and its management to the extent of specially recommending the sterling bonds as an investment to many persons, they give notice that they will take up the interest bonds provided for at the meeting at Boston on the 15th of January, and pay full interest on the £600,000 bonds issued by them as usual on the 1st of March and the 1st of September, 1876.

—The company paid the interest on the Essex Railroad mortgage bonds due January 1st, but defaults on its other bonds.

**Erie.**—The cable, Feb. 3, reports that the London *Hour* understands that only only about one-twelfth of the Erie bond and shareholders assented to the scheme of Sir Edward Watkin; consequently, Messrs. Miller and Fleming, representing the Dundee bondholders, have gone to New York to endeavor to arrange the other scheme.

**Long Island Railroad.**—A short time since it was stated that 35,000 shares of the Long Island Railroad had been purchased by Mr. Poppenhausen, president of other railroads on the Island, for $1,750,000, or $37 50 per share. The par value is $50, and the total number of shares is 66,000. Subsequently, a number of stockholders of the L. I. Railroad obtained a temporary injunction and order to show cause against John C. Havemeyer, Henry Havemeyer, William Dowd, and others, directors of the company, restraining them from selling a controlling interest in the road to Mr. Poppenhausen; also from resigning to make room for nominees of the rival companies, and from any other act tending to depreciate the stock of the plaintiffs. A modification of the injunction, to permit the sale of stock, was granted, and the sale was made.

The matter was then argued at length before Judge Barrett, in Chambers, on motion to continue the injunction against "any action" tending to the alleged proposed transfer of control, and especially against their resigning to create vacancies to be filled by the other parties. Mr. Marsh, in moving for the plaintiffs, contended that to effect such transfer of leadership without the consent of the stockholders would be illegal; that the directors are trustees for the shareholders, and cannot divest themselves of their obligations without an order of the Court or consent of the shareholders, especially where any suspicion is raised that they are benefitting themseves, not the stockholders.

Mr. Carter, in reply, said the sale had been effected; defendants had a perfect right to sell their stock, and there was no law to prevent a director from resigning whenever he pleased. Decision reserved.

**New Jersey Midland.**—A meeting of first mortgage bondholders was held this week at No. 113 Broadway, for the purpose of carrying out the plan of reorganization, which provides for issuing $350,000 first mortgage bonds to be used in paying receivers' certificates. New bonds are given to first mortgage bondholders with stock attached. It is said that this plan has received the approval of the holders of $1,000,000 of the first mortgage bonds.

Mr. J. Wyman Jones proposed that the plan be amended so as to admit the second mortgage bondholders, giving them "income bonds" for the principal and interest of their bonds having forty years to run.

This was adopted, and the following committee was appointed to carry out the plan as amended: F. A. Potts, J. N. Weed, Henry Marks, I. Warren, Jr., J. Wyman Jones, T. W. Hammond, D. P. Nichols, Remington Vernam, David Pendleton, Judge I. R. Daggars, L. H. Alden, Wm. Evans, Recorder R. E. Taylor, B. Gilbert, and N. R. Ivins.

**Northern Pacific.**—Gen. Wright, President of the Northern Pacific Railway, has lately issued a circular stating that the road is in operation from Lake Superior to the Missouri River, 450 miles. The Pacific division is in operation from the Columbia River to Tacoma, the terminus on Puget Sound, a distance of 105 miles. The traffic on both divisions in 1875 shows gross receipts on the 555 miles of completed road of $613,590. The net income was $152,140. Each mile of the road built has been accepted by the Government, and this entitles the company, under the charter, to 10,800,000 acres of land. This land the company is selling to settlers at prices that thus far average about $5 per acre. It is intended that the work of construction shall be resumed the present season. The equipment of the road is reported good, requiring no immediate expenditure in that direction. Nine tenths of the bonds issued have been surrendered under the plan of reorganization, and are being converted into preferred stock. The small amount outstanding is gradually coming in. By May next it is believed the company will have 555 miles of equipped railroad, free from bonded or floating debt, in operation. The certificates of preferred stock are now being issued in exchange for the 7 3-10 bonds at the rate of $1,400 for every $1,000 of the principal of the bonds, which includes interest thereon to July 1, 1878. This preferred stock is receivable at par for the company's lands east of the Missouri River. The preferred stock will be entitled to dividends at the rate of eight per cent per annum, before the common stock is permitted to participate in dividends to any extent.

**Oil Creek & Alleghany River.**—A committee of the bondholders, stockholders, and other creditors of this company, met Jan. 31 in Philadelphia, and organized a new corporation. The new title is the Pittsburgh, Titusville & Buffalo Railroad Company. The following resolutions were adopted:

*Resolved*, That the capital stock of the company be 100,000 shares, of a par value of $50 each, making a total of $5,000,000, and that the President and Secretary are authorized and directed to issue certificates for the same to the purchasers known as Class "B", according to their respective interests.

*Resolved*, That the President and Secretary be and they are hereby authorized to execute and issue, under the seal of the company, the bonds of this company to the amount of $1,550,000, bearing interest at the rate of seven percentum per annum, payable semi-annually on the first days of February and August of each and every year, the principal of which shall be payable on the first day of February, A. D. 1876.

*Resolved*, That the President and Secretary be authorized and empowered to deliver said bonds as issued and secured, to the purchasers known as Class "A," according to their respective interests.

*Resolved*, That the President and Secretary be authorized and empowered to execute and issue under the seal of the company income bonds, bearing interest at the rate of six per cent, to an amount not exceeding $310,000.

*Resolved*, That the President and Secretary be authorized and empowered to issue said income bonds to the purchaeers designated as Class "C," according to their respective interests.

**Petersburg Railroad.**—The President informs us that this company has outstanding $871,000 of bonds of first, second and third mortgage, on which the interest has been paid to date, and there is no litigation. The company has a floating debt of $272,000, and about this debt there has been litigation, but this has been removed, and the company are seeing their way out of all difficulties.

**Rochester & State Line.**—Several parties who have obtained judgments against this company, for materials purchased by it, now propose to proceed upon the bonds which were pledged to them as collateral, which will put an end to the proposed retirement of the bonds and execution of a new mortgage. The sheriff of Monroe County, N. Y., was to sell at auction $140,000 of these pledged bonds Feb. 3.

**Rockford Rock Island & St. Louis Railroad.**—The Chicago *Inter-Ocean* gives an abstract of the decree recently entered by Judge Drummond in the case of this company. It was decreed that the Master's report be approved. Further, that from the proceeds of the sale there should be reserved the sum of $220,904 82 to pay the taxes of 1873 and 1874, the expenses of litigation, costs of court, and for the protection of certain persons who had claimed interests in the property at the time the receiver took possession. Also, that from the balance of the proceeds the holders of bonds, coupons, and certificates of indebtedness issued in lieu of coupons on the first series of bonds, numbered from 1 to 5,000, inclusive, should be paid 10·459 per cent of the amount due thereon, not computing interest on past-due coupons or certificates of indebtedness. That the holders of like bonds, coupons, and certificates of indebtedness issued in lieu of coupons on the second series of bonds, numbered from 1 to 5,000, should be paid 5·977 per cent of the amount due on such bonds, coupons, and certificates of indebtedness, not computing interest on past due coupons and certificates of indebtedness.

The decree then directed to give Heyman Osterberg credit on his bid for the property on account of the bonds, coupons and certificates of indebtedness paid in by him at the percentage above established, to wit, for the sum of $438,389 14 in addition to the sum of $652,527 paid in money. Also, the sum of $8,239 29 credit on account of coupons 6, 7, 8, 9 and 10, as stated in the Master's report, making a total credit to which Osterberg is entitled on account of his purchase of $1,099,155 43.

It was further ordered that Osterberg should be permitted to retain in his possession, at six per cent. interest from the entry of the decree, $220,844 57 of the sum directed to be reserved, being the balance due from him on account of his purchase, until April 1, 1876. And upon payment thereof, with interest, the sale of the premises and the report of the Master shall be in all things confirmed. In the meantime, Osterberg is to have possession of the mortgaged property purchased by him, subject to all limitations and conditions imposed by the decree of November 3, 1875, on his entering into bond made payable to W. H. Bradley, clerk of the court, with surety to be approved by the court in the penal sum of $50,000, conditioned that he will perform the conditions of the decree of November, 1875, and protect the parties entitled to share in the distribution of the said sum of $220,901 82, and also from any loss or damage arising from any liabilities of the railroad for operating or other expenses incurred during such time. Lastly, the court decreed that Osterberg, or, in his absence, the auditor of the road, every month make a full report of his doings. The coupons heretofore filed by Max Budge, Leo Lehman and Jacob Schiff are excepted from the provisions of this decree, and are not entitled to any payment under the same. In the course of the day, Mr. Osterberg filed his bond in $50,000, as above directed, and it was approved by the court.

The November receipts were $60,162 08; expenses, $42,189 53; —net earnings for month, $17,972 55. Of this amount, however, there has been paid for extra expenses $17,847 32. The receiver further stated that all pay-rolls and other expenses for the month had been paid except a few small items. The December receipts were $60,320 02; operating expenses, $41,266 54—net earnings, $19,054 48. In addition there has also been paid: For track rentals, $3,347; insurance, $2,853; renewal of track, $9,141; fences, $571; buildings, $46; bridges, $4,929; rolling stock repairs, $2,619—total, $23,509,

**Railroads of Wisconsin.**—The Railroad Commissioners of Wisconsin have submitted to the State Legislature their annual report, covering the operations of the railroads of the State for the year 1875, together with an account of the Commissioners' proceedings under the law, and the results of their further inquiries into railway transportation and the proper relation of transportation companies to the government of the State. They say:

"One of the difficulties of enforcing the law of 1874, in respect to rates, grew out of the fact that, while the law required that in case of freight passing over two or more roads 'the distance for carrying such freight shall be computed from where it is received'—evidently meaning from where it was first received—there was no provision requiring the companies owning the connecting lines to pro rate the charges. Because of this omission, several of the companies assumed that they severally received the freight coming from other lines at the connecting point, and on this basis computed the distance and made their charges. In this way it sometimes happened that a shipper was charged the high rate allowed for the first haul two or three times over, the aggregate sum being considerably larger than the sum of old rates paid before the passage of the law. This defect in the law of 1874 was remedied by the law of 1875, which provides that when freight so passes from one road to another "the amount received for such transportation shall be divided between the companies as the officers thereof may agree," and that where such agreement is found impracticable the terms of such division of receipts shall be settled by arbitration in the manner in said section prescribed. Notwithstanding this plain and specific provision of law, several instances of its violation were brought to the notice of your Commissioners in the early part of the last session, and it was not until after considerable time was consumed by the necessary investigations, and by explanations of managers, negotiations between companies, correspondence, and personal interviews, on the part of the Commissioners and the Attorney General, with the attorneys and managers representing the corporations, that an agreement was finally concluded by and between the Chicago Milwaukee & St. Paul and the Chicago & Northwestern Railway Companies.

CAPITAL STOCK REPORTED.

The corporations doing business in this State—the Wisconsin Central, the Madison & Portage, and the Wisconsin Valley not included—reported a total capital stock on Dec. 31, 1874, of $38,873,997 82, or $16,998 88 for each mile of road owned and operated. The amount on the 30th day of June, 1875, as reported to the commissioners—the Milwaukee Lake Shore and Western, the West Wisconsin, the Chippewa Falls and Western, and the Superior and St. Croix not reporting—was $88,802,597 82.

Allowing the amounts chargeable to the companies reported in 1874, but not in 1875, to remain the same as at the former date, the total amount that should have been reported June 30, 1875, is $92,299,597 82, or $18,932 24 per mile of road; the Wisconsin Central not being included in either count.

The proportion of capital stock for Wisconsin, issued by companies also operating lines in other States, is shown below:

| Company. | Total amount of stock. | Proportion for Wisconsin. |
|---|---|---|
| Chicago Milwaukee & St. Paul | $27,673,744 00 | $13,154,424 42 |
| Chicago & Northwestern | 36,484,253 82 | 13,732,328 90 |
| Western Union | 4,000,000 00 | 1,601,681 00 |
| Prairie du Chien & McGregor | 100,000 00 | 87,500 00 |

☞A reference to the lists of stockholders in the companies furnishing such lists will show how very small a portion of the stock is held by citizens of this State. That this fact may the more readily appear, we present the relative number of reported shares held in and out of Wisconsin:

| Company. | Total No. shares held. | Shares held in Wisconsin. |
|---|---|---|
| Chicago Milwaukee & St. Paul | 429,997·44 | 8,300 00 |
| Green Bay & Minnesota | 78,330·00 | 10,096·00 |
| Galena & Southern Wisconsin | 1,721·00 | 320·00 |

The funded debt of companies reporting June 30, 1875—the Milwaukee Lake Shore & Western, the Superior & St. Croix, the Chippewa Falls & Western, and the Wisconsin Central not being included—was $75,629,360. The proportion of this debt belonging to Wisconsin, estimating that of the Chicago & Northwestern and Western Union, was, at the date above mentioned, $39,266,288 52.

The total unfunded debt reported June 30, 1875—debt of Chicago & Northwestern, Milwaukee Lake Shore & Western, Superior & St. Croix, Chippewa Falls & Western, and Wisconsin Central not included—was $4 549,164 11. The total reported funded and unfunded debt was $89,178,464 11. The total of stock and debt on June 30, 1875, was $168,878,127 58.

COST OF ROADS.

The total cost of the roads reported to the Secretary of State for the year 1874, and published in his report for 1875, was $146,747,251 88. But this statement does not include either the Milwaukee, Lake Shore & Western, the Wisconsin Valley, or the Madison & Portage Railroad. According to the reports made to the commissioners, June 30, 1875, the Milwaukee Lake Shore & Western not reporting, the cost of all roads at that date was $165,938,592, or $34,038 68 per mile.

The cost of road and equipment per mile, in detail, is shown below:

| Company. | Cost of road per mile. Total lines. | Cost of road per mile in Wisconsin. |
|---|---|---|
| Chicago Milwaukee & St. Paul | $39,062 00 | $13,385 |
| Chicago & Northwestern | 33,841 00 | No report. |
| Galena & Southern Wisconsin (narrow gauge) | 11,330 70 | No report. |
| Green Bay & Minnesota | 27,730 00 | 27,730 |
| Mineral Point | 22,180 00 | No report. |
| Sheboygan & Fond du Lac | 35,938 00 | 35,938 |
| Western Union | 37,531 00 | No report. |
| Wisconsin Central | 36,552 00 | 36,552 |
| Wisconsin Valley | 13,263 00 | 13,263 |

GROSS EARNINGS OF THE ROADS.

The gross earnings on all the lines reported June 30, 1875, estimating the Milwaukee Lake Shore & Western Railroad the same as last year, amounts to $23,387,400 23, of which the Chicago Milwaukee & St. Paul earned $7,464,298 68, and the Chicago & Northwestern, $12,597,094 61. The total earnings of the Wisconsin lines amounted to $4,946,687 26. This is a decrease as compared with the earnings of 1874, of $2,248,132 65 on the total lines operated, and of $818,313 52 on the total business done in Wisconsin. Of the $23,387,400 23, gross earnings for 1874-5, $15,771,268 10 were from freight, $5,625,281 07 from passengers, and $1,990,851 06 from other sources. The passenger earnings of the Chicago Milwaukee & St. Paul road in 1874 exceeded those of 1873 by $74,463 55; while the passenger earnings of the Chicago & Northwestern for 1873 exceeded those of 1874 by $82,874 03.

The comparative gross earnings, freight earnings, and passenger earnings on the total lines reported and on lines in Wisconsin, for the years 1874, 1873-74, and 1874-75, are given below:

| Earnings. | 1873. | 1873-74. | 1874-75. |
|---|---|---|---|
| Gross earnings, total lines | $26,059,195 60 | $25,635,532 88 | $23,387,400 23 |
| Gross earnings in Wisconsin | 11,408,579 43 | 11,770,741 37 | 10,954,427 85 |
| Freight earnings, total lines | 18,230,370 61 | 17,765,910 80 | 15,771,268 10 |
| Freight earnings in Wisconsin | 9,227,375 94 | 9,037,871 99 | 8,300,470 09 |
| Passenger earnings, total lines | 6,199,031 64 | 6,146,329 94 | 5,625,281 07 |
| Passenger earnings in Wis | 3,153,471 81 | 3,126,651 42 | 2,960,595 85 |

TOTAL EXPENDITURES OF 1874-75.

The total expenditures by all the companies for the year ending June 30, 1875—the Milwaukee Lake Shore and Western being allowed to stand the same as for the year 1874—amounted to $15,855,233 23; of which sum $5,182,875 81 were expended by the Milwaukee and St. Paul Company, and $7,852,955 93 by the Chicago and Northwestern Company. The average expenditures per mile of total lines were $3,252 18.

The proportion of expenses chargeable to the Wisconsin lines not being reported by either the Chicago and Northwestern, the Galena and Southern Wisconsin, or the Western Union companies, no attempt is made to report such proportions either in aggregate or per mile of road.

NET EARNINGS.

The total net earnings of the total lines (4,875·26 miles) reported for the year ending June 30, 1875, were $8,066,733 03, or $1,654 63 per mile. The total of net earnings to be credited to Wisconsin, as nearly as can be determined, was $2,018,226 50, or $786 61 per mile of Wisconsin road. The average net earnings per mile (total mileage of 4,875·26 miles), were $0.00707; the average net earnings per passenger mile, $0.0035. As the data for these calculations are not entirely complete, the figures given should be considered only a close approximation to the exact amount.

**Western & Atlantic R. R. and West. Union Tel. Co.**—In the suit of the Western Union Telegraph Company against this company, the United States Supreme Court has reversed the decision of the Circuit Court and holds that the contract between the State of Georgia and the Western Union Company, under which the railroad company, as lessee from the State, claims the line, was a contract of lease only and not of sale. As long as the road gets the benefit of the contract by the use of the wires, it must abide by the terms of the contract.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Feb. 4, 1876.

The legitimate needs of trade have asserted themselves the past week to such an extent that business circles have, as a rule, been more actively employed, and besides, some revival of speculative confidence and action may be noted. The bill to reduce duties on imports, which has been introduced into the House of Representatives, has so little prospect of becoming a law, and, if passed, goes into effect at so late a day, that it has had no effect upon present prices. Its provisions meet with very general approval. The first snow storm of any significance this season occurred last night, and has obstructed ours treets.

The following is a statement of the stocks of leading articles of domestic and foreign merchandise, at dates given:

Pork, bacon, and cut meats have been in better demand, and, with a brisk speculation in pork, prices of all have materially advanced. The large regular trade has assisted the speculation. Mess pork sold to-day at $21 50@$21 75 on the spot, $21 50 for March, $21 60@$21 65 for April, and $21 70@$21 75 for June. Bacon has sold at 12c. for city long clear, and half long and half short clear at the West quoted at 11c., an advance of ¼c. Lard has also improved, but not so much as other hog products, closing quiet at 12¾@12¾c. on the spot; sales for March at $12 97½, and May at $13 15. Beef has met with a good trade at very full prices. Tallow has been dull, and closes at 9¼c. for prime. Butter steady, and cheese rather firmer at 13@13½c. for the best factories.

Coffee has been rather quiet, and prices of Rio have yielded under the pressure of heavy stocks; fair to prime cargoes 17½@18¾c. gold. Rice has also been quiet. Foreign fruits are quiet and unchanged. Teas meet with a moderate demand, stimulated by the comparatively low prices current. Molasses has been very dull, and stocks of domestic have accumulated. The first cargo of refining Cuba, new crop, has been received, but no price has been made. Sugars have declined ⅛c., to 8⅛c. for good refining Cuba, with a moderate business, and refined quoted at 10¾c. for standard crushed.

Kentucky tobacco has been quiet but firm at 4½@7¼c. for lugs and 8½@15c. for leaf; the sales for the week embraced 400 hhds., of which 300 were for export and 100 for consumption. There has been a good demand for seed leaf, and prices are about steady; the sales embrace: crop of 1870, 300 cases New England, on private terms; crop of 1873, 100 cases Pennsylvania, part at 15c., 58 cases New England and 100 cases Ohio, on private terms; and, crop of 1874, 100 cases Pennsylvania, part at 13½c., 100 cases Wisconsin, 200 cases New England, 200 cases Ohio, 120 cases New York, on private terms. Spanish tobacco has been in moderate demand, with sales of 500 bales Havana at 85c.@$1 10.

Linseed oil has ruled a shade lower at 61@62c. Crude fish oils have been quiet and unchanged. Hides have been in brisk demand and firm; dry Montevideo sold at 20½c., four months, and dry California at 20c., gold, 30 days. Whiskey advanced to 13c. Clover seed has been firm but less active, at 14½@14¾c.

In ocean freights no great amount of business has been done; the small offerings of tonnage, however, have maintained a steady tone. In charter room little or nothing has been done, yet late rates are the same. Late engagements and charters: Grain to Liverpool, by steam, 7¼d.; provisions 30s. per ton; cotton ⅛@9-32@5-16d per lb; hops to London, by steam, ⅜d.; oilcake, by sail, 2s. 6d. per bbl.; grain to Glasgow, by steam, 8¼d.; do to Cork, for orders, 6s. 6d; do to Oporto 20c. gold; refined petroleum to Alicante or Valencia, 5s. per bbl. and 25c., gold, per case. To-day there was a continued quietude, but no decided changes took place. Grain to London, by steam, 8¾d., cheese 40s. per ton. Grain to Glasgow, by steam, 8½d.; do to Cork, for orders, 6s. 7½d.; do to Oporto 18c., gold, per bushel. Refined petroleum, in cases, to Cadiz or Seville, 25c. gold.

The past week has been an exceedingly quiet one in naval stores, and quotations show some decline. Spirits turpentine quoted at 36½c.; common to strained rosin, $1 57½@1 65. The petroleum market, though quiet, shows much firmness, under the full Creek advices. Crude, in bulk, 8⅝@8¾c.; refined, in bbls., 14¼c.

## COTTON.

FRIDAY, P. M., Feb. 4, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (February 4) the total receipts have reached 131,379 bales, against 152,359 bales last week, 142,071 bales the previous week, and 161,515 bales three weeks since, making the total receipts since the 1st of September, 1875, 3,066,184 bales, against 2,635,772 bales for the same period of 1874–5, showing an increase since Sept. 1, 1875, of 430,412 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

* On shipboard at Galveston to-night, not cleared: For Liverpool, 23,184 bales; for other foreign, 10,132 bales; for coastwise ports, 1,352 bales.
† The exports this week under the head of "other ports" include from Baltimore 284 bales and 55 bags Sea Island to Liverpool, and 117 bales to Bremen; from Boston 35 bales to Liverpool; from Philadelphia 960 bales to Liverpool.

[☞ Our telegram from New Orleans to-night shows that besides the above exports the amount of cotton on shipboard, and engaged for shipment at that port, is as follows: For Liverpool, 67,000 bales; for Havre, 29,000 bales; for Continent, 62,000 bales; for coastwise ports, 5,000 bales; total, 163,000 bales; which, if deducted from the stock, would leave 223,000 bales representing the quantity at the landing and in presses unsold or awaiting orders.]

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a *decrease* in the exports this week of 6,491 bales, while the stocks to-night are 90,816 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to Jan. 28, the latest mail dates:

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market for cotton on the spot opened with a downward tendency, and in the course of Saturday and Monday quotations were reduced ¼c., under a decline at Liverpool, in conjunction with the fact that we are much higher than the parity of that market. Our home spinners have been doing very little, and the only buyers, to any extent, have been for shipment to the Continent, during the past few days. Holders have had little encouragement to offer their stocks, for the reason that no moderate decline was likely to stimulate buyers. To day, the market was stronger, on steadier accounts from Liverpool, and recovery of confidence among holders, and quotations were advanced ¼c. For future delivery there was a steady decline from day to day down to the opening of business on Thursday, when the early months were fully ¼c. below the previous Friday, and the later months showed an irregular decline. In addition to the circumstances noted above as causing the decline in cotton on the spot, the receipts at the ports and at the interior towns have operated in the same direction, having exceeded what were generally considered liberal estimates. In the course of yesterday's business there was a recovery of 1-16c, from the lowest point, based on the fact that Liverpool showed a steadier tone, and that receipts were comparatively light at all points, except New Orleans, causing some demand to cover contracts, and, in a measure, reassuring operators for a rise. To-day, the demand was active, and futures further advanced 3-32@¼c., the most decided improvement being in the later months.

The total sales for forward delivery for the week are 136,200 bales, including —— free on board. For Immediate delivery the total sales foot up this week 5,419 bales, including 2,607 for export, 2,651 for consumption, 191 for speculation, and —— in transit. Of the above, —— bales were to arrive. These figures indicate an *increase* in the cotton in sight to-night of 152,018 bales as compared with the same date of 1875, an *increase* of 81,834 bales as compared with the corresponding date of 1874, and an *increase* of 574,315 bales as compared with 1873.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week and stock to-night, and for the corresponding week of 1875—is set out in detail in the following statement:

| | Week ending Feb. 4, 1876. Receipts. | Shipments. | Stock. | Week ending Feb. 5, 1875. Receipts. | Shipments. | Stock. |

The above totals show that the old interior stocks have *decreased* during the week 455 bales, and are to-night 8,298 bales *less* than at the same period last year. The receipts have been 4,847 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been *no* shipments from Bombay to Great Britain the past week, and *none* to the Continent; while the receipts at Bombay during this week have been 18,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, Feb. 3:

| | Shipments this week. | | | Shipments since Jan. 1. | | | Receipts. | |
|---|---|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. | This week. | Since Jan. 1. |
| 1876..... | .... | .... | .... | 22,000 | 21,000 | 43,000 | 18,000 | 75,000 |
| 1875..... | 36,000 | 12,000 | 48,000 | 75,000 | 43,000 | 118,000 | 36,000 | 153,000 |
| 1874..... | 12,000 | 4,000 | 16,000 | 41,000 | 21,000 | 63,000 | 27,000 | 123,000 |

From the foregoing it would appear that, compared with last year, there is a *decrease* of 48,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 75,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—There has been a very considerable rainfall throughout the greater portion of the cotton States the past week, in some districts interfering with the free movement of the crop.

*Galveston, Texas.*—The country roads continue bad, the movement of the crop being retarded thereby, especially in the Southern portion of the State. Four days of the week were rainy, the total rainfall, however, was only seventy-two hundredths of an inch. For the month of January, the rainfall here has been one inch and fifty-nine hundredths. The thermometer has averaged 57, the highest being 74 and the lowest 41.

*Indianola, Texas.*—Contracts with laborers are being made at about last year's wages, but planters are somewhat discouraged by reason of the current low prices for cotton. We have had a drizzling rain on four days, with a rainfall of forty-nine hundredths of an inch. The roads are bad. The rainfall of the month has been one inch and sixty-four hundredths. The thermometer this week has averaged 57, the highest being 77 and the lowest 33.

*Corsicana, Texas.*—We have had a slight rain on one day, the rainfall reaching seventeen hundredths of an inch. During January the total rainfall has been three inches and seventy-one hundredths. The thermometer has averaged 41, the highest being 72 and the lowest 24. Ice formed here this week.

*Dallas, Texas.*—It has rained here on two days of this week, and ice formed on one day. The weather has been variable; the roads are wretched and wagoning is difficult. The rainfall this week was twenty one hundredths of an inch, and during the past month six inches and nineteen hundredths. The thermometer this week has averaged 52, the highest being 64 and the lowest 20.

*New Orleans, Louisiana.*—We have had rain here on four days the past week, two days heavily, the rainfall reaching six inches and twenty-five hundredths. Average thermometer, 52. Rainfall for the month of January, five inches and twenty-nine hundredths.

*Shreveport, Louisiana.*—There was rain here on last Friday, after my last report closed, and on Tuesday and Thursday of this week, the rainfall reaching one inch and eighty-six hundredths. The roads are in a bad condition; still receipts show an increase over last week. Average thermometer, 46; highest 78 and lowest 24.

*Vicksburg, Mississippi.*—There has been no rain here this week. The thermometer has averaged 47, the extremes being 24 and 70.

*Columbus, Mississippi.*—The weather the past week has been cold and showery, the rainfall reaching two inches and sixteen hundredths. The thermometer has averaged 56, the extremes being 40 and 73.

*Little Rock, Arkansas.*—The weather the past week has been very variable, the thermometer ranging from 70 to 18, averaging 39. Rainfall for the week, one inch.

*Nashville, Tennessee.*—We had four rainy days the past week and a heavy snow storm yesterday (Thursday), the rainfall reaching two inches and thirty-two hundredths. The thermometer has averaged 38, the highest being 50 and the lowest 26.

*Memphis, Tennessee.*—There was rain on three days here this week, the rainfall reaching eighty-three hundredths of an inch, and yesterday (Thursday) there fell an inch of snow. Average thermometer 38, highest 48 and lowest 30.

*Mobile, Alabama.*—It rained on two days of this week constantly, and was showery two other days, the remaining three days being pleasant but cold. To-day it is cloudy and cold. The causes of the small receipts this week are the scarcity of cotton and the bad weather. Total rainfall for the week, two inches and nineteen hundredths; for the month of January, two inches and fourteen hundredths. Average thermometer during the week 51, highest 73, lowest 28.

*Montgomery, Alabama.*—There have been four rainy days the past week, the rainfall reaching two and twenty-nine hundredths inches. We have had an unusually severe storm. The thermometer has averaged 48, the extremes being 77 and 24. Rainfall for the month, three inches and seventy hundredths.

*Selma, Alabama.*—There have been four rainy days here, the rainfall reaching three inches and thirty-four hundredths. The thermometer has averaged 49.

*Madison, Florida.*—Rain fell on two days of this week, the rainfall reaching one inch and thirty-five hundredths. Average thermometer 54, highest 68 and lowest 40.

*Macon, Georgia.*—There were three rainy days here the past week, the rainfall reaching one inch and forty-six hundredths. The thermometer has averaged 47, ranging from 22 to 71.

*Atlanta, Georgia.*—It rained constantly two days of this week, the rainfall reaching one inch and ninety-four hundredths. Planters are sending cotton forward freely, about 90 per cent. of the crop having now been marketed. Average thermometer during the past week 44, highest 66 and lowest 16. Total rainfall for the month, three and thirty-two hundredths inches.

*Columbus, Georgia.*—It rained here three days of this week, the rainfall reaching two inches and two hundredths. Average thermometer 43, highest 54 and lowest 22. Rainfall for the month of January, three inches and fifty-five hundredths.

*Savannah, Georgia.*—There were three rainy days the past week, the remaining four days being cloudy and cold. Average thermometer 51, highest 78 and lowest 29. Rainfall during the week, seventy five hundredths of an inch; during the month, two inches and thirty nine hundredths.

*Augusta, Georgia.*—The weather the past week has been cold, the thermometer averaging 46, and ranging from 25 to 77. It rained heavily on two days, the rainfall reaching sixty-six hundredths of an inch; and for the month, one inch and twenty hundredths.

*Charleston, South Carolina.*—It was showery two days the past week, the rainfall reaching fifty one hundredths of an inch. Average thermometer 51, highest 76 and lowest 31. The rainfall for the month was sixty-three hundredths of an inch.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock Feb. 3. We give last year's figures (Feb. 5, 1875) for comparison.

GUNNY BAGS, BAGGING, &C.—The market for bagging has ruled very quiet during the past week, and no lots have been moved, the only orders in hand being chiefly for jobbing parcels for consumption. Holders are quoting 13@13¼c. Bales are nominal in price, at 9c. for India and 12¼@12½c. for Borneo. Bags rule dull and no transactions are to be reported. Quotations are nominal at 13½c. for 440s. Butts have also ruled quiet for the week, and only few sales are reported. We quote arrivals near at hand 3½c., currency, and distant lots 2⅝c., gold. 300 bales due this month were disposed of at a private price, but about 3½c., currency.

LIVERPOOL, Feb. 4.—4:30 P. M.—BY CABLE FROM LIVERPOOL.—The market has ruled quiet to-day. Sales of the day were 10,000 bales, of which 2,000 bales were for export and speculation. Of to-day's sales 7,000 bales were American. The weekly movement is given as follows:

## BREADSTUFFS.

FRIDAY, P. M., February 4, 1876

There has been scarcely a change in the flour market the past week, but such changes as have taken place are in favor of buyers. Low grades have been most depressed, and there has been a considerable decline in rye flour and corn meal, leading, in the case of the latter, to more activity of business. The receipts of wheat flour, here and at the West, have become quite small, showing a considerable falling off from last year, and production has been reduced in consequence of the unremunerative prices current. Choice bakers' and family brands have been in good demand at full prices. To-day, the market was quiet, but prices firmly maintained.

The wheat market has also been depressed, No. 2 Milwaukee dropping to $1 19 in store, and No. 3 Spring $1 05@$1 08, in store and afloat, but at the concession the demand was more active for export, and the close is with a steadier feeling, though comparatively quiet. Winter wheats have been very quiet, but very firmly held. Receipts at the West have been smaller than last year, and it has required but a slight revival of demand for export to give a considerable impetus to business on speculative account. To-day there was a good business, and prices were about 1c higher, the sales including choice No. 1 Spring at $1 37, but the business mostly in No. 3 at $1 06½@$1 10, in store and afloat.

Indian corn has been less active, and at times cheaper, but on the whole no important changes have taken place in prices. The supply has been moderate, and the demand fair. The low prices have had the effect of checking arrivals at Western markets, but as yet no scarcity has been felt. The speculation in prime new mixed for February delivery was active early in the week at 63c., but has latterly been very quiet. To-day, prices were higher at 63@63½c. for prime new mixed.

Rye has been quiet, and prices are nearly nominal. Barley has met with an active demand for malting, and prices are fully 5c. per bushel higher, with much of the stock held for still more money. The last sale of Canada peas was at $1 03, in bond.

Oats have been dull, and prices drooping, with considerable sales of No. 2 Chicago in store at 46½c. To-day, there was a steadier feeling, but a quiet trade.

## THE DRY GOODS TRADE.

FRIDAY, P. M., Feb. 4, 1876.

The package trade in domestic cotton and woolen goods has not been so active as was generally expected, and the aggregate distribution made during the week was strictly moderate. Jobbers from remote sections of the interior continued their purchases of spring goods, but the Western trade, from whom so much is expected at this time of year, pursued a hand-to-mouth policy, and Southern buyers bought sparingly, as did the city trade. The depression in Boston has continued, and the failure of Messrs. Whiting & McKenna, a large clothing-house in that city, was reported, with estimated liabilities of $800,000. There were also some failures of importance in this city, including "The Seamless Clothing Company," with large liabilities, and Messrs. Taylor, Gibson & Wilson, importers of trimmings, etc. The leading auctioneers commenced their regular sales of dry goods for the season, and Townsend, Montant & Co. made a peremptory sale of

about 1,200 pieces black, colored and fancy silks for Messrs. Leisler & Sommerhoff, which attracted a great crowd of buyers and proved an unexpected success.

DOMESTIC COTTON GOODS.—The export of cotton goods showed a gradual improvement in comparison with the same period of late years, and 820 packages were shipped from this port during the week, 657 packages of which were sent to Liverpool. Further orders were also received by cable for print cloths for the English market at prices which will leave a slight profit to manufacturers. The home demand for cotton goods was steady but moderate. Brown and bleached cottons were in fair request, and firm at ruling quotations. Cheviots were a trifle more active, but denims, tickings and other colored cottons remained quiet. Corset jeans and satteens were taken in considerable amounts, and there was a moderate movement in cottonades. Grain bags were dull, and there was not much animation in either carpet warps, yarns or twines. Print cloths were nominally firmer, but prices for extra standard 64x64 makes were unchanged at 4⅛c., cash to 10 days, at which figures a few small transactions were reported. Prints were in moderate demand, but not active, and shirtings, cambrics and percales were placed in fair amounts with the shirt trade. Hartel's shirting prints were closed out to a leading jobbing house, who sold them at the remarkably low price of 5¼c., at which figures a line of Passaic mourning prints were offered by the same house in package lots. Ginghams and plaid cotton dress goods were in better demand, and cotton hosiery met with liberal sales.

DOMESTIC WOOLEN GOODS.—Woolen goods for men's wear continued quiet, and operations in spring weights were chiefly restricted to small lots of fancy cassimeres and worsted coatings of the better grades. The clothing trade placed further orders for all-wool and cotton-warp beavers and chinchillas for the fall trade, to a fair aggregate amount. Cloths and doe-skins remained sluggish, and Kentucky jeans, satinets and tweeds moved slowly and in small parcels. In flannels and blankets there was no movement of importance, and carpets were less active than when last reported upon. The various agents for worsted dress fabrics opened their spring productions, and the several textures of the Pacific, Manchester and Washington mills were favorably received by the trade, who placed orders for future delivery to a considerable amount. Worsted shawls were in fair request by jobbers from California and other distant points, but the Western and near-by trade have not yet commenced their purchases of these goods.

FOREIGN DRY GOODS.—The proposed change in the tariff has not created much excitement in the trade, who regard its passage in Congress as doubtful. The intended simplification of the method of imposing duties has been received with general favor Business has been rather more active with importers of dress goods and a few other specialties, but the general trade has been dull and featureless. Woolen goods for men's wear have been very quiet. Silks were in moderate request and steady. White goods and embroideries moved slowly, and large lines of the latter were pressed to sale through the auction rooms, where they realized low prices. Housekeeping linens were quiet in first hands, and shirting and clothing linens moved slowly. Dress linens were in fair request. Handkerchiefs continued dull and in large supply. Kid gloves were in about the usual demand, and firm.

We annex prices of a few articles of domestic manufacture:

The Company's actual losses by Chicago conflagration in 1871 were $1,743,457 81.

The Company's actual losses by Boston conflagration in 1872 were $503,680 46.

Yet the Company paid these losses at sight without borrowing or selling a single dollar of permanent investments, continued regular dividends to their stockholders, and at the end of 1873 had entirely made up (not in this country, however), the losses of these two conflagrations and all others, commencing 1874 with a surplus over $100,000 larger than ever before.

Annual Income of Fire Department alone over $4,000,000.

Fire and Life Assets entirely distinct—the one not liable for the other.

The Company organized A. D. 1809. Commenced business in this country A. D. 1867.

### Mortgage Security Co.

OFFERS FOR SALE, AT PAR,

**SEVEN PER CENT TEN-YEAR BONDS**

SECURED BY

**FIRST MORTGAGES OF IMPROVED REAL ESTATE,**

GUARANTEED, PRINCIPAL AND INTEREST,

BY ITS

**CAPITAL STOCK OF $500,000.**

Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next-due Coupon being stamped so as to denote that interest begins at the date of purchase.

A Pamphlet with full information will be sent on application to the Company's Office,

**43 Milk Street, Boston.**

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined a to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western States, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and Interest are more promptly paid; and upon the success of Agriculture depends that of almost every industrial investment.

## CONGRESS AND THE STATE OF BUSINESS.

It is one of the evils of our financial system that business men have acquired the habit of looking to Congress and to its daily debates for assistance in the work of forecasting the future of business and of the money market. For reasons which are discussed elsewhere, we are inclined to hope that this bad habit, induced by our war finance, will soon be as little practiced among us as it was 20 years ago. Business in modern times depends upon such a complicated mechanism of causes and effects, that it has risks enough of its own, and does not consent without serious damage that these risks should be supplemented by others which are avoidable and needless. It is therefore satisfactory to observe that the business community have complained less frequently during the present session; and that, instead of mischief being the result of the discussion of our finances, there has been exhibited a conservative spirit by conspicuous members on both sides, which has aided instead of disturbing the public confidence. We have more than once called attention to this point, and we are reminded of it by the favorable impression which has been made during the present week by the speech of Mr. Blaine, in the House of Representatives, on Thursday.

Whatever may be thought of the general tone of Mr. Blaine's speech, two or three fundamental questions which he has raised should, undoubtedly, command the attention of all classes of our people. First of all is the question, so important to all business men, of the specie standard. Many superficial people have thought, with John Law, that commercial debts between nations and individuals could be settled without any specie standard by which to measure relative values. It was pardonable, perhaps, a century and a half ago, for even an able and experienced banker like John Law to fall into such a fatal error as this. Financial science was then in its infancy, but it has since advanced with rapid strides, although it is even yet, like other branches of political knowledge, very far from perfection. Still it has thoroughly exploded this error and banished it from all Europe. Except in this country, there is not, we believe, to be found in the commercial world any body of intelligent men who seriously believe that the specie standard of monetary values can be dispensed with. To a future generation it will be a subject of curious investigation, how so many individuals among us, possessing intelligence, patriotism and experience, could have allowed themselves to be the dupes of such fantastic theories. To this class Mr. Blaine gives no quarter. He reveals to us a law of finance as resistless and universal as the law of gravitation, which acts upon us whether we will or no. Our contracts, our obligations, our daily buying and selling, are controlled by the standard of coin. "Let us not delude ourselves," he says, "with the belief that we can escape the specie standard. It rules us to-day, and has ruled us throughout the whole legal-tender period, just as absolutely as though we were paying and receiving coin daily. No nation has ever succeeded in establishing any other standard of value; no nation has ever made the experiment except at great cost and sorrow; and the advocates of irredeemable money to-day are but asking us to travel the worn and weary road traveled so many times before—a road that has always ended in disaster and often in disgrace."

Next in importance to this principle, that the specie standard is established and maintained in all commercial countries, even where it seems to be set aside by the use of a depreciated currency, is another principle, on which

Mr. Blaine is even more explicit. He tells us that to attempt, as this country has done during nearly half a generation, to set up an irredeemable currency, is to introduce into the body politic commercial evils of the most fatal virulence and magnitude. The periodical revulsions in trade, from one of which we are now suffering, are the direct and immediate consequence of our vicious financial system, and these evils, it is to be feared, might go on multiplying with resistless force, except the causes which have produced them can be got rid of. We need not pursue the train of arguments by which this principle was demonstrated. It was intended to pave the way for the conclusion which every sound currency man in all sections of the country will endorse, that, among the remedies for our financial troubles, the resumption of specie payments must occupy the chief place. He says:

"Overtrading, the wild spirit of speculation, the undue expansion of credits, enormous investments in premature enterprises, have worked out their legitimate and inevitable results, and with a full volume of paper money the crash came; prices have fallen, settling day has arrived, painful liquidation proceeds, and the whole commercial and financial fabric is settling down on a solid foundation. Experience convinces where precept falls only on deaf ears, and to-day we have men by the thousand longing and asking for a return to specie, who, three years ago, would have violently opposed it. To attempt now to build up business by further inflation of the currency involves a theory so wild and destructive that it requires a man of great nerve or of great ignorance to propose it. Indeed, the shock to confidence by the panic of 1873 was so great, that many commodities, and especially many fabrics, are below their normal price, and a firm, clear, decisive step in the direction of a sound, redeemable currency, imparting stability to our financial system, and confidence to the people, would, in the judgment of our best merchants and manufacturers, be followed by a rise in prices, by a quick and widespread demand for labor, and by a generous and general revival of trade and business throughout the country. And beyond that we should enter upon an export trade in our fabrics such as we have not dreamed of in the past. The time is ripe for it, outward circumstances are all propitious, and it only remains for Congress to give to the country a steady currency, and the abounding energy and enterprise of our people will do the rest. There is not a cotton plantation in the South, not a grain or grazing farm in the West, not a coal-pit or iron-furnace in Pennsylvania or Ohio, not a manufactory in New England, not a ship-yard on the Atlantic coast, not a lumber camp from the Penobscot to the Columbia, not a mile of railway between the two oceans, that would not feel the quickening, gainful influence of a final and general acquiescence in measures looking to specie payment. If the people of the United States were fully awake and aroused to their interests, and could see things as they are, instead of increasing the power of Congress over the currency, they would by the shortest practicable process divorce the two, completely and forever. And this can only be done finally, effectually, irreversibly, by the resumption of specie payment."

The exposition and defence by Congressional leaders of such wholesome principles of finance as those referred to, is very salutary. It is calculated to promote a stability of public confidence, which is one of the prime conditions of that recuperation of commercial industry for which our people are so anxiously looking.

It is easy to see how a favorable influence is ascribed to the conservative movements of the public credit in and out of Congress. Capital is just now in an extremely sensitive condition. There is a great accumulation of idle money in all our financial institutions throughout the country, and the difficulty is to find acceptable avenues for its safe employment. Two contradictory symptoms are thus visible in the loan market: there is an abundance of unemployed capital awaiting borrowers, on the one side; and, on the other side, there is a vast array of suffering industries which are languid and prostrate, waiting for the capital, without which they cannot resume vigor and activity. Now, the reasons why capital cannot be had, although it is so plentiful, are numerous; but the chief of them all is, that our perishing industries require capital which they can convert into fixed forms, while the capital offering in the loan market refuses for the most part to be so converted. The owners of this capital are willing to accept very low rates of interest rather than submit to the necessity of placing it where it would be converted into fixed capital, and thus put beyond their control on demand.

Here is one of the weak points in the financial situation. We have not yet sufficiently recovered from the immense destruction of capital in the panic of 1873 to be able to endure the transmutation of floating funds into fixed capital with the rapidity which is demanded for our growing industry and commerce. It is true, that, as Mr. Blaine stated, our National wealth is increasing and deposits are being heaped up in our banks and lending institutions, but we have not yet arrived at the advanced stage in the process of recuperation in which capital is ready to take hold freely of the various industries of the country that need it in fixed and permanent forms. In other words, financial credit and confidence are weak, and among the methods by which they receive strength are those which we have been considering. The same principles might be applied to foreign capital, which is always more accessible for fixed investments in proportion as the general confidence rises to a higher level in financial circles. The recent failures in this city and elsewhere have caused an uneasy feeling in some quarters, and we learn that the general reports from the whole country show a slight increase in the aggregate of these disasters over last year. Still there is nothing in this report to contradict the evidence which is multiplying on all sides. Amidst much that is discouraging there is abundant ground for confidence that the process of shrinkage is salutary and gives the promise of an early reaction and partial revival.

## SAFEGUARDS AGAINST INFLATION.

We have had frequent occasion to direct public attention to the practical safeguards by which our currency system has been protected of late against inflation. These safeguards are of various kinds. Some arise out of the abstruse and complicated principles which control the effects of new currency laws, and cause them at times to produce results the very opposite of those intended. A conspicuous instance of this is supplied in the legislation of last year, which was favored by many paper-money men, but has grievously disappointed their expectations of currency expansion.

Another class of safeguards are founded upon the intelligence of the people. General Garfield, in his admirable essay on "The Currency Conflict," in the *Atlantic Monthly*, has shown how the sound views prevalent throughout the nation before 1862, were eclipsed and darkened by the paper-money spectre, which spread its gigantic arms over the West and South. He, however, fails—as it seems to us—to bring out into a clear light the undoubted fact that throughout the war, as now, a very large majority of our thoughtful citizens have held fast the old faith in specie as the only safe standard of value, and redeemable notes, payable in coin, as as the only paper currency which modern commerce can safely use. Relying on this general conviction of the masses of our intelligent population, we have persistently maintained that Congress, however much its individual members might, many of them, loiter or turn aside, would be steadily though slowly urged on by the resistless pressure towards the goal of specie payments.

There is a third class of safeguards which spring out of our popular institutions and are the natural growth of our peculiar system of free government. Of late

several illustrations have been conspicuous. The most recent, perhaps, is found in the vote last Monday on Mr. Casson's motion to suspend the rules, so that the House of Representatives might vote separately on two resolutions touching specie payments. These resolutions were very simple. The first affirmed, "that the Constitutional authority of Congress to coin money and to regulate the value thereof, and of foreign coin, does not include the authority to issue the paper of the Government as money, and in the judgment of the House the Constitution nowhere confers on Congress the power to issue in time of peace the promises or obligations of the Government as a legal tender in payment of debts." The second resolution declared, "that any legislation touching the legal-tender currency of the Government should keep steadily in view the resumption of specie payment, and should tend to enhance the value of that currency, for the redemption of which the faith of the United States has been pledged to its citizens."

At first sight it may seem strange that these simple resolutions should meet with any opposition in the House, where the sound-currency men claim a majority of between twenty and thirty votes. Still, Mr. Casson's motion was rejected. The rules were not suspended, the vote being 140 to 96. Many theories have been offered of this action by the House. The true explanation, no doubt, is that which assumes that Congress has a wholesome dread of touching the sacred ark of the currency, and that the Nation is almost as effectually protected against meddlesome legislation as if the currency question were, for the time being, withdrawn from the arena. We have thus reached a point in the history of the present era of greenback inflation, when, for the first time since the war, the Nation has begun to feel secure, and to be conscious that our currency system was settling down with some incipient firmness towards the solid rock of specie payments. If the efforts and sacrifices by which we have achieved so much towards resumption, had accomplished for the country no more than this, they would have been worth all they have cost. In this assurance, which is rapidly pervading the whole country, that Congress is held back and restrained by new impediments and powerful safeguards, so that the fear of currency perturbation from this cause need not at present paralyze industry and fetter the productive energies of our citizens, we have the gratification of contemplating the fruit of much labor in the cause of currency reform. When the Legal Tender act was passed in 1862 its opponents showed that it would introduce the currency question into politics. Fourteen years have elapsed since this prediction was made, and every session of Congress has verified it. Some of our wisest statesmen have agreed with Mr. Chase in the belief that it will be impossible, under our system of government, to withdraw this delicate and difficult question of the currency from the troubled sphere of party political warfare; it does seem, however, as though the difficulty is approaching its solution. President Madison used to say that the mission of this country among the nations was to show that that could be done which political wisdom and experience had pronounced impossible. If, prior to the resumption of specie payments, we can so far withdraw the currency question from the arena of party politics as to close the door effectually upon all hope or fear of further inflation, we shall certainly do that which men of experience at home and abroad have deemed beyond our power. Whether this important safeguard can be kept up in the future, remains to be seen. For the present, it appears that the public expect, with good reason, an exemption during the present year, from those peculiar evils which currency legislation has too often produced in the past.

## GOVERNMENT LIABILITY FOR SECURITIES SURREPTITIOUSLY ISSUED.

The United States Supreme Court decided a case of considerable interest, towards the close of the year, defining the position of the Government on paying a forged 7-30 note, and its position also on paying one which had been surreptitiously issued. Although this class of security has now been paid off, the principles laid down in the decision apply to some other issues of the Government, and also to similar acts done by State and city officials, and hence, if maintained, become of considerable importance. The case arose out of the fact that the Assistant Treasurer in New York purchased and redeemed before maturity eighteen of these notes, of Jay Cooke & Co. After payment it was discovered that they were either counterfeit or possibly notes printed from the genuine plates but surreptitiously issued. Thereupon the Government brought an action to recover back the money.

It is a well-established principle of commercial law that where an individual accepts forged paper purporting to be his own, and pays it to a holder for value, he cannot on a subsequent discovery of his mistake recover back the money paid. The idea which underlies this rule is, that between two parties suffering loss the one must bear it who is guilty of negligence. We can readily see how the *bona fide* holder may be greatly prejudiced by the acceptance and payment, if the money could be recovered back. Hence, the law says that as a man must be supposed to know his own signature, he should be able to detect a forgery at once; when the demand is made upon him he has the opportunity to examine the signature, and the Courts hold that is sufficient for his protection. Any further delay in discovering the forgery would be unnecessary and unreasonable; and therefore such delay shows negligence, which throws the loss upon the one who is guilty of the negligence.

Another point which has been settled is that the Government of the United States, in its acts in connection with commercial paper, is subject to the same legal regulations and liabilities and forfeitures that an individual is subject to. That is to say, if it takes a promissory note or bill of exchange, and desires to charge the endorser, it must present it for payment when due and have it protested for non-payment in the regular form and way, or it will suffer the consequences of its negligence. Hence, it is argued that—unless there is some special exception in this particular—when the Government accepts and pays a treasury note, it acknowledges the note as its own, and cannot subsequently set up that it was forged, and recover back the money paid, any more than an individual can. Some claim, however, that this rule does not apply—that the analogy does not hold good, because no one has the power to bind the United States to that extent. Government officers must act strictly within the statute; outside of that they have no authority; and there is no authority in the statute for paying any notes except specified genuine ones. If this were an open question, we should incline to that view; but this decision seems to settle the point definitely, that when the proper officer has passed upon and paid such a

note, the money cannot be recovered back; thus placing the Government in the same position and under the same rules governing the acts of the individual.

The Court, in this case, against Cooke & Co., also went one step further and held that if the notes were not counterfeit, but were printed from the genuine plates, and in some way stolen and issued, the Government could not recover back the money paid. This we should also think was a very doubtful proposition if it were not for the authority of the present decision. We notice, however, that Justices Clifford, Field and Bradley dissented, and that Justice Miller did not sit on the argument or take part in the decision. How far, therefore, the principle of the decision will be carried, it is difficult to say. The question before the Court would seem to have been whether securities of the Government, put in circulation fraudulently, are a claim against that Government. Still, it may be said that this case does not decide that point precisely, but holds, simply, that if the proper officer of the Government should pay such a negotiable instrument so issued, it cannot recover back the money. This view of the decision may be correct, and yet, if we study the facts and the conclusions from those facts, as the Court states them, it will be difficult to accept that view. It should be remembered that these 7-30 notes were complete when issued. That is, they did not require any signature of an officer, as that was printed on; and as soon as they had received the impression of all the plates and dies necessary to perfect their form, they were ready for circulation and use. Whether a coupon bond, which is also negotiable and similarly executed, would be held to come under the same rule, we do not undertake to say; and yet the general result of the reasoning and argument in the opinion would include such bonds. In fact, the opinion is quite broad. One part of it, referring to the objection of the Government that the act did not authorize the Secretary to retire any notes except such as were issued by some authorized officer, in pursuance of law, stated that this was too narrow a construction of the act. "In the prosecution of the war an immense debt had been contracted. To meet the pressing "demands upon the credit of the Government, various "forms of securities had been put forth, some of which, "like those now under consideration, would mature at "an early date, and sooner, perhaps, than they could be "met without the negotiation of new loans. In view of "this possible contingency, Congress seems to have been "desirous of meeting its obligations of this class whenever they could be exchanged for, or retired with the "proceeds of the sale of, certain specified bonds having "a longer time to run. The object evidently was to get "rid of this species of debt, and we think the act may "be fairly construed to authorize the retirement of all "notes of this class outstanding *which the Government "would be required to meet at maturity.*" This last sentence indicates that this portion of the decision was based on the idea of the Government's liability to pay these notes, however issued. If that be so, the fact of payment was not important on this branch of the case; the Government was liable to meet them at maturity, however issued; and hence, payment then was only anticipating that liability.

But we pass from these points to the one other raised in the decision, and that is, would payment by the Assistant Treasurer in New York estop the Government. We deem it unnecessary to follow closely the reasoning on this portion of the case. It is sufficient to know that, under the circumstances, the Court held it would not, The opinion says, where no particular place is specified in the instrument, it is payable at the Treasury, and that is at the "seat of Government and in the Treasury "Department. In this department the Secretary repre-"sents the Government." Until such time, therefore, as the Secretary has acted, or in due course of business ought to have acted, there can be no such laches as will charge the Government. In this instance the notes were delivered to the Assistant Treasurer in New York, on different days between September 20 and October 8. The first suspicion in Washington with regard to their character was October 5. All the notes were found and returned to New York October 12, and the next day Messrs. Jay Cooke & Co. were notified. Under the circumstances the Court holds that there was no unreasonable delay, either in transmission to or return from the Treasury department.

## RAILROAD EARNINGS IN JANUARY.

The year opens very favorably with the railroads, and it will be seen by the table below that a large majority of the companies in the list show a material improvement in their earnings for January, as compared with the same month of last year. It may fairly be assumed that operating expenses are at least as low as last year, and that net earnings therefore are considerably increased. The largest increase shown by any one road is that of the St. Louis Iron Mountain & Southern, being $101,411. The earnings of this road, of the Missouri Kansas & Texas, and of all the railroads which do a good share of the overland cotton business, have unquestionably been assisted by the large cotton movement up to this period of the season. The Central Pacific railroad earned very nearly the same as last year, showing a difference of less than $3,000 on gross receipts of $963,938. We hardly look to see so large an *increase* this year in the earnings of the Central and Union Pacific roads, as they will do sufficiently well if they keep up their earnings to the large figures of last year, when they were exceptionally prosperous as compared with most of the railroads of the country.

One of the principal influences of importance bearing upon the question of railroad earnings has been the proposed repeal of the granger laws in some of the Western States, and particularly of the "Potter" law in Wisconsin, as a bill to modify this is now pending in the Legislature of that State, with a fair prospect that it will be passed. A still more important influence, however, and one having a more general bearing on railroad traffic, was the agreement among the principal roads for the maintenance of rates on a higher and more satisfactory basis. The annual reports which have been published recently of a large number of the leading railroads show that the cause of their small earnings last year was more in the low rates received than in a great loss of tonnage; and whether or not the expectation will be fulfilled, it is quite generally anticipated that the railroad officers, having experienced the injurious effects of disagreement among themselves and cutting under in rates, will be more harmonious hereafter, and not indulge in the expensive luxury of quarreling.

In some parts of the West the wagon roads have been so soft as to prevent cartage, and the railroad freights have been smaller in consequence; this, and the soft condition of corn, rendering it unfit for shipment, have reduced the earnings of the Keokuk and Des Moines road.

[From our own correspondent.]

LONDON, Saturday, Jan. 22, 1876.

The position of the Bank has further improved this week, the proportion of reserve to liabilities being now 39 per cent, against 36¼ per cent. last week. The changes since the date of the last return are generally of a satisfactory character, the supply of bullion having been augmented by £387,387, and the reserve of notes and coin by £699,161. The demand for money exhibits a further reduction, there being a decrease of £283,180 in the total of other securities, and Government has repaid £500,000 to the Bank, being one-fourth of the sum borrowed to pay the dividends. In the supply of bullion the increase is larger than had been anticipated, and, consequently, coin has been returning from provincial circulation.

During the early part of the week, the foreign exchanges were less favorable to this country, and there was a moderate demand for gold for export. Money in the open market had been obtainable at as low a figure as 3½ per cent, or 1½ per cent below the official minimum. The state of the Paris exchange, however,—the quotation having fallen nearly to the point which would lead to an export of gold,—and the possibility of Germany taking £500,000 for coinage purposes, caused a firmer tone to prevail, and the banks and discount houses ceased to take bills at that low rate. Such, however, is the abundance of money, or, in other words, such is the scarcity of commercial bills, that the recovery has not been very important, the best bills being still taken at 3¾ to 4 per cent. It is not considered probable that the number of mercantile bills in circulation will speedily increase. A few somewhat ominous failures, to which I shall presently allude, have taken place, and they have naturally had the effect of checking any tendency to improvement in business. It is not, it may be added, at all clear that any such tendency was apparent, but, in any case, the effect of further embarrassments cannot be good. These are general complaints about the condition of both the wholesale and retail trades. A very general opinion prevails that there has been but little gayety this season, the absence of which must interfere sadly with certain branches of trade. But when we consider that Peru and Spain have paid no dividends, and that Turkey is only about to distribute a molety of what she owes in the way of interest, it cannot be at all a matter of surprise if a very considerable section of the community is compelled to enforce rigid economies. The losses sustained cannot be surmounted in a brief period. They have only been just felt, for the dividends were only due at the commencement of this month; and, should Peru become a permanent defaulter, many must suffer very seriously. Although, however, failures are taking place, it is not believed there is anything disastrous to apprehend. Trade, though quiet, is being conducted, even if with small profit, at least with but few losses, as a very cautious policy is still pursued; but as long as the majority of the people are exercising strict economies, and as long as failures of some importance continue to be made public, a decided revival of business is scarcely possible.

The demand for money during the week has been very moderate, and the rates of discount are as follows:

There has been a moderate demand for gold for export, and all incoming supplies have been absorbed. About £300,000 is due from Australia next week, and it is certain that this will also be sent abroad. Silver has been in improved demand for India, and

a considerable amount of business has also been done on Continental account; but the Council bills on India having sold at lower rates, prices have since become easier. Mexican dollars are in fair demand for China. Annexed are the quotations:

The periodical sale of bills on India was held at the Bank of England on Wednesday. The amount allotted was £700,000, of which £400,000 was to Calcutta, and £300,000 to Bombay. Tenders on Calcutta at 1s. 9 3-16d. received 18 per cent, and on Bombay at 1s. 9¼d. in full.

The Bank of Prussia has reduced its rate of discount to 5 per cent. The state of the Bank account fully justified that course, and, no doubt, the mercantile community were glad of the change, as trade in Germany is reported to be neither active nor remunerative.

The failure has taken place at Lyons this week of Messrs. Chartron et Monier in the raw silk trade. The liabilities are estimated at £300,000, and, in consequence of that stoppage, Messrs. Gaury & Co., of London, have failed for £100,000. The suspension of Messrs. Spotten & Co., of Belfast, also appears to have created considerable difficulty with firms with whom they had business connections.

The half-yearly meetings of several of the principal banks and discount houses have been held this week, and they have passed off satisfactorily. At the meeting of the London Joint Stock Bank the directors' report showed that, after providing for rebate, and crediting the guarantee fund with £7,840 for six months' interest, the net profit for the half year had amounted to £122,311, of which £90,000 has been appropriated for a dividend at the rate of 15 per cent. per annum, and £30,000 for a bonus of 7s. 6d. per share (together £1 10s. per share, equivalent to 10 per cent. for the half year), leaving £2,311 to be carried forward. The guarantee fund now stands at £532,866. The "amount due by the bank on current accounts, deposit receipts, circular notes and acceptances," &c., is £19,369,967; the "bills discounted, loans and other securities" represent £17,678,144. The half-yearly meeting of the shareholders of the London and Westminster Bank was held on Wednesday, and a dividend of 7 per cent. for the half year was declared. The report states that the net profits of the half year have been £182,568 12s. 4d., and, after the payment of the above dividend, the "reat" or surplus fund will amount to £710,060 6s. The amount due by the bank on deposits, circular notes, &c., is £28,774,117 10s. 11d., the total of the bank's acceptances being £1,235,939 2s. 1d. Bills discounted, loans and other securities reach a total of £24,081,048 16s.

The corn trade has remained dull, and difficulty has been experienced in obtaining former prices except for the better qualities of produce. Owing to the recent depression in the trade, Messrs. Samuel Radford & Sons, of Liverpool, have been compelled to suspend payment. A meeting of creditors was held on Wednesday, at the offices of Messrs. Harmood, Banner & Son, North John street, Liverpool, at which the liabilities were stated to be £136,000, while the assets amounted to £154,000. Messrs. Radford offered payment in full in two instalments at three and six months; but it was resolved, with a view of enabling them to make the payments with greater certainty, that they should be three in number, and extend over nine months.

The last official return shows that in the 150 principal markets of England the farmers delivered 43,412 quarters of wheat, against 67,082 quarters in the corresponding week of last year; and it is computed that in the whole Kingdom the sales amounted to 173,650 quarters, against 268,330 quarters, being a decrease of 94,680 quarters. Since harvest, the deliveries in the 150 principal markets have been 925,577 quarters, against 1,236,613 quarters, and in the whole Kingdom it is estimated that they have amounted to 3,702,300 quarters, against 4,946,500 quarters in 1874-75, being a diminution of 1,244,200 quarters. It is estimated that the following quantities of wheat and flour have been placed upon the British markets since harvest:

The quantity of wheat now afloat to the United Kingdom amounts to 1,232,000 quarters, against 1,613,000 quarters; of barley to 96,500 quarters, against 368,500 quarters; and of Indian corn to 80,730 quarters, against 140,600 quarters last year.

With regard to the wool trade, Messrs. Hoare and Hudson remark that, since the close of last November-December sales business has been very quiet, and prices remain unaltered. There are a few inquiries for new wools, both on home and foreign account, but as shipments are generally held for public sale, there is little or no business to report. Manufacturers' and dealers' stocks are being freely consumed, and are likely to be very small at the commencement of next sales, which is fixed for the 15th of February. The arrivals to date are: Sydney and Queensland, 3,737; Port Phillip, 11,911; Adelaide, 5,890; Van Diemen's Land, 215; New Zealand, 2,092; and Cape, 21,141 bales, making a total of 44,986 bales. The quantity of wool estimated to be afloat is as follows: Sydney, 24,000 bales; Victorian, 121,000; South Australian, 56,000; New Zealand, 2,000; and Cape, 1,000 bales.

Business in the stock markets during the week has been very quiet, and the tone has been rather dull, though an improvement has manifested itself in some departments during the last few days. American railroad bonds have been in moderate demand for investment, and the tendency has been favorable.

---

LONDON, Saturday, January 29th.

The directors of the Bank of England have this week reduced their *minimum* rate of discount from 5 to 4 per cent. The alteration was fully expected, the rates of discount in the open market being about 1½ per cent. below those current at the Bank of England. The Bank has, in consequence, been transacting very little discount business of late, and it has reduced its terms with a view to place itself in a more favorable position. The Bank return also shows that it was impossible for the week to be allowed to pass without making the change. There has been a considerable return of notes and coin from provincial circulation, during the week, resulting in an increase of £809,943 in the total reserve, and the proportion of reserve to liabilities, which was last week 39 per cent, is now 43½ per cent, being an improvement of rather more than 4 per cent. It is well known that the recent advance in the Bank rate was caused by the German demand for gold, and by some exports which were made to Paris. Latterly, the demand has been very moderate, and, although the importations of bar gold have been absorbed on account of the German mint, yet there have been some arrivals of sovereigns from the continent and these have been sent into the Bank. It is probable, also, that during the next few weeks, the arrivals of coin from the provinces will be on a considerable scale. The demand for coin, owing to the slackness of trade, is decidedly below the average and there is every reason to believe that the position of the Bank will continue to improve. There is certainly nothing known at present calculated to make money dear, though, of course, we are liable to brief periods of perturbation as long as the coinage operations are in progress in Germany. As far as this country is concerned, a very quiet year is anticipated. There is no expectation of any speculative activity in trade, and it is very certain that only financial schemes of undoubted soundness will meet with public support. The year will evidently be one of much inactivity, as great caution and circumspection will be observed, the disasters of last year being too fresh to admit of any alternative course. There will, no doubt, be a considerable amount of money seeking investment; but the security required will have to be of the first

class, as the investing public refuse to look at anything of a doubtful nature.

The money market has been very quiet during the week, but since the reduction of the Bank rate to four per cent, there has been no material alteration in the rates in the open market. The supply of commercial bills is still very limited. Annexed are the quotations:

There has been a moderate importation of gold during the week, about £300,000 having arrived from Australia. The whole of the supply of bar gold in this market has been purchased for export to Germany, but latterly sovereigns have been arriving in moderate quantities from the Continent. The value of silver continues to decline. There are large supplies offering, and, in the absence of any Indian demand of importance, lower prices have to be taken, both for bars and Mexican dollars.

The low point to which the Indian exchange has fallen has attracted considerable attention of late. The quotation is now only 1s. 9½d. per rupee, and the Indian Government are losers by the low price current. The slackness of our trade and the abundant supplies of silver are obviously the causes of the low prices current for bills. It is estimated that the Indian Government lose £2,000 at each of their periodical sale of bills, for each decline of 1-16d. per rupee, the amount of bills usually offered being £700,000.

Mr. Richard Banner Oakley, the Manager of the Co-operative Credit Bank—the institution which introduced to public notice the Keoknk & Kansas Railway—has been arrested on the charge of obtaining money under false pretences. This company guaranteed depositors 18 per cent. interest per annum, and it is certainly surprising that after recent experiences, persons should be found willing to co-operate in any way in an undertaking, the promises of which could not possibly be fulfilled. Mr. Oakley and his colleagues have been lecturing in the smaller towns and villages of the Kingdom on the excellencies of co operation, and he succeeded to the extent of extracting £50,000 out of the pockets of those who certainly could not afford to lose. No one can, of course, sympathize with persons who grasp at 18 per cent. annual interest, but to the extent to which Mr. Oakley is legally guilty, will depend upon how far, in his co-operative system, depositors have made themselves shareholders. A few days before the "bank" broke, a lady deposited securities valued at £900, and another sum of £100 has since been received. These sums were employed to pay out an execution and remunerate the clerks, only a few shillings being found when the legal entry to the premises was effected. It is probable that on these two last transactions, the prosecution will endeavor to establish the charge of fraud.

Subscriptions are invited by Messrs. Foster & Braithwaite and Messrs. Heseltine, Powell & Co., for $3,000,000 six per cent consolidated mortgage bonds of the Pennsylvania Railroad Company, the principal and interest being payable in United States currency. The price of issue is to be 85 per cent, or £170 per bond of £200. The prospectus states that the bonds form part of a total of $5,000,000, issued in Philadelphia, of which $2,000,000 have been placed there as registered stock. The $3,000,000 now offered are "to bearer." They are included in the same mortgage, and have precisely the same security as the Consolidated Mortgage Sterling Bonds issued in London and now quoted 98 to 99.

## FRIDAY, FEBRUARY 11, 1876—6 P. M.

**The Money Market and Financial Situation.**—The financial situation remains substantially unchanged since our last report; money is quite easy, government bonds strong and active, railroad bonds and stocks somewhat variable, gold dull, and foreign exchange stronger.

There was a little surprise at the bank statement last week, which showed a decline in the surplus reserve, chiefly in consequence of a considerable increase in deposits; but this was not regarded, upon the whole, as indicating any particular change in the course of the money market, and the opinion is still general that money is likely to be easy for some months to come, though it is questionable whether there will be such a glut of money as we had last year. On call loans the prevailing rates have been 3@4 per cent on government collaterals, and 4@5 per cent on miscellaneous stocks. Prime commercial paper is in sharp demand, and there has seldom been a time when there was a smaller supply of choice paper offering. Merchants are disinclined to borrow money to enlarge or push their business, and those having money are, in some cases, inclined to let it lie idle, loaned at 3 per cent on sound collaterals, rather than to use it in merchandise operations.

The best paper has been sold at 5 to 5½ per cent., and in some exceptional cases sales have been made still lower.

The Bank of England statement on Thursday showed a gain of £76,000 in bullion for the week—the discount rate remaining unchanged at 4 per cent. The Bank of France gained 19,125,000 francs in specie.

The weekly statement of the New York City Clearing-House Banks, issued February 5, showed a decrease of $700,000 in the excess above their 25 per cent. legal reserve, the whole of such excess being $14,799,725, against $15,505,725, the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. | | | 1875. | 1874. |
|---|---|---|---|---|---|
| | Jan. 29. | Feb. 5. | Differences. | Feb. 6. | Feb. 7. |

| Legal tenders | 44,030,000 | 47,356,200 | Dec. 673,800 | 57,275,400 | 59,052,900 |

**United States Bonds.**—There has been an active business in government bonds under the continued purchases of insurance companies, savings banks, trust companies, etc. Corporations of this class, both in New York, in other large cities and in the country, are among the buyers. The Northampton Bank robbery, the Boston forgeries, and the commercial failures which have occurred, have all tended to shake confidence, and in New England there is a greater inclination than ever to invest in governments. There have been some sales by foreign bankers, and although the margin between London and New York prices is not as large as it was, at times, in January, there has still been profit enough to admit of a considerable movement in this direction. Here, there seems to be nothing for a corporation to invest in that is really satisfactory, both as to soundness and ready convertibility into money, except United States bonds. We heard the remark of one officer of a savings bank, that they would have to buy governments if they paid 150 for them. This week, five-twenties of 1867, ten-forties, and particularly new fives of 1881, have been in favor with purchasers.

**State and Railroad Bonds.**—The business in State bonds has been moderate. Tennessees are lower, and the advices from the State seem to be considered unpromising. The following is one of the press despatches:

NASHVILLE, Feb. 9.—The Comptroller has furnished the following statement of the financial condition of the State's assets: Next January $1,201,702 will be due. The liabilities will amount to $3,648,249, leaving a deficit of $2,446,547. In January of 1878 the assets will amount to $1,318,702; liabilities due, $1,459,027, leaving a deficit $3,140,325. The entire interest-bearing debt of the State amounts to $22,908,000.

The Comptroller of the State of New York has sold $2,000,000 of Canal 6's, due in 1892, held by him in trust for the Bounty Debt Sinking Fund. The sale was made, on public tender, for 119 in Bounty 7's at par. The whole Bounty Loan matures on April 7, 1877. In trust for the Bounty Loan, which pays 7 per cent. currency interest, he has received 6 per cent. gold on the Canal 6's, and now sells them out at an advance of fully 10 per cent. currency.

Louisiana consols are not quite as strong. South Carolina consols are firmer, and it is concluded that the interest will be paid on the 15th inst., according to notice.

Railroad bonds have shown a good business, with a tendency towards higher prices. The Pacific bonds have been more freely dealt in at an advance. The St. Paul and Northwest bonds have been decidedly strong, in sympathy with the stocks, and the consolidated 7's of the first-named company sold to-day at 88. The continued advance in government bonds must naturally lead parties to look for other investments which pay a better interest on their cost, and there seems to be reason why first-class railroad bonds should sell at still higher prices than they have yet reached. Hannibal and St. Joseph 8 per cents fell off on reports that the company had not sufficient funds to meet all the interest maturing March 1; there have been no definite statements, however, and the weakness in stock and bonds is attributable as much to the lack of information about the company as to anything else.

**Railroad and Miscellaneous Stocks.**—The stock market has been somewhat irregular, and prices variable. Pacific Mail, after the decline of last week, has remained comparatively steady, and to day reached 36½. Nothing new has been developed in regard to it. Lake Shore fell off on Wednesday, in consequence of the report from Chicago that there had been a new disagreement among the trunk lines as to East-bound freights, and that their recent pooling arrangements would be broken up. Michigan Central was also influenced by the same report. Hannibal & St. Joseph fell off to 18¼, yesterday, on unfavorable rumors as to the company's financial condition, with a recovery to 20 at the close to-day. United States Express has been the most notable stock on the bull side, and sold to-day up to 71½. This is said to be on the expectation of the resumption of dividends. The strongest of the leading speculative stocks have been Northwest and St. Paul—these on the prospect, which is reported to be good, that the Potter law in Wisconsin will soon be repealed. Ohio & Mississippi has been steady, and its earnings for January show a considerable increase over the same month of 1875, the friends of the road also claiming that, with the present freight rates, the company can show much larger net earnings throughout the year. St. Louis & Iron Mountain stock has advanced to 25 on its large earnings. New Jersey Central declined sharply in consequence of the unfavorable aspect of the anthracite coal trade, and some large failures among dealers. At the close, prices were generally strong.

**The Gold Market.**—Gold has been without feature of importance, and unless there is an export demand for coin or some speculative movement on one side or the other, there seems to be little prospect of any speedy change. The excessive production of silver is much talked of at present, in regard to its bearing upon specie resumption, but it does not yet appear that any practical advantage can be obtained from it. On gold loans the carrying rates were 2, 2¼, 3¼, 1 and 2 per cent. Loans were also made flat. Customs receipts for the week have been $2,207,000.

The following table will show the course of gold and operations of the Gold Exchange Bank each day of the past week:

**Foreign Exchange.**—Exchange has been strong, and advanced to-day to 4.90 for short sight sterling. The bond importers have still been the principal purchasers, and the merchants have not taken any considerable amount of bills. The supply of commercial bills also appears to have been quite moderate, and with anything like an active inquiry prices moved upward. It is reported that $450,000 in specie will be shipped to-morrow. A loan of $3,000,000 of the Pennsylvania R. R. Co. is reported, by latest mail advices, as being offered in London. At the close, bills were firmly held, and prices on actual business were near the quotations of leading drawers, which were as follows:

## ANNUAL REPORTS.

### Lehigh Valley Railroad.

(*For the year ending Nov.* 30, 1875.)

The report says: The almost universal suspension of labor in the coal regions tributary to our road, which began about Jan. 1, and continued for more than six months, had the effect of reducing to a considerable extent the business for the past year. Of our total anthracite coal tonnage, 1,939,296 tons were carried during the last four months, showing a capacity for a yearly tonnage of nearly six million tons with our present equipment. Our total anthracite coal tonnage for the past fiscal year was 3,277,527 tons; that for 1874 was 4,150,660 tons—being a decrease of 873,088 tons.

While the gross income (from all sources, including investments) has fallen off $18,899 42 from that for 1874, the operating expenses have been reduced $208,556 44.

After charging all our expenses, interest on bonds, and dividends, the business of the year shows a loss of $93,053 56, which has been taken from our reserve fund.

At the close of our fiscal year (Nov. 30, 1875) our capital account was as follows:

| | | |
|---|---|---|
| Preferred and common stocks (including scrip instalments) | | $27,092,297 |
| Six per cent bonds (coupon and regist'd), due in 1898 | $5,000,000 | |
| Seven per cent registered bonds, due in 1910 | 6,000,000 | |
| Consolidated mortgage bonds: | | |
| Sterling | $4,900,000 | |
| Coupon | 2,000,000 | |
| Registered | 3,913,000 | |
| Annuity | 316,000—11,129,000 | —22,129,000 |
| | | $49,221,297 |
| Floating debt, less cash on hand | | none. |

It will be observed that a considerable increase has been made since last report in both our stock and bond accounts. This was done by the negotiation, on satisfactory terms, of bonds issued under our consolidated mortgage, and by the issue of additional stock pro rata among our stockholders at par, made in April last. The funds so provided have been applied to the completion of the Easton & Amboy Railroad, the purchase of securities of companies owned or controlled by us, including Morris Canal bonds due April 1 next, for additional equipment, &c., &c.

The first and second mortgage bonds of the Morris Canal and Banking Company, amounting to $785,000, become due on April 1 next. As lessees of the works of that company they will be paid by us at maturity upon their presentation. In order to replace these securities in accordance with the terms contemplated by the lease, the Canal Company will create a new mortgage for one million dollars to cover these bonds and also their boat loan.

The Easton & Amboy Railroad was opened for business about the first of July last as the New Jersey Division of our road. To the end of our fiscal year we had expended upon its construction, &c., $8,499,867 34. The transportation receipts from that branch to the same period, being for about five months, amounted to nearly $550,000.

On the 11th of October last the Perkiomen Branch of the Reading Railroad, connecting with our road near Allentown, was opened, making a new outlet for Philadelphia business.

The Pennsylvania and New York Canal & Railroad Company, notwithstanding the prostration in the coal business with which it also had to contend, has been quite successful, and the result of its business for the year very satisfactory.

The total road receipts and expenses for the year were as follows:

| From— | Gross Receipts. | Expenses. | Net Receipts. |
|---|---|---|---|
| Coal | $4,425,009 86 | $2,038,178 55 | $2,386,831 31 |
| Freight | 1,10 ,356 41 | 826,606 46 | 274,750 01 |
| Passengers, express and mail | 520,129 11 | 398,076 96 | 122,052 15 |
| Total | $ ,046,495 44 | $3,262,861 97 | $2,781,633 47 |
| 1871 | 6,759,391 02 | 3,471,418 41 | 3,287,972 61 |
| Decrease | $712,895 58 | $208,556 44 | $504,339 14 |
| Decrease per cent | 11·79 | 6·39 | 18·12 |

### Philadelphia Wilmington & Baltimore Railroad.

(*For the year ending Oct.* 31, 1875.)

The earnings of this road for the last two fiscal years ending October 31 were as follows:

| | 1874. | 1875. |
|---|---|---|
| From passengers | $1,747,053 16 | $1,724,402 77 |

| Deduct for interest, ground rents, etc., in excess of interest received | 126,809 91 | 141,493 37 |
| Net earnings | $1,043,831 06 | $1,104,764 93 |
| Add balance to credit of revenue Nov. 1, 1874 | 540,663 30 | |
| Less deducted for sundry accounts deemed valueless at that date | 9,400 00— | 531,263 30 |
| Total | | $1,636,028 23 |
| From which deduct— | | |
| Dividend Jan. 2, 1875, four per cent | $460,970 00 | |
| Dividend July 1, 1875, four per cent | 461,450 00— | 922,420 00 |
| | | $713,608 23 |
| Deduct for amount placed to renewal fund | | 175,000 00 |
| Leaving balance to credit of revenue Oct. 31, 1875 | | $538,608 23 |

The gross receipts, compared with those of 1874, show an increase of $104,475 83, or about 3½ per cent, and the operating expenses, taxes included, show an increase over those of 1874 by $28,861 50, or about 1·6 per cent. The passenger receipts were less than those of 1874 by $24,037 88, and the increased receipts from other sources were $128,513 71. The report says: The freight derived from the peninsula of Delaware and Maryland, in the form of fruit and other perishable commodities, was very much larger than that of any preceding year. The quantity of peaches alone moved by this company amounted to 9,077 car loads, or 4,538,611 baskets, or about 72,000 tons, while of other perishable freight we moved 12,282 tons, of which 7,314 tons were berries alone. The strawberry crop, which prior to 1871 never exceeded five car loads per day, in 1875, at times, amounted to over 720 tons per day, requiring more than ninety cars to move it.

The earnings of the road from business other than local were much reduced by the sharp competition carried on between the trunk lines during much of the year, and the importance of fostering the local traffic of our own road and its immediate feeders, to which your board has for many years been keenly alive, was never before more plainly manifested.

The work of rebuilding the Susquehanna Bridge in iron has been prosecuted as rapidly as was deemed necessary by our consulting and resident engineers.

In accordance with the practice of previous years, the cost of the above work, and some other outlay for construction or extraordinary repairs, was charged to the renewal fund, set aside for the purpose from the earnings of 1874, viz., $158,361 71.

| | |
|---|---|
| At the beginning of the year there stood to the credit of this fund the sum of | $161,077 93 |
| Expended and charged to this fund in 1875, as above | 158,361 71 |
| Balance October 31, 1875 | $2,716 22 |

In view of similar work to be done in 1876 of a character not properly chargeable to the current operating expenses of the road, there has been reserved from the net earnings of 1875 the sum of $175,000, which has been added to the renewal fund, which now amounts to $177,716 22.

It seemed to your board expedient to purchase the New Castle & Wilmington Railroad, which connects your road at Delaware Junction with the New Castle & Frenchtown Railroad at New Castle, distant a little more than six miles therefrom. This road since its construction had been worked by this company under a lease, at an annual rental of 7 per cent upon $150,000, for which price the lease secured us the refusal of the purchase. The purchase was consummated in May last, and, with the exception of a few shares, this company now owns all of the stock of the New Castle & Wilmington Railroad Company, the New Castle & Frenchtown Railroad Company and the Southwark Railroad Company.

To provide for the purchase alluded to, as well as for the completion of the second track and bridges, and for the payment of $400,000 bonds of this company, falling due April 1st, 1876, your board, in November, 1874, authorized the issue of $200,000 six per cent bonds, payable in 1892, and in 1875 they authorized the issue of $800,000 six per cent bonds, payable in 1900. This last issue was offered until October 1st, 1875, at par, in exchange for the bonds falling due April 1st, 1876, and were so exchanged to the amount of $239,000. The residue have been sold, for present or future delivery, at an average price of a little above par.

### New Orleans St. Louis & Chicago Railroad Company.

(LATE THE NEW ORLEANS JACKSON & GREAT NORTHERN RAILROAD AND MISSISSIPPI CENTRAL RAILROAD).

(*For the year ending June* 30, 1875).

The board of directors, in making their first report for the entire line, from Cairo to New Orleans, under one organization, submit the following exhibits for the year ending June 30, 1875.

The following statements show the comparative results of business, in the calendar year 1873, and in 1874–75:

| | Year 1873. | Year 1874–75. |
|---|---|---|
| Passengers | $880,586 71 | $767,010 45 |
| Freight | 2,162,327 01 | 2,228,566 56 |
| U. S. Mails | 90,612 34 | 104,809 92 |
| Express | 45,600 00 | 55,466 67 |
| Privileges | 53,053 63 | 17,123 93 |
| Other sources | | 6,283 12 |
| Gross receipts | $3,232,159 69 | $3,184,320 65 |
| Gross expenses | 1,671,135 09 | 1,820,377 49 |
| Net profits | $1,561,024 60 | $1,363,943 16 |

Gross expenses, including renewals, taxes, &c., for year 1873, were 51·70 per cent of gross receipts. For 1874–75, 57·16 per cent. At the same rate per mile for the year 1874–75, as that for 1873, the earnings would have been $4,138,919 15.

The net results of the past year's business may be thus stated:

| | | |
|---|---|---|
| Receipts over cost of operating | | $1,363,943 16 |
| From which deduct: | | |
| Interest on bonded debt | $1,235,457 41 | |
| Taxes, law expenses, &c | 279,676 61 | |
| | | 1,515,134 02 |
| Deficit—Balance to Dr. of profit and loss | | $151,190 86 |

The report says:

"Besides the general stagnation of business throughout the country, this company had, on the very threshold of their fiscal year, a badly damaged roadway of about 27 miles, broken by crevasse in the banks of the Mississippi River.

"Your property having suffered badly by two crevasses in three years, your board decided to overcome the liability of the company to such contingencies in the future. As *the levees of the Mississippi River in Louisiana* are now managed, *crevasses are likely to occur every year.* The only practicable plan was to raise the road-bed through the country affected by crevasse, some twenty odd miles, from one to ten feet, with openings sufficient to discharge all the water that could reasonably be expected would be thrown upon the track by the breaking of the river banks or levees. Contracts were at once made with responsible parties to do all the work required, and the track has been raised, and some 15,000 lineal feet of bridging constructed. The work has been well done, and has proved a great success, fully meeting our best expectations.

"The extraordinary losses of the past year by crevasse and floods must be provided for by new loans. The depression of trade and the loss of business, following as a consequence, make your earnings inadequate to pay the floating debt thus created. Besides this demand, you will need money to buy more new rails and equipment for the coming year. We have been assured of sufficient help by prominent representatives of the Illinois Central Railroad Company, conditioned that we arrange for the retirement of income and equipment bonds of Mississippi Central Railroad Company, a large portion of which are held by the Pennsylvania Railroad Company, substituting therefor series B of like amount, being the second series of $25,000,000 mortgage already authorized by your board to be issued. Series A of this mortgage covers all the other bonded indebtedness of the road, and provides a surplus of $4,000,000 in class A bonds, to be used for the payment of the floating debt, and improving your property."

[New bonds and preferred stock were authorized January, 1876. See CHRONICLE, V. 22, p. 111.]

## Louisville & Nashville.

(*For the six months ending Dec.* 31, 1875).

The President has issued a financial statement for the last half of 1875, in which he says: While there has been a decrease in the gross earnings of $57,506, there has been a decrease in the expenses of $202,110, and an increase in the net earnings of $144,604.

In consequence of the almost unprecedented floods of July and August, which had so depressing an effect on business generally, and especially on railroad traffic throughout the entire country, we had to contend with the fact, and which has hardly ever been known before, that the navigable streams were, during these months, in a good stage of water, permitting steamboats to compete with and compelling us to carry freight at low rates, thus further seriously diminishing our income.

The large increase in the net earnings is due, in part, to the great reduction that has been made in the expenses under the present management. Up to October, there was a falling off in gross receipts, as compared with last year; but since that time business has steadily increased, and is largely in excess of last year. We are now earning, not only enough to pay operating expenses and interest, but are accumulating a surplus, and this is the result of a steadily increasing legitimate business. We have every reason to congratulate ourselves upon our present financial condition, and the prospect before us, and I have no hesitation in saying that, unless some unforeseen misfortune happens, we will soon be able to pay dividends again. Our road-bed, machinery, rolling stock and everything connected with the road, is in first-class condition, and not excelled by any line in the country.

The following is a statement of the gross earnings, running expenses and net earnings of the Louisville & Nashville Railroad Company, including Nashville & Decatur and South and North Alabama railroads, for the six months from July 1 to December 31, 1875, and a comparison with the corresponding six months of 1874:

| | Earnings. | Expenses. |
|---|---|---|
| *July to Dec., 1875 | $2,561,026 | $1,520,275 |
| July to Dec., 1874 | 2,621,532 | 1,722,385 |
| | †$57,506 | †$202,110 |
| | | Percentage run'g exp. to earn'gs |
| *July to Dec., 1875 | Net. $1,043,751 | 59·00 |
| July to Dec., 1874 | 899,147 | 65·70 |
| | $144,604 | †6·70 |

*December, 1875, estimated. †Decrease. ‡Increase.

The interest on the bonded and floating debt of the same roads, including guaranteed interest, and the October (1875) dividend on the Nashville & Decatur Railroad stock for the same six months amounted to $910,000, showing a net surplus over running expenses and interest of $133,751.

The earnings, expenses and net earnings for October, November and December—

| | Earnings. | Expenses. | Net. |
|---|---|---|---|
| 1875 | $1,458,000 | $807,000 | $651,000 |
| 1874 | 1,426,000 | 866,000 | 560,000 |

## GENERAL INVESTMENT NEWS.

**Alabama & Chattanooga Railroad.**—The various phases of the litigation in regard to this railroad have been somewhat "mixed." The following statement of the course of affairs up to Jan. 25 is tolerably clear: The road was sold under a decree of foreclosure and bid in by the trustees, under orders of Court, for $1,200,000, for the benefit of such of the first mortgage bondholders as would come in and accept the bid by filing their bonds and overdue coupons in Court by the 11th day of January, 1876. This was done by upwards of $3,500,000 bondholders, and a decree has been rendered giving the road, subject to certain liens and Court costs, to them and to such other first mortgage bondholders as would come in and join with them by filing their bonds and coupons in Court by the 15th day of June, 1876. Only $1,200,000 in bonds and overdue coupons, or of either, will have to be actually applied in payment of the bid. The residue not used in paying for the bid will be returned to the bondholders, and will stand as a debt against the State of Alabama as endorser. All the first mortgage bonds not paid into Court, numbered below 4720, will be entitled to their *pro rata* of the $1,000,000 received from the State, as will also the residue of bonds and coupons not consumed in paying the bid. The high-numbered bonds, that is to say, the bonds numbered above 4720, and known as the "fraudulent issue," are allowed as to the first mortgage, but, owing to the doubtful phraseology of the agreement of settlement between the State Commissioners and the bondholders, it is uncertain whether they will receive any part of the amount to be paid by the State.

Mr. Robt. H. Smith, in Mobile, who represents the foreign bondholders and some of those in this country, writes to a banker as follows:

"I cannot now say what each bondholder will have to contribute towards expenses, but an exact account of these expenses will be sent each bondholder at the end of the suit, showing what his quota of them will be. In the meantime it is usual for each bondholder to send some small amount as a deposit to meet current incidental expenses. This has been done by almost all the bondholders whom I represent, and if you conclude to send your bonds to me I would be obliged if you would send me about $50 for this purpose. The foreign bondholders have already sent $5,000 for this purpose, and other bondholders represented by me have sent amounts in proportion to the number of bonds they hold. These amounts are inadequate to meet the demands for Court costs and other liens against the property, but what amount will be necessary, and what each bondholder's proportion will be, I am unable at present to say. The amounts advanced by any bondholders to meet these expenses will be a lien on the other bondholders' interest in the property, to the amount of such bondholders' contributive share of the expenses."

The new trustees are in full possession of the Alabama & Chattanooga Road and all its appurtenances, and Mr. C. P. Ball has been appointed superintendent and general manager of the road. No other changes have been made thus far. Future appointments, if any, will be made by Mr. Ball. It is said that the new owners of the road will expend quite an amount in making repairs and in providing additional facilities for business.

**Alabama State Finances.**—The Governor of the State advises the ratification of the plan proposed by the Commissioners appointed to settle and adjust the State's indebtedness. The *Mobile Register* summarizes the proposed arrangement as follows:

| | |
|---|---|
| (1.) Recognized direct debt | $11,677,470 |
| (2.) Recognized railroad direct debt | 1,156,000 |
| (3.) Contingent direct debt | 2,573,093 |
| (4.) Indorsed rail road bonds | 11,597,000 |
| (5.) Straight railroad bonds | 3,024,000 |
| Total debt | $30,037,563 |

This debt, under the proposed adjustment, will stand thus:

| | |
|---|---|
| Amount to be funded in 30-year bonds | $7,000,000 |
| Bonds to A. & C. railroad | 1,000,000 |
| Bonds to be substituted for the 7 per cent $1,000 per mile bonds | 596,000 |
| State 8 per cent certificates | 1,000,000 |
| Non-interest bearing State notes | 40,000 |
| Total | $9,636,000 |

The interest payable on this debt for the first five years after January 1, 1877, will be:

| | |
|---|---|
| Interest on $8,596,000 at 2 per cent | $170,920 |
| Interest on $1,000,000 State notes | 80,000 |
| | $250,920 |

The Commissioners, so far as regards the Alabama & Chattanooga Railroad, recommend that "we pay $1,000,000 in bonds bearing 2 per cent interest for five years and 4 per cent for twenty-five years, and thus get rid of the elephant. This arrangement retires $9,000,000 of contingent debt. Nothing is done as to the other roads, as they are in a muddle of litigation and can't tell who owns them."

The Commissioners say the revenues last year were $1,066,000, and this year will probably be $1,040,000. Expense of current government was about $500,000. All the expenses for the current year and hereafter, under the present constitution, is set at $798,280, leaving $241,720 to pay interest upon the various debts.

**Brunswick & Albany.**—The present owners of this road have executed a mortgage for $1,000,000 upon the property, which has recently been recorded in Georgia. The proceeds of the bonds to be issued under this mortgage are to be used in extending the road from Albany, Ga., west by north to Eufaula, Ala.

**Cincinnati City Bonds.**—In the Ohio State Senate, Feb. 9, a bill was passed to allow Cincinnati to issue $6,000,000 of bonds to complete the Southern Railroad.

**Cincinnati Wabash & Michigan.**—Of this road, whose interest was passed on most of its bonds Jan. 1, 1876, the President, at Wabash, Ind., writes: "By previous arrangement, a large majority of the bondholders of this company consented to the use of its revenues for the completion of the road to Anderson. Those who did not assent to this were promptly paid through this office.

"R. GARDNER, President."

**Eastern (Mass.).**—The directors have just presented their annual report, for the year ending Nov, 30, which is the regular fiscal year of the company. It is a report of great length, and the following is a summary of receipts and payments:

| 1875 | 4,997,600 00 | 14,859,648 93 | 956,230 47 |

At the annual meeting of the stockholders there was some animated discussion, and the following resolutions were passed:

*Resolved*, That the plan for extending and securing the debts and liabilities of the corporation at reduced rates of interest, and providing for the management of its affairs, adopted at a meeting of the creditors held at Boston on the 15th of January, 1876, and now submitted to the stockholders in the report of the Directors of this company, be referred to the Directors, with instructions to join in presenting it to the Legislature for its action.

*Resolved*, That the Directors are hereby authorized to apply to the Legislature for authority to issue bonds, and make and execute a mortgage and conveyance of the property and franchise of this company, in trust, in order to secure its debts and liabilities.

*Resolved*, That the Directors of the Eastern Railroad Company are authorized, if, in their opinion, it shall become needful for the protection of the property of the corporation and of the rights of the creditors, to make application for the benefit of the bankruptcy acts of the United States, and take such other proceedings as the bankrupt laws may require in that behalf.

*Resolved*, That —— be a committee to investigate the affairs of the Eastern Railroad Company for the last six years past generally; to inquire in respect to all contracts and purchases made by the company, and whether any Director had any interest adverse to the company at the time of said purchase or before; and into the value of all lands and property of said company, with authority to send for persons and papers, and make a report to this corporation as soon as possible.

The following were elected directors: Samuel C. Lawrence, Frank Jones, J. S. Ludlam, G. S. Morrison, Onslow Stearns, James W. Johnson, Benjamin E. Bates, John Cummings and George W. Gill.

The Committee of Investigation, provided for in the resolution, was announced by the Chairman as follows: Messrs. Seth J. Thomas, George Ripley, Greeley S. Curtis, P. G. Munroe and W. A. Tower.

—Messrs. Baring Bros. & Co., in London, have issued a circular, which is worthy to be framed and hung up in banking houses generally, in which they give notice to those bondholders who purchased the Eastern R. R bonds, negotiated by their house, that they will protect such bonds and coupons, providing for them as they respectively fall due.

**Erie Railway.**—Hugh J. Jewett, as receiver, has filed his report for December last. Beginning the month with a cash balance of $518,171 62, the receiver ends it with a cash balance of $391,567 25; but during that month he paid off loans amounting to $175,000, reducing to that extent the receiver's notes and certificates. The freight receipts were $1,884,619; receipts on account of passengers, $298,642 55. All other receipts of the month proper amounted to $67,504 64, making the receipts of the month $2,250,766, against which were expenses proper of $2,167,702, leaving $83,064 as apparently the net receipts of the month. His payments have been, on matters arising under his own administration, $2,342,702 84, which includes the payment of the certificates mentioned above. On matters arising before the receivership, he paid $36,218 68, swelling his total payments to $2,378,921.

The receiver's certificates and notes have been reduced to $606,539 40.

**Hannibal & St. Joseph.**—Judge Dillon, in the United States Circuit Court, on Saturday, granted a temporary injunction restraining the State Auditor from collecting State, county and school taxes on the property of the Hannibal & St. Joseph Railroad Company, amounting to a large sum.

—From the N. Y. *World* money column, which is among the live articles of the day in the financial line, we have the following:

"The Hannibal & St. Joseph Railroad has occasion to use some money this season, and will need more next year, for a variety of purposes. The direction appeals to the stockholders for proxies to be used at a special meeting, and we print the material part of the proxy as the best indication of the purposes entertained:

Proxy at any special meeting of stockholders of said company, to be called for the purpose of authorizing the directors of said company, from time to time, to borrow such sums of money, not exceeding $1,500,000, as may be necessary for the completion, equipment or repair of their railroad, and for the purchase of steel rails, or for the funding of any floating debt, or for the making of any addition or extension thereto, authorized by their charter, or for the making connection with any bridge by tunnel or otherwise, and to issue and dispose of their bonds for any amount so borrowed, and to mortgage their corporate property and franchise, or any part thereof, to secure the payment of any debt contracted by the company for the purposes aforesaid, or any of them.

"In this scheme, we presume, the $2,800,000 of land notes which the company holds will be made available as collateral security."

**Jacksonville Pensacola & Mobile.**—A Tallahassee telegram to the Florida *Union* announces that the Supreme Court of Florida has decided the four million State bonds, issued by the State in aid of the Jacksonville Pensacola & Mobile Railroad, to be invalid. The following are given as the leading points of the decision:

"The State, under the act of the Legislature, occupied two relations, those of primary debtor and of trustee. That as primary debtor, the State is not bound, but that as trustee she has the right to seize and sell the road and apply the proceeds to the payment of the State bondholders, they having advanced their money to the railroad company, and the State holding the mortgage bonds of the company for their benefit. The Court decided, further, that the State could not become the purchaser at the sale, as that portion of the law which authorized this had been repealed by a recent amendment to the constitution. The Court also held that the franchise of a corporation could not be sold under execution. The State, as trustee, can enforce its lien on the road and satisfy the claim of the foreign bondholders, so far as the proceeds of the sale go. The State is not liable further, nor can the people be taxed for the bonds. The status of the case in the United States Supreme Court is not changed. Holland bought nothing when he bought the equity of redemption. Judgment of the court below affirmed."

**Long Island Railroad.**—In the suit of Buckley against Havemeyer and others, in which the plaintiff sought to restrain Henry Havemeyer, John O. Havemeyer and others from resigning their position as directors in the Long Island Railroad Company in favor of persons controlling the other railroads of Long Island, Judge Barrett, in Supreme Court, Chambers, refuses to continue the injunction. He says: "It is explicitly denied that any agreement for such transfer has been made, and Mr. Henry Havemeyer states that no agreement has been made for the resignation or election of directors. The case, therefore, is not within the principle laid down in Fremont against Stone. At present there is no ground for equitable interference. It will be time enough to proceed against the present or future directors when they do some act prejudicial to the interests of the stockholders. The motion to continue the injunction must be denied and the temporary injunction dissolved with $10 costs."

**Missouri Kansas & Texas.**—It has been reported that a foreclosure must be had before the reorganization of this company can be completed. Certain points as to the payment of part of the coupons due from funds now in the Receiver's hands, and other matters, were to be referred to the Court for adjustment. The foreclosure of the first mortgage is expected to come up at the March term of Court, in Missouri. Another report says that negotiations with the company are to be renewed with a view of making a compromise agreement which can be adopted.

**Mobile & Ohio.**—W. B. Duncan, Esq., trustee and receiver of the Mobile and Ohio Railroad, in reply to an inquiry, whether

"a funding scheme of some kind might soon be laid before the bondholders," wrote as follows:

*First.*—The past eight months of our management as trustees and receivers, have developed many and various defects and considerations which require delicate and timely adjustments; serious troubles would arise on all sides, should any degree of rough haste be exercised. Time is required by the management to bring about the results now under process of solution, and our policy will be with the sole view to the improvement of the property and its business, that when a scheme of reorganization is finally adopted we may be enabled to turn them over to the reorganized company in good and serviceable condition.

*Second.*—The company itself looking to its reorganization has already suggested to the court the necessity of their deciding at an early day upon the priorities and relative values of the several liens against the company—this will give the opportunity to any contesting parties to urge their claims, should they make any, in the most efficient and prompt manner, and it is hoped will avoid unnecessary questions being started by unscrupulous or designing parties.

*Third.*—In the meantime a scheme of reorganization must be arrived at, based upon such safe and equitable grounds as will assure its prompt acceptance by all the interests involved—when it will become the duty and pleasure of the trustees and receivers to surrender to the resurrected corporation, an improved property, capable of meeting faithfully all its future obligations.

**Northern Pacific.**—HELENA, Mon., Feb. 9.—The Legislative Council of Montana has passed a resolution by a vote of 11 to 1 granting $3,500,000 to aid the construction of the Northern Pacific Railroad west from Bismarck to Shields River, the westernmost tributary of the Yellowstone.

**Railroads of Massachusetts.**—The seventh annual report of the Board of Railroad Commissioners has just been presented to the Massachusetts Legislature. The report is, as usual, a document of great ability and of general interest to all persons studying the subject of railroads. Among other matters of importance discussed is that of the failure of the Eastern Railroad, and the history of its decline will be read very carefully, both here and abroad. The opening paragraph states that the general and continued business depression incident to the financial crisis of September, 1873, has made itself felt much more perceptibly on the Massachusetts railroad system during the last, or second, year following the crisis, than it did during the first. The following abstract is from the Boston *Post*:

RAILROAD CONSTRUCTION.

The amount of railroad construction in Massachusetts during the past year was 33·75 miles. The mileage of tracks within the limits of the State is 1,816, main and branches, 504 miles of siding and 440 of double track—the equivalent of 2,761 miles of single track.

COST OF ROADS.

The average cost of the roads of the standard gauge is returned at $57,307 64 per mile, exclusive of equipment, which has amounted to an additional sum per mile of $7,774 47. The narrow gauge roads are returned at $16,640 07 per mile, and $3,592 32 for equipment. The average cost of an equipped road, irrespective of gauge, is returned at $64,657 06 per mile, but varies from $98,606 19 for the Boston and Albany, to $9,316 20 for the Martha's Vineyard.

STOCK AND DEBT.

The 63 corporations included in the returns are represented by $171,616,338 82 of securities, of which $118,261,285 90 are in the shape of stock and $53,355,052 92 in different forms of indebtedness. The amount of stock has been increased $1,194,487 83 during the year, and the indebtedness $4,797,714 27. Most of the increased indebtedness has been incurred by the corporations operating roads which terminate in Boston; the Boston & Albany having increased its debt over $400,000, the Boston & Lowell $230,000, the Boston & Maine $274,000, the Eastern over $3,000,000, the Fitchburg $153,000, and the Old Colony $300,000. On the other hand, the debt of the Boston, Hartford & Erie was last year returned nominally at $2,500,000, and this year at $891,000.

EARNINGS.

The total earnings for the past year amount to $32,589,485 68, a falling off of $2,042,997 86, or 5.9 per cent from those of the preceding year. The chief decrease was in freights, which fell off $1,546,154 46, or 10 per cent. There was also a falling off in the receipts from passengers, which decreased $375,183 24, or 2.4 per cent, from the preceding year. Of the entire earnings, 44 per cent was received from freight and 51 per cent from passengers.

COST OF OPERATION.

The cost of operation has amounted to $9,329 38 on each mile of road in use, varying from $17,135 12 on the Boston & Albany, to $1,400 48 on the Springfield, Athol & Northeastern. It has consumed 70 per cent of the gross earnings, leaving a margin of 30 per cent as profit on the year's business.

NET INCOME.

The total net income reported is $9,640,657 16, or 5.7 per cent on the permanent investment—that is, on the value of the property as it stands on the books of the corporations. This shows a decrease of seven-tenths of one per cent from the previous year. This sum was divided among the several corporations as follows:

| | | | | |
|---|---|---|---|---|
| 13 companies with | $7,708,272 | permanent investment | had no net income. | |
| 17 " | 55,755,550 | " " | had 3½ per cent or less. | |
| 10 " | 11,334,315 | " " | had 3½ to 5½ | per cent. |
| 13 " | 39,395,395 | " " | had 5½ to 7½ | " |
| 6 " | 46,746,680 | " " | had 7½ to 9½ | " |
| 1 " | 15,693,049 | " " | had 9½ to 11½ | " |
| 60 | $176,631,261 | | | |

PASSENGERS AND TONS OF FREIGHT CARRIED.

The total number of passengers carried was 42,035,816, a decrease from the preceding year of 444,648. Of these, 1,609,804 were passengers going to other States, and 1,609,234 came into the State. The number of those travelling on season tickets was 5,574,136, a decrease of no less than 178,404 from the preceding year. There were 10,927,812 tons of freight moved, of which 3,000,567 tons—a decrease of 196,924—were brought into the State, and 1,416,308 tons—a decrease of 4,500 tons—were carried out of it. The total tonnage into Boston was 2,043,413 tons (decrease, 74,772), and 1,781,082 tons (increase, 94,521), were carried out of Boston. The falling off in the total freight mileage of tons of freight moved one mile was 6.5 per cent for 1874–5 as compared with 1873–4, while the receipts from freight fell off 9.8 per cent. The roads moved 1,097,000 fewer tons of freight, and received $1,546,154 less.

DIVIDENDS.

Of the 63 corporations making returns, 26 paid dividends varying from 1 to 10 per cent, and averaging on the entire stock of all the dividend-paying roads 8·7 per cent.

| | 1874. No. Companies. | 1874. Amount of Stock. | 1875. No. Companies. | 1875. Amount of Stock. |
|---|---|---|---|---|
| Paying 10 per cent dividends | 7 | $17,858,000 | 4 | $40,104,400 |
| " 9 " " | 1 | 800,000 | 2 | 6,100,000 |
| " 8 " " | 4 | 11,100,000 | 5 | 15,889,571 |
| " 7 " " | 4 | 7,865,700 | 2 | 6,865,500 |
| " 6 " " | 6 | 5,146,500 | 4 | 1,073,950 |
| " 5 " " | 3 | 3,420,000 | 3 | 1,798,700 |
| " 4 " " | 1 | 39,000 | 2 | 5,013,000 |

| " 0 " " | 30 | 35,303,258 | 27 | 37,127,572 |

As interest $3,152,862 was paid, and the average rate was in the neighborhood of 7 per cent, being $361,290 more than during the previous year.

FARES AND FREIGHTS.

The average fares and freights, deduced from the returns of the principal roads by dividing the total amounts received from each source by the number of passengers and tons of freight carried one mile, are represented in the following table, the returns for the years 1874 and 1875 being placed in comparison:

| | Fares. 1874. Cents. | Fares. 1875. Cents. | Freights 1874. Cents. | Freights 1875. Cents. |
|---|---|---|---|---|
| Boston & Albany | 2·47 | 2·40 | 1·82 | 1·53 |
| Boston & Maine | 1·88 | 2·10 | 3·59 | 3·20 |
| Boston & Providence | 2·34 | 2·32 | 3·73 | 3·36 |
| Old Colony | 2·30 | 2·24 | 4·13 | 4·01 |
| Boston & Lowell | 2·09 | 2·11 | 4·51 | 4·04 |
| Fitchburg | 2·20 | 2·18 | 4·33 | 4·13 |
| Eastern | 2·07 | 2·21 | 2·85 | 2·78 |
| Connecticut River | 2·85 | 2·75 | 4·00 | 3·97 |
| New York New Haven and Hartford | 2·32 | 2·33 | 3 69 | 4·10 |
| Providence & Worcester | 2·63 | 2·52 | 3·32 | 3·46 |
| Worcester & Nashua | 3·17 | 3·46 | 3·23 | 2·91 |
| New Haven & Northampton | 2·97 | 2·95 | 3 60 | 4·14 |

The most striking feature in the year's business was, however, the very low rate at which merchandise was carried for long distances, contracts being frequently made which did not bring to the companies more than 3 mills per ton per mile, particularly on Western-bound freights. On its through tonnage, accordingly, the average charge of the Eastern road during the year was 1·92 cents per mile; that of the Cheshire was 1·81; while that of the Albany was as low as 1·17. Indeed, so low were the rates, and so unremunerative was the business supposed to be, that several corporations voluntarily withdrew from the competition.

STEEL RAILS.

As regards the track, it appears that 1,040 miles out of 3,085, or 34 per cent, this year, as compared with 29 per cent last, of the entire main lines of the corporations are laid in steel—an increase of 156 miles over the amount reported last year.

**St. Paul & Pacific.**—Earnings and expenses for the first division for the year 1875 have been reported as follows:

| | 1874–75. | 1873–74. |
|---|---|---|
| Total earnings | $440,603 20 | $192,670 03 |
| Total expenses | 401,995 78 | 415,631 19 |
| Net earnings | 35,607 42 | 77,038 84 |
| Gross earnings per mile | 2,129 00 | 2,380 00 |
| Net earnings per mile | 172 00 | 372 00 |
| Per cent. expenses | 91 92 | 81.36 |

**Toledo Peoria and Warsaw.**—Mr. A. L. Hopkins, receiver, has filed his report of business in the months of December and January as follows:

| | | |
|---|---|---|
| Balance Dec. 1 | $19,354 41 | |
| December receipts | 152,700 86 | |
| January receipts | 133,558 27— | 305,613 54 |
| Disbursements in December | 138,629 07 | |
| Disbursements in January | 164,686 19— | 303,315 26 |
| Balance on hand | | $2,299 28 |

**United States Express.**—The *Post* says: "In reply to a correspondent who asks for explanation of the rise in the stock from 44, which was the price early in November last, we can only say that there have been quietly-made purchases on the expectation that the company would resume dividends February 1. This has not been done, but the time of resumption has been put forward to May 1st; at least, the same people who expected dividends February 1st are now confident that they will be begun May 1st. The depression in the stock was caused by the suspension of dividends about a year ago, the management, as we are told, having concluded that dividends should not be paid until the company had fully settled all its differences with the Erie Railway Co., these differences having arisen under the old Gould-Fisk management of the Erie. We are told that these are in process of adjustment, and that the United States is to have a contract with the Erie for its line, which will be advantageous to it and will enable it to earn as large dividends as it formerly paid."

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Feb. 11, 1876.

There has been little if any improvement in general trade this week, although favored by the the advancing season and by very favorable weather, but there has been a smart revival of speculation in leading staples of domestic produce. Regular business and manufactures also, do not, except in special cases or under peculiar circumstances, make satisfactory returns, and there is, therefore, a constant temptation to employ idle funds in speculations of various descriptions.

The market for hog products has been very strong, and at the close there is some excitement in pork, with an advance of mess to $22.25 on the spot and $23 for May. The advance at Chicago has been even greater than here. There has been a marked falling off in the quality of the swine slaughtered. Bacon and cut meats are higher from scarcity. Lard has also improved, but not so much as pork. Prime steam sold to-day at $13@13 06½ on the spot, $13 10 for March, and $13 42½ for May. Beef and beef hams have also been doing better. Butter has been quiet, but cheese is higher at 12@14c. for good to choice factories. The exports of provisions from New York from November 1st to February 8th, inclusive, for four years, have been:

| | 1875-6. | 1874-5. | 1873-4. | 1872-3. |
|---|---|---|---|---|
| Pork, bbls. | 55,069 | 49,448 | 79,632 | 47,185 |
| Beef, bbls. and tcs. | 37,268 | 43,711 | 30,364 | 34,634 |
| Lard, lbs. | 35,849,151 | 54,346,870 | 50,176,482 | 59,501,312 |
| Bacon, lbs. | 71,758,802 | 78,155,140 | 98,626,254 | 93,343,892 |
| Butter, lbs. | 1,102,338 | 1,148,479 | 765,169 | 1,158,370 |
| Cheese, lbs. | 12,983,413 | 7,514,031 | 11,585,054 | 8,555,029 |
| Tallow, lbs. | 13,181,209 | 11,427,070 | 18,152,695 | 13,587,791 |

The number of swine slaughtered at the West this season is set down at 4,504,647; same time last year, 4,961,381; but the swine are heavier this season than last.

Rio coffee has declined ½c., with fair to prime cargoes quoted at 16½@18c., gold; Java is also quoted lower, at 23@25c., and Maracaibo at 17@19c., gold. Stocks of Rio embrace 235,000 bags here, 130,400 at the South, and 41,300 afloat for the United States. The stocks of mild grades are 49,100 bags and 113,000 mats, most of the latter being Java. Rice has been dull. The auction sale of teas yesterday went off at better prices, except for Japan. Sugars have further declined ⅛c., without leading to much business. Fair to prime refining Cuba quoted at 7⅝@8c., and standard crushed 10⅝c. The movement in raws has been as follows:

| | Hhds. | Boxes. | Bags. | Melado. |
|---|---|---|---|---|
| Receipts past week | 4,586 | 670 | 13,451 | 475 |
| Sales past week | 5,983 | 555 | 9,338 | 246 |
| Stock Feb. 10, 1876 | 13,910 | 6,754 | 93,926 | 1,748 |
| Stock Feb. 11, 1875 | 31,620 | 33,247 | 146,002 | 100 |

There has been a moderate demand for Kentucky tobacco, and prices are more steady at 4½@7c. for lugs, and 7½@15c. for leaf, new crop; sales 500 hhds., of which 400 were for export, and 100 were for consumption. The quotations are for new crop. Seed leaf has been in fair demand and prices are without essential change; the sales embrace: crop of 1873, 125 cases New England, at 12½@32½c., 60 cases Pennsylvania, at 7@15c.; crop of 1873 and 1874, 200 cases Ohio, at 7@9½c.; and crop of 1874, 300 cases New York, at 8@9½c., 300 cases New England, at 7½@12c., and 108 cases Pennsylvania, on private terms; also 200 cases sundries at 7@30c. Spanish tobacco has been more active, with sales 900 bales Havana at 88c.@$1 05.

Hides have been in moderate demand, and prices are firm in view of the small stock: Sales of dry Montevideo at 21c.; dry California kips, to arrive, at 14½c. gold, and City slaughter ox at 9c. currency. Linseed oil has ruled a shade lower at 60@62c. Other oils have been quiet and unchanged. Clover seed has declined to 13½@14c. for Western and State, with more liberal supplies. Whiskey has been variable, closing at $1 12. Tallow is quiet, at 9½c. for prime. Stearine has sold more freely, at 13½c. for prime Western.

The business in ocean freights has latterly been small, but the reduced offerings of room, both berth and charter, has resulted in maintaining rates in a steady position. Late engagements and charters include: Grain to Liverpool, by steam, 7⅛d; cotton, 5-16@⅜d for compressed and uncompressed; provisions, 32s 6d@35s per ton. Grain to Glasgow, by steam, 8¼@9d. Flour to London, by sail, 2s 6d. Grain to Cork for orders, 6s 9d; privilege of the east coast of Ireland at 6s 3d. Refined petroleum to Bremen, 4s 3d; do to the Baltic, 5s 3d. To-day there was a slightly better inquiry, both for berth and charter room, and rates were quite steady. Grain to Liverpool, by steam, 8d; do to Glasgow, by steam, 9.1 per 60 lbs. The nominal rates for grain to Cork for orders were 6s 9.l@7s. Case oil to Java, 35c, gold. Crude or refined petroleum in bbls, from Baltimore to the Continent, 5s 3d.

The business in naval stores during the past week has been small, yet prices remain about steady, owing to firm advices from Wilmington. Spirits turpentine closes at 36c, and common to good strained rosin at $1 57½@$1 65. Petroleum has rapidly declined, under a dull market and discouraging advices from the wells. Crude, in bulk, closes at 7¼c., and refined, in bbls., at 14c., for February deliveries. After 'Change, crude petroleum advanced to 8c., with 7,000 bbls. sold at this price. In wool there was a reported sale of 500,000 lbs. Ohio fleece at 46c. Ingot copper remains steady, with late sales of 300,000 lbs. Lake, at 22⅞c., cash.

## COTTON.

FRIDAY, P. M., Feb. 11, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (February 11) the total receipts have reached 118,582 bales, against 131,379 bales last week, 152,359 bales the previous week, and 142,071 bales three weeks since, making the total receipts since the 1st of September, 1875, 3,184,766 bales, against 2,739,233 bales for the same period of 1874-5, showing an increase since Sept. 1, 1875, of 445,533 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 71,000 bales; for Havre, 50,000 bales; for Continent, 53,000 bales; for coastwise ports, 7,500 bales; which, if deducted from the stock, would leave 210,560 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, 20,151 bales; for other foreign, 10,612 bales; for coastwise ports, 2,283 bales; which, if deducted from the stock, would leave remaining 40,314 bales

‡ The exports this week under the head of "other ports" include from Baltimore 1,595 bales to Bremen; from Philadelphia 468 bales to Liverpool and 362 bales to Antwerp.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 56,098 bales, while the stocks to-night are 56,826 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to Feb. 4, the latest mail dates:

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market for cotton on the spot has not been active the past week, and yet a pretty fair business has been done, shippers and home-spinners having purchased moderately. On Tuesday, quotations were reduced 1-16c., but the reduction had been actually made the day before for "short notices." February contracts brought a thirty-second more on Tuesday than on Monday. The market ruled weak, irregular and dull on Wednesday, but yesterday became more steady, in view of the smaller receipts at the ports (being very small except at New Orleans) and steadier accounts from Liverpool, with some revival of confidence among holders. A report obtained circulation on Tuesday that the Agricultural Bureau had issued a statement adhering to its January estimate of 4,050,000 bales as the aggregate crop, but it proved to be unfounded. To-day, prices were 1-16c. higher, with a moderate general demand. For future delivery the market has been feverish, the fluctuations being slight, but the tone unsettled. The advance in futures of 1-32 @1-16c., on Tuesday, was aided, in a measure, by the rumored Bureau report, above noted, but was more than lost on Wednesday, to be again fully recovered on Thursday. The receipts at the ports for the two days ending last night were, notwithstanding the free arrivals at New Orleans, only about the same as for the corresponding period last year. The falling off at Savannah and Charleston was so marked as to attract much attention, but the Gulf ports and the Northern ports showed figures very nearly up to last week, and in the aggregate there was a small excess over last year. To day, there was a buoyant opening, and prices advanced 3-32@⅛c., but the demand fell off when the free receipts at New Orleans and Mobile became known, and prices receded 1-32c.

The total sales for forward delivery for the week are 109,400 bales, including —— free on board. For immediate delivery the total sales foot up this week 6,815 bales, including 3,147 for export, 3,260 for consumption, 408 for speculation, and —— in transit. Of the above, 200 bales were to arrive. The following are the closing quotations:

From the foregoing it would appear that, compared with last year, there is a *decrease* of —— bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 75,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—There has been much less rain in the Southwest during the past week, and the roads which were bad in that section are much improved.

*Galveston, Texas.*—It has been showery on one day of the past week, the rainfall reaching nine-hundredths of an inch. In the interior the weather has been good, and roads are much improved. There is still an unprecedented demand for bagging and ties. The thermometer has averaged 69, the highest being 74 and the lowest 41.

*Indianola, Texas.*—There has been no rain this week. Dry weather now is very much desired. Labor is greatly demoralized by the impending election. The thermometer has averaged 60, the highest being 77 and the lowest 38.

*Corsicana, Texas.*—Ice formed here one night this week, but the balance of the week has been pleasant. There has been no rain, and the roads are drying up. The thermometer has averaged 53, the highest being 78 and the lowest 26.

*Dallas, Texas.*—We have had one cold day, but the rest of the week has been pleasant. The bottom roads are still bad, but elsewhere they are improving, as we have not had any rain during the week. Wheat crop is doing well. The thermometer has averaged 72, the highest being 78 and the lowest 40.

*New Orleans, Louisiana.*—We had rain on five days of the week, the rainfall reaching two inches and seventy-two hundredths. The thermometer has averaged 55.

*Shreveport, Louisiana.*—There was a frost here on Saturday last, and a light rain on Monday; the weather since has been very warm. The roads are now in better condition, and there is plenty of water to all points. Total rainfall for the week eighteen hundredths of an inch. Average thermometer 57, highest 79 and lowest 32.

*Vicksburg, Mississippi.*—The early part of the past week was rainy, but the latter part was clear and pleasant. Rainfall for the week, one inch. Average thermometer 56, highest 76 and lowest 28.

*Columbus, Mississippi.*—We have had warm, sultry, wet weather the past week. The rainfall has reached seventy-five hundredths of an inch, and the thermometer has averaged 62, ranging from 48 to 75.

*Little Rock, Arkansas.*—There were only three clear days the past week, but there was no rainfall. The thermometer has averaged 56, the extreme range being 30 to 75.

*Nashville, Tennessee.*—There has been no rain here during the week. The thermometer has averaged 45, the extremes being 35 and 54.

*Memphis, Tennessee.*—It rained slightly on two days, the rainfall reaching one hundredth of an inch, and the rest of the week was cloudy. Average thermometer 51, highest 58 and lowest 44.

*Mobile, Alabama.*—It was showery two days and cloudy two days the past week, the remaining three days being pleasant. Total rainfall, thirty-nine hundredths of an inch. Average thermometer 54, highest 70 and lowest 33.

*Montgomery, Alabama.*—We have had warm, sultry, wet weather the past week. There was rain on three days, the rainfall reaching seventy-one hundredths of an inch; and the thermometer has averaged 53, ranging from 30 to 75.

*Selma, Alabama.*—On two days of the week we had rain, the rainfall reaching seventy-three hundredths of an inch. The weather now is warm and sultry. Average thermometer during the week, 50.

*Madison, Florida.*—There was one rainy day here the past week, the rainfall reaching fifteen hundredths of an inch. Average thermometer during the week 57, highest 70 and lowest 44.

*Macon, Georgia.*—There were two rainy days here this week. The thermometer has averaged 50, the extreme range being 27 to 72.

*Atlanta, Georgia.*—It rained constantly one day of the week, and was showery two days, the rainfall reaching one inch and twelve hundredths. The thermometer has averaged 42, the highest being 58 and the lowest 31.

*Columbus, Georgia.*—There was one rainy day the past week, the rainfall reaching twenty-four hundredths of an inch. The thermometer has averaged 57, the extremes being 34 and 72.

*Savannah, Georgia.*—Three days of the past week were rainy, but the rest were pleasant, the rainfall for the week reaching seventy-one hundredths of an inch. Average thermometer 53, highest 75 and lowest 38.

*Augusta, Georgia.*—The early part of the past week we had three rainy days, the latter part of the week being clear and pleasant. Total rainfall, one inch and nine hundredths. The thermometer has averaged 48, the highest being 70 and the lowest 31.

*Charleston, South Carolina.*—It was showery at this place three days of the past week, the rainfall reaching one inch and twenty-eight hundredths. The thermometer has averaged 51, the highest being 73 and the lowest 34.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock Feb. 10. We give last year's figures (Feb. 12, 1875) for comparison.

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

IMPORTS, STOCK AND CONSUMPTION OF COTTON IN EUROPE.—We take the following figures from the annual circular of Messrs. Stolterfoht, Sons & Co., Liverpool, showing the import, stock and consumption of cotton in Europe for the years ending December 31, 1874 and 1875, expressed in 1,000s of bales. See CHRONICLE, February 6, 1875, page 145, for previous report.

With regard to consumption the same circular contains the following:

The past year has been a disappointing one in almost every branch of business; most of the principal articles of import having left heavy losses, whilst the sale has been a slow and dragging one. Cotton has been no exception. The market at the beginning of the year opened with a brisk demand, and prices advanced in a short time to 8d. for middling Orleans, and maintained their value fully during the spring. But early in the summer the demand fell off, and in spite of a crop considerably below that of the previous year, prices fell slowly but steadily, and the import of cotton during the latter part of the year has been almost invariably to a loss. Various causes have contributed to this bad state of trade; one of the chief, no doubt, was the general distrust occasioned by the heavy failures in London and Manchester during the summer. These principally affected the Eastern trade, and materially curtailed the facilities for disposing of manufactures for the India and China markets. The effect of these failures, and of the developments which have since taken place in connection with some foreign loans, followed by the default of Turkey and Peru to provide the interest on their debt is, however, gradually disappearing, and to Manchester a more healthy feeling is showing itself.

THE CONSUMPTION of this country, which during the greater part of the year was curtailed by the above-named causes, now commences to show signs of a gradual improvement. The effects of diminished supplies of goods in many of the foreign markets is beginning to make itself felt by a steady, though still not very active demand in Manchester, on the Continent and in America. Two of these producing centres, however, still show a reduction for the whole year, the improvement having commenced too late to have any appreciable effect in counteracting the bad state of trade during the earlier part of the twelve months. Thus, the consumption of the United States is less than it has been since 1872, and of Great Britain since 1870, but on the Continent the deliveries show some increase. We cannot suppose that the wants of the world are less, considering the comparatively low level to which prices have fallen; nor is it to be supposed that foreign or home markets were materially overstocked during the previous years, the production never having been unduly stimulated, and not having advanced with any unreasonable rapidity. We must rather look to the general stagnation of trade, and the indisposition to provide for any but immediate wants. The Board of Trade returns for the past twelve months, just issued, show that all articles of export have alike suffered, but the month of December already shows symptoms of recovery in some important branches. It must be recollected, besides, that the prices of coal, iron, cotton goods, and other articles are materially lower than during the previous years, and the actual falling off in trade is not so great, therefore, as it seems to be.

| | 1875. | 1874. | 1873. |
|---|---|---|---|
| Total value of exports of British produce | £123,494,000 | £249,558,000 | £255,164,000 |
| Cotton yarns | £13,170,000 | £14,516,000 | £15,895,000 |
| Do. in millions of pounds | 215 | 221 | 215 |
| Cotton goods, value | £58,565,000 | £59,730,000 | £61,468,000 |
| Do. in millions of yards | 3,560 | 3,607 | 3,484 |

—Thus it will be seen that the quantity of yarns, and of goods exported, fully comes up to the year 1873, though the value is considerably less, and that even with last year the comparison is considerably less unfavorable as regards quantity than it is in values.

In FRANCE the cotton trade seems to flourish, and by all accounts spinners there are doing well. That country has shown most marvellous powers of recuperation, and is generally reported to be in a prosperous state, whilst, as regards the cotton industry, both spinners' and manufacturers have found a quick and profitable sale for their productions. From GERMANY the accounts are also on the whole good, the exception being chiefly from Austria. The Continental spinners have imported pretty freely during the past season, and seem disposed to continue to do so. A large proportion of Peruvian and Tahiti cotton has found its way to Hamburg during the year, where these kinds seem to be very much appreciated. BELGIUM presents little noteworthy, and the cotton industry seems to go on in a quiet and satisfactory way. From HOLLAND the accounts are again unsatisfactory. The Eastern trade, on which she largely depends for taking off her productions, continues in an unsatisfactory condition, and the cotton-manufacturing trade is languishing. The imports of cotton both into Holland and Belgium consist largely of transit lots en route for Germany and Switzerland; the apparent deliveries, therefore, are considerably in excess of the actual consumption, and the increase this year arises from the fact of more cotton having found its way into the interior by these routes than previously, and this accounts, too, for the apparent falling off in the imports into Germany. The trade in SWITZERLAND, as well as in Alsace and Lorraine, is favorably spoken of. In SPAIN a steady business is doing, notwithstanding the political distractions from which that country suffers. The stock for the end of the year in the accompanying tables is approximate only, as far as the different descriptions go, the total amount only having been furnished to us from Barcelona to which our figures as usual alone apply. The import, however, is correct both in the details and the total. In SWEDEN, although the number of spindles has increased during the past year, yet, owing to the heavy stocks held by spinners at the commencement of the year, and a long continued drought which stopped many of the mills worked by water power, the import decreased from about 180,000 cwts. of raw cotton in 1874 to about 117,000 cwts. in 1875. Trade generally has been fairly remunerative for spinners, but the prospects lately are not quite so promising, on account of the general stagnation of business. In RUSSIA, the spinning business has been better than the weaving; the former has done fairly well, but not the latter. The official returns of the import for the first nine months of 1875 is 3,979,912 poods or 143,276,832 lbs., against 3,707,994 poods or 133,484,544 lbs. in 1874. The total import of 1874 was 4,452,600 poods, which would make the import for the past year (on same basis for the last three months) 4,725,000 poods. Of the above 14,258 bales Egyptian and 20,681 bales Surats were imported into Odessa, and 272,513 bales into St. Petersburg and Reval.

GUNNY BAGS, BAGGING, &c.—Bagging has been in small demand during the past week, and no round parcels have been disposed of; only jobbing lots are moving. Holders are, however, steady as to price, and are asking 13@13¼c. at the close Sales. rule dull and nominal. India, quoted at 9@9¼c., Borneo, 12¼@12⅝c. Bags are dull, with holders quoting 13½c. for 440s. Butts have been in better supply, and buyers' demands have been filled with some lots; about 1,500 bales in port unsold, which are held at 3½c. Sales have been made of 1,000 bales to arrive, February and March shipments, at 2⅝c., gold.

LIVERPOOL, Feb. 11.—4:30 P. M.—BY CABLE FROM LIVERPOOL.—The market has ruled steady to-day. Sales of the day were 10,000 bales, of which 2,000 bales were for export and speculation. Of to-day's sales 7,000 bales were American. The weekly movement is given as follows:

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

CITY OF NEW YORK, str., (Br.,) at Liverpool, Feb. 2, from New York, experienced heavy gales on Jan. 28 and 29, and had three boats and saloon skylight smashed and fore scuttle washed overboard.

KENILWORTH, str., (Br.,) from Philadelphia for Liverpool, was passed ashore on the Mish Manli shoal, Feb. 2, at 2:30 P. M., by steamer Vindicator, at New York on the 3d; a heavy gale was blowing at the time, but she did not make any signal for assistance. The Kenilworth went to sea from the Capes at 9:30 A. M. of the 3d.

PALESTINE, str., (Br.,) Owen, from Boston at Liverpool Feb. 4, experienced in lon. 30, a hurricane, in which she lost mainmast and foretopmast, had decks swept, third and fourth officers disabled and several of the crew injured.

STATE OF TEXAS, str., from Galveston, at New York, Feb. 1, reports, Jan. 29, lat. 34.33, lon. 76.15, the machinery become partly disabled by the leaking of the boilers; the remainder of the passage was made under canvas until Jan. 31, lat. 37.57, lon. 74.28, when she was taken in tow by steamer City of Austin, from Fernandina and towed to port.

STATESMAN, str., (Br.,) Valiant, from New York, Jan. 21, which arrived at Liverpool Feb. 7, had a large hole in her port bow, having been in collision with steamer Mexican. Besides the collision, the Statesman struck the north head of the Woodside landing stage, and in docking struck the Morpeth dock wall. The owners state that the damages are not very serious, the iron deck having saved her. The vessel made no water, and the cargo was apparently not damaged.

JUVENTA, ship, (Br.,) France, from Mobile for Liverpool, which put into Key West Jan. 10, leaking badly, had effected the necessary repairs, and was reloading her cargo of cotton Feb. 7.

SUCCESS, ship, from New Orleans for Havre, before reported as aground on the bar, South West Pass, was run into Jan. 31, by steamship Wimbleton (Br.), from Penarth Roads for New Orleans, and so badly damaged as to cause her return to New Orleans, for repairs.

THERESE, ship, Shaw, from Mobile for Bremen, put into Falmouth, Feb. 7, for repairs.

D. H. BILLS, bark, from New Orleans for Havre, before reported as having put into Key West, leaky, had nearly completed reloading, Feb. 2.

RHONE, brig, (Br.), from New Orleans for Bremen, which put into Nieuwe Diep, leaky, commenced repairing Jan. 21. The damaged portion of her cotton, consisting of 168 bales, was to be sold at auction, Jan. 31.

RUTH H. BAKER, schooner, at New York, Feb. 8, from New Orleans, reports, Feb. 2, lat. 38, lon. 73, had a heavy gale from W S W, lost and split sails and sprung main boom.

## BREADSTUFFS.

FRIDAY, P. M., February 11, 1876.

There has been a hardening market for flour throughout the past week, but it has been more in sympathy with the upward tendency of wheat than from any activity in the demand. Shippers took a few thousand barrels early in the week, mainly at $4 40 for superfine, $5 10@5 25 for common extras, and $5 75@$6 for good do., but latterly there has been little inquiry from any quarter; hence no important advance in prices can be quoted. Production is still limited at all points, and in the past few weeks a material reduction of stocks on hand has been effected. A notable feature of the week's business has been free buying of extras from Winter Wheat, which were at the opening of the season classed as unsound and sent to store, in preference to selling at the low prices then bid. They have now been taken at $5@6 per bbl. To-day there was a better export demand, with sales of 4,000 bbls. common extras at $5 20@5 25.

The wheat market has been more active for export and milling, and prices of spring growths have advanced 3@5c. per bushel, the greater improvement having taken place in the poorer qualities, which have for a considerable period been pressed on the market, at disproportionately low prices. Foreign advices have been more favorable, receipts have been small at all points, and there has been a brisk revival of speculation at the West, which at the close has extended to this market. The sales yesterday included rejected spring at $1 05@$1 07, No. 3 spring, Chicago and Milwaukee, at $1 11@$1 15 in store and afloat, No. 2 Milwaukee at $1 26 in store (against $1 19 the lowest price of last week), and No. 1 spring $1 36 afloat. Winter wheats have been quiet, and show little if any advance. To-day, the market was firm, but quiet.

Indian corn has been active, and closes at some advance for new mixed, selling yesterday at 59½c. for damp new mixed, 64½@64¾c. for good do., and 62½@65c. for new yellow, Jersey and Southern. But the feature of the market has been the speculation in good new mixed for February and March delivery at 64½@65c., closing yesterday at 64¾c. for February, and 64½c. for March, though the latter month had previously brought the most money. The offerings have been on a moderate scale from the West, but supplies of near-by growth have increased. To-day there was no particular change, except less activity.

Rye has been dull, drooping and unsettled. Canada peas have been quiet and nominal. Barley has been active, but at irregular prices, and the close is unsettled. Oats have been very firmly held, but sales have been quite slow, and the views of speculative holders have not been met. To-day prices were rather better.

## THE DRY GOODS TRADE.

FRIDAY, P. M., Feb. 11, 1876.

The trade movement has been emphatically slow for the time of year with commission houses, importers and jobbers alike, and some disappointment is expressed at the backwardness of business. A break in prints has served to unsettle the market, and has somewhat weakened confidence in values of other domestic goods, while the demand for imported fabrics from first hands has been lessoned by large public sales of silks, dress goods, linens, &c. Large quantities of woolen goods, tailors' trimmings and clothing were destroyed by a fire in Broadway, and the loss of woolens and clothing will probably exceed one million dollars. The flannel commission house of Dale, Brothers & Co., Boston, with a branch in this city, has suspended payment, and gone into liquidation. One of the most interesting features of the week was a peremptory auction sale of 2,000 pieces worsted suitings, being the production to date of Thomas Dolan & Co., Philadelphia. The sale was made by Townsend, Montant & Co., and brought together an unusually large company of buyers, but the prices realized were very low and unremunerative to the producers. The stock of linen goods, white goods, &c., imported by George Hughes & Co., whose suspension occurred a few weeks ago, will be sold at auction next week by Field, Morris, Fenner & Co.

DOMESTIC COTTON GOODS.—There has been a decidedly sluggish movement in nearly all descriptions of cotton goods from agents' hands, but prices have been well sustained, except on a few makes of bleached shirtings, which have been marked down in order to meet the market. Brown sheetings and drills have been in steady but limited request at unchanged prices. Colored cottons have been very quiet, and some makes of dyed ducks have changed hands at a concession from former holding rates. Corset jeans and satteens have been in steady demand and firm. Grain bags, warps and yarns were in light demand, and rolled jacconets, glazed cambrics and silesias ruled quiet. Cottonades continued to drag, aside from a few leading makes, such as New York Mills, Whittenton, York and Everett, Farmers' and Mechanics', etc., which were in moderate request. Print cloths have been quiet but steady, at 4⅛—30 days—for extra 64s. Prints moved slowly, and some agents, having become restive under their accumulations, have reduced their goods ½c. per yard, but without materially increasing their distribution. Dunnell's, Oriental and Hartel's fancy prints were marked down to 7c., and Merrimack, Cocheco, Hamilton, Anchor and Knickerbocker shirtings were reduced to 6½c. Garner's fancy prints were opened at 6½c., and shirtings at 6½c. Ginghams were in fair demand, as were fancy cotton dress goods, and cotton hosiery was distributed in liberal amounts.

DOMESTIC WOOLEN GOODS.—The market for men's wear woolens was comparatively quiet, despite the large number of buyers present from all the leading interior cities. Cassimeres moved slowly and in small lots, and the sale of worsted coatings was interrupted by an auction sale referred to above, which had the effect of depressing values. Cloths and doeskins remained sluggish, but satinets were a trifle more active. Kentucky jeans were in moderate request, but, as a rule, selections were made in small parcels of the most popular makes. Low grade fancy overcoatings were ordered by the clothing trade to a fair aggregate amount for future delivery. Worsted dress goods showed some improvement, and fancy worsted shawls were placed in fair parcels with country jobbers.

FOREIGN DRY GOODS.—The demand for imported fabrics from first hands has continued strictly moderate, and activity has been lacking in all departments of the trade. The auction rooms have been remarkably well patronized by city and out-of-town buyers, and several important lines of goods have been distributed through their medium, although, in many cases, at very low prices. Messrs. C. A. Auffmordt & Co. sold a line of about 1,500 pieces black, colored and fancy silks through Townsend, Montant & Co., at fair prices, and large offerings were made of housekeeping linens and Hamburg embroideries with indifferent results. Woolen goods for men's wear have been very much depressed, and even thus early in the season some lines of worsted coatings, &c., have appeared at auction.

We annex prices of a few articles of domestic manufacture:

### THE NEW ENGLAND Mortgage Security Co.

OFFERS FOR SALE, AT PAR,

SEVEN PER CENT TEN-YEAR BONDS
SECURED BY
FIRST MORTGAGES OF IMPROVED REAL ESTATE.
GUARANTEED, PRINCIPAL AND INTEREST,
BY ITS
CAPITAL STOCK OF $500,000.

Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next due Coupon being stamped so as to denote that interest begins at the date of purchase.

A Pamphlet with full information will be sent on application to the Company's Office,

43 Milk Street, Boston.

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined to a single Mortgage, but extends over all the Mortgages owned by the Company. The Company receives no deposits, guarantees no other securities, and has no other debts than its Bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western States, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and interest are more promptly paid; and upon the success of Agriculture depends that of almost every Industrial Investment.

### THE ADVANCE IN GOLD.

Two questions have claimed attention for some time past. The first concerns the movements of the loan market, on which the opinions of financial men have differed somewhat. As circumstances indicate that apprehensions which may have been entertained of a close money market are not to be realized, the public attention has turned away from this side of the financial future; and a second topic of interest has been found in the Gold Room. For some time past rumors have been in circulation that a rise in the gold premium would inevitably take place before long; and various reasons were offered in support of this opinion. But the public refused to give much heed to these predictions; and gold has thus far remained extremely steady. Within a few days they have been revived with new force, and they derive some support from the large export movement, which we report elsewhere.

Several arguments seem to be relied upon by those who expect that the present advance in gold will be sustained and even exceeded. For example, it is said that there is a powerful clique who have engineered the upward movement and have capital enough to sustain it and to carry it on. Secondly, it is affirmed that the German demand for gold is about to receive a new activity, and that it will cause a considerable shipment of the precious metals from this side. Thirdly, gold is not very plentiful for delivery, and, if there be any considerable drain for exportation, the supply will be of course restricted. Finally, it is contended that the Treasury holds a very much smaller balance of coin than has been commonly supposed. This doubt as to the real state of the Treasury balance has thus become a conspicuous element in the problem. To prevent the continuance of this evil and of others of a more permanent character, it has been frequently urged in our columns that the Treasury balances should be hereafter reported in more complete detail. This argument is elsewhere discussed at some length in connection with Mr. Hewitt's resolution.

As the reply of the Secretary was not very complete, and as the public mind was considerably excited on the subject, a second resolution was offered in the House of Representatives, on Wednesday, by Mr. Sayler of Ohio, calling upon the Secretary of the Treasury to report within ten days the actual amount of gold owned by the Government, available for the resumption of specie payments, after deducting the amount of gold certificates now outstanding, the accrued interest on Government bonds, and bonds called for the Sinking Fund. Abundant complaints have been made of this resolution, which has been ascribed to the persuasions of the gold speculators. We do not, however, find any decided confirmation of this charge. It is true that many are loudly declaring that the Treasury balance of gold is quite insufficient to pay all the maturing demands, and that Mr. Bristow will have to go into the gold market before long to buy coin to meet the specie disbursements of the Treasury. But there is nothing new in this allegation, for many unfounded similar rumors have been in circulation for some time past.

Such are the chief reasons which are relied upon as likely to stimulate a rise in gold. On the other side it is affirmed that the Treasury, though not so amply supplied with coin as might be wished, has abundant resources to meet all probable demands upon it. For example, the gold in the Treasury is reported at 55 millions. The matur-

ing Treasury obligations on account of called bonds, as we lately estimated, are all provided for, except, perhaps, about two millions. Hence there is nothing for the Treasury to pay out of its gold balance on hand but the outstanding gold certificates and the accrued interest on the public debt. The first of these two items was 26 millions on the 1st February, and the second 20 millions. But neither of these amounts is likely to be called for except after considerable delay. Indeed, by the law of 3d March, 1863, the Secretary is allowed to issue gold certificates to the extent of 25 per cent beyond his gold balance. Moreover, that officer has authority to issue five per cent bonds under the resumption act of 1875 if any unforeseen necessity should arise to force him to resort to this irregular procedure. The expedient has been suggested in many quarters that Mr. Bristow should avail himself of his powers under this provision of the law; that he should sell a considerable sum of the new fives for gold; and that he should in this way replenish his coin balance; if needful with a view to the resumption of specie payments. The report of Mr. Bristow on these important topics will be looked for with so much general interest that it is hoped he will give such additional statements in his monthly schedules of the public debt as will render misapprehension more difficult, and will exhibit in detail the true state of the cash balance of the Treasury—both in greenbacks and fractional currency, in national bank notes and in coin.

A second argument against the continued advance of gold is founded upon the contraction of the volume of the greenbacks and of the national bank notes. The determined efforts making in Congress by the inflationists to stop this diminution of the outstanding currency are not generally regarded as likely to prove successful. For reasons we need not here recapitulate, the people generally do not expect any legislation on this subject. Hence, in the absence of any expansion and with the forces of contraction in full operation as at present, the deduction is made that the gold premium ought rather to recede than to advance.

In addition to the foregoing arguments, there are a number of minor reasons advanced on either side. In the presence of such a complicated series of forces, it is not easy to compute their final result. Hence there is room for the widest diversity of opinion. And the mischievous agitation which this uncertainty causes in the business of the country offers us new illustrations of the evils of our paper currency, and new inducements to reform those evils as soon as we safely can.

## PUBLICITY AND THE TREASURY BALANCE OF CASH.

Some of the most important administrative reforms in modern governments, during the present century, have been achieved as the result of publicity. Ever since the foundation of the Government of the United States, this wholesome principle has been applied to all its transactions, and especially to those of the Treasury. It is impossible to overrate, in a popular government like ours, the value of the expedient of publicity; and since the Independent Treasury was established, some thirty years ago, a full and frequent publication of the cash balances in the Treasury vaults has been exacted by law. After our paper currency system was created, the cash in the Treasury was ordered to be so reported that the gold and silver coin should be distinguished from the greenback balance. Since the Resumption act was passed, in 1875, Mr. Bristow has accumulated, under the authority given in that statute, a considerable amount of silver. This accumulation, with other circumstances, has led to a general demand that fuller information should be published periodically as to the constitution of the cash balance, so that the people might know how much of it is in gold, how much is in silver, and how much is in greenbacks. We have frequently demonstrated the necessity and usefulness of such a detailed report, and on the 31st of January a resolution was passed in the House of Representatives, calling for a complete statement.

In compliance with this resolution, the Secretary of the Treasury sent, on the 10th of February, a document which reports the aggregate of cash in the Treasury and at the several mints at $190,778,043. Of this sum about 55 millions was in gold and 77 millions in greenbacks. Against the gold, however, there were outstanding gold certificates in the hands of the public, and against the greenbacks there were certificates of deposit issued under sections 5,193 and 5,194 of the revised statutes. The amount of neither the gold certificates nor of the greenback certificates is reported; so that the exact balance of gold or of greenbacks belonging to the Treasury does not appear from the official statement in its present form. Still the document is of considerable interest. It gives the following figures:

| DETAILS OF CASH IN THE UNITED STATES TREASURY JANUARY 25, 18 | |
|---|---|
| 1. Minor coins | $74, |
| 2. Fractional currency | 8,755, |
| 3. National bank notes | 5,123, |
| 4. Legal tender notes held on special deposit for the payment of certificates of deposit issued under sections 5,193 and 5,191 of the Revised Statutes, and for the redemption of notes of the national banks failed and in liquidation, and for reducing the circulation | 59,750, |
| 5. Other legal tender notes | 17,608, |
| 6. Gold coin | 44,659, |
| 7. Gold bullion | 10,354, |
| 8. Silver coin | 11,202, |
| 9. Silver bullion | 4,146, |
| 10. Gold notes and certificates | 8,787, |
| 11. Coupons | 7,037, |
| 12. Called bonds and interest thereon | 11,311, |
| 13. Checks, funded loan of 1881 | 63, |
| 14. Registered interest | 582, |
| 15. Exchange drafts | 350, |
| 16. One and two years' notes | 5, |
| 17. Redeemed certificates | 70, |
| 18. Vouchers, Speaker's certificates | 156, |
| 19. Metal fund, in Mint currency | 50, |
| 20. Unavailable | 816, |
| Total | $190,778, |

The first inference suggested by this table is that a similar statement in full detail should be issued each month as an essential part of the monthly schedules of the public debt. One objection which has been frequently put forward when this proposition has been urged is that the cash in the Treasury cannot be analytically reported without the aggregates of the bank depositories. But this difficulty is surmounted in the above report, and there is no reason why it should stand in the way of a monthly statement. There are two obvious methods of overcoming the difficulty. Either the bank depositories could be left out of the account, and the balance could be struck without them, and the deficiency could be supplied in a supplementary statement devoted exclusively to the bank depositories and their balances, or the same plan could be adopted which is seen in the statement before us. The latest reports from the banks prior to the date of the document was the 20th January. The figures of that day are given as $10,611. Either of these methods is sufficiently accurate for the purposes in view, and probably that adopted by Mr. Bristow is the best. Adding these 10 millions to the 190 millions above reported, we have a total of $200,918,654, of which sum, as we have said, 55 millions, or a little more than one-fourth, is in gold.

The next point of interest in this schedule is the information it supplies as to Mr. Bristow's transactions in the purchase of silver. He is directed by the law of January 14, 1875, "to cause to be coined at the United States mints, silver coins of denominations of 10, 25 and 50 cents, of standard value, and to issue them in redemption of an equal number and amount of fractional currency. And to enable the Secretary of the Treasury to prepare and to provide for the redemption in this act authorized or required, he is authorized to use any surplus revenues, from time to time in the Treasury, not otherwise appropriated, and to issue, sell, and dispose of, at not less than par in coin, either of the description of bonds of the United States described in the act of Congress approved July 14, 1870, entitled 'An act to authorize the refunding of the National debt,' with like qualities, privileges and exemptions to the extent necessary to carry this act into effect, and to use the proceeds thereof for the purposes aforesaid." In obedience to this requirement of the law, Mr. Bristow has accumulated fifteen millions of silver, of which eleven millions are coin. To raise the funds necessary for this purchase, he has issued of the new fives $15,215,500. In other words, he has increased the funded debt by 15 millions for the sake of accumulating 15 millions of silver. In another communication to Congress, Mr. Bristow says that the proceeds of these 15 millions of bonds have sufficed, not only to pay for the silver which he has bought, but that there is a balance remaining. This residue has been applied to the retirement of legal tenders, as provided by the specie Resumption act. This last statement explains the reason why the monthly decrease of the debt does not always keep pace with the retirement of legal tenders. The law allows the Secretary to issue bonds at 4 or 5 per cent, for the purpose of withdrawing greenbacks as well as of purchasing silver. Mr. Bristow thus confirms what we have more than once pointed out. As to the effects of the law of January, 1875, discretionary powers are given to the Secretary, which have never, since the war, been confided to any officer of our Government, and which find no precedent in the history of this country.

Thirdly, we see suggested in the foregoing report the method by which the Syndicate and the Treasury have transacted their vast payments without disturbing the money market. The items numbered 11 and 12 are peculiarly instructive. They represent the sum of eighteen millions in gold which had been paid into the Treasury without the use of a dollar in coin. These payments have been made by the Syndicate in two ways—by coupons bought up for the most part in Europe, and by called bonds purchased in this country and abroad. In the recent sensitive state of the gold market in Europe and here, the foreign exchanges might have been very much disturbed if the heavy transactions of the Syndicate had been carried on altogether by gold coin passing to and from the Treasury. When the history of the Syndicate and its operations comes to be written, we shall see more of the judicious expedients by which the disturbance of the foreign exchanges, formerly so much complained of, has been of late avoided.

It is to be regretted that the House of Representatives has not called for its statements of the cash in the Treasury at such a time and in such a form as that the details should correspond with those of the monthly debt statement. At the close of this month this defect may be obviated, and another statement required up to 1st of March. There would be this advantage in such a report that it would create a valuable precedent. It would also be more simple in form, as it would not be complicated by the Syndicate transactions, all of which are reported to have been fully closed up.

## TOO MUCH GOVERNMENT.

On Thursday, Mr. Howe, of Wisconsin, presented a petition to the Senate of the United States, purported to be signed by citizens of Wisconsin, asking the passage of a law requiring the Treasurer to pay to every man, woman and child residing in the country, without distinction on account of race, color or previous condition of servitude, the sum of $10 a week; such sum to be paid every Saturday night at the Postoffice nearest the residence of such person. This little piece of pleasantry would be quite amusing, if it were not that it reflects so truly the attitude of our people at the present time, if we may allow as representative men those who talk the loudest and most. Public profession is certainly for retrenchment. Apparently, every one wishes—earnestly wishes, reduced taxation. The press everywhere are daily holding up the outgoes for 1860 as our highest aim. Those tables look well, and it sounds well to come back among the small figures after revelling among the higher ones so long. Besides, there seems to be a kind of necessity about it. Everyone's income is shortened; business is unprofitable; enforced idleness is extending; in a word, nine-tenths of the people feel pinched, and retrenchment comes as a necessity.

But notwithstanding these facts and professions, there is, apparently, a universal desire to obtain Government funds directly, or by indirection through Government work or an extension of Government powers. In other words, we profess economy, but are desiring prodigality. Only see how this spirit is manifesting itself in that most objectionable of all forms, the conferring of new duties and authority upon officials. For instances, we are to have, if the wishes of these men are gratified, two new bureaus in Washington; perhaps more, but only two at present are "favorably mentioned." The popular feeling hitherto has been that there was already more government there than desirable; certainly more than we wanted to pay for. Besides, if there is to be any considerable permanent decrease in expenses, it must come mainly, not by multiplying, but by cutting out some of the wheels which have been added to our official machinery since 1860. Lowering the pay for individual services is not the high road to retrenchment. Salaries may, and, in some departments, certainly will admit of pruning; and, in this connection, as a query or possible illustration, we would like to know why "compensation to Postmasters" reached in 1875 $7,049,935, against $5,818,472 in 1874, and $5,725,468 in 1873, while at the same time clerk hire for Postmasters increased in a similar ratio. But, although there is here and in the whole field of individual salaries, subject for scrutiny, yet there can be no sufficient remedy for present onerous expenditures, except by bringing the Government back, so far as our changed circumstances will admit, to its ante-war simplicity. And yet, notwithstanding this evident truth, there is an equally evident effort being made by many in the opposite direction. For instance, we are told that now we are erecting so many public buildings, it would be highly appropriate and proper to have a Bureau of Architecture; that the extra expense is only trifling, as we already support a Supervisor of Architecture; so a bill is introduced for the purpose. Does not our true

interest dictate, instead of such additional burden, that this building mania should be at once checked, and our "Architect" receive an honorable discharge? But truly, say these same economists, you would not object to raising the head of our Agricultural Bureau to the dignity of a Cabinet officer, and making a separate Department of Agriculture, "for the Grangers demand it." Perhaps we never appreciated the present Bureau, but it seems to us that a less wise thought than the proposed promotion and enlargement has not lately been suggested. If the policy of the Bureau's existence were at issue, we should certainly question it, for we cannot see that its duties are included within the objects for which our General Government exists. Then there is also the Educational Bureau, which is to have enlarged powers; and so we might go on and mention almost every department as about to assume new duties, if the desires of these men could be realized. Why should they not carry out this idea to its legitimate conclusion, and extend Government Bureaus so as to have every large interest represented. Then, when legislation was proposed, the interest affected would have their representatives at hand to advise; or, in case the advice was not taken, to act as head lobbyist and "regulate" such legislation. The railroad men, for instance, should certainly have some standing at Court if the Grangers are to organize a department. And then there is the great body of merchants entirely unrepresented, being damaged constantly by inconsiderate laws. Or, take simply the dry goods interest (an immense trade, if we include manufacturers, agents, jobbers and retailers)—why should it not be equally well provided for and have a representative in the Cabinet? To be sure, this style of government would not suit our old, simple ideas of republicanism; and to advocate it, while at the same time calling for economy, is not only inconsistent but hypocritical. And yet it would have its advantages, as we have seen. So let us then definitely adopt one or the other course; either give up all idea, all pretense of economy, and extend the sceptre over every interest, or else stop at once this expanding propensity, and endeavor honestly to decrease expenses by reducing our Government, as occasion may permit, to its simplest form.

But this is not the only shape in which the disposition to act, appears with many to be in direct opposition to the profession to economize. Applications and claims flow into Congress and find advocates daily for every conceivable object. Of course there is much to recommend many of them, if our Government was really an eleemosynary institution. That the belief it is, has gained currency during late years is no surprise. We have been lavishing money upon every Congressional district, until now almost any wish in a community is thought to be reason enough for appropriating the desired funds. No wonder, therefore, that the Grangers should think they were entitled to a department to tell them what kind of manures to use, and then to furnish them the seed. Even here in New York there are many hungry applicants and worthy objects. We only want a million to complete the Post Office building; from one to eight millions for a new Custom House; one or two millions for quarters to store quarantined goods; three millions for enlarging Spuyten Duyvil Creek, making it suitable for the passage of large vessels; one million for another revenue dock; one million for improving the channel of the upper Hudson; in fact, a million each for almost every public work begun or in embryo, except the Brooklyn Bridge, which seems to have no friends. And what is true of New York, is true of every other place. We hear it said that the South is asking for more than her share this year. We doubt it. Besides, if the Government is going to become a general benefactor or an almoner, how much better it is to build a Pacific Railroad through the South and repair her broken down levees, than to spend many millions more than necessary on a Post Office or Custom House building, dead property, generally only required for electing Congressmen.

But we are glad to see that there are members of Congress who have decided opinions upon these subjects, and are determined to scrutinize every item of expense. Though these claims have been poured in by thousands, thus far they have made but little progress. More are coming, and, as the session advances, they will be supported by powerful lobbies. Economy will be opposed by fair means and foul, by argument, by entreaty, and by ridicule. Still we trust that the necessity of the country for reduced taxation will be kept in view and the required relief secured. It is a great pity that our Government expenses could not be provided for by direct taxation, and then each individual would know what burdens he is carrying.

## CONSUMPTION OF COTTON IN EUROPE.

It is fitting, at this season of the year, to look a little into the past for help to forecast the future of the cotton trade. We have just produced a large crop and are about making our preparations for another planting. What are we to expect, and how much of our cotton can the world use, are, therefore, vital questions. The consumption and production of previous seasons go far towards furnishing an answer.

In the CHRONICLE, a year ago (February 27th, pages 198, 199), we estimated the available supply and consumption of cotton in Europe for 1875 as follows:

| *Supply.* | *Bales.* | *Pounds.* |
|---|---|---|
| Stock in European ports Jan. 1, 1875 | 1,084,000 | 422,500,000 |
| Stock held by spinners available for consumption | 250,000 | 97,500,000 |
| Probable import, all sorts | 5,520,000 | 2,128,000,000 |
| Estimated supply | 6,854,000 | 2,648,000,000 |
| Estimated consumption | 5,503,000 | 2,130,000,000 |
| Probable excess to be held in ports and by spinners Dec. 31, 1875 | 1,351,000 | 518,000,000 |

We have now received the Annual Review of the Cotton Trade for 1875, prepared by Mr. Thomas Ellison, of Liverpool, whose statistical accuracy is well established. Its figures for the year, taken in connection with their report of October 1, 1875 (the close of the cotton season), are so complete that we reprint the principal items below and the larger part of their present circular in our cotton report. From this Review we find the following figures of supply, consumption, and stock of cotton for 1875 in all Europe:

| *Supply.* | | *Bales.* | *Pounds.* |
|---|---|---|---|
| Stock in ports Jan. 1, 1875 | | 1,084,000 | 422,500,000 |
| Stock held by spinners—Great Britain | 125,000 | | |
| " " *Continent | 125,000 | 250,000 | 97,500,000 |
| Imports—Great Britain | 3,001,820 | | |
| " Continent | 2,523,460 | 5,525,280 | 2,182,075,000 |
| Total supply | | 6,859,280 | 2,702,075,000 |
| *Actual consumption.* | | | |
| Great Britain | 3,115,120 | | |
| Continent | 2,398,500 | 5,513,620 | 2,158,718,000 |
| Stock held by spinners and in ports Dec. 31, 1875 | | 1,345,660 | 543,357,000 |

* In their Review for Jan., 1875, Messrs. Ellison & Co. said the spinners of the Continent then held 110,000 bales more than the year before.

The Review does not distinguish between the deliveries of cotton to the trade and the actual consumption on the Continent, while carefully showing the identity of the two in England where the stock held by spinners is the same at the end as at the beginning of the year. But

in their October report, Messrs. Ellison & Co. gave the results of an accurate inquiry into the proportions of deliveries to consumption on the Continent for a series of years, and we adopt the rate of actual consumption for 1875 as then given. All the other figures are from Ellison & Co. We now invite comparison of our estimates made a year ago (February 27, 1875), with the actual thus reported:

| | | "Chronicle" Est. | Actual. |
|---|---|---|---|
| Import | bales. | 5,520,000 | 5,523,230 |
| Total supply | " | 6,854,000 | 6,857,230 |
| Consumption | " | 5,503,000 | 5,513,620 |
| Stock—ports and spinners' | " | 1,351,000 | 1,343,660 |

We doubt if estimates of such magnitude, made a year in advance, were ever before so closely sustained by the actual results; and we call attention to this comparison, not to parade our own sagacity (for we know full well the liability of the most careful and best informed to err in estimates), but because we have been bitterly assailed for several years by the newspapers at Liverpool, editorially and by their contributors, for our articles on European consumption. One of them attacked the very article of February 27, 1875, in terms which look so peculiar reproduced at the present time that we give the criticism below:

"We would have preferred not to allude again to the New York FINANCIAL CHRONICLE and its publications as regards cotton, as we had previously pointed out its inaccuracies. The publication, however, on Tuesday by one of our contemporaries of an extract from that paper, and dated New York, February 27, compels us, in justice to those who may be misled by its serious blunders, to refer once more to it; for, if anything were wanting to prove the existence of that of which we are daily reminded, viz., the existence of a powerful "bear ring" of cotton speculators in New York, it is the productions and publications of such a periodical as the New York FINANCIAL CHRONICLE. * *

"The extract from the New York FINANCIAL CHRONICLE of the 27th of February last, alluded to above, is as follows:"

Here follows the extract, the substantial items of which we have given above; after which the writer proceeds:

"It is often asserted, and with truth, that 'figures may be made to prove anything,' and more especially when they are arranged to arrive at a certain result which the writer desires. This has too often been the policy pursued by the FINANCIAL CHRONICLE in the past, and which has been frequently exposed by the press of this town. * * * * * * * *

"In giving their figures of this season's supply to Europe, we find the CHRONICLE to be now wrong 300,000 in their American estimate, and about 300,000 in that of Brazil, Egyptian, East India, &c. In giving 2,800,000 *American as the supply to Europe, they place it the same as that received from the last crop of 4,170,000 bales; and they also estimate an equal supply from other countries; whereas all reliable information here points to 75,000 less Egyptian, 75,000 less Brazil, and from 100,000 to 150,000 less from India than last year being received this season in Europe.

"A blunder in the supply of some 600,000 bales is thus apparent. * * * * * * * * * * *

"It is always better to make the data of cotton statistics the 1st of October to the 30th of September, for then all the crops have been dealt with. This is done by Ott Trümpler and other authorities. To enable our readers to judge this last production of the FINANCIAL CHRONICLE correctly, we place it alongside present current estimates here of the supply and consumption of Europe for this year, and which we find endorsed by well-informed authorities:

| | Present estimates current here. | "Financial Chronicle" estimates. |
|---|---|---|
| Stock, 1st Oct., 1874, at ports of Europe and held by spinners | 1,488,000 | 1,334,000 |
| Imports—American | 2,500,000 | 2,800,000 |
| " East India and other kinds | 2,391,000 | 2,720,000 |
| Total supply | 6,379,000 | 6,854,000 |
| Probable consumption of Europe same as last year | 5,700,000 | 5,503,000 |
| Stock, 1st Oct., '75, at ports and with spinners in Europe | 679,000 | 1,351,000 |

"In placing the above figures against the estimate of that of the New York FINANCIAL CHRONICLE, we assume the consumption of Europe to be the same as last year, because we see nothing to prevent it being so but a want of cotton. If, therefore, the supply is cut short, as at present anticipated, and as a reduction in the stocks held by spinners and at all the ports of Europe to 679,000 bales would be impossible, then the consumption must be checked, and the question arises what price will check consumption—will it be 9d. or 10d. for middling American cotton? In 1871–72, when we last experienced a short supply, American cotton rose from 7¾d. in July, 1871, to 9¾d. in February, 1872, and to 11¼d. afterwards, when the short American crop was fully realized."

Estimates are only matters of opinion, always open to objection, and, when erroneous, sure of ultimate correction. But statistics of facts, past or present, are either right or wrong. The CHRONICLE's statistics have been most obnoxious and the chief objects of assault since 1871–72. And now how do we stand? We are not required to abandon or change our method or any of the results obtained during these years, our consecutive articles being finally sustained and confirmed by the best statistical authority on the Cotton Trade in England, whose conclusions are accepted by the Cotton Broker's Association of Liverpool as correct. The divergence from our line of statistics, begun in 1871–72, is ended, and the two lines have become essentially one again.

The ignorant presumption of the critic, whom we have quoted, upon our article of February 27, 1875, is sufficiently rebuked by the facts which so wonderfully correspond to our expectation. The supply of cotton was not "cut short;" the stock of cotton held by spinners was increased and not diminished; consumption was not checked by high prices, which did not go to 10d. nor 9d., but only to 6¾d. for Mid. Uplands at the end of the year.

But the main interest these figures possess is as a guide to the future. As stated above, the question of past consumption seems now to be settled in our favor. We therefore reproduce our statement of spinning spindles of 1875, and add to them those of Messrs. Ellison & Co. for this year, being substantially in accord with our own returns:

| | Spinning Spindles. | | Consumption for 1876. | | |
|---|---|---|---|---|---|
| | 1875. | 1876. | Lbs. per spindle. | Tot. pounds. | Tot. bales. |
| Great Britain | 36,500,000 | 38,122,000 | 33½ | 1,275,000,000 | 3,223,000 |
| Continent | 19,500,000 | 20,800,000 | 45½ | 945,000,000 | 2,448,000 |
| Total | 56,000,000 | 58,922,000 | .... | 2,220,000,000 | 5,676,000 |

It is not our purpose at this time to enter upon the question of supply. The foregoing would appear to be the present spinning capacity of Europe.

*According to Ellison & Co. the actual import of American was 2,986,580, and from "other countries" 2,688,750 bales, even the latter exceeding our estimate in pounds.

[From our own correspondent.]

LONDON, Saturday, Feb. 5, 1876.

The money market has been very quiet, and the rates of discount have continued with a downward tendency. At one period of the week the best three-months' bills were taken in the open market at 3¼ per cent., but since then there has been a slight advance upon that quotation. The rates, however, are still very easy, the best bills being negotiated at 3⅜ per cent. The directors of the Bank of England have made no change in their rates of discount, the *minimum* quotation being still 4 per cent. The weekly return shows, however, that there has been some slight increase in the demand for money, the total of "other securities" having been augmented by £587,847. The note circulation has been increased by £433,944, and there is a diminution of £310,291 in the total reserve, the result being that the proportion of reserve to liabilities which was last week 43¼ per cent. is now about 42¾ per cent. Complaints still exist of the great scarcity of bills, and there is very little likelihood of any material increase in the supply, as there are not yet even indications of improving trade. The rates for money are now as under:

* Prices January 27.

A prominent feature in financial circles during the current week has been the decision of the Indian Government to make no allotment of bills on India. It was formally notified that the usual amount of £700,000 would be offered, but the tenders were so much below the *minimum* fixed by the India Council, that the offers were declined. I mentioned last week that each fall of a 1-16th causes a loss of £2,000 to the Indian Government on the total of £700,000, and it seems probable that the Government will make no more offers until the sales can be effected with a profit. The price of bar silver is now only 54⅛d. per ounce, and it seems to be doubtful if any material improvement upon that price will take place for some time to come. There are ample supplies in the market. The demand for India, China and Spain is now restricted, and is insufficient to take them quickly off the market; but it is not improbable that in the event of the Indian Government ceasing to draw bills on India, there would be more inquiry for silver as a means of remittance.

The following are the rates of discount at leading cities abroad:

There has been a moderate demand for gold for export, and a few parcels are understood to have been purchased on account of the German Mint. Imports and exports appear, however, to have been nearly equally balanced. Silver has continued very dull, the supply being considerably in excess of the demand. Prices have in consequence declined ¼d. per ounce. The value of Mexican dollars has had a downward tendency. Annexed are the quotations:

In the stock markets during the week there has been a great want of circulation, and the tone has been rather dull. British railway shares are mostly lower in value, the dividends recently declared having disappointed speculators, and, to some extent, shareholders. For the principal foreign stocks, however, there has been a steady demand at improving prices. United States descriptions have been in request for investment, and are higher in price, while French and Italian bonds have also attracted attention. Spanish are higher, owing to the success which has lately attended the Royalist forces, and Egyptian have been daily advancing in price. The Turkish market, however, has been dull, with very little business in progress in it. The first mortgage bonds of the principal American railroad companies have been in moderate demand for investment, and the variations in prices have been mostly favorable.

The trade for wheat has continued in a very inactive state, but there has been no material variation in prices. The arrivals of home-grown produce have somewhat increased, but both quality and condition are very poor. Hence, the better qualities of foreign produce attract some attention and are steady in value; but no upward movement is perceptible. The weather has been very mild, and there are apprehensions, not only that vegetation will make premature growth, but that we shall have an unpropitious Spring.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest—viz, from September 1 to the close of the week, compared with the corresponding periods in the three previous years:

The official return for the week ending January 29th shows that the sales of English wheat in the 150 principal markets of England and Wales amounted to 52,325 quarters. In the previous week they were 46,536 quarters, and in the corresponding week of last year 54,524 quarters. Since harvest the sales in the 150 principal markets have been 1,024,438 quarters, against 1,353,922 quarters in the corresponding period of 1874-5. In the whole kingdom it is computed that the sales during the week were 209,300 quarters, against 218,100 quarters; and, since harvest, they have been 4,097,750 quarters, against 5,415,700 quarters in 1874-5. The following is an estimate of the quantities of wheat and flour placed upon the British markets since harvest:

| | 1875-6. cwt. | 1874-5. cwt. | 1873-4. cwt. | 1872-3. cwt. |
|---|---|---|---|---|
| Imports of wheat since harvest | 26,717,349 | 16,816,368 | 19,663,151 | 22,623,661 |

**International Ocean Telegraph.**—At a meeting held in New York, January 27th, it was resolved that it was desirable to retire the preferred stock, and that it should be exchanged for common stock on the basis of three shares of common for two of preferred. The subject was referred to the directors, with authority to secure consent of holders of preferred stock in writing, no exchange to be made until the consent of 90 per cent of that stock is had. The preferred stock is now $650,000 and the common stock $850,000. When the exchange is made there will be $1,825,000 common stock.

—Messrs. Dan Talmage's Sons, under date of Feb. 15, 1876, say of the rice market: "With limited receipts and liberal demand, prices continue firm, and all the probabilities favor higher rates at no distant date. Prices are now lower by nearly one cent per pound than at any time since before the war, except for a few days in 1873, during the panic, and then, although general depression prevailed in other lines, prices almost immediately re-acted. The consumption of the present crop (Carolina and Louisiana) has been over fifty per cent in excess of that of last year up to equal date, showing plainly that, although not the rice season, the demand has enlarged greatly with the cheapening of prices. There is now on hand of the crop about the same as at equal period last year.

—The Bowery Savings Bank has issued a handsome little volume, neatly bound in cloth, giving a history of that prominent corporation from its original charter in 1834 down to the present time. A sound savings bank is one of the most important institutions of a civilized and thrifty community, and we would advise depositors to patronize those only which are willing to throw full daylight on their affairs.

—The fifth annual statement of the Texas Banking and Insurance Company, of Galveston, shows the following: Total resources—currency, $729,910 47; gold, $20,774 71. Liabilities—Capital stock, $300,000. Due depositors, currency, $352,403 81; gold, $18,948—total liabilities, currency, $729,910; gold, $20,774. The earnings in 1875 were $213,793 currency; disbursements, $137,884 53—net earnings, $75,809 02.

—The Chicago & Alton Railroad Company has declared a dividend of four per cent on both the common and preferred stock, payable at the office of Messrs. M. K. Jesup, Paton & Co., 52 William street, New York, on and after March 1. Transfer books close February 16, and re-open March 2.

—The Governor of the State of Nebraska has appointed the well-known firm of Kountze Brothers, of this city, as fiscal agents for the State, and all coupons or bonds of the said State, or any of the counties, towns, cities, &c., contained therein, will be paid at their banking house, No. 12 Wall street.

—We call the attention of business houses to the advertisement of Mr. T. G. Sellew, of 103 Fulton street. His establishment contains one of the largest assortments of fine desks and office furniture, to be found in New York, all of which he is offering at low prices, on account of the depressed condition of business.

—Mr. Maturin Ballou, of 6 Wall street, offers his services for the investment of trust and other funds on first mortgage security; he also deals in State, city and county bonds, and other investment securities and commercial paper. We call attention to his card in our to-day's issue.

## FRIDAY, FEBRUARY 18, 1876—6 P. M.

**The Money Market and Financial Situation.**—The financial markets this week have been characterized by extremely easy money, much strength in governments and other prime investment securities, irregularity in the movement of speculative stocks, and firmness in gold and exchange. The greater confidence in values of stocks and bonds seems to continue, and both the high-priced investment bonds and the lower grades of railroad mortgages, as well as many of the railroad stocks, share in the advantage, and have been marked up to decidedly higher figures. The more buoyant feeling has thus far been sustained by better reports of railroad earnings—the increase in receipts over the corresponding periods of last year being pretty general on the Western and Southwestern roads, and the percentage of increase showing more than a mere nominal improvement.

We have, by the latest English mails, the statement from Messrs. Spackman & Sons' Circular, in London, showing the capital proposed to be raised by new companies brought out in that city during 1875, new issues by previously existing companies, and foreign loans introduced during the same period. They remark upon the small amount of the total as compared with previous years.

| | Capital offered by new companies. | New issues by previously existing companies. | Foreign Government Loans. |
|---|---|---|---|
| 1872 | £44,181,000 | £31,886,635 | £227,781,825 |
| 1873 | 44,374,744 | 35,971,035 | 128,840,700 |
| 1874 | 20,512,480 | 25,023,980 | 29,140,000 |
| 1875 | 7,443,000 | 13,998,000 | 14,000,000 |

Of the new issues, by existing companies, the following analysis is given:

| | Capital offered. | Capital called up. |
|---|---|---|
| Railways | £10,445 000 | £8,167,800 |
| Telegraph | 1,110.000 | 981,250 |
| Mining | 1,000,000 | 835,000 |
| Financial | 600,0 0 | 382,500 |
| Totals (including all other) | £13,998,000 | £11,022,050 |

The foreign Government Loans introduced were:

| Loan. | Issue Price. | Amount of stock. | Paid up. |
|---|---|---|---|
| Brazilian, 5 per cent | 96½ | £5,000,000 | £4,825,000 |
| Russian, 4½ per cent. | 92 | 8,000,000 | 7,360,000 |
| Swedish, 4½ per cent | 98¾ | 1,000,000 | 987,500 |
| Totals | | £14,000,000 | £13,172,500 |

The following list shows the principal American companies which offered loans during the year, though as to these it may be stated that not the entire amount was placed:

| | Amount offered. |
|---|---|
| Baltimore & Ohio Railroad | £1,300.000 |
| Central Railroad of New Jersey | 600,000 |
| Chicago & Alton Railroad | 200,000 |
| Delaware & Hudson Canal | 400,000 |
| Keokuk & Kansas City Railroad | 500.000 |
| Lehigh Valley Railroad | 600,000 |
| Northern Central Railroad | 200,000 |
| Pennsylvania Railroad | 3,000,0 0 |
| United New Jersey Railroad & Canal | 460,000 |
| Utica Ithaca & Elmira Railroad | 300,000 |
| Western Union Telegraph | 1,030,000 |
| Total | £8,590,000 |

Our local money market has been decidedly easy, and the bulk of business on call loans has been done at 2@4 per cent. For prime commercial paper the demand is far ahead of the supply, and the bottom price is 4½ to 5½ per cent.

On Thursday the Bank of England showed a gain of £370,000 in bullion for the week, and the discount rate remained unchanged at 4 per cent. The Bank of France gained 18,470,000 francs in specie. The Imperial Bank of Germany gained 4,962,000 marks.

The weekly statement of the New York City Clearing-House Banks, issued February 12, showed an increase of $1,210,850 in the excess above their 25 per cent. legal reserve, the whole of such excess being $16,010,575, against $14,799,725, the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

**United States Bonds.**—There has been an active business in government securities, and prices have again advanced materially. There has been more demand for five-twenties of 1867 and 1868, but the noticeable inquiry has been for currency sixes and new fives of 1881, dealings in the last named issue being of large amount. The importations of bonds by foreign bankers have been less than in the previous week. It has been reported that Messrs. Belmont and Seligman were in Washington with a proposition for a new Syndicate to dispose of $500,000,000 of the new 4½ per cent bonds, provided they are authorized and run 30 years, as proposed.

**State and Railroad Bonds.**—In State bonds the most unfavorable occurrence was the postponement of interest payment by South Carolina on her consolidated bonds. The payment was first postponed from Jan. 1 to Feb. 15, and is now further put off till April 1, in consequence of the delay in levying taxes. The Charleston *Courier* thinks payment will certainly be made on the first of April. The bonds have declined to 56@59. In Alabama a bill has been introduced providing for the exchange of bonds according to the plan of the State Commissioners. Tennessee bonds are sustained to some extent by a Baltimore demand.

Railroad bonds have been active and buoyant, and not a few issues have sold at higher prices than they ever reached before. All classes of bonds have shared in the general firmness, from the high-priced first mortgage bonds of leading roads down to the defaulted bonds which are selling between 20 and 50. In regard to some of the latter, it is to be observed that the condition of their affairs is better known as time goes on, and as an estimate of their ultimate value can be made with greater certainty, there is more inclination to deal in them. The Pacific Railroad bonds have again been very strong, and the prices of some of them have touched the highest point yet reached. Among the conspicuous bonds have also been the St. Paul and Northwestern issues, which have still further advanced under the favorable prospect that the Potter law will be repealed, and on account of the large increase in the reported earnings of the first-named road.

**Railroad and Miscellaneous Stocks.**—The stock market has generally been strong on a fair volume of business, the principal exceptions being Western Union Telegraph and Pacific Mail. The express stocks, after their large advance of the past week or two, have lately been quiet and pretty steady. No reports of these associations are issued, and the public have no means of getting any definite information about them. The leading card of the week has been the repeal of the Potter law in Wisconsin; the Vance bill for this purpose passed the House last week, and in private telegrams this evening it is stated that it was passed by the Senate to-day. This, together with the large increase in earnings shown by the St. Paul road, have made the two leading Western railroad stocks decidedly buoyant, and their friends feel very confident that on the preferred stocks, at least, dividends will soon be resumed. Western Union Telegraph has been especially weak in consequence of the reduction of rates between New York and a number of the principal cities by the Atlantic and Pacific Company; in some quarters this is said to be a temporary expedient only, to bear the Western Union stock. Pacific Mail has been sold down still further and touched 33⅛ to day. At the close of business there was a firm tone, and prices at the Board advanced ⅛ to ¼ per cent. in the last half hour.

**The Gold Market.**—Gold has been more active and higher, chiefly in consequence of the shipments which have taken place and the prospect that further considerable shipments will be made in the immediate future. About $1,550,000 of gold coin was sent out on Thursday, and it was intimated at one time that, with the ruling rate of exchange, it appeared as if this shipment had been made partly for effect. This is not apparent, however, and the conclusion is that the transaction was done in the regular course of business, though with scarcely any margin for profit. To-day it was reported early that $800,000 would go out on to-morrow's steamers, but afterwards this was said to have been withdrawn. On gold loans the rates to-day for carrying were 1, 2, 2¼, 3, 4, 5 and 3½ per cent. Customs receipts of the week were $2,681,000.

The following table will show the course of gold and operations of the Gold Exchange Bank each day of the past week:

**Foreign Exchange.**—The exchange market has been firm at steady prices, ruling for actual business a little below the specie shipping point. The exports of coin are referred to in the gold market above. It is believed that the movement of United States bonds towards this country has latterly been of less amount, but as there will probably be very few railroad or other bonds placed abroad this year, it is anticipated that exchange will rule firm unless disturbed again by scarcity of cash gold here or some other speculative influence. To day business was dull on a basis of about 4.85¾ for sixty days, and 4.89¾ for demand, on actual transactions in prime sterling bills.

**Railroad Earnings.**—The latest earnings obtainable, and the totals from January 1 to latest dates, are as follows:

* This year's figures include the earnings of the Springfield Division.

† High water on five days, and no connection with Texas roads, are said to be the cause of the falling off in earnings during the first week of February.

### St. Louis & Southeastern Railway, St. Louis Division.

*(For the year ending October 31, 1875.)*

Mr. J. F. Alexander, Receiver of the St. Louis Division, has made a report to the mortgage trustees, from which we condense the following. He says: "The annexed statements, furnished by the Auditor, include the other two divisions and the totals for the whole consolidated road, for the purpose of comparison with former years, as well as each division with the others; but in speaking of the road in this report, the St. Louis division only is alluded to, except where other parts, or the whole road, are specially mentioned. By reference to these statements it will be seen that the total earnings for the year were $616,985 41, and that the operating expenses amounted to $456,961 04, leaving $160,024 37 as net earnings. This shows quite a decrease in earnings as compared with previous years; but this year was one of remarkably light traffic among Western railroads generally, and particularly so for the Southeastern. By a combination of the competing lines, this road was prohibited from doing any through business, except at ruinous rates, during the whole of this year up to the latter part of September. The combination was between the Louisville & Nashville Railway and the Nashville & Chattanooga Railway, each road being interested in lines both north and south of Nashville. These difficulties have been met and partially overcome by the most rigid economy in every department. While the gross earnings show a material falling off, it will also be seen that the operating expenses were very much reduced—being about $46,000 less than for the year before. The expenditures for improvements at East St. Louis and some other necessary improvements during the year amounted to $45,732 55. Similar expenditures will not be required again for years to come.

"The order of Court appointing me Receiver authorized me to pay, out of net earnings, certain claims against the company for liens on real estate, engines and cars, labor, materials, supplies, certificates of indebtedness issued for labor, balances due other railroads, and overdrafts at bank—in all amounting to $389,839 54, as scheduled by the Auditor. During the year $102,512 84 has been paid on these claims. The balance unpaid could probably all be settled within the next year, if the whole of the net earnings could be used for that purpose; but in view of the fact that the first mortgage bondholders, not having received anything on their past-due interest, will probably insist on having a portion of the net earnings, after January 1, 1876, set apart for their benefit, leaving the remainder for taxes, necessary improvements and the liquidation of these claims, it will take a much longer time to pay them off. It is thought, however, that most of them can be compromised and settled at a considerable discount. In fact, I have already arranged with the holders of about $56,000 of this indebtedness, secured by lien on cars, to surrender it at 20 per cent. discount, if paid during the coming year. I estimate the net earnings for the year 1876 at about $240,000. This is based upon the fair crops of this year, our late restoration to a share in through traffic, and the continuance of the running of the road as part of a through line to Nashville."

### Richmond & Danville.

*(For the year ending Sept. 30, 1875).*

At the close of the fiscal year, Sept. 30, 1875, the debt of the company was as follows:

| | |
|---|---|
| Balance of loan to State of Virginia | $ 508,486 00 |
| Other mortgage debt | 3,015,400 00 |
| Total mortgage debt ($23,820 per mile) | $3,553,886 00 |
| Floating debt and current balances, less assets on hand | 288,269 98 |
| Total debt ($25,752 per mile) | $3,842,155 98 |

During the year an arrangement was made with the Pennsylvania Railroad Company by which the Richmond & Danville Company is relieved from all collateral liabilities incurred on account of the Atlanta & Richmond Air Line road. The only outside liabilities of the company are as guarantor of $15,000 Roanoke Valley and $13,000 Northwestern North Carolina bonds. All the bonds issued under the mortgage of Sept. 1, 1873, have been recalled and the deed cancelled. Of the bonds issued under the general mortgage of Oct. 5, 1875, the board has disposed of $1,092,000 at 80, the floating debt having been largely reduced from the proceeds.

Of the bonds issued in 1867, under the mortgage of that date, the sum of $222,200 matured during the present year. Of these, $200,900 have been presented for payment, and such of them as have not been paid by the company have been satisfactorily provided for by agreement with the holders, who are content to retain them, receiving prompt payment of the semi annual interest. A portion of the annuity to the State of Virginia for the year has been paid since the close of the present fiscal year. The whole of the interest on all other outstanding obligations of the company has been promptly paid at maturity from the ordinary revenues of the company.

The earnings were as follows:

| | 1874-75. | 1873-74. |
|---|---|---|
| Passengers | $250,012 38 | $259,248 85 |
| Freight and other sources | 673,045 47 | 666,550 05 |
| Total | $923,057 85 | $925,798 90 |
| Working expenses | 599,610 22 | 597,682 70 |
| Net earnings | $323,447 63 | $328,116 20 |

Notwithstanding the increase of tonnage, there has been a decrease in revenue, caused mainly by low rates caused by the competition of the Washington City Virginia Midland & Great Southern at Danville. A loss in business from the same cause has been more than made up by the growth of local business and the through traffic from beyond Charlotte. The operations of the leased North Carolina road were as follows:

| | |
|---|---|
| Earnings ($2,661 per mile) | $583,429 68 |
| Expenses (69.22 per cent) | 409,756 68 |
| Net earnings ($821 per mile) | $183,673 00 |

This shows a decrease of $55,584 71, or 23.2 per cent, in net earnings from the previous year. During the year the gauge of this line was changed to five feet, much to the convenience of this company in working. The cost of the change was $56,769 44.

### Mississippi & Tennessee Railroad.

*(For the year ending September 30, 1875.)*

The report says: The great decrease in our gross earnings was caused by the unusual short cotton crop of last season. The decrease in receipts of local cotton to Memphis is 10,858 bales, and decrease from local points to New Orleans 1,253 bales, showing a falling off in the cotton crop on line of road of 12,169 bales, while there is an increase from our connection, in receipts at Memphis of 839 bales, showing a total decrease of 11,272 bales in receipts at Memphis.

The shipments from Memphis to New Orleans show an increase of 8,921 bales over the past year, but this cotton was carried at a very reduced rate of freight, in order to thoroughly establish our line and to meet the strong competition of the river.

The company sustained little or no loss by accident, and we now find ourselves with our roadway and equipment all in good order.

| | |
|---|---|
| The gross earnings from all sources were | $455,910 74 |
| Operating expenses (less material on hand) | 244,578 03 |
| Net earnings | $211,332 71 |
| (Operating expenses, 53 65 per cent.) | |

Operations of this road during the fiscal year were as follows:

| *Earnings.* | | *Operating Expenses.* | |
|---|---|---|---|
| Passenger | $122,928 42 | Conducting transportation | $63,275 13 |
| Freight | 312,725 97 | Motive power | 75,768 58 |
| Express | 5,000 00 | Maintenance of cars | 23,847 31 |
| Mail | 8,000 00 | Maintenance of way | 71,266 55 |
| Privileges | 1 856 00 | Deficit in invento y | 10,420 26 |
| Total receipts | $455,910 71 | Total expenses | $244,578 03 |

This shows a decrease in gross earnings of $44,821 51, a decrease of $13,303 17 in net earnings, and a decrease of $31,518 36 in expenses of previous year.

We have now on hand 12 locomotives, 9 of which are in good order, 2 in running order, 1 in shop for boiler and general repairs.

From the earnings of the road we have kept it in good repair, and made such additions and improvements as our reduced income would permit; have paid promptly all interest on our funded and floating debt, besides having reduced our floating debt $37,020 39.

## GENERAL INVESTMENT NEWS.

**Atlantic & Great Western.**—The London *News* of the 22d ult. says: "At a meeting to-day of the first mortgage bondholders of the Atlantic & Great Western RR. Co., the following resolutions were passed: 1st. 'That this meeting confirms the appointment of the existing First Mortgage Bondholders' Committee, and approves the measures they have taken on behalf of the bondholders, and requests them to continue their services until the reorganization scheme is carried through.' The following is a list of the names of the Committee: J. C. Conybeare, chairman; George T. Rait, T. B. Forwood, J. Lockington Bates, T. Shelmerdine, John Caw, Jr., T. P. Gaskell, James Wilson, M. J. O'Shaughnessy—with power to add to their number. 2d. 'That the necessary expenses incurred by the First Mortgage Bondholders' Committee are a legitimate claim on the reorganization trust funds, and subject to the approval of the trustees, be discharged.' 3d. 'That this meeting approve of the revised official scheme of arrangement, and request the committee to co-operate with the reorganization trustees in an application to the Stock Exchange for a quotation of the certificates to be issued by the trustees in exchange for the bonds deposited with them.'

"A meeting was also held of all classes of bondholders of the above company, when the reorganization scheme was approved, and it was requested that the trustees should continue their services."

**California Pacific Extension.**—The Amsterdam committee of bondholders asks for deposits of bonds to carry out an agreement with the Central Pacific, by which the latter agrees to give $2,000,000 6 per cent. bonds with its own guarantee for the $3,600,000 Extension bonds.

**Chicago & Lake Huron.**—The Bellevue *Gazette* says that C. F. Miller, of Battle Creek, and Mr. Reed, of Cassopolis, have just taken a contract to grade that portion of the gap between Lansing and Vernon, the junction of the Detroit & Milwaukee Railroad, a distance of thirty miles. They will commence operations about April 1st, and expect to complete their work about May 15th, and the rails will be laid some time in July. The Chicago & Lake Huron Company will complete the ten miles northeast of Vernon, and expend about $50,000 in new ties, rails and grading, in improving the two divisions for through traffic from Chicago east.

**District of Columbia.**—The Senate Conference Committee, on the disagreement of the two Houses on the bill to pay the interest on the 3.65 District of Columbia bonds, made a report on the 15th. The bill as perfected is as follows:

That the Commissioners of the District of Columbia are hereby directed to transfer to the Treasurer of the United States, for the payment of the interest due the 1st of February, 1876, on the bonds of said District, issued under the provision of the act of Congress, approved June 20, 1874, entitled "An act for the government of the District of Columbia and for other purposes," the sum necessary to pay the same from any unexpended appropriations heretofore made by Congress, or from any reserves derived by taxation on the property of said District of Columbia, subject to the requisition of said Commissioners, excluding funds raised for the support of public schools, provided that any further issue of 3.65 bonds, under or by virtue of said act of Congress, approved June 20, 1874, is hereby prohibited; and provided that said Commissioners are herby directed to discontinue all work and labor on streets, avenues, bridges, sewers, canals, and structures of every kind, the payment for which is to be made in 3.65 bonds of the District of Columbia; and provided, farther, that so much of the Sixth section of said act of June 20, 1874, as admits and requires the First and Second Comptrollers of the Treasury of the United States to audit and adjust the floating and unfunded debt of the District of Columbia, and issue certificates therefor, be, and the same is hereby repealed; but this proviso shall not prohibit the audit and issue of certificates for claims for work and labor already performed, and materials furnished; not, however, to exceed in the aggregate of certificates the sum of $15,000,000, including those that have already been converted into 3.65 bonds of the District of Columbia.

SECTION 2. That there shall be no increase in the present amount of the total indebtedness of the District of Columbia; and any officer or person who shall knowingly increase, or aid or abet in increasing such total indebtedness, shall be deemed guilty of a high misdemeanor, and on conviction thereof shall be punished by imprisonment not exceeding ten years and by fine not exceeding $10,000.

**Erie Railway.**—Messrs. Robert Fleming and O. G. Miller, the Committee appointed to represent the London bond and stockholders of the Erie Railway Company, arrived in this city last week. The *Tribune* reports Messrs. Miller and Fleming as saying that the object of their mission has been told in the report of the meeting of shareholders, heretofore published. They are to carry out the details of reorganization proposed on the part of Sir Edward W[illegible]in, with such alterations and modifications as they may find necessary to complete the plan successfully, and without the delays and complications of correspondence across the ocean. They will proceed with the foreclosure of the first consolidated mortgage in the usual manner. Before doing this, however, they state that they are desirous of offering every facility to the shareholders of the Company to pay the proposed assessment of the shares, and thus to enter into the organization on a basis which will not only restore them to a proprietary interest in the road, but will also increase the value of their shares, as their payments will decrease the value of interest, and will bring the Company nearer to a dividend paying condition. If the shareholders do not contribute to the reorganization of the Company, the road must be closed out in the usual manner, and they will lose all title to the property, as the mortgage bondholders cannot be expected to sacrifice their own interests for people who will not make some effort to protect themselves.

—The London *Hour* has the following: "We understand that the assents given by the bondholders and shareholders to Sir Edward Watkin's scheme for the reorganization of this company are as follows:

| | Assents. | | Issue. |
|---|---|---|---|
| 1st consolidated mortgage bonds | $2,320,000 | out of | $12,075,000 |
| Morgan's sterling bonds | 915,600 | " | 4,583,000 |
| Convertible gold bonds | 1,200,000 | " | 10,000,000 |
| 2d consolidated mortgage bonds | 2,613,500 | " | 14,400,000 |
| Preference shares | 420,000 | " | 8,586,910 |
| Ordinary shares | 3,099,400 | " | 78,000,000 |
| Total | $10,569,100 | | $127,595,910 |

—The result, therefore, is that only about one-twelfth of the several classes of securities have sent in their assents, and consequently Messrs. Miller and Fleming, representing the Dundee bondholders, have left for New York to endeavor to arrange some other scheme."

**Louisville Cincinnati and Lexington.**—Receiver Geo. MacLeod has filed his monthly report of the cash receipts, disbursements, etc. In compliance with an order of the court, he also submitted an inventory of the property transferred to him by the late receiver, the value of which amounts to $813,078 90. The monthly report is as follows:

| | |
|---|---|
| RECEIPTS FOR JANUARY. | |
| Jan. 1 to cash on hand from last month | $340,367 79 |
| Jan. 31 to cash received during month | 118,932 47 |
| Total | $459,300 26 |
| DISBURSEMENTS FOR JANUARY. | |
| Jan. 31 by cash paid out during the month | $106,385 98 |
| By cash on hand | 352,914 28 |
| Total | $459,300 26 |

The following is a statement of the earnings and expenses proper for December, 1875:

| | |
|---|---|
| Gross earnings | $98,907 58 |
| Operating expenses | 65,314 33 |
| Net earnings | $33,593 25 |
| Other necessary expenses and liabilities | 3,940 50 |
| Net proceeds | $29,651 75 |

—The earnings, expenses and net profits of the several properties operated by the late Colonel Gill, receiver, from Sept. 21, 1874, to Dec. 3, 1875, inclusive, were as follows:

| | | |
|---|---|---|
| Earnings of all lines | | $1,396,336 41 |
| Operating expenses, ordinary | $916,953 01 | |
| Cost of ties and rails put in track | 135,537 37 | 1,052,490 38 |
| Net transportation earnings | | $343,846 03 |
| State tax, rentals and guarantees | | 98,331 85 |
| Net profits of road | | $245,514 18 |

The earnings, expenses and net profits for the year ending Dec. 31, 1875, were:

| | | |
|---|---|---|
| Gross earnings | | $1,133,951 97 |
| Operating expenses, ordinary | $716,322 32 | |
| Cost of ties and rails put in track | 104,272 37 | 820,594 69 |
| Net transportation earnings | | $313,357 28 |
| State tax, rentals and guarantees | | 76,993 23 |
| Net profits of road | | $236,364 00 |

**Mobile City Bonds.**—Bonds to be funded may be sent to the Commissioners at Mobile, or to W. H. Hays, Esq., No. 6 Broad street, New York, who will receive the bonds for settlement.

**Nashville Chattanooga & St. Louis.**—The receipts and expenses for January, 1876, as compared with the same month of last year, and for the seven months ending with January, were as follows:

| | —Month of January.— | | —Seven months ending— Jan. 31. | |
|---|---|---|---|---|
| | 1875 | 1876. | 1875. | 1876. |
| Receipts | $149,180 | $173,385 | $1,072,967 | $1,018,347 |
| Expenses | 115,954 | 100,085 | 736,806 | 595,627 |
| Net earnings | $33,226 | $73,299 | 336,160 | 452,720 |
| Interest accruing on bonded debt | ..... | 36,510 | ..... | 255,570 |
| Surplus | ..... | $36,789 | ..... | $197,150 |

This shows an increase in net earnings in January of $40,033, and for the seven months of $116,559.

**New Orleans.**—The recent message of Gov. Kellogg makes the following review of the city's financial condition:

The financial condition of the city of New Orleans is such as to render some legislative action imperatively necessary. The present city administrators, as far as I am able to judge, appear to have labored to the best of their ability to establish economy in the different departments of the government, but notwithstanding they have very largely reduced expenditures, the financial embarrassments of the city have increased. * * * The question now is, how to surmount present embarrassments and how to carry on city government in the future in the most economical and efficient manner.

The total bonded and floating debt of the city of New Orleans on June 30, 1875, was $23,288,900 80. The taxable value of real and personal property in the city is $124,582,002.

The delinquent taxes now due the city for the last six years are $2,352,175 66.

The estimated revenues of the city from all sources, including a direct tax of one and a half per cent. for the current year, are $2,349,182.

The adopted estimates of expenditures for the year equal the amount of receipts, and leave unprovided for:

| | | |
|---|---|---|
| Past due interest coupons on city bonds, including December, 1875. | | $1,295,057 |
| Current interest on city bonds, about | $1,450,000 | |
| Less amount appropriated under head of "City debt, interest and redemption," preannually in connection with the premium bond plan | 307,500 | |
| Net deficit of current interest | | $1,142,500 |
| Deficiency on apportionment of Metropolitan police | | 149,000 |
| Deficiency on estimated cost of public schools | | 107,220 |
| Total deficiency for 1876 to be provided for | | $1,398,720 |
| Making a total existing deficiency for 1875 and 1876 of | | 2,693,777 |

Such an exhibit carries with it its own moral. The city is in solvent, and in my judgment the only course open is to address itself, without unnecessary delay, to some adjustment of its obligations to its creditors, and to provide for a more economical administration of the government in future. * * *

For the adjustment of the debt of the city, I recommend the appointment of a board of five persons, who should be clothed, by legislative enactment, with full power to negotiate with the creditors of the city, to any equitable plan of compromise, either by the premium bond plan or any other mode that may be determined upon, after a full conference with the representatives of the bondholders, which agreement, when ratified by the City Council, should be binding upon the city.

**New Orleans Mobile & Texas—Louisiana Division.**—Mr. F. M. Ames, Trustee, gives notice that bondholders who have subscribed or desire to subscribe to the plan to purchase and organize a company, as proposed in his circular of Oct. 22, 1875, are requested to meet, for the purpose of completing an organization, at the office of Messrs. Morton, Bliss & Co., New York City, on Saturday, Feb. 19, 1876.

**New York State Bonds.**—The Albany correspondent of the *Tribune* says: The exchange effected by Controller Robinson of $2,000,000 in securities of the Bounty Debt Sinking Fund for $2,380,000 in bounty stock, announced last week, was only the first of a series of transactions whereby the Controller expects to dispose of all the securities of the Bounty Debt Sinking Fund at the present high rates. These securities are in the following classes, omitting the two millions that have been already negotiated:

| | |
|---|---|
| State stock, 6 per cent., redeemable January 1, 1883 | $256,300 00 |
| State stock, 6 per cent., redeemable July 1, 1891 | 1,686,900 00 |
| State stock, 6 per cent., redeemable July 1, 1878 | 35,000 00 |
| Astor State stock, 5 per cent., redeemable at pleasure | 516,744 09 |
| U. S. 6 per cent. registered stock | 2,301,500 00 |
| U. S. 5 per cent. registered stock | 2,000,000 90 |
| Westchester County bonds, 7 per cent., redeemable from May 1, 1876, to May 1, 1883 | 89,000 00 |
| Total | $6,885,444 09 |

The Controller requires that none of these shall be disposed of at a lower premium than was received in the former transaction, 19 per cent., and will pay for the bounty debt received in exchange at the rate of 4 per cent. premium until the 1st of April, and after that date at a premium of 3 per cent. only, inasmuch as the stock will then have only one year to run at 7 per cent., and the deduction of 3 per cent. premium will leave only 4 per cent. interest on the investment, as low a rate as the State can afford to receive. In case the negotiation is as as successful, as in the present state of the market it seems very likely to be, the premiums will probably reach the total of $1,200,000, which will then reduce the debt, according to the figures of the last report of the Controller, to $700,000.

It ought to be said here, however, that the Governor in his message and the present Controller differ from Controller Hopkins on this point, holding that a certain share of the resources he includes in his statement is not actually available for the purpose of reducing the debt, and believing that a tax of one-half of a mill will be necessary to extinguish the debt, instead of one-third, as Mr. Hopkins stated.

**Pacific of Missouri.**—A report in regard to this road, published in New York papers, says: "A number of capitalists, including C. K. Garrison and A. M. Billings, of the People's Gas Light Company, have succeeded in obtaining a controlling interest in the first and second mortgage bonds of the Pacific Railroad Company of Missouri, and are also owners of the third mortgage bonds of the same company, and have begun proceedings to foreclose the mortgages."

**Pittsburgh & Northwestern.**—The Pittsburgh *Chronicle* says: The bonds and stock of this corporation are now being placed on the market. The bonds bear 7 per cent. and have thirty years to run. They are for $1,000 each and are based on a first mortgage on the line of the road for $1 800,000.

**Portland & Ogdensburg.**—The Portland & Ogdensburg Railway Company have informed the City of Portland of their inability to pay the interest on the $1,350,000 of bonds, issued by the city in aid of the road, which will be due on March 1. The road has not yet failed to pay its coupons, but in consequence of the necessity for making a connection with the Vermont Division, has pledged its earnings to a large amount, and asked the city to take care of the coupons upon their own city scrip issued in aid of the railroad. All the coupons on bonds sold by the company will be paid.

**Poughkeepsie & Eastern.**—Mr. Chas. Wheaton, trustee, gives notice that he will distribute among the holders of the First Mortgage Bonds of the Poughkeepsie & Eastern Railroad Co. the funds in his hands, arising from the foreclosure of the mortgage, whereby said bonds were secured, upon presentation to him of the bonds held and owned by them respectively, at his office, 24 Market street, Poughkeepsie, N. Y.

**Rockford Rock Island & St. Louis.**—Mr. Henry W. Bishop, Master in Chancery, has filed his report of the distribution of the proceeds of the Rockford Road, in accordance with the terms of the decree entered a few days ago. The clerk of the Court also acknowledged having received from Mr. Bishop the sum of $553,431 82 in cash; also, coupons of the first series of bonds to the amount of $20,535, coupons of the second series of bonds to the amount of $24,255, bonds and past-due coupons belonging to the first series to the amount of $2,729,120, and bonds and past-due coupons of the second series to the amount of $2,558,922 50. The report was ordered to be approved.

**South Carolina State Bonds.**—It is reported from Charleston that owing to unforeseen delays in the collection of taxes—the result of tardiness of the Legislature in passing the Tax bill—the payment of interest on State bonds and stocks is postponed until April 1, with a probability that the payment will be made in the middle of March. The tax for interest has been duly levied, but taxes will come in slowly until the end of this month, when the time of collection expires.

**Telegraph Rates Reduced.**—The war between the telegraph companies has broken out again, and the Atlantic and Pacific Company reduced its rates from 10 to 20 per cent. The following are the new and old rates between New York and the points named:

| | New. | Old. | | New. | Old. |
|---|---|---|---|---|---|
| Philadelphia | $0 25 | $0 30 | Albany | $0 30 | $0 40 |

The Western Union Company followed with a similar reduction.

**Toledo Wabash & Western.**—The chairman of the stock holders protective committee, Mr. O. D. Ashley, publishes a notice to bondholders, in which he states:

The "Foreclosure Committee" having announced their plans, in the event of succeeding the stockholders in the ownership of this property, we consider it due to you to state that the stockholders intend to oppose, in every legal way in their power, the consummation of this great wrong. The protective committee have secured the services of able counsel, and have been assured that the grounds of defense are tenable. A sale of the property under the foreclosure decree will involve a loss of the rights, franchises and privileges conveyed to the present company by the consolidation of 1865.

Of the $5,000,000 gold bonds, $503,000 were practically given away to relieve the company of a burdensome lease—not a dollar in money having been received therefor, and $2,497,000 were pledged, and are still outstanding as collateral security for loans amounting to $302,000. The company thus received in cash but $2,602,000 for $5,000,000, or about 52 per cent of the par value thereof. The disposition of some of these bonds is therefore of questionable legality. * * *

The stockholders have endeavored to obtain an equitable compromise, and have offered to attempt to raise more than $1,500,000 toward payment of the floating debt and interest arrears, but the Foreclosure Committee have declined the proposition, and now ask your approval of a measure which contemplates the absolute extinction of $16,000,000 stock, $600,000 equipment bonds, and lease obligations and contracts equivalent to interest on $4,200,000.

Under these circumstances the stockholders ask you to co-operate with them in resisting a decree of sale.

**Union Pacific.**—The following are the earnings and expenses of the Union Pacific Railroad Company for the years ending December 31, 1875 and 1874:

| From— | EARNINGS. 1875. | 1874. | Increase. |
|---|---|---|---|
| Passengers | $4,516,014 31 | $3,952,858 55 | $303,155 79 |
| Freight | 6,641,512 27 | 5,664,731 33 | 976,780 94 |
| Mails and express | 769,317 23 | 727,061 77 | 42,255 46 |
| Miscellaneous | 236,988 25 | 215,228 47 | 21,759 78 |
| Total | $11,993,832 09 | $10,559,880 12 | $1,433,951 97 |
| Operating expenses | 4,932,047 95 | 4,652,881 95 | 329,733 00 |
| Surplus | $7,011,781 14 | $5,907,565 17 | $1,104,218 97 |

The percentage of operating expenses in 1875 was 41 54-100 per cent., against 44 5-100 in 1874, a decrease in 1875 of 2 51-100 per cent.

**Wilmington & Reading.**—The holders of about $900,000 of the $1,200,000 first mortgage bonds have agreed to join in the plan for the purchase and reorganization of this road, and have deposited their bonds with the Fidelity Trust and Safe Deposit Company, of Philadelphia. It is thought that others will come in. The foreclosure of the first mortgage is to be pushed as quickly as possible.

**Wisconsin Railroad Law.**—The following are the important features of the bill now before the Wisconsin Legislature repealing the Potter law:

"SEC. 11. The Chicago Milwaukee & St. Paul Railway Company shall file with the Railroad Commissioner, before the day when this act shall take effect, the regular published schedule of their tariff rates for the transportation of persons and property which was in force on their railroad on the 15th June, 1872, and that company and the Chicago & Northwestern Railway Company shall not demand, collect or receive a greater compensation for the transportation of persons and property than is fixed in such schedule for corresponding distances. This provision shall apply to such lines of railroads as have been built and put into operation by either of said companies and operated under lease or otherwise, since the date above mentioned; provided that the Chicago Milwaukee & St. Paul Railway Company and the Chicago & Northwestern Railway Company shall sell, at all ticket stations on their respective lines within this State, tickets for five hundred miles; also round-trip tickets good for first-class passengers, to and from any station within this State, at a uniform rate of 3 cents per mile; and provided, further, that no railroad corporation shall be compelled to accept less than 5 cents for transportation of any passenger between any points.

"SEC. 12. Secs. 1, 2, 3, 4, 5, 6, 7, 8, 13 and 14 of Chap. 273 of the Laws of 1874, of which this is amendatory; chap. 311 of the laws of 1874, entitled An act in relation to railroads;" chap. 334 of the laws of 1875, entitled, An act to amend chapter 273 of the laws of 1874, entitled 'An act relating to railroads, express and telegraph companies, in the State of Wisconsin," and the first section of chapter 113 of the laws of 1875, are hereby repealed.

"SEC. 13. This act shall be in force from and after the first day of April, A. D. 1876."

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Feb. 18, 1876.

Trade has been dull and disappointing the past week. Reductions which have been made in prices of foreign merchandise and domestic manufactures have not stimulated business; and the speculation, which was so general in staples of domestic produce, has been restricted to one or two articles. The slow progress which Congress makes with measures of finance and taxation, upon which important interests turn, begins to excite some complaint, and altogether an unsettled feeling prevails. The weather much of the time has been cold and blustering, in marked contrast with the spring-like temperature of last week.

Speculation in pork and lard has progressed with much activity, and a material advance in prices has been realized. The packing season at the West seems to have come to a premature end, from the scarcity and high prices of swine. The leading grades of pork are 50c@$1 per bbl higher, but for future delivery the close is not much higher than last Friday; 2,000 bbls mess sold to-day at $22 85@22 95 for March and April, and bids somewhat reduced at the close. Lard has been very active, and sold to-day as high as $13 50 spot and March; $13 60@13 62½ for April; $13 82½ for May, and $13 90 for June, closing quiet. The speculation has been aided by an active demand from refiners, and there has been, also, an active demand from Germany. Bacon and cut meats are higher, but not active. Beef is without further improvement. Butter and cheese have ruled steady but less active. Tallow firm at 9½@9 5-16c. Stearine has advanced to 13½@13¾c.

Coffees have been further reduced; Rio, fair to prime cargoes, 16@17½c.; Java, 23@25c., and Maracaibo, 16@18½c., gold, but without stimulating much business, and stocks have increased to 243,712 baga Rio, 140,078 mats Java, and 49,640 bags and mats of other growths. Rice has remained quiet. Teas have been moderately active, but dried fruits have ruled quiet. Molasses has opened for the new crop of Cuba at 32c. for 50-test. Sugars, though without quotable decline, have been weak; fair to prime refining Cuba, 7⅞@8c.; standard crushed, 10⅜c.

| Stock Feb. 18, 1875 | 29,317 | 35,261 | 96,978 | 576 |

Hides have been quiet, but quotations are firm; dry Montevideo sold at 21c., dry Rio Grande at 19c., gold, four months, and city slaughter ox 9c., currency. Linseed oil has continued in fair jobbing demand at steady prices; quoted at 60c.@61c.; other oils quiet and unchanged. Whiskey has declined to $1 11, tax paid.

Kentucky tobacco has continued in moderate demand, and quotations are unchanged at 4½c.@7c. for lugs, and 7½c.@15c. for leaf, new crop; sales 500 hhds., of which 350 were for export and 150 for consumption. Seed leaf has been less active, but prices are steady; the sales embrace: Crop of 1873, 127 cases New England at 15c., 150 cases Ohio wrappers at 12c., and 84 cases New York, on private terms; and crop of 1874, 350 cases New York at 8c.@11c., and 204 cases Ohio, on private terms; also 200 cases sundries at 7c.@25c. Spanish tobacco has been in fair demand, with sales 800 bales Havana at 88c.@$1 15.

In ocean freights only a moderate business has been effected, and notwithstanding the limited offerings of tonnage some concessions in rates have been granted. Late engagements and charters embrace: Grain to Liverpool, by steam, 7d.@7½d.; do. for next week, 8d. per 60 lbs.; provisions, 35s.@40s. per ton; cotton, by sail, 9-32d. for compressed. Grain to London, by sail, 8d.; flour, 2s. 6d.; rosin, 2s. 4½d.; hops, by steam, ⅝d. Grain to Glasgow, by steam, 8½d.@9d.; tobacco to Bremen, by sail, 37s. 6d. Refined petroleum to Antwerp or Rotterdam, 4s. 6d.@4s. 10½d.; the nominal rate for grain to Cork for orders was 6s. 9d. To-day there was a moderate business and late rates were retained. Grain to Liverpool, by steam, 8d.; do. to London, by steam, 9½d.; do. by sail, 8d., and flour at 2s. 6d. No charters were made on 'Change.

Naval stores have latterly been more steady, owing to advanced advices from Wilmington. A moderate trade has been done. Spirits turpentine, 36½c; common to good strained rosin, $1 60@1 65. In petroleum little or nothing has been done, but the close was steady at 7¾c for crude, in bulk, and 13⅝@13¾c for refined, in bbls. Ingot copper remains steady, with sales latterly of 300,000 lbs Lake at 22¼c, cash. Hops are rather quiet but steady at 12@18c for State, 1875. Wool sells fairly, and holders are pretty steady in their views.

## COTTON.

FRIDAY, P. M., Feb. 18, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (February 18) the total receipts have reached 110,576 bales, against 118,582 bales last week, 131,379 bales the previous week, and 152,359 bales three weeks since, making the total receipts since the 1st of September, 1875, 3,295,251 bales, against 2,836,183 bales for the same period of 1874–5, showing an increase since Sept. 1, 1875, of 459,068 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 80,000 bales; for Havre, 34,000 bales; for Continent, 44,000 bales; for coastwise ports, 6,500 bales; which, if deducted from the stock, would leave 209,000 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, 14,906 bales; for other foreign, 8,497 bales; for coastwise ports, 2,953 bales; which, if deducted from the stock, would leave remaining 39,402 bales

‡ The exports this week under the head of "other ports" include from Baltimore 395 bales to Liverpool and 500 bales to Bremen; from Boston 1,413 bales to Liverpool; from Philadelphia 707 bales to Liverpool; from Wilmington 2,124 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 34,294 bales, while the stocks to-night are 29,662 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to Feb. 11, the latest mail dates:

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market this week opened with the appearance of considerable firmness for cotton on the spot. Gold and exchange were higher, and home spinners seemed to be in want of stock. But advices from Liverpool were disappointing to holders, receipts at New Orleans and Memphis were large, the stock at this point showed some accumulation, and receivers, in their desire to effect sales, accepted on Wednesday a reduction of ¼c., to 12¾c. for middling uplands. But even at this reduction the market was weak, irregular and inactive, with Liverpool down to 6⅝d., and prices here relatively much above those current there. To-day, quotations were reduced 1-16c. for middling and above, and ¼c. for the lower grades, while stained was marked down ¼c.@½c. For future delivery the market on Saturday last maintained the upward tendency of the previous two days; but on Monday took a downward turn, which was continued with little interruption until the close of Thursday's business, when a reduction of about 3-16c. from the closing prices of Saturday was established, the summer months dropping below 14c. The decline in Liverpool has been the most active among the depressing influences, as it has greatly discouraged the hopes that have been entertained of a reaction in that market. To-day, the early months were again down 1-16@¼c., and the later months about 1-16c. off, with free selling for the spring months.

The total sales for forward delivery for the week are 128,500 bales, including 100 free on board. For immediate delivery the total sales foot up this week 6,158 bales, including 2,416 for export, 2,338 for consumption, 836 for speculation, and 568 in transit. Of the above, 100 bales were to arrive. The following are the closing quotations:

These figures indicate an *increase* in the cotton in sight to-night of 53,341 bales as compared with the same date of 1875, an *increase* of 15,722 bales as compared with the corresponding date of 1874, and an *increase* of 457,652 bales as compared with 1873.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week and stock to-night, and for the corresponding week of 1875—is set out in detail in the following statement:

The above totals show that the old interior stocks have *decreased* during the week 4,567 bales, and are to-night 7,321 bales *less* than at the same period last year. The receipts at the same towns have been 1,841 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 15,000 bales shipped from Bombay to Great Britain the past week, and 12,000 bales to the Continent; while the receipts at Bombay during this week have been 27,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, Feb. 17:

| | Shipments this week. Great Britain. | Continent. | Total. | Shipments since Jan. 1. Great Britain. | Continent. | Total. | Receipts. This week. | Since Jan. 1. |
|---|---|---|---|---|---|---|---|---|
| 1876..... | 5,000 | 12,000 | 17,000 | 43,000 | 45,000 | 88,000 | 27,000 | 129,000 |
| 1875..... | 37,000 | 8,000 | 45,000 | 132,000 | 59,000 | 191,000 | 56,000 | 254,000 |
| 1874..... | 15,000 | 8,000 | 23,000 | 79,000 | 42,000 | 120,000 | 34,000 | 193,000 |

From the foregoing it would appear that, compared with last year, there is a *decrease* of 28,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 103,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—The weather during the past week has been as favorable as usual at this season of the year. Planters are making fair progress in their preparations for the next crop. The movement of the laboring class towards the Southwest, which was so considerable last year, appears to be in progress again this season.

*Galveston, Texas.*—Plowing has generally begun. This has been a most remarkable winter in this locality. We have not had a particle of ice or even frost yet. Oranges, figs, grapes, apples, peaches, to a moderate extent, are still maturing. It has rained hard two days this week, the rainfall reaching one inch and forty-five hundredths. The thermometer has averaged 63, the highest being 74, and the lowest 52.

*Indianola, Texas.*—General preparations for the new crop are now being made. We are having too much rain. This week there have been four showery days, the rainfall reaching fifty-five hundredths of an inch. The thermometer has averaged 63, the highest being 78, and the lowest 50.

*Corsicana, Texas.*—One day has been showery, but the balance of the week has been pleasant; the rainfall reached only twenty hundredths of an inch. Demoralization among the laborers consequent upon the election is now over, and plowing has fairly begun. The thermometer has averaged 57, the highest being 78, and the lowest 57.

*Dallas, Texas.*—It has been warm and dry during the whole of the past week, and the roads are much improved. There is heavy immigration to this section, and it is augmenting largely the labor force. Small grains are very promising. The thermometer has averaged 62, the highest being 78, and the lowest 34.

*New Orleans, Louisiana.*—We have had four rainy days the past week, and a frost, though not a killing frost. The rainfall for the week is one inch and fifty-one hundredths, and the average thermometer 61.

*Shreveport, Louisiana.*—The weather this week has been clear and pleasant, without rain. The thermometer has averaged 57, the extremes being 79 and 39. Receipts show a falling off from last week. Shipping facilities are excellent.

*Vicksburg, Mississippi.*—Telegram not received.

*Columbus, Mississippi.*—The thermometer has averaged, during the past week, 67, the extremes being 46 and 87. Total rainfall for the week forty hundredths of an inch. As the week closes there is a favorable change in the weather.

*Little Rock, Arkansas.*—The weather has been fair all the week, except Monday, when we had a Norther, with rain. We continue to receive one to two hundred bales of cotton per day, but of very inferior grade. Thermometer has averaged 52, the highest being 73 and the lowest 33, and the rainfall has reached one inch and sixteen hundredths.

*Nashville, Tennessee.*—There has been no rain here this week. The thermometer has averaged 49, the highest being 59 and the lowest 30.

*Memphis, Tennessee.*—There has been one rainy day, the rainfall reaching thirty hundredths of an inch. The rest of the week has been pleasant. Average thermometer 45, highest 58 and lowest 44.

*Mobile, Alabama.*—Two days the early part of the past week were showery and two were cloudy, but the remaining three days were pleasant. The rainfall has reached thirty hundredths of an inch. The thermometer has averaged 58, the extremes being 42 and 71.

*Montgomery, Alabama.*—The first four days of the week were rainy, but the latter part was clear and pleasant, the rainfall for the week reaching one inch and seventy-two hundredths. The thermometer has averaged 59, the extremes being 40 and 78.

*Selma, Alabama.*—Rain fell at this place on two days during the week past, the rainfall aggregating one inch and thirty-two hundredths. The thermometer has averaged 59.

*Madison, Florida.*—Telegram not received.

*Macon, Georgia.*—It rained here two days during the week. The thermometer for the same period has averaged 56, the highest being 76 and the lowest 37. The weather is favorable for planters. On the 13th inst. one of our cotton warehouses was burned, causing a loss by fire of about 150 to 200 bales of cotton.

*Atlanta, Georgia.*—Two days of the past week were showery, the rainfall reaching one inch and twelve hundredths. The thermometer has averaged 60, ranging from 40 to 74.

*Columbus, Georgia.*—It was showery on two days this week, the rainfall reaching one inch and two hundredths. Average thermometer 53, highest 70, and lowest 34.

*Savannah, Georgia.*—There were two rainy days here the past week, but the rest of the week was pleasant. The rainfall has reached one inch and ten hundredths, and the thermometer has averaged 58, the extremes being 43 and 80.

*Augusta, Georgia.*—It rained heavily on two days, the rainfall reaching one inch and twenty nine hundredths. The remainder of the week has been pleasant, the thermometer averaging 59, and ranging from 35 to 78.

*Charleston, South Carolina.*—On two days of this week it was showery, the rainfall reaching sixty-four hundredths of an inch. The thermometer has averaged 58, ranging from 44 to 73.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock Feb. 17. We give last year's figures (Feb. 19, 1875) for comparison.

ELLISON & CO.'S ANNUAL REVIEW FOR 1875.—In our editorial columns will be found some remarks upon the consumption of cotton in Europe. Below we give copious extracts from Ellison & Co.'s very interesting review for 1875, just received, which will well repay study:

CONSUMPTION OF GREAT BRITAIN.

The deliveries for home consumption amounted to 3,115,120 bales, or 59,900 per week, as shown in the following statement:

| | Bales. | Pounds. |
|---|---|---|
| Stock held by spinners 1st January | 125,000 | 50,493,000 |
| Stock in the ports 1st January | 786,370 | 299,036,210 |
| Import during the year | 3,708,030 | 1,455,598,470 |
| Total supply | 4,619,400 | 1,808,132,680 |
| Export during the year | 706,210 | 251,811,650 |
| Stock held by spinners 31st December | 125,000 | 53,673,000 |
| Stocks in the ports 31st December | 673,070 | 274,244,820 |
| Total deduction | 1,504,280 | 577,748,820 |
| Leaving for actual consumption | 3,115,120 | 1,230,383,870 |

Which compares as follows with the figures of the preceding nine years:

| | | | | | |
|---|---|---|---|---|---|
| 1875 | 3,115,120 | 1,230,383,870 | 1870 | 2,797,090 | 1,071,769,720 |
| 1874 | 3,228,180 | 1,266,129,250 | 1869 | 2,628,460 | 939,619,050 |
| 1873 | 3,203,710 | 1,246,149,910 | 1868 | 2,801,940 | 996,197,100 |
| 1872 | 3,265,620 | 1,175,345,250 | 1867 | 2,552,498 | 954 5 7,500 |
| 1871 | 3,114,780 | 1,235,455,250 | 1866 | 2,406,394 | 890,721,000 |

In order to give a correct comparison of the amount of cotton consumed, we have reduced the bales to the uniform weight of 400 lbs. each, as follows:

| | Total in bales of 400 lbs. | Average per week. | | Total in bales of 400 lbs. | Average per week. |
|---|---|---|---|---|---|
| 1875 | 3,075,970 | 59,160 | 1870 | 2,679,480 | 51,520 |
| 1874 | 3,165,323 | 60,870 | 1869 | 2,347,540 | 45,140 |
| 1873 | 3,115,374 | 59,910 | 1868 | 2,490,490 | 47,890 |
| 1872 | 2,988,363 | 56,510 | 1867 | 2,286,290 | 45,899 |
| 1871 | 3,013,638 | 57,950 | 1866 | 2,226,820 | 42,820 |

As compared with 1874 the consumption of 1875 shows a decrease of 1,710 bales, of 400 lbs. each, per week, or 2¾ per cent, against an increase of 960 bales, or 1⅝ per cent, in 1874 upon 1873. The present rate of consumption is about 60,000 bales per week, say 33,000 American, 13,000 East Indian, and 14,000 sundries.

STOCK IN GREAT BRITAIN.

The aggregate stock remaining in the ports at the close of the year is officially declared to be 673,070 bales, including 616,770 bales in Liverpool, against 786,370 and 684,710 bales respectively at the end of 1874. Subjoined is a comparative statement of the stocks in the ports and in the hands of spinners on the 31st of December, 1875 and 1874:

CONSUMPTION OF EUROPE AND AMERICA.

The total import into Europe in 1875 amounted to 5,525,280 bales, of which 3,708,030 bales were received into British and 1,817,250 bales into Continental ports. Of the 3,708,030 bales received into Great Britain, 706,210 were re-exported to the Continent, making the total supply to foreign Europe 2,523,460 bales, and leaving 3,001,820 for British consumption. The stocks at the close of the year showed a decrease of 26,420 bales as compared with those of twelve months previously, so that the deliveries were 5,561,700 bales, of which 3,115,120 bales were to English, and 2 446,580 bales to Continental spinners.

The average weekly deliveries were, to English spinners, 59,900 bales, against 61,983 in 1874, and to Continental spinners 47,107 bales, against 45,929.

Of the 706,000 exported from Great Britain, about 140,000 bales went to the Baltic, and we have advices of 433,000 bales having arrived at Hamburg, Bremen, Rotterdam, Amsterdam, Antwerp, Havre, Barcelona and Genoa. The remaining 133,000 consisted of transit cotton forwarded through Dutch, Belgian German and other ports, but respecting which we have not been able to obtain the necessary details. In the table below the 140,000 bales to the Baltic and 133,000 to miscellaneous ports are included in the 654,000 bales put down to Russia, &c. The balance, 392,000 bales, was imported by Russia, Sweden, Italy, &c., direct from the countries of growth, namely, 230,000 bales from America, 36,000 bales from the Brazils, 47,000 from Egypt, and 79,000 bales from India. (These figures make a total of 665,000 bales, but 11,000 bales were re-exported and included in the general imports into the ports named above.) In 1874 the direct imports were 193,000 bales from America, 23,000 bales from the Brazils, 33,000 from Egypt, and 79,000 from India.

As stated in previous annual reports, it is not easy to trace the ultimate destination of the cotton delivered from the various ports of the Continent. A portion of last year's imports into Germany passed on to Russia. Much of the cotton put down to Holland and Belgium passed through those countries to Germany, Austria, Alsace and Switzerland.

The deliveries to American spinners, North and South, last season amounted to 1,190,000 bales, against 1,313,000 bales in 1874 and 1,201,000 in 1873, being a weekly average of 22,880 bales in 1875, against 25,250 in 1874 and 23,106 in 1873.

The number of spindles in the United States, according to the valuable report published by the New York FINANCIAL CHRONICLE, is 9,539,364, of which 9,057,543 are in the North and 481,821 in the South.

SPINDLES AT WORK IN 1875.

So far as we have been able to ascertain, the number of spinning spindles in existence at the close of 1875, compared with twelve months previously, was as follows:

| | 1875. | 1874. |
|---|---|---|
| United Kingdom | 38,122,000 | 37,516,000 |
| Continent | 20,800,000 | 19,650,000 |
| United States | 9,539,000 | 9,415,000 |
| Total | 68,461,000 | 66,581,000 |

PROPORTIONATE CONSUMPTION.

Subjoined is a comparative statement of the relative positions of Great Britain, Continental Europe and the United States (North and South) in each of the past three years and 1860. The deliveries are given in 1,000s of bales of the uniform weight of 400 pounds each. The entire statement is based upon the details given in the table under the heading of "A Comparative Statement of the Movements of Cotton in Europe and the United States for the Years 1875, 1874, 1873 and 1860."

| | 1875. | | 1874. | | 1873. | | 1860. | |

The stocks in the hands of English spinners are about the same as last year. Continental spinners held only a bare working stock at the end of September, but they now hold a surplus of about 80,000 bales.

THE COMPETITION OF EUROPE, AMERICA AND INDIA.

In our last annual report we pointed out a feature in the figures relating to the comparative consumption of Great Britain and the Continent "worth the serious attention of those who have been and are still directly or indirectly seeking to increase the cost of production in this country," and for the benefit of the same people we append the following account of the consuming power of Great Britain, Continental Europe, the United States, and India, for 1876, compared with 1860, premising that by India we mean only the consumption by machine power in the Bombay Presidency alone. The figures are in bales of the uniform weight of 400 lbs. each:

The average annual increase in sixteen years is only 0·82 per cent for Great Britain, against 2·35 per cent for the remainder of the world; that is to say, the consumption of the Continent, America and India has increased almost three times as fast as that of Great Britain. Not the least unpleasant feature of the case is that the slow movement in Great Britain and the rapid movement in other countries has been most strikingly visible during the past three or four years. What may be in the future it is impossible to say, but it is very clear that Lancashire cotton spinners have now much keener and more successful foreign competitors to deal with than they had only a few years ago.

STATE OF THE CONTINENTAL TRADE.

The state of trade on the Continent in 1875 presented pretty much the same features as in Great Britain. To importers of the raw material the year was very unsatisfactory, and considerable loss fell upon merchants in the leading ports; but spinners and manufacturers did moderately well, except those spinners who imported largely of the raw material in expectation of an activity in trade and a rise in prices which did not take place. Taking the year round it did not realize the favorable anticipations current twelve months since.

In *France* consumption again increased, and the year's results were satisfactory, especially to manufacturers, though the profits were not so large as in 1874. In *Germany* business was moderately active the year round; the demand kept pace with production, but no more; producers escaped working at a loss, but they did not make any great profits. Trade in *Alsace* and *Lorraine* was fairly satisfactory. In *Switzerland* consumption was fully maintained, but the demand was interfered with to some extent by the disturbances in the East—an important vent for Swiss fabrics. In *Holland* spinning was pretty remunerative, but manufacturing was unsatisfactory, owing to the unfavorable state of trade with the Dutch East Indies—the principal external market for Dutch cotton products. No new feature was developed in *Belgium;* the consumption there is only small, the bulk of the imports consisting of cotton in transitu. In *Austria* the profits on spinning were very meagre, especially to those spinners who held large stocks of the raw material at the opening of the year; weaving was more remunerative. During the last three or four months, business has been disturbed by the unsettled state of home politics, and the threatening attitude of the Eastern question. One feature of the year was an increase in the proportionate production of the coarser counts of yarn. From *Italy* the accounts are very satisfactory; both branches of the industry did very well, though weavers did better than spinners. Consumption is increasing, and new machinery is consequently being put up. In *Spain* business was quiet but sound, the disturbed state of the country notwithstanding. Messrs. Canadell and Villavechia, of Barcelona, estimate the increase in spindles in 1875 at 100,000. In *Russia* a full rate of consumption was kept up, and trade was fairly profitable; the same remark applies to *Sweden;* in both countries additional machinery has been brought into use.

The generally disappointing character of the business results of 1875 causes the prospects for 1876 to be viewed in a cautious and somewhat timid manner. There is a disposition to speak and write cheerfully, but there is an absence of healthy enterprise. It is expected that the low prices will eventually bring about something akin to activity, but at present there is no disposition to operate beyond the extent necessary to meet actual or immediate requirements.

PROBABLE REQUIREMENTS OF EUROPE FOR 1876.

Under this head we have little to add to the remarks contained in our Annual Review for the season, issued in October last. In that report we estimated the requirements of Great Britain for the season, ending September 30th next, at 1,265,000,000 lbs. On the basis of this figure for the first nine months of 1876, and an increase of 3 per cent in the rate of consumption for the last three months, the requirements for the year will be about 1,275,000,000 lbs., against a consumption of 1,230,388,000 lbs. in 1875.

The Continental consumption for the season we computed at 937,000,000 lbs. Adding 3 per cent for increase in the last three months of 1875 will give about 945,000,000 lbs. as the requirements for the whole year, against a consumption of 915,000,000 lbs. in 1875.

The following, therefore, is our estimate of the consumption of Europe in 1876:

| | Lbs. | Per cent. | Bales. | Per week. |
|---|---|---|---|---|
| Great Britain | 1,275,000,000 | 57.43 | 3,228,000 of 395 lbs. | 62,077 |
| Continent | 945,000,000 | 42.57 | 2,442,000 of 386 lbs. | 47,019 |
| Total | 2,220,000,000 | 100.00 | 5,676,000 of 391 lbs. | 109,096 |

PROSPECTS OF SUPPLY FOR 1876.

Twelve months ago we estimated the import into Europe from all sources for 1875 at 5,470,000 bales; the actual arrivals were 5,525,000 bales, or only 55,000 bales more than our estimate. There was a material deficiency in the imports from the Brazils, West Indies, &c., but this was more than counterbalanced by the excess in the arrivals from America, Egypt and India, owing mainly to the extraordinary rapidity with which the new crops of America and Egypt were marketed—the imports in the last three months of the year being 680,600 American, against only 492,260 in 1874, and 213,900 Egyptian, &c., against 186,650 bales.

In our October report we estimated the probable import of American for the season 1875–6 at 2,750,000 bales. This computation was based on the supposition that the crop would range from 4,000,000 to 4,100,000 bales, or an average of 4,050,000 bales, and that American spinners would take 1,300,000 bales. In the same report we stated that with an open winter the crop might reach 4,250,000 bales. In some measure the winter has approached the character of openness contemplated in our October circular. Picking has been seriously interfered with by frequent, and at times, continuous rains, but a large quantity of cotton has been gathered that would not have been grown if the frosts of October and November had been as severe and as widespread as in the corresponding months of the previous season. This circumstance has naturally led to a general increase in crop estimates since the beginning of November. On the 1st of that month the returns received by the Washington Agricultural Bureau pointed to a yield of about 3,900,000 bales; on the 1st December, Mr. Dodge, the head of the department, guided by later information, and in anticipation of his closing report, stated that the yield would exceed 4,000,000 bales; and early in the current month (January), he gave 4,050,000 to 4,150,000 bales as his final estimate. * * *

The crop controversy of to-day presents almost precisely the same features as twelve months ago. Again we hear of large stocks in the plantations, which are to swell the receipts at the ports in February; and again the reports of the Washington Bureau and the Southern Cotton Exchanges are pooh-poohed as pedantic and absurd. Again, therefore, estimates of yield are wide apart; strict adherents to the last Bureau report confining their expectations to 4,100,000 bales, and strong believers in the greater trustworthiness of private advices confidently looking for 4,400,000, or even more. In the midst of so much uncertainty, we shall adopt the medium figure of 4,250,000 bales, leaving our readers to draw their own conclusions from the facts which we have placed before them—merely premising that the receipts during the coming four or five weeks will settle the question whether the crop is to exceed or fall short of 4¼ million bales.

Aside from the size of the crop, it is worthy of notice that it is much lower in quality than the last, owing to the picking season, though longer, having been much less favorable than the last, in consequence of the prevalence of rainy weather; and, whatever may be the extent of the crop in bales, its yarn-producing power will fall short of the previous one. The extent of the deficiency is variously estimated at from 3 to 5 per cent. A reduction of 3 per cent from 4¼ millions would give a net total of 4,113,000 bales, or about the same as the Bureau estimate of 4,100,000, which estimate, it is important to note, takes no account of the extra percentage of dirt gathered with this season's crop.

Out of a total yield of 4,250,000 bales, American spinners will require about 1,300,000 bales. Unless some material advance in prices takes place, about 40,000 or 50,000 bales will be added to stock, leaving about 2,900,000 bales for export to Europe, or, at the outside, say 2,925,000 bales, which, assuming the movement of the 1876-7 crop to be as rapid as that of 1875-6, will be about the extent of the import into Europe in 1876.

The year commences with 46,000 bales less afloat from India than twelve months since. We expect that the shipments will show decrease of from 80,000 to 100,000 bales, and, therefore, that the import for the year will not exceed 1,425,000 bales, against 1,563,000 bales in 1875. The supplies from the Brazils and miscellaneous sources have steadily diminished of late years, owing to the fall in values, and we place the arrivals thence at about the same as last year. The Mediterranean will probably give an increase of about 80,000 bales, all Egyptian.

The foregoing estimates compare as follows with the actual figures of the previous three years:

| | 1876. | 1875 | 1874. | 1873. |
|---|---|---|---|---|
| American | 2,925,000 | 2,836,000 | 2,895,000 | 2,644,000 |
| Brazilian | 540,000 | 540,000 | 637,000 | 623,000 |
| Mediterranean | 550,000 | 472,000 | 482,000 | 506,000 |
| West Indian, &c | 135,000 | 134,000 | 102,000 | 191,000 |
| East Indian | 1,425,000 | 1,363,000 | 1,439,000 | 1,290,000 |
| Total | 5,575,000 | 5,525,000 | 5,654,000 | 5,254,000 |

The weight of the import of each description we estimate as follows:

| | Bales. | Average. | Pounds. |
|---|---|---|---|
| American | 2,925,000 | 439 | 1,284,075,000 |
| Brazilian | 540,000 | 160 | 86,400,000 |
| Egyptian, &c. | 550,000 | 554 | 304,700,000 |
| West Indies, &c. | 135,000 | 205 | 27,675,000 |
| East Indian | 1,425,000 | 360 | 513,000,000 |
| Total | 5,575,000 | 397 | 2,215,850,000 |

This prospective supply is slightly less than the estimated requirements. The important feature is that an American crop of 4,250,000 bales is required to meet the wants of the world. Such being the case, it may be taken for granted that even 4,350,000 bales would not be too much to handle.

PROBABLE COURSE OF PRICES IN 1876.

With supply and demand at about an equilibrium, one would not, under ordinary circumstances, look for any material variation in prices from the rates now current; but, as pointed out in our October report, the market for two or three years past has been under the control of extraordinary (last year very extraordinary) circumstances. Even yet cotton is not on its own merits. A protracted series of internal misfortunes, brought about by over-production, aggravated by adverse external influences in the shape of bad trade and financial crises in every important centre of monetary and commercial activity throughout the world, have so demoralized the business community that pessimism is everywhere rampant; and we do not remember a new year which opened so lifelessly or so utterly devoid of cheerfulness as has that upon which we are now entering. Look which way we will, there is not visible a single gleam of hearty hopefulness, and a thorough-going optimist is quite a curiosity. Some day a great change will come, but when, it is impossible to say. So far as cotton is concerned, all that we have to say for the present is, that prices are below the average cost of production; that, consequently, sooner or later a sharp reaction must come; and, therefore, that spinners and manufacturers will act wisely in not risking much in the form of uncovered contracts for the forward delivery of yarns and goods. Last year the average price of middling uplands was 7⅜d., but so low a figure would not have been witnessed if it had not been for the discredit and disorganization which followed the Collie and other failures; and unless some unforeseen political or financial occurrence takes place, we shall be surprised if the average price for 1876 is not much higher than the figure now current.

In the course of a few months the direction of the market will be guided in a great measure by the character of the preparations for the new American crop. Unless a material advance takes place in prices, we are satisfied that less land will be sown this year than last. Last year the average price of middling upland from January to April was 7⅛d. per pound, and the most prevalent opinion as to the future was that 8⅛d. would be witnessed in the autumn, and yet only 1¼ per cent more land was sown than in 1874, in which season 10½ per cent less land was sown than in 1873, although the average price of uplands from January to April was about 8d. per pound. The figures for the past six seasons compare as follows:

| Seasons. | Average price. Jan. to April. | Acres Sown. | Seasons. | Average price. Jan. to April. | Acres Sown. |
|---|---|---|---|---|---|
| 1870-71 | 11½d. | 8,855,545 | 1873-74 | 9⅝d. | 9,659,423 |
| 1871-72 | 7½d. | 7,744,6 7 | 1874-75 | 8d. | 8,621,613 |
| 1872-73 | 11 1-16d. | 8,694,071 | 1875-76 | 7⅜d. | 8,755,464 |

The average cost of producing cotton, for the entire South, is probably less now than it was half a dozen years ago, owing partly to the fall in the value of labor and partly to the increased proportion of land sown in the more fertile and therefore less expensively cultivated region in the Southwest (especially in Texas, in which State 1,314,000 acres were sown this season, against only 712,000 in 1871, and 900,000 in 1870), but that preparation for a *large* crop will be made throughout the cotton region at 6½d. is, to say the least, highly improbable.

The following are the exports of piece goods and yarn to the chief districts of the world, during 1875, and the corresponding totals for the four previous years. (The figures represent millions and tenths, viz:—29.6 yards equal to 29,600,000 yards.)

GUNNY BAGS, BAGGING, &c.—During the past week the market for bagging has ruled very quiet, and no sales of any consequence have been consummated. Prices are nominally quoted at 13@13¼c. At the close there are rumors of a sale of 2,500 rolls, but we cannot vouch for its correctness. Bales are quiet and nominal at 9@9¼c. for India, and 12¼@12¾c. for Borneo. Bags neglected and quoted at 13¼c. for 440s. Butts have come to hand in sufficient parcels to fully supply the wants of buyers, and orders are scarce at the moment. Sales here and in Boston for the week are 3,500 bales at 3⅜@3½c., cash and time, and at the close holders are asking these figures.

LIVERPOOL, Feb. 18.—3:00 P. M.—BY CABLE FROM LIVERPOOL.—Estimated sales of the day were 8,000 bales, of which 1,500 bales were for export and speculation. Of to-day's sales 4,700 bales were American. The weekly movement is given as follows:

Included in the above totals are, from New York 397 bales to Hamburg; from New Orleans, 2,192 bales to Genoa; from Mobile, 940 bales to Rega; from Charleston, 912 bales to Gottenburg and 1,340 bales to a port in the Mediterranean; from Texas, 2,568 bales to Fleetwood.

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

STATE OF NEVADA, steamer (Br.), from New York, before reported in collision at Antwerp, had rudder twisted, rudder port bent, and foot of propeller frame broken.

PROGRESS, ship (1,619 tons, owned by Snow & Burgess, New York), Stevens, from Galveston Jan. 6 for Liverpool, was abandoned at Sea Feb. 7. The captain and crew arrived at Halifax on the 11th, in schr. Esquimaux, from Gloucester for Halifax. Capt. Stevens reports: Feb. 1, gales commenced and continued to the 6th, causing the ship to spring a leak, and had from six to ten feet of water in the hold; determined to make for the nearest port; but owing to the gales and cold was obliged to run south until the Esquimaux hove in sight and rescued us, in lon. 59 30, lat. 42 40. When abandoned, the ship was unmanageable. Eight of the crew were sent to the hospital at Halifax, being badly frost-bitten before leaving the vessel. The cargo consisted of 4,716 bales cotton, valued at $297,0 8, and some beef. The loss all told will foot up some $350,000. Steamer Geo Shattuck left Halifax on the 12th to search for the wreck, as also a steamer from Cape Breton for the same purpose.

D. H. BILLS, bark, Penny, from New Orleans for Havre, which put into Key West, Dec. 8, in distress, having completed repairs, sailed for destination Feb. 10.

ENTERPRISE II., bark (Dutch), from New Orleans for Havre, ashore on Colorado, had discharged 750 bales cotton Jan. 14, and the discharging was still going on.

HARRY L. WHITTON, brig, Rich, from Mobile for Barcelona, put into Norfolk Feb. 14, leaking.

Cotton freights the past week have been as follows:

## BREADSTUFFS.

FRIDAY, P. M., February 18, 1876.

The flour market has weakened somewhat in the medium grades, and at a slight concession in the common shipping extras from spring wheat, there was a good business for export, several thousand bbls going off at $5 10@5 25, the higher price for favorite brands, delivered. In other grades business has been

moderate. Some of the choice family flours have become scarce. There is a large supply of unsound extras from winter wheat, and they have sold in the range of $4 50@5 50. Rye flour and corn meal are without new feature. To-day there was a fair business for export, but at rather easier prices.

The wheat market has been dull, and prices of spring growths have receded 2c.@3c. per bushel. Shippers have been embarrassed by a scarcity and higher rates for ocean freights; and a subsidence of speculation at the West has contributed to the reaction. Receipts continue moderate at all points, and stocks are somewhat reduced. On Wednesday bids for No. 2 Milwaukee were reduced to $1 23@$1 23½ in store, and there were sellers at $1 24. Yesterday, fair No. 1 spring sold at $1 31 in store; choice old No. 2 Milwaukee at $1 29 in store. Winter wheats have remained steady. To-day, the market was dull; a load of No. 2 Milwaukee sold at $1 25 afloat.

Indian corn has not varied to any great extent, and yet has latterly shown some depression under increased receipts at the Western markets, dull foreign advices and higher ocean freights. Prime new mixed receded to 63@63½c., spot and early delivery, while other grades have been somewhat nominal. New Southern has been in fair supply, at 62@64c. Towards the close there was some recovery of tone. To-day, there were buyers of prime new mixed at 64c. on the spot, and 63½c. for March.

Rye has remained dull and nearly nominal. Barley has been inactive, and the poor qualities are lower. Canada peas are dull and unsettled. Oats have sold at a wide range of prices, but choice qualities have brought very full prices, with a slight advance in some cases. The demand has not been active, however.

## THE DRY GOODS TRADE.

FRIDAY, P. M., Feb. 18, 1876.

There has been comparatively little improvement in the trade this week, which is in a measure owing to unfavorable weather, which has retarded operations on the part of wholesale buyers. A steady demand for moderate parcels of the most staple fabrics is, however, apparent, and dress goods, worsted shawls and cotton hosiery have been more active in first hands. Foreign goods are dull and unsettled by important public sales of many descriptions of imported merchandise. The feature of the week was a large auction sale of 800 cases linen goods and white goods of the importation of Messrs. George Hughes & Co., which attracted a very large company of buyers, and the linen goods were distributed at very good prices. The suspension was announced of Messrs. Harris, Richmond & Shafer, importers and jobbers of tailors' trimmings, but arrangements are said to be in progress which will enable the firm to continue in business. The jobbing trade was a trifle more active, but complaints of the backwardness of the spring business were frequently heard.

DOMESTIC COTTON GOODS.—There has been a steady although moderate demand for staple goods of all seasonable descriptions by Western and Southwestern jobbers, and some fair parcels of brown sheetings, drills and denims have been taken for the Canadian and European markets. The export of cotton goods from this port footed up 690 packages—233 packages of which were sent to Liverpool, 132 to Smyrna and 97 to Mexico. Brown sheetings and drills were in steady request and firm in agents' hands, but bleached shirtings continued quiet, and Lonsdale, Blackstone, Hope, Masonville and a few other less known makes were reduced ¼c. per yard, without materially increasing their distribution. Tickings, denims and cheviots were in rather better demand, but sales were individually light, and dyed ducks, checks and stripes continued quiet. Corset jeans and satteens moved steadily, and the light supply has given firmness to prices. Rolled jacconets and cambrics lacked animation, and there was no movement of importance in grain bags, warps, yarns or twines. Cottonades were decidedly more active, but selections were chiefly restricted to the best makes. Print cloths were dull and nominally unchanged, at 4¼c. for extra 64x64 makes, on 30 days' credit, although some cash sales were reported at 4c. Prints remained quiet and have accumulated to some extent in first hands, as is the case with shirting styles. Plaid cotton dress goods were in brisk demand, and leading styles, such as those produced by the Bates, Renfrew, Palmer, York, Carleton and other mills, are sold up to receipts. Cotton hosiery continued active and firm at opening rates.

DOMESTIC WOOLEN GOODS.—The demand for men's wear woolens has been sluggish and disappointing to holders. The larger clothiers have been operating sparingly in spring fabrics, and unusual caution has been observed by cloth jobbers in making their selections. Cassimeres were in irregular demand and, while the better grades were taken in fair amounts, low and medium qualities were almost neglected. Worsted coatings of the best makes alone were fairly active and steady in price. Kentucky jeans were moved in considerable quantities by means of price concessions on certain styles, and satinets were in limited request. Cloths and doeskins were more inquired for, and numerous small sales were effected by leading agents. The demand for overcoatings for next fall has been less active, and few additional orders were placed by the clothing trade, most of whom will probably carry over heavy stocks on account of the mild weather, which has seriously interrupted sales. Worsted dress goods and shawls were in improved request.

FOREIGN DRY GOODS.—There has been a slow movement in imported goods from first hands, but large sales of linen goods, white goods, embroideries, silks, ribbons and millinery goods, hosiery, &c., where fair average prices were realized. Staple and fancy dress goods were in fair demand, but silks were less active. Damasks, towelings, and a few other descriptions of housekeeping linens, were rather more freely taken by jobbers, but clothing and shirting linens and handkerchiefs remained quiet. Ribbons were in improved request at about last year's prices. Woolen goods continued depressed in private hands and at auction. White goods and real laces moved slowly. Kid gloves were in steady demand and firm.

We annex prices of a few articles of domestic manufacture:

THE

Provident Savings Life Assurance Society,

WESTERN UNION BUILDING,
NEW YORK.

Guaranty Cash Capital, $125,000,

Invested in U. S. Five-Twenty Bonds.

*This Society separates the Insurance Part of the Premium from the Reserve or Deposit Part*, which latter is held merely for accumulation.

*This Society recognizes the Policy-holder as owner of the Reserve.*

This Society, therefore, will either issue policies on the payment of uniform annual premiums, *guaranteeing a specified surrender value for every year in cash;* or it will furnish the PROTECTION OF LIFE ASSURANCE *at actual current cost for death claims and expenses of management, each year by itself, renewable at the close of any year without further medical examination.*

These Plans are indorsed by leading Actuaries and State Commissioners, and also by the "*Society for the Promotion of Life Insurance among Clergymen,*" James Brown, *President;* Howard Potter, *Treasurer.*

## WHAT DO OUR MERCHANTS THINK OF RESUMPTION?

To this oft-repeated question, the New York Chamber of Commerce, at its meeting on Thursday, gave an emphatic answer. For a long time past the inflationists, in and out of Congress, have been continually affirming that the business of the country, the movements of capital and the activity of industrial enterprise, are all impeded and paralyzed by the approach of specie payments. Some go so far as to attribute to the same cause the panic of 1873, which was notoriously the result of inflation and expansion, as were also most of the panics of the present century. The meeting of Thursday cannot fail to have a wholesome influence on public opinion. It will show that the merchants of the most important commercial city on this continent believe resumption practicable in three years; and, secondly, that they believe that the transition may be effected without the formidable dangers which even the soundest of our currency reformers have sometimes feared. On the first of these questions the Chamber of Commerce expressed the opinion "that: 1. A general resumption of specie payments is alike indispensable to the reinstatement of our financial affairs upon a safe and enduring basis, to the restoration of confidence and activity in every branch of industry, and to renewed success in all the pursuits of commerce. 2. For the attainment of this end two things are needful, namely: an unalterable purpose on the part of Congress and the people to abide by the law of 1875, and the requisite ability on the part of the Government to redeem its legal tender notes in coin at the time appointed in said law. 3. This ability must be acquired in one of two ways: either by an increase of gold in the public Treasury prior to January 1, 1879, or by a material decrease, in the meantime, of the volume of United States notes in circulation."

This testimony from so eminent a mercantile body is in complete harmony with the course adopted by the majority of its members during the whole of the inflation period. It would be an interesting and useful labor to compile a book containing in a brief, condensed form an authentic report of all the chief discussions of the currency question which have been carried on by our New York Chamber of Commerce since the passage of the legal tender law of February 25, 1872. Such a record, if prepared by a competent hand, would not only add important information to the annals accessible to the public, and throw light upon the paper money period of our National history, but it would tend, with other well-known evidence, to confirm the statement we have often ventured to make, that, among the solid, conservative, intelligent masses of our citizens, there has never been any temporary conversion to paper money heresies such as is in some quarters affirmed. But it is no part of our present purpose to explore these past records. We trust that the task will be taken up by some of the gentlemen who have had so active a part in the debates themselves.

With regard to the meeting of Thursday and its resolutions, they were passed unanimously, with the exception of the first, to which there was one dissentient vote. Two principles are embodied in this financial creed. First, that the pressure of the machinery for resumption will be concentrated upon the Treasury as its turning point; secondly, that the Treasury must be strengthened so as to bear this new burden which is about to be thrown upon it. Not content, however, with this general declaration of principles, the Chamber of Commerce go on

to prescribe specific details. For example, they propose to lighten the burden of the Treasury in resumption by paying off a part beforehand of the greenback issues. As these greenbacks will become, on the day of resumption, demand obligations payable at the Treasury in gold, it is obviously the part of prudence to lessen beforehand the amount of greenbacks which will be likely to be presented for actual payment. Some of the most shrewd and experienced bankers in the Chamber declare that if this expedient of prior redemption be well used, the amount of greenbacks which would be presented when resumption begins could be reduced to a very insignificant sum. Still, to be forearmed against all emergencies, it will be absolutely necessary to accumulate in the Treasury a gold balance for the specific purpose of resumption. It is often said that the Treasury balance of coin is at present insufficient for the general obligations of the Government exclusive of the greenbacks. If this be true, the coin balance must be augmented till it becomes adequate and rises to the level of these obligations. Nor is this enough, but in addition the Treasury must accumulate a further sum in gold coin for the specific purpose of specie resumption. Some of these important questions are met by the Chamber in various resolutions, of which the following are the most notable:

"9. Nothing can possibly be gained by deferring to a later period than that now fixed by law, the redemption, with coin, of its legal tender notes by the Treasury; for statistics conclusively show a balance of trade against the country, ever since the war, in excess of the annual product of our mines.

"10. Under such circumstances, every attempt 'to hoard' gold in the Treasury, or in the banks, by draining the market of its scanty supply, will serve to enhance the price, and, by diminishing importations, curtail the receipts of the Custom House.

"11. In like manner the natural effect of any change in the tariff, which tends to swell our importations, will be to accelerate our export of coin, unless the intended effect be neutralized, as in the other case, by an advance in the premium on gold, or counteracted by increased exports.

"12. By a timely exercise of the power conferred by the existing law of Congress for resumption of specie payments on the 1st of January, 1879, the Secretary of the Treasury may negotiate a sufficient amount of bonds abroad to meet all extraordinary demands for exchange, to check the outflow of specie, and to recuperate the National fund, by a temporary retention at home of the whole product of our mines."

It will be observed that the Chamber of Commerce offers no opinion as to the amount of coin which will be necessary to accumulate in the Treasury before resumption. Mr. Chase is said to have had the notion that little if any coin balance in the Treasury would be required to counterpoise the greenbacks and to render them convertible into specie at the time of resumption. Very few people entertain this belief now. Some fix the needful coin balance as high as 400 millions, and very few set it down at less than 200 millions. Very wisely the Chamber of Commerce refrains from exploring a question on which there is such a wide disparity of judgment and where opinion is little better than conjecture, because there are so few facts by which to guide it and to make it intelligent. Another point on which the Chamber is silent is the proposed use of silver coin, which has been so much agitated of late. If, as many persons believe, the Treasury of the United States, in spending 15 millions on silver coin, has been wasting its strength instead of conserving it, and if the contemplated purchase of 15 millions more of silver would only add to the evil without carrying forward the work of resumption a single step, then it would appear that the Chamber of Commerce ought to have given some attention to this subject. It is hoped that they will do so at an early day. Several other details were deferred for future consideration. Among these was the reimposition of the tea and coffee duties for the purpose of obtaining a revenue for the redemption of greenbacks. Another was the proposition to compel the National banks to hold from one-half to two-thirds of the legal-tender notes issued at any time by the Treasury. A third proposition was to give authority to the banks to raise the rate of interest, for the protection of their cash reserves, to a point above the legal maximum of 7 per cent. It is unnecessary for us to examine any of these collateral points. The main topic of public interest in connection with the meeting is, that however much some other classes of the community may doubt the practicability or the safety of resuming specie payments under the law of January, 1875, the New York Chamber of Commerce holds early resumption to be not only safe but necessary "to the restoration of confidence and activity in every branch of industry, and to the renewed success of all the pursuits of commerce, as well as to the rehabilitation of the public credit."

## MR. CHITTENDEN AND THE ELASTICITY OF OUR BANKING SYSTEM.

We have frequently illustrated the elasticity of the banking and financial machinery of this country, and have called attention to the importance of this quality in forecasting the probable future of the money market. Under the changing influence of the new forces connected with the approach of specie payments, too much attention can scarcely be given to this side of our financial system. It was briefly but suggestively discussed by Mr. Chittenden a few days ago in his speech on the currency question in the House of Representatives. A long and successful experience as a merchant in this city has given to Mr. Chittenden rare opportunities for acquiring practical familiarity with the great operations of commerce and trade as related to the money market. Without such practical knowledge, theoretical studies or scientific resources or inductive sagacity will never make a man a competent and safe financial reformer. Whether Mr. Chittenden has derived as much advantage as he might from the facilities he has enjoyed, we do not undertake to say. What is more to the purpose is that he has rendered, during many years, signal services to the cause of currency reform, both in Congress and elsewhere; and his opinions, even where they are not approved, seldom fail to be received with general respect. In his late speech he presented some important and rather novel views of our currency system, and of its probable movements in the future. His chief argument was that if the greenback currency were withdrawn the National bank system possesses within itself a fund of elasticity which, even under existing laws, would enable it fully to meet the wants of business, and to supply all the currency that is really needed or can be profitably used.

In illustration of this proposition, a sketch was given of our currency system and of the various changes it has undergone, both before and since the war. The greenbacks he described as being the temporary element forced into our currency system by the military necessities of the Government. As to the banks and their currency, the efficiency of these more permanent parts of the financial machinery of the country was to be realized, he said, by no other means but by an early resumption of specie payments. Every bank note in circulation in this country is supported by bonds, and the security of the note is worth more than its face in gold. As the fundamental requisite of a paper currency was thus provided for by our National banking system, the way was clear for adding the next essential, namely, the auto-

matic expansion and contraction of the volume of the bank notes in harmony with the wants of business. One of the obstacles to this expansion, as we have often demonstrated, is the qualified legal tender power which has been given to the bank notes. This evil is, however, in part, counteracted, and its effect on the expansion of the currency has been kept in check by the operation of the Redemption Bureau, whose salutary influence on the currency has been very conspicuous and has fully justified the high expectations that were cherished regarding it. According to Mr. Chittenden, however, the greenback issues are the chief element of disturbance in our currency mechanism, and he favors a much swifter and more active process of contraction than is usually advocated by our soundest currency reformers. Two safeguards, he thinks, would prevent the mischiefs usually anticipated from severe currency contraction: First, the bank system, as organized in this country and in all commercial nations, is capable of transacting an immense volume of business with a very small amount of currency; and all modern improvements in banking tend to increase these economies in the use of actual cash. Secondly, our national banks are now doing business under a free banking law which allows with proper restrictions an expansion and contraction of the currency responsive to all legitimate demands from commerce and trade. In summing up these arguments, he says:

"I wish to call your attention to the fact that with legal tender notes withdrawn we are sure to have currency enough under existing laws. More than two thousand national banks now doing business, and new banks without limit, are at liberty to issue all the currency that can be profitably employed, whenever and wherever it is needed and called for by legitimate commerce. This is the law, and it is right. The facts of history demonstrate and show conclusively, if experience proves anything, that we shall never find a basis for confidence and fresh enterprise until we have largely contracted our currency. In the crisis of 1837 the banks of the State of New York suspended specie payments on the 10th of May. To save their charters they were compelled to resume on or before the 10th of May, 1838. They did so resume, and in doing it they contracted their issues from $25,500,000 on the 1st of January, 1837, to $13,000,000 in round figures on the 1st of January, 1838.

"The banks of the whole country suspended again in 1857, and resumed generally in the following year; and it is important for our purpose to compare the contraction and its immediate consequences in that crisis with the inflation which followed the panic of 1873 and its consequences. The paper circulation of the whole country in 1857 was $215,000,000. In 1858 it had contracted to $156,000,000. The bank loans in 1857 were $685,000,000; in 1858, $583,000,000. Here is contraction of $59,000,000 in circulation and $102,000,000 in bank loans, an aggregate of $161,000,000 in one year."

It is a maxim sanctioned by high authorities that to know the disease is half the cure. If this be true in the maladies of the human body, it ought to be especially so in those of the body politic; and if we aspire as good citizens, to do something to relieve the financial situation, one of the best means of success is to explore with earnest zeal the present and past condition of our banking mechanism, and to become familiar with the real facts as seen in every light and from every side. As the best physicians in this city rest their high reputation chiefly on their skill in diagnosis, so the most useful and efficient of our financial reformers are those who have most clearly and profoundly explored the real nature of the disease which affects the banking and financial system of the country. There is no doubt that the evils likely to result from the currency contraction which may be needful for specie payments have been much exaggerated. Mr. Chittenden has done a service to the community by calling attention to this circumstance, and by exhibiting in a clearer light the elastic energies of our banking system as a remedy for such evils as may flow from the inevitable contraction which the great and salutary work of resumption in some of its phases may actually bring with it.

## COTTON CROP ESTIMATE OF THE AGRICULTURAL BUREAU.

Nothing could be more useless than a petty conflict of opinion with regard to crop reporting; and yet it is impossible for any plan to be perfected, except by criticising the defects of present methods. For the purpose, therefore, of helping on the good work, we have, from time to time, taken exception to some misleading statements of the Agricultural Bureau, and now with the same intent propose a brief review of the final report of the Bureau, issued in pamphlet form this week. But before doing so, a Liverpool criticism on some remarks of ours concerning a previous error, makes it desirable to go back for a moment to the November report.

In the CHRONICLE of January 15, we showed that the Bureau had done much harm (inadvertently we must suppose) by making public its November document in two parts. First (on November 15) came the percentages showing a crop a little less than 3,900,000 bales, with the sentence added that "these figures point to a small advance upon last year's aggregate, if November and December *should be favorable to the opening and picking of the top crop.*" On the 10th of December another instalment of the same report was published, having in it this sentence: "This *renders it almost certain that the crop will pass the limit of four million bales.*" Now, we claimed that it was a gross wrong not to give the public both of these statements at the same time, if they were in the same report. And yet here comes the Liverpool *Post* and says:

"In these remarks the CHRONICLE reiterates the misrepresentation of the Bureau reports, to which we drew attention a short time back, while the offence is repeated in the face of Mr. Dodge's letter of expostulation against the original misrepresentation. The statistician did not issue two reports, one on the 15th Nov. and another on the 10th Dec. Only one report was published, and that was dated Dec. 1. A telegraphic summary of the advanced sheets was sent to New York on the 15th, but no estimate of the crop was given, and the purport of the report *was perfectly intelligible to every one capable of honestly interpreting it.*"

If the readers of the Liverpool *Post* like to be deceived, they, of course, have the right. Remember, however, that we do not say there was any intention on the part of the Bureau to mislead. All we charged was that by giving us one set of figures on the 15th of Nov., and another on the 10th of Dec., *both from the same report*, it did a gross wrong; and if any one had placed any confidence in the figures, they would have done incalculable harm. For illustration, let us quote what the Liverpool *Post* said when the first instalment of this report was received there. Now, we see it states that what the Bureau made public was "perfectly intelligible to every one capable of honestly interpreting it." In its issue of Nov. 17, we find its "honest," "capable" opinion as follows:

"By two different methods of calculation, therefore, we get the Bureau's estimate of the crop as from 3,858,000 to 3,901,000 bales. We are not surprised at this result, because ever since June last we have maintained that the crop would not vary greatly from 3,900,000 to 4,100,000 bales; a little more than 4,100,000 with a favorable season, and a little less than 3,900,000 with an unfavorable one. Since then, the weather has varied considerably, but on the whole has not been either very good or very bad. *As matters now stand, therefore, the crop is not likely to exceed* 4,000,000 *bales.* A literal interpretation of the Bureau report gives only 3,901,000. This circumstance not only confirms our estimate of the crop, but endorses our method of interpreting the previous reports of the Bureau, our calculation published on the 10th of last month being 3,922,000 bales."

This is what the Bureau, by its report, issued Nov. 15th, made this "capable" and "honest" editor be-

lieve. Besides, in Liverpool they did not have the last sentence, which was in the telegram as published in all our American papers of the 16th November, to wit: "These figures point to *a small advance* upon last year's "aggregate, *if* November and December *should be favor-* "*able to the opening and picking of the top crop.*" Had that sentence also been cabled over, and any considerable confidence been placed in it and in the figures given, cotton would have advanced at least 1d. per pound. And thus the trade remained without any knowledge of there being any contrary facts in the report until December 10. In the meantime it had been raining floods of water all over the South, and especially in the South-West where the most of the crop was grown; so that if November 1st showed only 3,900,000 bales with a "favorable" picking season, December 10 could not have delivered more than 3,800,000 bales at the very outside. Yet, on December 10, comes the further statement, a part of the same report, showing that these November percentages were not probably right, for certain facts, it then, for the first time, gives to the public, "render "*it almost certain* that the crop will pass the limit of "4,000,000 bales." In this connection we should remember that the circumstance whether this crop was over or under four million bales was all important. If it was under that figure, there was a clear deficiency in the world's supplies, but if it reached it, many good judges thought that spinners, under the dull trade and poor prospects of business, could work along. In view of all these facts, then, we can only say that if the readers of the *Liverpool Post* prefer to have crop reports thus doled out to them, they are welcome to their exclusive use; but we think our readers will unite with us in the hope that the Bureau will not again put the trade in such a position, for many do not judge the act as charitably as we do.

Let us now turn to the last report of the Agricultural Bureau,—the one for January and February, 1876, and compare the facts there given with the conclusions reached. The article in it, bearing date for the end of December, reads as follows:

"It is our aim to give as accurately as possible the history of the crop, and not to make bets on the actual result, or attempt to fix to a bale the amount to be ginned and sold, as a small portion of the crop is still liable to various contingencies before marketing. But it is proper to give an idea of the substantial purport and meaning of our returns, and we have no hesitation in interpreting them to mean a crop of about 4,100,000 bales, with a small probability that it will either exceed or fall short of that amount more than 50,000 bales. If it should vary by wider figures, we must acknowledge that by so much have our returns failed to fathom the inscrutable."

The following paragraph in the report is remarkable in its statement of facts of October condition, and subsequent unfavorable season (in 1875), and for its explanation of the reduction (expected) from the promise given by the October condition.

"We find the average of this period (October) in 1874 to be 83 per cent of a standard of unimpaired vitality: in 1875, 93·5 per cent. As the crop of 1874, with fine autumn weather and late frosts, was 3,833,000 bales, the expectation in October on this basis would be 4,317,000 on an equal area, and 4,403,900 on the actual area. Then it is found that the yield of lint is four pounds less than last year on every 100 pounds of seed cotton, which causes a reduction of 176,000 bales, leaving the prospect 4,227,000 bales. But it would appear that the present season has been less favorable than last year for perfecting and opening the bolls and for gathering; and yet the delay of killing frosts has been remarkable, tending in some situations to increase of yield, and in others to continued growth of the whole plant rather than the perfecting of its fruit, thus complicating the comparisons of ultimate results. In some cases, the greenness of the plant in December is cited as a cause of diminished yield, by the sudden loss of long delayed fruitage by violent storms. These facts make it difficult to estimate the extent of the depreciation from unfavorable weather. Three per cent ought not to be unreasonable, and this would leave 4,100,000 bales: if four per cent, 4,058,000 bales: if only two, 4,143,000."

We will pass by the fact that heretofore the monthly figures have been represented as being a comparison with "a crop of full vitality and nominal growth," and accept the change in interpretation, making them simply a comparison with last year's crop. It is of no consequence to the trade what the standard is, so long as it is known and fixed. But the actual October condition was reported by the Department in 1874 as average 71, and in 1875 as 88. The condition averages, in the above quoted paragraph, were obtained by taking a general average, each season, of the five monthly averages—June to October. The defect in this method was shown in our cotton report, January 29th (page 114), and the writer of the report seemed partly aware of its impropriety, for he says:

"The record of condition for five months, from June to October, furnishes another important element in the calculation. It would not do in every season to rely upon an average of condition for the season, especially if there was a continual upward progress in the record of one season and a downward movement in the other, with which the comparison is made; but the past two seasons have a substantial agreement in that respect, and the averages of each ought to bear some relation to crop prospects in October."

Not so. It will not do in any season "to rely upon an average condition for the season." If the condition was excellent, or 100 through all the months prior to October, yet in September a deadly blight had destroyed the crop, or cut it down to 50 on 1st October, *that* would be the condition; and so, in any season, the condition October 1, however produced, must be absolute and cannot be changed by any antecedent condition, although these in succession had their part in producing the condition of October.

Taking the actual conditions for October, as reported by the Department, as 71 in 1874 and 88 in 1875, and applying its own rule of proportion, above quoted, we find that as the crop of 1874 was 3,833,000 on an October condition of 71, so the crop of 1875, on an October condition of 88, would be 4,750,000 bales on the same area of land, or 4,875,000 bales on the Bureau's increased acreage, as may be seen in the following table:

| | | | | | | Result. | | |
|---|---|---|---|---|---|---|---|---|

| Total yield....3,833,000. | | .. | .. | .. | .. | .. | .. | 4,874,440 |

All testimony agrees with regard to the loss of cotton by the unfavorable character of the picking season, the warm, damp weather retarding the maturing of bolls, while the storms and hindrance to picking were very great, compared with the favorable circumstances last year and several other of recent years, for saving the crop. It is, therefore, but reasonable to reduce the outturn expected from the October condition (1875) by 3½ per cent., which being done the October promise of the crop would be 4,700,000 bales.

The statement of difference in the proportion of lint to seed cotton, between 1874 and 1875, may be correct—

not for the reasons given in the report, but because last year the weather was dry and this year wet, generally, during the maturing seasons. In a dry season the seed is small and more or less shrivelled, as in a wet season it is plump and full; so in a dry season the fibres are shorter and more numerous, as in a wet season they are longer, and fewer to each seed. The fact of diminished proportion of lint this year is, therefore, reasonably to be accepted. But the statement of the report on this subject is faulty in form. It gives a table of the actual proportion of lint to seed cotton, in each State, for the two seasons, as follows:

| | *Lint in 100 lbs. —seed cotton.—* | | *Per cent in 1875 compared with 1874.* |
|---|---|---|---|
| | 1875. | 1874. | |
| North Carolina | 29 | 32·2 | 90 |
| South Carolina | 29·2 | 33 | 88 |
| Georgia | 30 | 32 | 94 |
| Florida | 27·5 | 28 | 98 |
| Alabama | 31·4 | 31·8 | 99 |
| Mississippi | 30 | 32·2 | 93 |
| Louisiana | 30·5 | 30·7 | 99 |
| Texas | 31 | 30·6 | 101 |
| Arkansas | 31·7 | 31·3 | 101 |
| Tennessee | 28·7 | 30·2 | 95 |

The report says: "Then it is found that the yield of lint is 4 pounds less than last year on every 100 pounds of seed cotton." In no State is the falling off from 1874 greater than 3·8 pounds in 100 of seed cotton, and in two States of largest production there is an increase. The average of all in the above table, if computed upon the product of each, would be less than 1 pound diminution in the 100 of seed cotton. The writer means 4 per cent of the lint crop to make his 176,000 bales reduction, and not 4 per cent of seed cotton, which would be over 500,000 bales. If we deduct 4 per cent (188,000), from the probable crop shown by the October average condition, after deduction of loss by storms, etc., we still have, on the data of the Department reports, fairly construed by its own rules, a right to expect a resulting crop of 4,512,000 bales. We do not care to inquire if, conceding that the stated difference in proportion of lint is correct, the quantity of both per acre may not be much larger this year than usual on a given apparent condition for October; the crop is sufficient, if it prove to be what the condition called for, after such deductions as the Department has indicated to be due to the special characteristics of the season since October.

Our conclusion is, therefore, that if we accept the Bureau's figures as correct, and adopt its new interpretation of them—making them a comparison with last year's crop—the only result we can reach from them is that this crop is about 4,500,000 bales.

## THE RELATIONS OF GOVERNMENT TO FINANCE.

Dull as business has been for the past three years, the wonder should be, on reflection, that it has not been much duller, so many have been the obstacles which no care could surmount. In fact, if we could adequately set before our Centennial visitors the obstacles which our industry and commerce must overcome before working successfully, we might show—on the same reasoning which proves him the best workman who can get on with the rudest and fewest tools—that the fact of making headway at all against such incessant obstacles proves the extraordinary endowment of the country and the versatile energy of the people. We should show the astonished foreigner that, either from uncontrollable circumstances or from a bad National policy, or from both, we have no shipping, either built or bought; that we have an explosive, varying, and demoralizing money; that our public administration has shown so much corruption as to excite the query whether there is much soundness left; that we have really but half a country, ten years of "reconstruction" having accomplished little for the Southern States but to load them with a monstrous debt representing chiefly fraud; and that it does but little good to urge "confidence" upon the people when they do not know what they are to confide in and cannot feel certain about anything but uncertainty.

The story of the currency struggle at Washington in 1874, ending in the "happy adjustment" of June, 1874 and the Sherman caucus bill of January, 1875, does not need re-telling. The latter bill was interpreted to be both an inflation and contraction measure at its passage, and now Congress is struggling whether to repeal it in favor of some more ambiguous law, or to do something by way of giving effect to it. The party which passed it is now relieved from initiating measures, and the other appears to be unable to unite upon anything, the two wings into which it divides on the currency question being so far apart that there is likely to be no agreement without either the surrender of one or the patching up of some device which satisfies neither and may deceive both. The repeal of Mr. Sherman's act is not probable; the passage of any real measure for strengthening it seems no more so; whether another "happy adjustment" will be whipped through, late in the session, it would be mere guessing to say. Meanwhile the business and industrial interests of the country, after having waited in suspense all through the long session two years ago, and then getting one "happy adjustment," and through the short session one year ago and then getting the Sherman bill, which was really but a promise, now remaining to be either broken or kept by steps towards performing it, find that all this waiting brought them no settlement, and that they must wait now through the present long session, or else take the risks of action.

The fact is, that uncertainty—and peculiarly uncertainty of this nature—is the disturbance which comes nearest to paralysis in business movements. Life is always uncertain, but this does not interfere with the snatching of one day's subsistence by the savage, who never goes faster than a day at a time; if protection to life and property is not secured, industry cares for only a day at a time; it is only when civilization has advanced and stability in the government is secured that trade begins. But as civilization and trade progress, the latter changes in these respects: more capital is required as a "plant" before operations can be begun; greater risks have consequently to be undertaken, and the element of *time* is more largely introduced. At this point is the wide difference between legitimate business and speculation. The latter is throttled by stability, and requires that fluctuations be frequent—the wider the better—while business must have stability and is paralyzed by uncertainty. Importers as a class, and manufacturers in some degree, must make their operations virtually a bet upon the fluctuations of gold from hour to hour; they must bear as they can the operations of a body of politicians who change the tariff twice within a single month, each time without warning, and even make the changes apply to goods already *in transitu*. They must take the chances of inflation or contraction, of anything that Congress may do or leave undone; they must risk their business operations on the changes of politics. If they try to do business at all, they must trust themselves to time; and, doing that, they must take the risks of anything that may happen within the time. For these calculations, sagacity and business experience are of no

avail, for there are no recorded *data* and no rules of judgment to appeal to; an office-boy can give a guess, and this is all the most experienced merchant can do. In addition to the ordinary and inevitable chances of business, it is necessary to take these special risks, for which the past is no guide whatever.

Now, this condition has been tolerated long, for two reasons which we may name. One is, that rapidity and extent of change has long been a peculiar feature in this country. Nowhere in the world have there been so many and so sweeping industrial changes; so many ups and downs between affluence and poverty; so many speculative fortunes and such a general desire to trust speculation; so much emigration and such rapid "development." We have gone generally on the rush and have believed very little in keeping still, for if one shaking up bent, the next would probably set us right. There was never before such a general distaste for the old methods of patient accumulation, and such a general intention to knock success at a stroke, either out of the abundant material wealth of the land, or out of speculative jumps, and it is not strange that visionaries of the paper money type imagine things can be done which are impossible elsewhere, and that there are no "laws," except those of Congress, about which we need bother ourselves. Nor is it strange that after changes have been so long considered as the making of an active American, instability has been accepted as a sort of genius of the country, so that we have come unconsciously to esteem it as a friend and not an enemy, as it is. The other reason is that the worst evils complained of are not of long standing, the country, from 1865 to 1871, being in a state of paper prosperity, and not till 1871 did this official interference with the currency begin. In October, 1872, Mr. Boutwell made the money market "easy" just before the State elections; he then meddled more and more, until he made the astonishing request in his last report—that he be authorized to "regulate" the volume of currency at pleasure. He had not altogether waited for such authority, and his successor assumed the existence of a $44,000,000 "reserve," which he let out and took in as he chose; since then we have had the regulative idea in full force and the instability has been increasing, while business men have been waiting and hoping for it to cease.

No clearer proof is needed of the intolerable mischiefs that inhere in the government paper currency for which the inflationists cry so incessantly. Such a currency is unstable, and can never be otherwise. It works only in one direction—outward, but not inward; there is never any fixed maximum to it (short of a constitutional provision, and even that is only fixed for a little longer time), but it stands entirely on the impulses of a congress of politicians and is the football of contention in party campaigns. Its very existence is thus a perpetual menace to the stability of business. All that government can properly do with money is to put its stamp on coin, inasmuch as the mark of some responsible guarantor is necessary to prove weight and fineness without the trouble of weighing and assaying, and the government is the best able to furnish such guaranty. If it were true that legal-tender notes were exchangeable for gold, objection would still remain that their quantity can be increased indefinitely, and there can never be any certainty as to when this will be done. What is still worse, the increase is considered—just as it notoriously was considered last year and is this year—not with any intelligent or even with any sincere inquiry about the interests of the country, but solely with reference to the interests of party in a struggle for power. The proper relation of government to the finances is that of letting them alone, and there can be neither stability nor business prosperity until finance is withdrawn from politics.

## PREFERRED RAILROAD STOCKS.

The designation of "preferred stock" carries no precise and definite signification, on account of the wide difference in the terms of precedence which exists among the several leading issues of preferred stocks. Next to the rate per cent of preferred dividends per annum to be awarded out of net profits, the most important question is whether such preferred dividends are "cumulative," or whether the preference is limited only to a single year. In other words, if no dividend is declared for several years, is or is not the preferred stock entitled to dividends at the established rate, for all those back years before the common stock is entitled to anything? It might be supposed that so important a question would be settled beyond the possibility of dispute in the original agreements under which preferred stocks are issued, and would be plainly expressed on the face of the certificates, but this is not invariably the case, and there has been, at times, no little discussion, and in some cases litigation, on the construction of the extent of priority secured to the holders of preferred stock. From the terms quoted below it would appear that the Ohio & Mississippi, St. Louis Alton & Terre Haute, and Toledo Wabash & Western, are the only preferred stocks that are positively cumulative.

The subject is quite pertinent just now on account of the better prospect of dividends on several of the Western railroad stocks, and it is desirable to know whether they have or have not the cumulative property and are entitled to dividends for past years as fast as the net earnings will admit of their payment. It is also an interesting inquiry in this connection, how far the payment of preferred dividends in scrip or bonds, worth less than par, would legally satisfy the right to demand the specified rate of preferred dividends in cash. To such holders as voluntarily accepted the scrip or bonds in lieu of their cash dividends perhaps the question would be easily answered; but where a stockholder has declined to receive such scrip or bond dividends, can he afterwards claim cash dividends for the same years, when the company shows net earnings sufficient to pay them?

One of the most important decisions of law affecting preferred stocks in general was made in the case of St. John vs. Erie Railway, in which the U. S. Supreme Court decided that the holders of preferred stock issued in 1862 could not assert their right to dividends, against *bona fide* creditors or bondholders of the company whose claims occurred subsequently. This apparently covers the broad ground that preferred stockholders have no protection against an unlimited increase in the debts of a corporation, which take precedence of their stock, provided only that such debts are incurred without any fraud.

For the purpose of showing the terms of preference, as expressed on the face of the certificates themselves, we have brought together here an abstract from the preferred stock certificates of each of the companies whose preference shares are best known in this market.

### CHICAGO & ALTON.

"This preferred stock * * * * is entitled to a dividend, for each calendar year, of not exceeding seven per cent, payable out of the net earnings of the company for such calendar year, after satisfying the interest on its bonds and the contributions to its sinking fund, before any dividend shall be paid upon the common stock, and is also entitled to share pro rata with the common stock in any dividend exceeding seven per cent on the whole stock of the company, preferred and common."

### CHICAGO MILWAUKEE & ST. PAUL.

On the Chicago Milwaukee & St. Paul preferred stock certificates the terms of preference are given very briefly, as below. The last dividend on the preferred stock was 7 per cent in consolidated bonds paid in March, 1874.

"This stock is entitled to a dividend of seven per cent per annum from the net earnings for each current year. * * * This certificate and stock represented hereby, is issued and received subject to all the terms, conditions and limitations of the articles of association of this company."

The terms and conditions of the articles of association referred to in the certificate read as follows:

"The said preferred stock, except said scrip stock, shall be entitled to a dividend of seven per cent per annum, from the net earnings of each current year, after payment of interest on all the mortgage bonds, if the company earn so much during the current year, and before the payment of dividends to any other class of stockholders; but the company may reserve a reasonable working capital or surplus, before the dividend shall be declared or paid on said preferred stock, which surplus shall not exceed at any time the aggregate sum of $250,000, over and above the floating or unfunded debt, and the accrued interest on the mortgage bonds. If the net earnings of the company are not as much as 7 per cent, in any one year, then the said preferred stock shall receive, for that year, a dividend of whatever the said net earnings are, after the payment of interest on the mortgage bonds, and the reasonable reserve for a

working capital as above described. Said preferred stock shall not have any claim upon the earnings of any other year, for the non-payment of dividends of any preceding year. And whenever the company earns sufficient, over and above the payment of interest on the bonds and the reserve above named, to pay a greater sum than 7 per cent, on said outstanding preferred stock, and 7 per cent on the common stock, then the said preferred stock shall share *pro rata* with the common stock in such earnings."

CHICAGO & NORTHWESTERN.

On the preferred certificates of this company the terms of precedence are very clearly and particularly stated. The last dividends paid were 3½ per cent on preferred stock in June, 1873, and 3½ on common stock in December, 1872.

"This preferred stock is entitled as provided in the articles of agreement and consolidation made between the Galena & Chicago Union Railroad Company and the Chicago & Northwestern Railroad Company of date June 2, 1864, to preferances to the aggregate extent of ten per cent in the dividend which may be declared in any year, out of the net earnings of such year, in the manner following: First, to a preference of seven per cent, and after dividends of seven per cent on the common stock, then, secondly, to a further preference of three per cent. After a further dividend of three per cent on the common stock, both classes of stock shall be entitled to equal rates per share in any further dividend."

ERIE RAILWAY,

The subject of dividends on Erie would seem to be a matter historical rather than practical just now; but even in that way the terms of preference on this famous stock have some public interest and are worth recording. The last dividends on Erie were 3½ per cent on the preferred Oct., 1873, and 1 per cent on the common stock Oct., 1873.

"Preferred capital stock of the Erie Railway Company. Said stock shall be entitled to preferred dividends out of the net earnings, if earned in the current year, but not otherwise, not to exceed seven per cent per annum, payable semi-annually after payment of mortgage interest of said company in full."

HANNIBAL & ST. JOSEPH.

The terms of preference of this company's stock would appear to have been too indefinitely stated, as the question was made the subject of a law suit which went to the U. S. Supreme Court. The plaintiff claimed the right after 7 per cent had been paid on the preferred stock to share equally with the common stock in all further dividends, but the Court held against him and decided that after 7 per cent on the preferred, the common stock was entitled to 7, and after that both stocks shared alike. The last dividend paid on the preferred stock was 7 per cent in August, 1870. The preferred certificates contain the following:

"Preferred stock issued in adjustment of the bonds of said company bearing date April 1, 1856, July 1, 1853, and March 15, 1859, and subject to the terms and conditions of an indenture between said corporation and Wm. H. Swift and others, trustees, dated April 1, 1863, and with the right set forth therein, may be transferred upon the books of the company and new certificates issued, and may be used with the bonds of the said company bearing date April 1, 1863, in the purchase of its lands as provided in said indenture. The Hannibal & St. Joseph Railroad Company hereby certifies, that, in consideration of the surrender and placing in trust of bonds and coupons in pursuance of said indenture,—is entitled to — shares of the preferred stock of said corporation, and to receive all the net earnings of said company which may be divided pursuant to said indenture in each year, up to $7 per share, and to share in any surplus beyond $7 per share which may be divided upon the common stock."

OHIO & MISSISSIPPI.

This stock and Wabash preferred were always regarded more as bonds having a lien on income, than as stocks. Dividends were formerly paid in June and December; in December, 1873, the dividend of 3½ per cent was paid in scrip, which was taken up in 1874; the dividend of June, 1874, was passed; in December, 1874, no dividend was paid, but the Directors changed the periods of payment to March and September, and resolved to pay 3½ in March, 1875, which was done. In September, 1875, the dividend was passed, and as this stock is clearly cumulative, there are the dividends of June, 1874, and September, 1875, yet due on it.

"The preferred stock is to be and remain a first claim upon the property of the corporation, after its indebtedness, and the holder thereof shall be entitled to receive from the net earnings of the company seven per cent per annum, payable semi-annually, and to have such interest paid in full for each and every year before any payment of dividend upon the common stock; and whenever the net earnings of the corporation, which shall be applied in payment of interest on the preferred stock and of dividends on the common stock, shall be more than sufficient to pay both said interest of seven per cent on the preferred stock in full, and seven per cent dividend upon the common stock for the year in which said net earnings are so applied, then the excess of such net earnings, after such payments, shall be divided upon the preferred and common shares, equally, share by share."

ST. LOUIS ALTON & TERRE HAUTE.

The preferred shares of this company are much like income bonds. The last dividend paid was 3 per cent in July, 1874.

"This stock is entitled to dividends at the rate of seven per cent per annum, payable annually on the first day of May in each year out of net earnings of the company, for each year ending on the 31st day of December previous to such first day of May, after satisfying the interest on its bonds and the contributions to its sinking fund; and in case said dividends cannot be regularly earned and paid, as above stipulated, all arrears are to be paid as soon and as fast as the net income of the company will allow; and no dividend is to be paid on the general stock of the company until all such arrears have been paid. This stock is convertible at any time by the holders into the general stock of the company at par; but shall not be entitled to a dividend for any time on which the holder thereof has received a dividend as preferred stock. The priorities and guarantees of this stock are secured by the deed of trust known as the Second Mortgage, and by the conveyance of Robert Bayard, Samuel J. Tilden, John G. Richardson, Joseph Tuckerman and Russell Sage, to the said company."

ST. LOUIS KANSAS CITY & NORTHERN.

The terms of preference are plainly stated in the certificates, as they should always be, and it is declared that the right to dividends is not cumulative. No dividend has yet been paid.

"This preferred stock is entitled to a dividend for each calendar year of not exceeding ten per cent, payable out of the net earnings of the company for such calendar year before any dividend shall be paid upon the common stock, but such preference dividend shall not be cumulative, and is also entitled to share pro rata with the common stock in any dividend exceeding ten per cent on the whole stock of the company, preferred and common."

TOLEDO WABASH & WESTERN.

There is nothing indefinite about the cumulative character of this stock, and it formerly ranked nearly the same as bonds. The last dividend paid was 3½ per cent in November, 1873.

"Said stock is entitled to dividends at the rate of seven per cent per annum, and no more, payable semi-annually, on the first days of May and November in each year, out of the net earnings of the company, after the payment of the interest on its bonds, and in case said dividend cannot be regularly paid, all arrears are to be paid as soon and as fast as the net income of the company will allow; and no dividend is to be made on the general stock of the company, until all such arrears have been paid."

† Calculated on the rate per cent of the Dividends for the year 1875.

It will be seen that, although the result of the half year's working is, as is well known, less favorable than in the corresponding half of 1874, the leading banks of this city are still yielding a profitable result. Financial business will, no doubt, remain quiet during the current year; but there is reason to believe in fewer failures, and consequently the net results may be more profitable than in 1875.

—The Hannibal & St. Joseph Railroad Company give notice that the interest maturing March 1, 1876, on the fifteen-year eight per cent. convertible bonds of the company, will be paid on presentation of the proper coupons at the Bank of North America, in New York, on and after Wednesday, March 1, next.

—We have received from *Rod and Gun* the latest edition of *Fur, Fin and Feather*, a quarterly periodical, devoted to field sports and angling, and containing, also, a compilation of the game laws of all the States and the Provinces of Canada, making a valuable assistant to the sportsman.

—Messrs. A. Iselin & Co., 48 Wall street, by their advertisement in our to-day's issue, offer to purchase the coupons of the bonds of the Indiana Central Railway Company, due January 1st, 1876.

—Messrs. Ware, Murphy & Co. have this day removed their offices from 51 Stone street to the Cotton Exchange Building in this city.

## FRIDAY, FEBRUARY 25, 1876—6 P. M.

**The Money Market and Financial Situation.**—Continued ease in money, rather less activity in the demand for governments, a sharp decline in speculative stocks, with some recovery at the close, and a firmer price for gold, have been the principal features of the financial markets this week.

The last bank statement showed a decline in the surplus reserve, in consequence of a decrease in specie, but a considerable increase in legal tenders, so that the general effect was considered favorable to the continuance of ease in the money market. The final passage of the Vance bill in the Wisconsin Legislature, virtually repealing the famous Potter law, has been one of the most important events since our last report. This repeal is worthy of notice, not merely for its present effect on stocks, but also for the principle involved, as it seems to mark an era in the relative position of the people and the railroads, and to show that an attitude of hostility towards the latter is altogether impolitic.

On Thursday the Bank of England returns showed a gain in bullion for the week of £261,000, the discount rate remaining unchanged at 4 per cent. The Bank of France showed an increase in specie for the week of 22,506,000 francs. To-day a press despatch from Paris, at noon, says: "The Bourse is flat, and there is almost a panic. All kinds of securities are falling rapidly. This feeling of anxiety is supposed to be in consequence of the elections." From private despatches to bankers we learn that a failure in the metal trade was one of the causes of the depression.

The weekly statement of the New York City Clearing-House Banks, issued February 19, showed a decrease of $1,188,425 in the excess above their 25 per cent legal reserve, the whole of such excess being $14,822,150, against $16,010,575, the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. | | | 1875. | 1874. |

| | Feb 12. | Feb. 19. | Differences. | Feb. 20. | Feb. 21. |

**United States Bonds.**—There was continued activity in governments in the first few days, but latterly the foreign bankers have been very free sellers of five-twenties, and prices of these bonds are lower. These sales were undoubtedly influenced by the bill authorizing the issue of $500,000,000 4½ per cent bonds, running 30 years, which passed the United States Senate to-day. The effect of this law is remarkably "discounted" in these sales, even if it should finally pass—and this is said to be doubtful by some who profess to have good information. It would take a long time to call in $500,000,000 of government bonds against sales of 4½ per cents, and after the whole transaction was concluded there would still remain about $164,000,000 of the five-twenties of 1867 outstanding, besides the whole issue of 1868.

**State and Railroad Bonds.**—Virginia and Louisiana consols are strong. South Carolina consols are weak and some of the bankers fear that the interest will not be paid on the first of April. A law has passed the Alabama Legislature providing for the adjustment of the State debt on the exceedingly favorable terms (for the State) offered by the Commissioners. The injunction against funding the $1,000,000 issue of levee bonds in Louisiana has been removed, and the 8 per cent. bonds issued to N. Louisiana & Texas Railroad are also now fundable. Railroad bonds have been active and generally strong. The interest on Hanibal & St. Joseph 8 per cents, due March 1, has been noticed for payment. The interest on Erie fifth mortgage bonds is taken up by a banking house having Scottish connections, and it is supposed that this is done in the interest of Messrs. Miller and Fleming, the committee for Dundee bondholders, who are now in this country for the purpose of adjusting matters, or else foreclosing the first consolidated mortgage. The bonds of the western railroads—particularly Northwest and St. Paul—have advanced very largely within the past six weeks, and the finances of these companies since the Granger law has been repealed will be in a better position than for eighteen months past. The largest borrowers of money during the past two years have been the coal carrying companies, including the Philadelphia & Reading, New Jersey Central, Lehigh Valley, Delaware & Hudson and Delaware Lackawanna & Western. These companies, either directly or in the shape of guarantees, have added considerably to their obligations, while most of the other railroads have been chary of issuing new bonds. The monopoly of the anthracite coal properties and carrying trade gives these companies an advantage, however, which others do not possess.

The Delaware Lackawanna & Western Railroad directors unanimously resolved to-day to change their broad gauge to a narrow gauge.

The following securities were sold at auction by Messrs. A. H. Muller & Son:

**Railroad and Miscellaneous Stocks.**—The stock market declined sharply under a decided "bear" movement which carried down the prices of all the speculative list, led by Pacific Mail and Western Union Telegraph. There seems to be little doubt as to the causes for this decline, and the "street" seems to be pretty well agreed that the attack came from the prominent operator who is identified with the interests of Union Pacific Railroad and Atlantic and Pacific Telegraph. At the close there was a sharp rally, and, with considerable purchases to-day, Western Union recovered and closed at 72¾@73. The final passage of the Vance law in Wisconsin was quite favorable to strength in the Granger stocks, and the reports received from week to week of railroad earnings are also good, so that, except for the bear influence above referred to, the tendency of prices would naturally have been towards greater firmness. The question of possible dividends on preferred stocks is now talked of a good deal, and on another page will be found an article giving the terms of priority of all the leading preferred stocks sold at the Board. From the general appearance of the market, and the sharp rally to-day in Western Union and other stocks, there are many who anticipate higher prices next week.

Total transactions of the week in leading stocks were as follows:

**The Gold Market.**—Gold has been stronger in consequence of the shipments of coin, and the supposition that further considerable exports will take place during the next three months. To-day the exchange market was lower, and no engagements for coin are reported for to-morrow's steamers. It is even suggested that part of the previous shipments may have been made for effect, to influence the gold market; though to this it may be answered that the margin for export of gold to the Continent was better than to London. The total shipments of gold coin since Saturday, the 19th, inclusive, have been about $1,200,000. To-day there were unfavorable despatches of depression at the Paris Bourse, which stiffened up gold to 114¼. On gold loans the rates paid to-day for carrying were 3, 3¼ and 2 per cent. Customs receipts of the week were $2,090,000.

The following table will show the course of gold and operations of the Gold Exchange Bank each day of the past week:

**Foreign Exchange.**—Exchange was strong in the early part of the week, and on Monday an advance of ¼ point was made in the rates for sterling. Since Wednesday, however, the market has drooped, and, with small business, prices are lower, the nominal rates having been put back to 4.86 and 4.90 respectively, for prime 60 days' and demand sterling bills. There has been a fair supply of cotton bills coming forward, and some were offered to-day at 4.83 which were held at 4.84 a few days since. At the close business was quite dull.

## ANNUAL REPORTS.

### Philadelphia & Erie.

(*For the year ending December* 31, 1875.)

The annual report has the following:

| GROSS EARNINGS. | | GROSS EXPENSES. | |
|---|---|---|---|
| Freight | $2,698,559 83 | Conducting transport'n. | $671,024 50 |
| Passenger | 459,176 61 | Motive power | 854,690 76 |
| Express | 37,700 69 | Maintenance of cars | 177,971 48 |
| Mails | 33,084 15 | Maintenance of road | 724,796 94 |
| Miscellaneous | 137,375 96 | | |
| | $3,865,897 21 | | $2,228,483 68 |
| $11,687 74 per mile of road. | | Net earnings | $1,137,413 66 |

The sources of revenue in 1875, compared with those of 1874, were as follows:

| | Increase. | Decrease. |
|---|---|---|
| Freights | | $74,253 42 |
| Passengers | | 68,734 07 |
| Express | | 402 00 |
| Mails | | 8,556 72 |
| Miscellaneous | $10,924 17 | |
| Net decrease | | $141,022 01 |

The expenses in 1875 were $209,649 less than in 1874.

The whole number of passengers carried in 1874 was 680,163, and in 1875, 612,402. The number of tons of freight moved, excluding fuel and other materials for the company's use, was 2,396,434, against 2,243,170 tons in 1874. Increase in tonnage in 1875 over 1874, 153,264 tons, or about 6 per cent. The actual cost of working the road in 1875 was 66 2-10 per cent. of the receipts, against 69.52 per cent. in 1874, showing a decrease of about 3 3-10 per cent. Passengers carried one mile in 1875, 15,117,810: in 1874, 17,148,330. Tons of freight moved one mile in 1875, 311,919,109: in 1874, 294,466,833.

The funded debt was increased during the past year by the issue of 1,428 bonds, $1,000 each, consolidated mortgage loan; the purposes for which said bonds were issued being as follows:

| | |
|---|---|
| In settlement of construction account for first six months of 1874 and previous years | $71,000 |
| In settlement of floating debt (1874) | 1,329,000 |
| In settlement of construction account (1875) | 28,000 |
| Total | $1,428,000 |

On the 12th of February, 1875, a communication was received from the President of the Pennsylvania Railway, inclosing an account against the Philadelphia & Erie Railway for interest due and charged upon the books of the Pennsylvania Railroad Company, for the use of equipment, machinery, &c., for the years 1870, 1871, 1872, 1873 and 1874. Total amount, with interest, $1,337,938 57.

At the first meeting of the board of directors, subsequent to its reception, a committee was appointed to confer with the lessee, with the view of settlement. After numerous interviews and conferences with a committee appointed by the board of the Pennsylvania Railway, the matter was settled by the Pennsylvania Railway accepting the Allegheny Valley Railroad income bonds (not indorsed), held at that time by this company, for amount of claim, at their *par value*, as a full discharge of the account.

It having been considered essential to the future welfare of the company to fund the floating debt, this matter was also taken up by the committee, resulting in a full settlement; the lessee accepting the Allegheny Valley Railroad income bonds (not indorsed) at 80 per centum of their face value, for the sum of $315,200, the balance being paid in the bonds (consolidated mortgage loan) of this company, at 80 per centum of their face value, making total settlement of the floating debt $1,378,189 77, or total settlement of equipment, machinery, &c., and floating debt, $2,716,128 34.

### Huntingdon and Broad Top.

(*For the year ending Dec.* 31, 1875.)

The report for the year ending Dec. 31, 1875, has the following:

| RECEIPTS. | |
|---|---|
| Coal | $210,912 19 |
| Merchandise | 59,156 25 |
| Ore | 14,402 49 |
| Limestone | 4,259 27 |
| Passengers | 28,738 43 |
| United States mail | 3,000 00 |
| Adams express | 1,200 00 |
| Miscellaneous | 1,161 03 |
| | $322,829 66 |
| Operating expenses | 157,349 54 |
| Earnings over expenses for the year 1875 | $165,480 12 |

The following is a comparative statement with 1874:

| Year. | Receipts. | Expenses. | Net Earn'gs. |
|---|---|---|---|
| 1875 | $322,829 66 | $157,349 54 | $165,480 12 |
| 1874 | 284,720 68 | 181,201 31 | 100,519 34 |
| Showing an increase in 1875 of | | | $64,960 78 |

The expenses in 1875 were 49 per cent of the gross receipts; in 1874 they were 64 69-100 per cent of the gross receipts.

The results of the year's business are condensed as follows:

| | | |
|---|---|---|
| Receipts over cost of working the road | | $165,480 12 |
| From which are to be deducted— | | |
| Office, incidental expenses and fire insurance | $12,111 72 | |
| Interest on current business and taxes | 15,938 40— | 28,050 12 |
| Balance of receipts over expenses on the year's business | | $137,430 00 |
| Disposed of as follows: | | |
| Paid for interest on bonds and scrip of first and second mortgages, including premium on gold | | $67,663 42 |
| Paid for new bridges and new depots, charged to construction acc't | | 24,467 73 |
| Paid for mine improvements and repairs to colliers' houses | | 5,249 00 |
| Paid floating debt | | 26,346 54 |
| Cash December 31, 1875 | $14,011 79 | |
| Less on hand January 1, 1875 | 7,018 47— | 6,933 32 |
| Earnings uncollected | | 6,769 91 |
| | | $137,430 00 |

The report states:

From the foregoing statements of income, it will be seen that the net earnings for the past year were nearly equal in amount to the interest on the entire bonded debt. In view of this fact, it becomes proper for your managers, on their own behalf, as well as on behalf of the trustees, to make some statement as to when a resumption of the payment of interest on the third mortgage bonds may be expected and full possession of the road be restored to your hands. * * * They consider it advisable only to say, at present, that as soon as a time can be safely decided on to commence the payment of interest in full, it will be done, and it is confidently believed such a period is close at hand. A certain coupon will then be designated on which to begin regular payments, and all the overdue coupons up to that one will be funded, as contemplated in the plan orginally proposed.

### Cleveland & Pittsburgh.

(*For thirteen months ending December* 31, 1875.)

The annual report has the following:

The lessee's account for betterments for the year 1874, allowed and brought into account since last report, is as follows:

| | |
|---|---|
| New freight offices, Pittsburgh complete) | $34,321 26 |
| Increase of sidings at various points—2,232 feet | 5,699 77 |
| Lot purchased at Bellaire for new engine house | 3,500 00 |
| Telegraph line—one new and additional wire and appurtenances between Cleveland & Pittsburgh | 5,356 70 |
| Personal property—four new and additional cranes upon coal platforms at Cleveland shops | 935 17 |
| Equipment—two caboose cars | 2,258 70 |
| Total | $52,971 80 |

Expenditures during the current year by the lessee on this account are less than $20,000 for steel rails only.

The lessee reports the business of the road, as per requirements of the lease, for the thirteen months ending Dec. 31, 1875 as follows:

| RECEIPTS. | |
|---|---|
| Gross earnings | $3,055,478 58 |
| Pittsburgh Ft. Wayne & Chicago RR. Co., consolidated earnings | 88,254 21 |
| Other sources | 1,514 56 |
| Total | $3,145,247 35 |

| EXPENDITURES. | |
|---|---|
| Operating expenses | $1,581,572 10 |
| Improvements to the property | 52,971 85 |
| Rental, interest, &c | 1,331,318 01 |
| Total | 2,971,861 97 |

These figures show a surplus earned over all classes of expenditure of $173,385 38.

### Western Pennsylvania Railroad.

(*For the year ending Dec.* 31, 1875.)

The annual report has the following:

| EARNINGS. | | EXPENSES. | |
|---|---|---|---|
| From freights | $406,301 65 | For conducting transportation | $106,150 69 |
| From passengers | 295,287 43 | For motive power | 108,680 53 |
| From express | 2,449 68 | Maintenance of cars | 54,634 51 |
| From mails | 5,203 33 | Maintenance of way | 175,465 24 |
| From rents | 7,748 13 | | |
| Total earnings | $626,390 22 | Total expenses | $444,930 99 |
| Net earnings for the year 1875 | | | 182,059 22 |
| Net earnings for the year 1874 | | | 240,380 46 |
| Decrease | | | $58 321 24 |
| Total operating receipts | | | 182,059 22 |
| Receipts from other sources | | | 915 25 |
| Total net receipts during the year | | | $183,004 47 |

| | |
|---|---|
| Total expenses chargeable against income | 216,126 23 |
| For betterments | 7,280 56 |
| Total expenditures other than operating | $226,406 79 |
| Showing a deficiency in 1875 of | 40,402 32 |

The President, Mr. Strickland Kneass, says in his report: From the above statement it will be seen that the net receipts for the past year show a deficiency in meeting the interest on the bonded debt, and expenditures properly chargeable against the income of the current year, of $33,121 76, while there have been also expended for betterments, $7,280 56, showing a total deficiency in receipts of 1875 of $46,462 32.

The bonded debt of the company, at the present time, amounts to $3,000,000, $1,800,000 of which bears an interest of 6 per cent, and $1,200,000 7 per cent., giving a total interest acccount to meet coupons of $192,000 per annum, or about $9,000 in excess of the net receipts of the year 1875.

As the balance of cash on hand as represented in the last annual report of the treasurer, viz., $48,344 73, may give a false impression as to the operations of the road, we would state that this balance was of December 31, 1875, while the coupons of bonds secured by the $1.000,000 mortgage placed on the Pittsburg branch fell due on the 1st of January, 1876.

At the last annual meeting of your company your Board of Directors were authorized to make provisions for liquidating the bonded debt, by creating a sinking fund for its extinguishment; but the business during the year soon gave evidence that all the earnings that could be realized would be insufficient to meet the current expenses and the interest on the bonded debt, and therefore no action in the matter has thus far been taken, and, owing to the almost entire absorption of the balance in hands of the treasurer, at the last closing of our accounts, to meet the payments of 1875, we shall, unless the business of your line shows for 1876 better results than those of the past year, be compelled to ask for further loans to meet our necessities as they shall occur.

## Western Maryland.

(*Report for the year ending September* 30, 1875.)

The following is a statement of operations for the year ending September 30, 1875:

| *Gross Earnings.* | | *Operating Expenses.* | |
|---|---|---|---|
| From passengers | $139,864 | Expenses Transportation Department | $102,356 |
| From freight and express | 130,510 | Expenses Machinery Dept. | 29,453 |
| From milk and marketing | 16,208 | Expenses Road Dept. | 46,813 |
| From mails | 6,167 | General Expenses | 15,796 |
| From miscellaneous sources | 965 | | |
| Total | $293,718 | Total | $194,420 |
| Net Earnings | | | $99,298 |

The earnings, as compared with 1874, are as follows:

| | |
|---|---|
| Increase from passengers | $8,836 81 |
| Increase from freight and express | 5,463 09 |
| Increase from milk and marketing | 1,875 93 |
| Decrease from mails | 199 60 |
| Decrease from miscellaneous sources | 50 43 |
| Total increase of earnings | $15,925 80 |

The expenses, as compared with 1874, show a decrease of $22 36.

From the above it will be seen that, while the earnings increased $15,925 80, the expenses decreased $22 36, making a net increase in revenue of $15,948 16 over 1874

As compared with 1873, there is an increase in revenue of $75,333 76, and a decrease in expenses of $8,053 29, making a net increase of $83,387 05.

Instead of making a spasmodic and premature attempt at paying interest, with the certainty of being compelled to stop after one or two efforts, with the road in a worn-out and crippled condition, it has been the policy of the company to place it in a safe and satisfactory condition, with every reasonable auxiliary that was calculated to attract business and tend to the prosperity of the section it was serving, believing that the payment of interest, then judiciously begun, could be proceeded with uninterruptedly.

While we would not recommend to the City of Baltimore a further outlay of capital on the road, yet the material interests and prosperity of the city are so intimately allied with and dependent upon the vast mineral and other fruitful regions, that could be served with much economy of time and expense by the extended Western Maryland Railroad, we think every citizen should fully understand and appreciate the important bearings of an auxiliary so necessary to the full enjoyment by the city of its great geographical advantages. It is therefore hoped that, by a willingness on the part of the city to dispose of its interest on favorable terms, some of the numerous inquiring capitalists may be induced to take the matter up, with a satisfactory guarantee of an early prosecution and completion of the road to Johnstown.

## Utica & Black River Railroad.

(*For the year ending Sept.* 30, 1875.)

The annual report has the following:

The Black River & Morristown Railroad, on the 24th of November, 1875, was brought into use to Morristown, the terminus, which is just opposite Brockville, Canada. In November, 1874, under a lease made by and between this company and the Carthage Watertown & Sacketts Harbor Railroad Company, we took possession of twelve miles of their road, extending from Watertown to Sacketts Harbor, on Lake Ontario.

When the Carthage Watertown & Sacketts Harbor Railroad was completed to Watertown, it was leased to this company for 40 per cent of its gross earnings, with a proviso that when completed to Sacketts Harbor this company should run the whole road, paying therefor 37½ per cent of the gross earnings, monthly. The road was bonded for $300,000, interest at 7 per cent, which they were bound in the lease to pay. Failing at any time to do it, left it optional with us to take up the coupons or not. We have been compelled to take up these coupons, which, during the last current year, amounted to $21,000; their percentage of gross earnings was $19,088 34—leaving a balance for the year of $1,911 66. At the close of the year the balance due from them was $5,298 68-100.

EARNINGS.

| Clayton & Theresa Railroad bonded for | $200,000 |
| Carthage Watertown & Sacketts Harbor | 300,000 |
| Black River & Morristown | 500,000 |
| Total | $1,000,000 |

Of these bonds, $129,000 of the Clayton & Theresa Railroad, and $80,000 of the Black River & Morristown, are now owned and held by this company. But assuming all to be outstanding, it will be seen that the 83 miles of leased roads cost this company the payment of interest, at seven per cent, on $1,000,000, or interest on about $12,000 per mile.

## United States Rolling Stock Co.

(*For the Year Ending December* 31, 1875.

The report says:

The gradual improvement which has been in progress in the railroad business of this country during the last six months, enables me to present to you also a somewhat more satisfactory result of the last year's business of your company. This result is still far from being what you are entitled to expect under ordinary circumstances, but it is a great improvement upon the showing of the previous year. A large part of your stock has stood idle, and a large part of that which has been employed has been let at very low rates of rental. Hence the income of the year appears small as compared with the nominal income of last year. But a far larger part of it has been promptly collected, especially during the latter part of the year, and repairs have been made by lessees in a far more satisfactory manner. Even now many repairs have had to be made at the expense of the company, which are properly chargeable to the lessees, but the stock has been kept up to a higher standard of repairs, and with improved storage and working facilities, I hope to reduce our own expenses for repairs to a minimum.

The income account of the year is given in detail below. It shows a net income for the year of $353,577 64, out of which it is recommended that a dividend of 3 per cent., or twelve shillings per share, be paid, whenever you decide to order the same. The funds for the purpose are, and have for some time past been, on deposit with the London and County Bank in London. After payment of the dividend there will remain $185,577 64 to be carried to reserve account.

It will be seen that the number of locomotives, passenger coaches and luggage vans employed has slightly diminished, but that the number of freight cars under lease has increased 665.

Many of the leases in force at the close of 1874 expired during the present year. Owing to the severe competition among the leading railways, rates of freight were unprecedentedly low, and the earnings of the lines greatly reduced. Hence, most of our renewals and new leases were made at lower rates than those previously existing,

Of the 3,483 freight cars leased, 937 have run on mileage, and their earnings have not exceeded $45 per annum each, or about

equal to only four months' service. 250 have been in use less than six months in the year.

Of the 40 passenger cars leased, 25 have averaged only four months of service.

Of the 54 locomotives, 22 have averaged only six months of service.

Under these circumstances, the earnings of the entire stock, employed and idle, have only averaged:

| | | |
|---|---|---|
| For locomotives | per annum | $671 00 |
| For passenger coaches | " " | 607 00 |
| For luggage vans | " " | 377 00 |
| For freight cars | " " | 89 00 |

which rates are extremely low.

Had all the idle stock been in use at the same rates as that under lease, the income for the year would have been $150,000 larger. Had all the stock been leased at fixed rates equal to those now current, the income of the year would have been increased by nearly $300,000.

THE ATLANTIC AND GREAT WESTERN.

This company and the Erie company owe us jointly or severally a very large sum, represented upon our books by a balance due us for rental of $1,048,436 56, or over £200,000. The amount we claim from them in the legal proceedings now pending, as justly due us, exceeds $1,700,000, or £340,000. For this sum of money we claim to have a prior lien upon all the property of the company in advance of all the mortgages. Our claim is contested by the company, and those who have heretofore claimed to represent the English bondholders have made light of our pretensions to priority. The justice and legality of our claim will speedily be tested in the courts of Ohio, where, after numerous dilatory motions, the case will come to trial at an early day. Meanwhile, wiser counsels seem likely to prevail also among those who are endeavoring to reorganize the company on behalf of the English bondholders, and offers have been made to me on their behalf since my return to America, involving the recognition of our priority over the existing mortgages for a portion of our claim. But the amount offered was not sufficient to justify the entering into definite negotiations with a view to its acceptance or rejection.

THE RESERVE.

Pending the settlement of the company's claims against the Atlantic & Great Western Railroad Company and Messrs. Bischoffsheim & Goldschmidt, I have deemed it prudent to transfer the entire balance standing to the credit of Income Account, at the close of 1874, to Reserve Account. This account, therefore, now appears with a balance of $1,358,950 66.

If, out of the net income for 1875, $353,577 64, the proposed dividend of 12s. per share is paid, amounting to $170,000, there will be a further sum of $183,577 64 to be carried to Reserve Account for this year, swelling the balance to the credit of Reserve to $1,542,528 30. It is not unnatural that shareholders should ask what this represents.

It represents:

| | | |
|---|---|---|
| Construction in excess of capital | | $18,955 71 |
| Current balances due from lessees, exclusive of A. & G. W. & Erie. | | 98,977 11 |
| Cash and cash assets | $407,132 18 | |
| Less dividend proposed | 170,000 00 | 237,132 18 |
| Buildings and materials | | 31,543 01 |
| Insurance paid in advance | | 9,080 63 |
| Together | | $390,688 61 |
| Less due for supplies, etc | | 32,024 41 |
| Leaving | | $358,664 23 |

of actual unquestioned cash value standing to the credit of the reserve. If the contested accounts against the Atlantic & Great Western Railroad Company and Messrs. Bischoffsheim & Goldschmidt, standing on our books for $1,182,344 70, but in reality amounting to much larger sums, should net the company only 10s. in the pound (and a sum nearly equal to this has already been offered in settlement), the above amount would be increased by $591,172 36, making a net valuation of the reserve of $981,861, or twenty per cent. upon the entire capital.

| Working expenses equal | 79.66 per c't. | 75 per cent. | 77.65 per c't. |

"The net earnings show a decrease of 29 per cent. as compared with 1874, and of 14 per cent. as compared with 1873. There was a decrease in the number of through passengers of 3,257, and in revenue of $22,335 04. An increase in the number of local passengers of 80,968, and a decrease in revenue of $14,731 12. The increase in the number of passengers is principally between Cincinnati and suburban stations. The total number of passengers, through and local, carried during the year was 684,469, an increase in number of 76,966, and a decrease in revenue of $40,247 02, as compared with 1874.

"The revenue from freight was $1,029,941 93. There was a decrease of 108,038 tons of through freight transported, and a decrease in revenue thereon of $235,983 79."

The following were unanimously elected as directors for the ensuing year, viz.: John King, Jr., Thomas Whitridge, Robert Garrett, J. Donnell Smith, Wm. F. Burns, of Baltimore; W. W. Scarborough, James D. Lehmer, R. M. Bishop, George Iloadly, of Cincinnati; W. T. McClintock, William Waddle, of Chillicothe; J. N. Camden, of Parkersburg; W. B. Loomis, of Marietta.

Immediately after the adjournment of the stockholders' meeting, the new board of directors organized by the re election of John King for President, and all the present officers of the company were re elected, as follows: W. P. McClintock, Treasurer; Charles F. Low, Secretary and Auditor; W. E. Jones, Cashier and Registrar.

## GENERAL INVESTMENT NEWS.

**Alabama State Debt.**—A despatch from Montgomery, Ala., Feb. 23, says: "A bill has passed both Houses of the Legislature ratifying the settlement of the State debt made by the commissioners. All State bonds except those in aid of railroads are to be taken up and new ones issued. The bondholders of the Alabama & Chattanooga Railroad are to surrender the bonds issued by the State in aid of the road, and those endorsed by the State, and take the road, franchises and lands, and receive in addition one million of bonds. The remainder of railroad bond matters is yet unadjusted.

**Anglo-American Telegraph Company (Limited).**—The half-yearly meeting was held recently in London. The report showed that the total receipts from July 1 to December 31, 1875, including a balance of £66,066, carried over from the last account, amount to £331,313. The total expenses of the half year amount to £42,842. The Directors, before declaring the net profits, set apart the sum of £50,000 to a renewal fund, leaving a balance of £238,472. After a total distribution for the year of 5 per cent., there remains a balance of £63,472 (including £32,471 surplus cable) to be carried forward to next account. The decrease in the traffic receipts for the last six months in 1875, as compared with the corresponding period in 1874, amounting to £33,405, has been caused by competition and the reductions of tariff which came into force on May 1, September 15, and November 6, respectively, the result of which was a falling off, as compared with the corresponding periods in 1874, of £643 per day at the 2s. rate, of £1,212 per day at the 1s. rate, and of £485 per day at the 3s. rate. At the last meeting the directors passed a resolution dividing the capital stock of the company into two classes, to be called respectively preferred ordinary stock and deferred ordinary stock so that as between the two classes the preferred ordinary stock shall bear a fixed maximum dividend of 6 per cent. for each year in priority to all dividends for that year on the deferred ordinary stock.

**Chicago Burlington & Quincy.**—The following abstract is telegraphed from Chicago:

The Chicago, Burlington & Quincy R. R. Co., on Wednesday, elected the following directors for the ensuing year: John W. Brooks, Charles J. Paine, and T. Jefferson Coolidge, of Boston; John Q. A. Griswold, of Newport, R. I.; William J. Rotch, of New Bedford, Mass.; Peter Geddes, J. M. Walker, and Robert Harris, of Chicago; Charles E. Perkins, of Burlington, Iowa.

C. S. Cotton, of Galesburg, Ill., a director for the past twenty-four years, retired on account of ill health. The annual report shows the following: Earnings from freight, $8,500,000; from passengers, $2,600,000; miscellaneous, $500,000; interest and exchange, $53,000. Expenses, $6,400,000; net earnings, $5,300,000; interest on bonds, $2,014,000; leaving a balance of $3,300,000. Taking from this amount the dividends, rents, &c., there are left as the surplus earnings for the year, over every current liability and the sinking fund, $415,000, to which add the surplus at the commencement of the year, $4,000,000, and the amount credited to the sinking fund taken from the earnings, $1,360,000; these added to the income credits make the amount of surplus earnings $5,700,000. In 1874 the operating expenses were 55.93 per cent., including taxes: in 1875 they were 54.53. The capital stock has been increased by one share issued for fractional parts consolidated, and by 52,011 shares issued in exchange for Burlington & Missouri River Railroad stock.

**Cincinnati City Bonds.**—COLUMBUS, Ohio, Feb. 24.—In the House to-day the Senate bill to authorize the issue of $6,000,000 of bonds to complete the Cincinnati Southern Railroad was passed, after being amended by providing that the question of issuing the bonds shall first be submitted to a vote of the people, within thirty days from the passage of the bill. The Senate concurred in the amendment.

**Connecticut Central.**—The company lately offered an issue of $400,000 first mortgage 7 per cent. bonds due 1895, with interest payable April and October in New York, at 90 and interest. This issue is at the rate of less than $20,000 per mile, and the rental which the Connecticut Valley Company has agreed to pay more than covers the interest. The strength of the bonds depends chiefly on the strength of the lessee corporation.

**Delaware & Bound Brook.**—The track is all laid from the junction with the New Jersey Central near Bound Brook, N. J., southwest to Hopewell, sixteen miles. The work of surfacing and ballasting is in progress. The laying of the rails from Hopewell to the Delaware will be slightly delayed by some unfinished work at Moore's Mill, but will be completed next month, unless some unforeseen accident prevents. From a statement to the Philadelphia Stock Exchange, it appears that the capital stock authorized is $1,500,000; issued, $1,000,000. A first mortgage for $1,500,000 has been executed, under which $1,000,000 of bonds have been issued. The issue of the whole $3,000,000 of stock and bonds will make the capital account $111,000 per mile.

**Detroit and Milwaukee.**—C. C. Trowbridge, Receiver of the Detroit and Milwaukee Railroad Company, has prepared a brief statement showing the receipts and expenses of the road, exclusive of the Lake Huron proportion, for 1875. The following is a comparative statement for the years 1874 and 1875:

| Receipts. | 1875. | 1874. |
|---|---|---|
| Passengers | $311,500 04 | $448,625 66 |
| Freights and live stock | 478,313 71 | 641,938 71 |
| Mails and sundries | 38,815 78 | 4,647 30 |
| | $888,634 53 | $1,133,211 67 |
| Rents | 14,012 16 | 18,995 03 |
| Total | $902,646 69 | $1,151,206 70 |
| Expenses. | 1875. | 1874. |
| Maintaining and renewal of way | $251,620 35 | $248,785 68 |
| Locomotive power | 208,514 36 | 213,969 56 |
| Passenger and freight-car repairs | 101,112 80 | 135,583 03 |
| Passenger transit expenses | 90,076 37 | 110,049 26 |
| Freight transit expenses | 129,910 71 | 156,843 05 |
| General charges | 27,999 18 | 36,881 22 |
| Total working expenses | $812,233 77 | $912,111 80 |
| Taxes and insurance | 56,237 51 | 42,360 45 |
| Total revenue expenditure | $868,461 28 | $934,472 25 |
| Net revenue | 34,185 41 | 206,734 45 |
| Total | $902,613 69 | $1,151,206 70 |

*Herapath's Journal*, of January 29, says:

"Messrs. J. F. Joy, Z. Chandler and C. H. Buhl offer to reorganize this company, giving the holders of the first and second bonds and coupon bonds two-thirds of their amount in a new first charge set of bonds, bearing 6 per cent interest currency, or 6 per cent interest in gold, interest commencing to run one year from the time of sale of the line; there is also to be created a million of dollars of the same first charge bonds to bear 7 per cent. interest, the proceeds being used to put the road in condition. The Great Western of Canada Board recommend the proposals for acceptance. They seem to us fair, and as much as the bondholders can expect."

— According to a statement signed by Messrs. Joy, Chandler and Buhl, the gross earnings of the line in 1867 were $1,761,308, and working expenses with taxes $993,518, leaving then a large surplus, but since 1867 the traffic has gradually decreased and the expenditure remained stationary, or even increased. In 1873 the gross earnings were $1,204,877, and the expenses $1,227,603, so that in that year the expenses even exceeded the receipts. A somewhat better state of things arose in the following year, although then the traffic did not fail to decrease. In 1874 it fell down to $1,151,206, but the expenditure to $944,472, leaving a small profit. In 1875 (two weeks estimated) the traffic further tumbled to $890,000, and the expenditure to $870,000, leaving a fractional margin as profit.

**Double Taxation.**—The Supreme Court of California has just rendered a decision in the case of the people, etc., vs. Hibernia Savings and Loan Society, which declares the exemption of mortgages and other evidences of debt from taxation. The Constitution of California says that "all property in this State shall be taxed in proportion to its value," and the Political Code declares that evidences of debt and things in action are property. The Supreme Court, however, decides that, except in a certain sense, and that not the sense of the Constitution, this is not so. The opinions of the judges plainly declare that the taxation of an evidence of debt, the property which it stands for having itself been taxed, is double taxation, unequal and against the constitutional provision.

**Hannibal & St. Joseph.**—Sealed proposals for $60,000 land bonds of the Hannibal & St. Joseph Railroad Company will be received up to noon of February 23, by the trustees.

**Liability of Stockholders of National Banks.**—In the United States District Court Judge Blatchford has rendered a decision in the case of Edwin L. Stanton, receiver of the First National Bank of Washington, D. C., against Catherine C. Wilkinson. The *Tribune* report says: Plaintiff was receiver of the bank, which suspended in September, 1873, and the defendant at that time held 100 shares of the bank stock, of the par value of $10,000. On this sum an assessment of 60 per cent was laid to pay the debts of the bank. The defendant refused to pay this, and suit was brought to compel payment.

Among other grounds it was objected that the proper remedy of the plaintiff was not by separate suits at law against individual stockholders, but by a suit at equity. Judge Blatchford held that each shareholder was liable to the extent of the amount of his stock at its par value. Proceedings were not to be taken by first ascertaining how much was necessary to be collected, and then apportioning that amount among the stockholders. The assessment was to be made by determining how much each stockholder must be liable for in a percentage on the par value of his stock. The suggestion that where there was an enforced contribution of too much from stockholders there was no provision for refunding it, was not a sound one. The criticism that the statute provides that "individual liability may be enforced only where it is necessary to pay the debts of a bank, and not for the purpose of paying liabilities of the bank," was pronounced unsound. The demurrer was overruled with costs, with leave to the defendant to answer in twenty days, on payment of the costs.

**Northern Pacific.**—The bill to extend the time for the construction and completion of this railroad, which passed the United States Senate on the 10th inst., provides that "eight years' additional time is hereby granted to the Northern Pacific Railroad Company to construct and complete its main-line road, via the valley of the Columbia River, to its terminus on Puget Sound, under its charter, and the acts and resolutions of Congress relating thereto. That this extension is granted upon the express condition and understanding that where pre-emption and homestead claims were initiated or private entry and location were allowed upon lands embraced in the grant to said company, prior to the receipt of the order of withdrawal at the respective district land offices, the land embraced in such entry shall not be held as within the grant to said company, and shall be patented to the parties lawfully entering the same."

**Pekin Lincoln & Decatur.**—The decree of sale of the Pekin Lincoln & Decatur Railroad was filed at Springfield, Ill., Feb. 19, and the sale will take place after due notice and publication.

**Rutland.**—It is reported that the directors of this company and those of the Central Vermont have agreed upon a compromise on the points at issue between the companies. The Rutland is to receive the back rent due by the Central Vermont, about $250,000, and the present lease will be modified so that the earnings of the Rutland, the Vermont Central, and the Vermont & Canada will be pooled, each company to receive a fixed percentage of the earnings. The agreement, it is said, will be submitted to meetings of the stockholders of both companies, to be held February 25.

**St. Louis Iron Mountain & Southern.**—The business of the road for the past year shows a gratifying growth in all its departments, including the local and through business. The largest development has been in the direction of Arkansas and Texas, though there has been a general increase in the traffic northward, in the Southern states on the eastern side of the Mississippi. Gross earnings from transportation for the year, $3,802,941 36. Operating expenses, $2,013,853 83. Net earnings, $1,789,087 53. Proportion of expenses to earnings, 52·96 per cent. Increase of net earnings over previous year (1874), 45 per cent. Total number of passengers carried, 612,069. Average rate charged passengers per mile, 2¼ cents.

**St. Paul & Pacific.**—The transfer of the St. Paul & Pacific Railroad, main line and branch, from the control of the Hon. George L. Becker and associates to the Dutch bondholders, has taken place. Mr. John S. Barnes, of New York, will be President, and J. P. Farley, of Dubuque, General Manager. Mr. Farley is the receiver of the extension lines of the company.

**Wabash & Erie Canal.**—A despatch in the New York *Times* is as follows:

TERRE HAUTE, Feb. 24.—The Wabash & Erie Canal, extending from the Ohio State line through the cities of Fort Wayne, Logansport and Lafayette, to Terre Haute and Evansville, was sold at public sale, the chief purchaser being the plaintiff, J. K. Gapen, who had brought an action to close up the trust for all concerned. This case, involving the State Debt act known as the Butler bill, has been appealed to the United States Supreme Court, with the intention of having the liability of the State to pay the canal stocks determined. The canal from Lafayette to the Ohio State line sold for $85,500, the abandoned portion for $11,860, and the lots, quarries and lands adjacent for $3,030. The total amount of the sales so far is $101,900. The sale will continue to-morrow.

**Walkill Valley.**—In the suit brought by the trustees to foreclose the first mortgage, the New York Supreme Court has appointed James A. Jones receiver. The road has been in the hands of the second mortgage bondholders, who bought it last year under foreclosure of their mortgage.

**West Jersey.**—At the annual meeting in Camden, last week, the report showed a slight increase in gross and a large one in net earnings for last year. It was resolved to pass the usual semi-annual dividend and to use the money for the erection of the new depot at Cape May, and for the purchase of new rails to be laid from the Cape to Millville.

—The bondholders of the New Orleans Mobile & Texas Railroad met at the office of Morton, Bliss & Co., on Saturday, and resolved to reorganize under the name of the New Orleans & Texas Railroad Company. They will meet next Friday to complete the organization and elect officers.

—The directors of the Macon & Brunswick Railroad, of Georgia, have definitely rejected the highest bid made at the late sale, and will again place the matter at the disposal of the State authorities.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Feb. 25, 1876.

General trade has been dull the past week. The spring season, so far as it may be said to have opened, proves even more disappointing, as regards the volume of business, than last autumn. This is in part due to the existence of a strong inflation party in the popular branch of Congress, which prevents that return of confidence in values which is essential to a revival of trade. The intervention of a close holiday, and the prevalence of cold, blustering weather have also contributed somewhat to the dulness that has prevailed; and the speculation in leading staples has been pretty uniform in favor of lower prices, especially in the past few days.

Pork has been much less active on the spot, and the speculation in futures quite slow, closing to-day at $22 25@$22 50 for mess on the spot, and $22 25@$22 55 for future delivery, March to June. Lard has also been drooping latterly, and closed to-day at 13¼c. for prime Western steam on the spot, and 13¼c.@13⅝c. for future delivery, March to June. Bacon and cut meats have brought rather more money, but have not been active. Beef and beef hams have met with a good demand at full prices. Tallow has done better, selling very fairly at 9¼c.@9⅝c. for medium to choice. Butter has been firm for the better grades, but dull and drooping for the poorer qualities. Cheese is without essential change. Stearine is easier at 13¼c. for prime Western. The export movement in hog products compares as follows, from the undermentioned places, from October 30 to February 19, 1875-6:

| From— | Pork, bbls. | Lard, lbs. | Bacon & Hams, lbs. |
|---|---|---|---|

Rio coffee has been more active, the sales for the week aggregating 33,000 bags, by which the stock at this port has been reduced to 218,847 bags, with the visible supply for the United States reported at 357,027 bags; fair to good cargoes, 16½@16¾c., gold. Mild grades also more active and the close strong; Java, 23@25c. and Maracaibo 16½@18½c., gold, with stocks 131,000 mats Java, and 40,300 bags and 2,500 mats of other mild grades. Rice has been quiet and unchanged. Fruits and spices quiet. The auction sale of teas, yesterday, showed no essential change in prices. Molasses has been in moderate request, with further sales of new crop Cuba at 32c. for 50 test. Sugars, at some decline in raws, have been fairly active; fair to good refining, 7⅞@7¾c; standard crushed refined, 10⅝c.

Kentucky tobacco has ruled firmer at 5@7¼c. for lugs and 8@18c. for leaf; the sales for the week embraced 500 hhds., of which 400 were for export and 100 for consumption. Seed leaf has been in fair demand and about steady; the sales embrace: crop of 1873, 70 cases New York at 15c., 126 cases Wisconsin at 8c., 300 cases New England at 8c.; crop of 1874, 150 cases do. at 8@9c., 34 cases Pennsylvania at 11c.; and crop of 1873 and 1874, 300 cases Ohio at 6½@8c.; also, 200 cases sundry kinds at 7@20c. Spanish tobacco has been in good demand and higher; sales were 1,000 cases Havana at 88c.@$1 20.

Linseed oil has ruled a shade lower at 59@60c. Crude sperm has been in fair demand at steady prices. Other oils quiet and unchanged. Hides have been in moderate demand and quotations are without essential change; dry Montevideo sold at 21c., gold, four months. Codfish in good demand and steady; sales, 1,500 quintals at $4 75 for Grand Bank and $5 75 for Georges; other fish quiet and unchanged. Whiskey declined to $1 10, and recovered to $1 11, tax paid, but closed unsettled and dull. Clover seed has been quiet, but closes more active, with sales of Canadian and State at 13¼@14c. per lb.

In ocean freights there has been a somewhat better business as regards berth room, superinduced by some decline in late rates. Charter room at the close was steady and in slightly better request. Late engagements include: Grain to Liverpool, by steam, 7@7½d.; provisions, 30@35s. per ton; grain, by sail, 6¼d., and cotton ¼d., compressed. Grain to London, by steam, 9d.; hops ⅝d.; cheese, 40s. per ton.; grain, by sail, 8d.; do. to Hull, by steam, 8¼d.; sugar, at 30s.; provisions, 35s. per ton. Grain to Cork, for orders, 6s. 9d.; refined petroleum to Bremen, 3s. 10½d.; naphtha to London, 5s.; do. to Stockholm, 5s. 6d. To-day there was only a small business, but no further changes took place. Grain to Liverpool, by steam, 7½d.; flour, by sail, 2s. 6d.; grain to London, by sail, 8d.; do. to Glasgow, by steam, 9d.; flour, by sail, 2s 7½d.; grain to Cork for orders, 6s. 9d; do. to Oporto, in shippers' bags, 18c., gold; no petroleum charters.

The business in naval stores has been rather quiet, but late figures have been maintained in a steady position. Spirits turpentine closes at 36½c., and common to good strained rosin at $1 60@1 65. Petroleum has latterly advanced under higher and somewhat excited advices from the Creek; crude, in bulk, 8⅝c., and refined, in barrels, at 14½c. for early deliveries.

## COTTON.

FRIDAY, P. M., Feb. 25, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (February 25) the total receipts have reached 109,676 bales, against 110,576 bales last week, 118,582 bales the previous week, and 131,379 bales three weeks since, making the total receipts since the 1st of September, 1875, 3,404,927 bales, against 2,914,258 bales for the same period of 1874-5, showing an increase since Sept. 1, 1875, of 490,669 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 74,000 bales; for Havre, 26,000 bales; for Continent, 52,000 bales; for coastwise ports, 5,000 bales; which, if deducted from the stock, would leave 223,000 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (beside above exports) on shipboard at that port, not cleared: For Liverpool, 7,225 bales; for other foreign, 12,086 bales; for coastwise ports, 2,246 bales; which, if deducted from the stock, would leave remaining 28,654 bales.

‡ The exports this week under the head of "other ports" include from Boston 2,159 bales to Liverpool; from Philadelphia 520 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 16,968 bales, while the stocks to-night are 29,787 bales *more* than they were at this time a year ago. These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market has been very dull and depressed for cotton on the spot, during the whole week, and prices have further declined. Quotations were on Monday marked down 1 16c., to 12¼c., for Middling Uplands, but this quotation was wholly nominal, as representing the views of holders rather than prices actually paid; for "short notices," February contracts sold on Monday at 12 19 32c. Such little demand as has existed has been mainly from home spinners. Gold and exchange have favored shippers, but the rapid decline of prices in foreign markets has kept export

business within narrow limits. Receipts at New Orleans and Memphis have been fully up to the highest estimates—New Orleans returning a considerable increase over last week and more than doubling on the corresponding week last year; but at other points and at most of the inland towns receipts have been comparatively small. Yesterday, the market was very dull, under a further decline at Liverpool and lower gold here, but quotations were not reduced. To day the market was rather more steady, but very quiet. For future delivery, there was during Monday and Wednesday a state of semi panic prevailing in the market, and the opening on Thursday morning was weak, the lowest prices showing a decline from Saturday of 5 16c. for the early months and ¼c. for the later months. At this decline, however, the demand became very active, and, in the course of Thursday, even in the face of a further decline at Liverpool and lower gold here, there was some recovery, especially for the later months, the result of the demand, which is natural after a sharp decline, to cover contracts put out at higher prices. But this improvement was not long maintained, and the closing prices were 1-16@¼c. lower, with this difference, however, from Monday's and Wednesday's markets, that the later months declined most. The demand for April delivery was very active. To-day, there was a sharp reaction; prices were at one time ¼c. higher, but the close was quiet, with part of this advance lost.

The total sales for forward delivery for the week are 179,100 bales, including —— free on board. For immediate delivery the total sales foot up this week 3,629 bales, including 342 for export, 2,182 for consumption, 605 for speculation, and —— in transit. Of the above, —— bales were to arrive. These figures indicate an *increase* in the cotton in sight to-night of 104,460 bales as compared with the same date of 1875, an *increase* of 4,218 bales as compared with the corresponding date of 1874, and an *increase* of 343,405 bales as compared with 1873.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week and stock to-night, and for the corresponding week of 1875—is set out in detail in the following statement:

The above totals show that the old interior stocks have *increased* during the week 1,781 bales, and are to-night 5,373 bales *more* than at the same period last year. The receipts at same towns have been 7,112 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 9,000 bales shipped from Bombay to Great Britain the past week, and 11,000 bales to the Continent; while the receipts at Bombay during this week have been 25,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, Feb. 24:

| | Shipments this week. Great Britain. | Con-tinent. | Total. | Shipments since Jan. 1. Great Britain. | Con-tinent. | Total. | Receipts. This week. | Since Jan. 1. |
|---|---|---|---|---|---|---|---|---|
| 1876..... | 9,000 | 11,000 | 20,000 | 52,000 | 56 000 | 108,000 | 25,000 | 154,000 |
| 1875..... | 20,000 | 13,000 | 33,000 | 152,000 | 72,000 | 224,000 | 57,000 | 311,000 |

From the foregoing it would appear that, compared with last year, there is a *decrease* of 13,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 116,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—The past week has been a pretty rainy one, though in most sections not more so than usual at this season of the year. Preparations for the next crop are progressing. In the Southwest we see that the wet weather is interfering with the plowing.

*Galveston, Texas.*—We are having too much rain—so much, in fact, that it interferes with plowing and the movement of the crop. This week it has rained on three days, two days hard and one light. It snowed in the northern part of the county on one day. The rainfall here has reached two inches and eighty-five hundredths, and the thermometer has averaged 56, the highest being 73 and the lowest 43.

*Indianola, Texas.*—We have had rain on two days, with a rainfall of one inch and twelve hundredths. The thermometer has averaged 56, the highest being 71 and the lowest 42.

*Corsicana, Texas.*—It has rained here on three days, but as the week closes there has been a favorable change. The rainfall reaches one inch and sixty hundredths. The thermometer has averaged 52, the highest being 75 and the lowest 35.

*Dallas, Texas.*—We have had rain on two days this week. We are having too much rain, plowing being suspended on that account. As the week closes there has been a favorable change. The rainfall this week has been three inches and fifty hundredths, and the thermometer has averaged 62, the highest being 68 and the lowest 32

*New Orleans, Louisiana.*—There were four rainy days here the past week, the rainfall reaching two and fifty hundredths inches. The thermometer has averaged 56.

*Shreveport, Louisiana.*—We had rain here on Sunday and Monday last, the rainfall reaching one inch and sixty-seven hundredths. The thermometer has averaged 52, the highest being 71 and the lowest 35.

*Vicksburg, Mississippi.*—There was rain one day the past week, the rainfall reaching eighty-six hundredths of an inch. Average thermometer during the week 52, highest 54 and lowest 49.

*Columbus, Mississippi.*—We had rain the early part of the week, the rainfall reaching one inch and twenty-five hundredths, but the latter part has been clear and pleasant. Average thermometer 55, highest 70 and lowest 39.

*Little Rock, Arkansas.*—Excepting Saturday and Monday last, when we had a slight rain, the weather the past week has been pleasant, the thermometer averaging 50 and ranging from 33 to 66. Total rainfall forty hundredths of an inch. Cotton of very inferior quality continues to come in goodly quantities.

*Nashville, Tennessee.*—It rained here slightly one day this week. The thermometer during the week has averaged 42, the highest being 54 and the lowest 30.

*Memphis, Tennessee.*—We had rain on one day during the week, the rest of the week being pleasant. The rainfall was twenty-five hundredths of an inch.

*Mobile, Alabama.*—It has rained constantly one day, and was cloudy one day, the remaining five days being pleasant. The rainfall was one inch and ninety-nine hundredths. The average thermometer was 53, the highest 67, and the lowest 38.

*Montgomery, Alabama.*—The early part of the week we had two rainy days, the rainfall reaching one inch and nineteen hundredths, but the latter part was clear and pleasant. The thermometer has ranged from 32 to 65, averaging 51.

*Selma, Alabama.*—We had two rainy days here the past week, the rainfall reaching one inch and fifty-five hundredths. The thermometer has averaged 48.

*Madison, Florida.*—Tel-gram not received.

*Macon, Georgia.*—There was one rainy day here the past week. The thermometer during the same period has averaged 47, the highest being 62, and the lowest 29.

*Atlanta, Georgia.*—It rained constantly two days of this week, the rainfall reaching one inch and thirty-eight hundredths. The thermometer has averaged 46, the extreme range being 26 and 60.

*Columbus, Georgia.*—Two days of the past week were showery, the rainfall reaching ninety-eight hundredths of an inch. The thermometer has averaged 49, the highest being 62 and the lowest 32.

*Savannah, Georgia.*—We have had rain on three days, and the rest of the week was cloudy, the rainfall reaching thirty-five hundredths of an inch. Average thermometer 54, highest 64, and lowest 45.

*Augusta, Georgia.*—We had a light rain on two days of the past week, the rainfall reaching thirty hundredths of an inch. The rest of the week has been pleasant. The thermometer has averaged 49, the extreme range being 32 to 66.

*Charleston, South Carolina.*—It was showery two days the past week, the rainfall reaching forty-seven hundredths of an inch. The thermometer has averaged 53, the extremes being 32 and 66.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock Feb. 24. We give last year's figures (Feb. 26, 1875) for comparison.

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

AGRICULTURAL BUREAU'S CROP ESTIMATE.—In our editorial columns will be found an article showing what we think is the only legitimate conclusion from the Agricultural Bureau's crop eport.

INDIA CROP.—The latest mail dates from India begin to speak of the harm which we supposed must be developed from the unfavorable weather reported during the planting and start in the early districts.

Messrs. Finlay, Muir & Co., under date of Bombay, January 15, write that:

Mr. Dunlop, the Assistant Commissioner in charge of Cotton Statistics in Berar and the Central Provinces, has sent in his report regarding the condition and prospects in his districts, and these are more unfavorable than was expected. There is a decrease of 5,001 acres in the land under cotton in the Central Provinces, but an increase of 172,853 acres in Berar, or a net increase of 167,852 acres. But the out-turn will, he says, be very deficient, from excess of rain, and it is only late y that the serious nature of the damage has become apparent. He considered the average last season in the Central Provinces to have been 45 lbs. per acre, but this year he puts it at 27½ lbs. In Berar, last year, 55 lbs. per acre was about the produce, and this year he estimates it at 35¼ lbs. per acre. His estimate of the exports in 1875-76 is as follows: Hinguughaut crop, 15,000 bales; Berar crop, 191,000 bales, and Nerbudda Valley crop, 5,000 bales—against 30,737 bales, 274,414 bales and 6,078 bales respectively last year, or a total decrease of 97,309 bales. In Broach, a few carts of Kuppas have been received, but ginning is not expected to become general till the beginning of next month. The Dhollerah crop is the only one that will be early, and it is expected that receipts will be on a pretty free scale six weeks hence. March will, therefore, probably be the month during which receipts of cotton in Bombay will be largest. Accounts from Dharwar regarding exotic cotton continue bad, but indigenous plants are still healthy.

Messrs. W. Nicol & Co. report that:

Since our last circular was written the Assistant Cotton Commissioner of the Berars and Central Provinces has issued a report which represents crop prospects in these districts as infinitely more gloomy than we had been prepared for. The yield of Hinguughaut is estimated at 15,000 bales, or about half a crop, whilst the Oomrawuttee crop, which last year amounted to about 280,000 bales, is not expected to exceed 199,000 bales. From our own correspondents we have, this week, advices confirmatory of these estimates, and additional evidence is afforded by the scantiness of supplies, not only at the several markets, but in the villages all throughout the country. The unseasonable and heavy rainfalls in October must have caused immense damage. Latest advices from Broach report picking as becoming more general, and that the weather was in every respect favorable. In the Dhollerah districts the plants are said to be progressing satisfactorily towards maturity, and we expect to find a goodly quantity of Bhownuggur in this market next month.

Messrs. Peel, Cassels & Co., in their report dated Bombay, Jan. 17, have the following:

It was not thought at the time that the heavy rain which fell in the Berars in October had done much serious damage to the crop of Oomrawuttee, except in a few parts of the district, and until quite recently the reports which we have received from up-country agents have pointed to a satisfactory harvest on the whole. The official statement of the Assistant Cotton Commissioner, however, issued a few days ago, puts things in a much less favorable light, and, according to his report, we must consider the Oomrawuttee crop a partial failure, both as to quality and quantity. An increase in the area sown with cotton of 167,852 acres over last season will help to make up for the smaller yield per acre; but with respect to the quality of the cotton, which it was confidently expected would improve in the later pickings, private advices from Sheaganm, Khangaum, and Oomrawutteee itself, speak of the continued unsatisfactory quality of the cotton coming in, and of the growing feeling that there is not much better to follow.

The Hinguughaut crop suffered, though more intensely, from the causes which adversely affected Oomrawuttee. Our latest advices from Wurdah state that only 50 to 100 bales or so are arriving daily, a great part of this being of inferior quality, and this district is not now expected to send forward more than 15,000 bales in all.

In the Broach districts picking is going on steadily, and some cotton of nice quality may be expected to come to market by the end of the present month. Meantime the samples of the very first pickings show some stain, and cannot be sent forward as representing the new crop of this growth. As we are going to press we have seen a telegram, dated Broach, 8:50 A. M. this day, stating that the first pickings continue to show unsatisfactory quality.

The Dhollerah-Bhownuggur-Mowa crop continues to promise well, and though, in some of the Dhollerah districts, the out-turn will depend a good deal on the state of the weather during the next two or three weeks, there seems to be every reason to believe that this large crop, at least, will not be a disappointment. A sample of the first pickings of new Veravul just to hand shows a very nice quality.

The news regarding the new crop of Dharwar saw-ginned continues bad, the exotic plants still suffering from blight. The indigenous plants, on the other hand, are looking well, and there is every prospe t of a good and full crop of Comptah. The new crop of Tinnevelly is looking very well in the northern districts, and picking will probably commence early in February; but in the South the plants are a little later. A large out-turn of the new crop is generally looked for, present estimates pointing to 150,000 bales.

GUNNY BAGS, BAGGING, &C.—The market for bagging has been a shade more active during the past week, and it seems from what we can learn that about 4,000 rolls have been disposed of, which includes those rumored sold in our last issue, but full particulars are not given, though it is reported that a portion of this lot was sold at 12c. The market closes quiet. Bales are dull and nominal; India, 9@9¼c.; Borneo, 12¼@12½c. Bags quiet at 13¼c. for 440s. Butts are quiet, and only a small demand exists for spot lots, manufacturers being fully supplied for the present. Holders are asking 3⅜@3½c. For lots to arrive there has been a good demand, and we note sales during the the past ten days of about 10,000 bales at 2¼c., gold, and 2⅜@2⅝c., currency, for Feb., March and April shipments. At the close, February sailings are held at 2⅜c., gold, while lots for later months might still be had at 2¼c., gold.

LIVERPOOL, Feb. 25.—12:30 P. M.—BY CABLE FROM LIVERPOOL.—Estimated sales of the day were 10,000 bales, of which 2,000 bales were for export and speculation. Of to-day's sales 6,200 bales were American. The weekly movement is given as follows:

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

AUSTRALIAN, str., Peters, from Mobile Feb. 9, of and for Liverpool, put into Norfolk 21st, having on the 15th in lat. 30, lon. 72, lost her rudder and rudder-post.

EGYPT, str. (Br.), from New York at Liverpool, Feb. 17, grounded at Egremont, in the Mersey, in avoiding another steamer, but backed off uninjured.

STATESMAN, str. (Br.), from New York at Liverpool, before reported, was cut down to within 6 inches of the water line on starboard bow by collision with the steamer Mexican, from Liverpool for Barbadoes, off the Bell Buoy Feb. 5th; the latter put back to Liverpool and transhipped her cargo to steamer Haytian. Cargo reported not damaged.

JUVENTA, ship (Br.), from Mobile for Liverpool, before reported at Key West, remained, Feb. 16, repairing and reloading.

PROGRESS—Captain Guilford, of str. Geo Sbattuck, returned to Halifax Feb. 1 from a cruise in search of the abandoned ship Progress, from Galveston for Liverpool, before reported; he made lat. 42:20, lon. 59:30, where the ship was abandoned evening of 13th. Cruised within a square of 100 miles, 50 miles from the supposed position where the ship was abandoned, but could find no trace of her. All other steamers that went out in search of the vessel have returned without having discovered any traces of the wreck. It is stated that the Progress was set on fire by the crew before being abandoned, and she was doubtless the burning vessel seen Feb. 8th, 9th and 10th by steamers City of Brooklyn, Pommerania, and Phoenician, respectively, and as the Progress had 400 tons of ballast in her, the wreck doubtless sunk.

THERESE, ship, Shaw, from Mobile, which put into Falmouth, Feb. 7, for repairs, arrived at her port of destination, Bremen, on the 19th. The Therese had experienced a hurricane Jan. 27th and 28th, receiving much damage to trusses and other iron work aloft.

TURKESTAN, ship (Br.), Brown, from New York for Liverpool, went ashore at Port Madoc (Wales), Feb. 16. The crew landed, but the officers remained on board. A tug and lifeboat were in attendance. The ship remained fast aground on the 21st; though in a somewhat sheltered position, was being lightened, and will probably come off. The captain and his officers were still on board.

RHONE (Br.)—One hundred and sixty-eight bales damaged cargo (cotton) of brig Rhone, from New Orleans for Bremen, were sold at Nieuwe Diep prior to Feb. 5, realizing £1,375.

CHARLES A. COULOMB, schr., Fennimore, from Galveston for Boston, at Vineyard Haven Feb. 17, lost foresail and foregaff on the 14th, in a squall.

## BREADSTUFFS.

FRIDAY, P. M., February 25, 1876.

The flour market has been inactive the past week, and prices have rather favored buyers, though no general decline can be quoted. Common shipping extras have not met with much inquiry, but the better qualities, at $5 85@6 00, with some as high as $6 75, have been selling fairly. The wants of the local trade have been comparatively light, but supplies are quite moderate,

and buyers have obtained no decided advantage. Extreme low grades are more plenty. Rye flour and corn meal have slightly declined. To-day the market was very dull. Shippers' bids were reduced and prices generally drooping.

The wheat market opened dull, and low grades of spring growths declined, but on Wednesday a brisk export demand sprung up for the finer qualities of reds, with a considerable business at $1 44 for amber winter in store, $1 34@$1 36 for No. 1 spring in store and afloat, $1 24 for new, and $1 29 for old No. 2 Milwaukee in store, $1 23 for old No. 2 Chicago in store. There was also a better business in low grades, mainly No. 3 Chicago at $1 06@$1 08 in store and afloat. Yesterday the demand was good, with prices rather firmer. To day the market was dull and 1c.@2c. lower.

Indian corn has been without important variation, though showing some slight depression early in the week, and the speculation for the future account quite dull. Supplies have been more liberal at this point and at the West, but gold has advanced and freights have declined, by means of which shippers have been enabled to purchase more freely. New mixed, regular inspection, sold yesterday at 64@64¼c. on the spot, with 63¾c. bid and 64c. asked for March delivery. Southern corn has been scarce. To-day the market was firm at 60@65c. for new mixed on the spot, and 63½c., regular inspection, for March.

Rye has been dull and nominal. Canada peas drooping and unsettled. Barley, at some concessions to buyers, has been more active.

Oats have scarcely varied throughout the week, but closed with some depression exhibited in the poorer qualities.

## THE DRY GOODS TRADE.

FRIDAY, P. M., Feb. 25, 1876.

There has been a spasmodic movement in the market this week, but the aggregate business was comparatively light, owing partly to the interruption caused by the observance of Washington's birthday as a holiday. Jobbers from the South, Northwest and Southwest bought a fair quantity of goods, but Western merchants were less liberal in their purchases than is usual at this season, and the local and near-by trade operated lightly. Foreign goods continued inactive in importers' hands, although there was an increased inquiry for a few specialties, and the auction sales of the week were not of special importance. The jobbing trade was generally dull, but houses doing a business with distant parts of the South and West reported a slightly increased distribution of staple and fancy goods. Prices of nearly all descriptions of domestic goods are nominally unchanged, but extra inducements were in some cases offered by holders of large stocks of merchandise, who have become restive under their accumulations. The sharp competition which has lately existed among domestic silk manufactures has culminated in the suspension of Messrs. B. B. Tilt & Son and S. H. Pearce & Co.—the former a large manufacturing concern and the latter a converting and jobbing-house.

DOMESTIC COTTON GOODS.—There was a steady, but by no means active, demand for staple cotton goods—the supply of which has lately accumulated in first hands—and on the whole prices were fairly sustained by manufacturers' agents. The exports of domestic cottons for the week amounted to 800 packages, of which 582 packages were sent to Liverpool. Brown sheetings and drills were in fair request and steady, and bleached cottons were in moderate demand by the home and Canadian trade. Denims, tickings and cheviots were a trifle more active, and the latter were distributed in considerable amounts to the Western trade. Cottonades of the best makes were fairly active, but low grades continued dull and weak. Corset jeans and satteens were in steady request and firm. Glazed cambrics were rather more active, but rolled jacconets and Silesias moved slowly. Grain bags were quiet, but there was more inquiry for carpet warps, yarns and twines. Print cloths remained dull and almost nominal at 4c. cash to 4¼c. 60 days, for extra standard 64x64 makes. Fancy and shirting prints moved slowly and the supply has lately gained upon the demand. Percales and cambrics were relatively more active than any other description of printed fabrics, and were taken in fair parcels by shirt manufacturers and the trade. Cotton dress goods met with liberal sales, and the brisk demand for these fabrics has somewhat lessened the distribution of ginghams, which moved slowly. Cotton hosiery con-

tinued active, and many leading makes of hose and half-hose are sold up to receipts.

DOMESTIC WOOLEN GOODS.—There has been an irregular movement in woolen goods for men's wear. The better qualities of cassimeres and worsted coatings were fairly active, but low grades were almost neglected, owing probably to the heavy investments made by clothiers some time since. Plain and fancy overcoatings were ordered in fair amounts by clothiers, for future delivery, but the demand was less active than in former seasons at this time. Cloths and doeskins were a shade more active, but selections were individually small. Low grade satinets for printing purposes were in fair request, and there was a limited inquiry for mixtures of the better qualities. Jeans have been placed in moderate amounts, and the more popular makes of tweeds received some attention from the trade. Sales of flannels were restricted to small lots of all-wool white flannels and dometts, and were unimportant in the aggregate amount. Carpets were in limited demand, and a reduction of 10c. per yard was made on the Brussels and Wilton makes of the Lowell Company and the Bigelow Carpet Company. Worsted dress goods were in good demand, and an increased movement in worsted shawls was observed.

FOREIGN DRY GOODS.—Apart from dress fabrics and a few descriptions of housekeeping linens, foreign goods have moved slowly. Cashmeres, alpacas, pure mohairs, and drap d'ete were in steady demand, and plaid and striped fancy fabrics, de beges, mohairs, chambrays, &c., met with fair sales. Dress silks were in moderate request, and ribbons and milliuery silks met with a fair distribution through the auction rooms. Damasks, towelinga, table cloths, and dress linens were more active, but shirting linens and handkerchiefs moved slowly. Hamburg embroideries were largely sold at auction, but were quiet in private hands. Woolen goods for men's wear continued dull, and there was not much animation in Italian cloths or satin de chenes. Kid gloves, hosiery, and trimmings were in improved request.

# INVESTORS' SUPPLEMENT

OF THE

## COMMERCIAL AND FINANCIAL CHRONICLE.

This Supplement, issued on the last Saturday of each month, is furnished GRATIS to all regular subscribers of the CHRONICLE.

It contains a complete exhibit of the Stocks and Bonds of

## STATES,

## CITIES,

## RAILROADS, and

## OTHER COMPANIES,

presenting full details of each issue, and furnishing a hand-book of information for the use of dealers and investors.

One of the principal features of the Supplement consists in the

## REMARKS UPON THE FINANCIAL CONDITION

of each State, City, or Company, giving the latest intelligence in regard to their financial situation, resources, income, &c.

The remarks, in each case, also embrace

### AN INDEX

to the pages of the CHRONICLE, for a year or more past, where further information has been published, in space too extended for the matter to be concentrated into the limits of the SUPPLEMENT.

This Supplement is sent to all regular subscribers of the CHRONICLE, without extra charge.

### NO SINGLE COPIES ARE SOLD,

as only a sufficient number is printed to supply regular subscribers.

CAPITAL STOCK OF $500,000.

Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next-due Coupon being stamped so as to denote that interest begins at the date of purchase.

A Pamphlet with full information will be sent on application to the Company's Office,

**43 Milk Street, Boston.**

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by Individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western States, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and Interest are more promptly paid; and upon the success of Agriculture depend that of almost every Industrial Investment.

## CHARACTER OF THE BUSINESS.

The mortgages, taken from borrowers by this Company, are secured by a first lien on Real Estate, and are then offered for sale with *the absolute guaranty*, on the part of this Company, of the prompt payment of both principal and interest when due, at the office of the Company in New York City.

This Company *issues no Bonds of its own*, but only negotiates with its guaranty the Bonds it has received from persons to whom it has lent its money on mortgage. No Bond, therefore, can be put in circulation by the Company unless its amount has been secured by mortgage. To the negotiation, guaranty and sale of such Bonds the Company is exclusively devoted, and *it incurs no obligations except those arising from such guaranty.*

## RULES IN MAKING LOANS.

The appraisement of property, searching of titles, execution of bonds and mortgages, and other details of the business of loaning, are performed with the utmost possible care, by the most competent of agents and attorneys, and the following *invariable rules* have been adopted by the Company:

1st. Loan only on First Mortgage.

2d. Loan no more on any property than 50 per cent of a low cash valuation.

3d. Loan no more than the value of the land, independent of any improvement it may have on it.

4th. No loans on farms shall be taken at more than one-third of the value of the land without the improvements.

5th. Make no loans to Churches, to Religious or Charitable Societies or Corporate Bodies.

6th. Factories, Mills or Machinery will not be reckoned as part of any security.

7th. The rental value of any security must be at least Ten per cent of the amount of loan made upon it.

## FORM OF THE BONDS AND MORTGAGES.

The obligations are in the form of Bonds with Interest Coupons attached. They are divided into denominations of One Thousand and Five Hundred Dollars each, bear seven per cent interest payable semi-annually, at the New York office of the Company, or at Messrs. Baring Brothers in London, run for a period of five years, and can be registered if desired.

The borrower empowers a Trustee, in whose name the mortgage is made, to sell the property in case of non-payment of interest or principal. The Trustee cannot apply the proceeds of the sale to any other purpose than that of taking up the Bonds secured by the property, and the money will not even pass into the Company's hands unless it is itself in possession of these identical Bonds.

## SECURITY OF THE INVESTMENT.

The purchaser of these Real Estate Bonds has a three-fold security for his investment, each independent of the other, viz.:

1st. The personal obligation of the borrower, who must be a party of good character and standing.

2d. A first mortgage on specified Real Estate, taken with the utmost care, on substantial property at a low valuation.

3d. The guaranty and endorsement of this Company, having a paid-up capital of $1,000,000 and a surplus of $235,000, which is to be steadily increased to $1,000,000.

He can enforce his claim against the real estate by which this Bond is secured. He can hold the Company on its guaranty. No act of the Company can prevent or impair his remedy on the mortgage, and no act of the mortgagor can prejudice the purchaser's claim against the Company on its guaranty.

The Company commenced operations in 1872, and up to the first of September, 1875, had made total loans of $5,061,000, and sold bonds to the amount of $4,664,500. They have never had a foreclosure, and in consequence of the steady demand for their bonds, and the high character of the investment, they have recently advanced the price to 102 and accrued interest.

# Investors' Supplement

OF THE

## COMMERCIAL AND FINANCIAL CHRONICLE.

PUBLISHED ON THE LAST SATURDAY OF EACH MONTH.

**Furnished Gratis to all Subscribers of the Chronicle.**

[Entered according to act of Congress, in the year 1876, by Wm. B. Dana & Co., in the office of the Librarian of Congress, Washington, D.C.]

NEW YORK, FEBRUARY 26, 1876.

## INVESTORS' SUPPLEMENT

OF THE

## Commercial and Financial Chronicle.

The Supplement is issued on the last Saturday of each month, containing a complete exhibit of the Funded Debt of States and Cities, and of the Stocks and Bonds of Railroad and other Companies.

It is furnished without extra charge to all regular subscribers of THE CHRONICLE; no single copies are sold at the office, as a sufficient supply is printed for subscribers only.

Transient advertisements are inserted at twenty-five cents per line; advertisements by the quarter, six months or year, at special rates.

### INVESTMENTS IN FEBRUARY.

There was nothing in the course of the money market during February to put any check on the demand for investment securities; on the contrary, the increase in loanable funds was considerable, and the low rates for money, both on call loans and commercial paper, suggested the idea that there was likely to be a glut of money this year, much similar to that which was experienced during eight months of 1875. Under this influence, there was an active inquiry for the best class of bonds at high prices, and also for the lower grades of bonds selling at prices which make them pay a better interest on their cost.

A large demand for United States Government bonds pushed up their prices sharply—particularly of those issues which have some years to run, and of the 5 per cents which will not be called in. Financial corporations were the principal purchasers, and for them it seems absolutely necessary to have governments, as there are no other bonds which can so well meet their requirements. The most important point in regard to U. S. bonds just now, is concerning the new issue of 4½ per cents. The following is the text of the bill which was reported from the Senate Committee on Finance on the 23d, with a recommendation for its passage:

*Be it enacted, &c.*, That the acts to authorize the refunding of the National debt, approved July 14, 1870, and January 20, 1871, be so amended that the amount of bonds bearing 4½ per cent interest authorized to be issued be increased to $500,000,000, and that they be payable at the pleasure of the United States after thirty years from the date of their issue, instead of after fifteen years.

*Second:* This act shall not be construed to authorize any increase of the total amount of bonds provided for by the acts to which this act is an amendment, nor authorize any increase whatever of the bonded debt of the United States; and all provisions of the acts to which this act is amendatory not inconsistent with the provisions of this act are hereby continued in force and effect.

There have already been called in of the old five-twenties of 1865, $1,975,000, and the balance of that issue not called and of the other issues of five-twenties are, in round numbers, as follows:

| | | | |
|---|---|---|---|
| 1865s, old (not called) | $150,558,000 | 1867s | $310,622,000 |
| 1865s, new | 202,663,000 | 1868s | 37,473,000 |
| Total | | | $701,316,000 |

It thus appears that the negotiation of $500,000,000 of 4½ per cents, if five-twenties were called in against the whole amount, would take up all of the latter bonds except those of 1868 and about $163,843,000 of the issue of 1867.

In railroad securities, the principal influences of general importance were the final repeal of the Potter law in Wisconsin and the better exhibit of earnings shown by many of the prominent roads. There was a decided advance in prices of first-class bonds as well as of the second mortgages and stocks. In looking over the list of bonds on the regular list of the New York Stock Exchange the following, either 7 per cent currency or 6 per cent gold bonds, on which no default has been made, are the principal first mortgage issues now selling below par:

| Bonds. | Interest Payable. | Price |
|---|---|---|
| Chicago Milwaukee & St. Paul, 1st C. & M. | J. & J. | 99 |
| Cedar Falls & Minnesota | J. & J. | 86 |
| North Missouri | J. & J. | 92 |
| Ohio & Mississippi, consol. | J. & J. | 98¼ |
| Pacific of Missouri | F. & A. | 88¼ |
| Central Pacific—San Joaquin | A. & O. | 96¾ |
| " California & Oregon | J. & J. | 94¼ |
| St. Louis & Iron Mountain | F. & A. | 98¾ |

There has recently been some inclination to purchase the bonds of those defaulting roads whose affairs are approaching foreclosure or other settlement, and concering which it is possible to make some estimate as to their probable future value. The history of railroad defaults, prior to 1860, in this country is not altogether discouraging, and some of the very best bonds now sold at the Stock Exchange belong to companies which were reorganized after foreclosure, or reconstructed by amicabl enegotiations, after they had failed to meet their interest. Some of the railroads which have succumbed since the panic of 1873 are unquestionably good roads, and able to earn their interest whenever the times are reasonably prosperous. Not a few of these companies had, in fact, earned their interest for some years prior to 1873. But referring to the remarks in our last Supplement, upon the subject of a surplus reserve to be carried by railroads to meet their bonded interest in periods of disaster, it would certainly seem hardly probable that after the experience of 1873–1876 in the United States, railroad bonds will rule at such high prices as formerly, except where the respective companies issuing them are able to show a considerable surplus of earnings above their interest charges, or where the bonds are secured by first mortgages with a large margin between the amount of the bonds issued and the true value of the property.

With the further advance in Government and railroad bonds, investors will be looking again to real estate mortgages as security for their money. As to local mortgages there are no remarks to be made, as each loan depends on its particular security; but as to mortgages guaranteed by loan corporations in this vicinity we may call attention to the business of the Equitable Trust Company in New York and the New England Mortgage Security Company in Boston, and suggest to the readers of the "Supplement" that if they desire to place money in this class of investment, which has a double form of security, they can obtain full and satisfactory information as to the methods of transacting business, on application to the officers of the respective companies. The Equitable Trust Company was the first to enter on the business of guaranteeing real estate mortgages, and thus took an important step to popularize this excellent class of security for loans, and although there have been other companies formed in this city for the same purpose, the Equitable remains at the head and has obtained a prestige in the business not shared by the others. The conservative character of its management and the high standing of its trustees and officers have given the company a position which commands the favorable attention of parties seeking this sort of investment.

The New England Mortgage Security Company in Boston transacts a similar class of business in that city, and its list of officers and directors embraces names of exceptionally high standing in business circles.

# STOCK AND BOND TABLES.

## NOTES.

These tables are expressly intended to be used in connection with the information concerning Investment matters, published from week to week in the CHRONICLE—to which an index is furnished in the remarks at the foot of the tables. Annual reports are in black-faced figures.

A full description of U. S. Government Securities is published regularly in the CHRONICLE each month, as soon as the official "Debt Statement" is issued.

Prices of all Stocks and Bonds are quoted weekly in the CHRONICLE.

The following will give explanations of each column of the tables below:

*Description.*—Railroads leased to others will often be found under the lessee's name. The following abbreviations frequently occur, viz.: M. for "mortgage," s. f. for "sinking fund," l. gr. for "land grant," reg. for "registered," coup. for "coupon," Br. for "Branch," guar. for "guaranteed," end. for "endorsed."

*Date of Bonds.*—The date of issue on the face of the bond is referred to in this column.

*Miles of Road.*—Opposite Stocks, this means the miles of road operated, on which the earnings are based; opposite bonds, the miles covered by the mortgage.

*Size or Par Value.*—These figures are dollars, showing the denominations or par value. The figures "100, &c.," signify $100 and larger.

*Rate Per Cent.*—The interest *per annum* is given for bonds, but the per cent of *last dividend* for stocks; *g* means gold; *x*, extra; *s*, stock or scrip.

*When Payable.*—J. & J. stands for Jan. & July; F. & A., Feb. & Aug.; M. & S., March & Sept.; A. & O., April & Oct.; M. & N., May & Nov.; J. & D., June & Dec.; Q.—J., quarterly from January; Q.—F., quarterly from Feb.; Q.—M., quarterly from March.

*Bonds, principal when due; Stocks, last dividend.*—The date in this column shows the period when the principal falls due of *bonds*, but the time when the last dividend was paid on *stocks*.

*Alabama.*—The commissioners, under law of Dec. 1, 1874, to ascertain, liquidate and adjust, the legal liabilities of the State on its bonds, propose substantially that 30 year bonds bearing 2 per cent for 5 years, 3 per cent for next 5 years, 4 per cent for next 10 years, and 5 per cent for last 10 years, be exchanged for old bonds, without any allowance for past due coupons. The State has been in default since Jan., 1874. The valuation of all taxable property is given at $160,000,000; tax rate, 7½ mills. (V. 20, p. 139, 534, 570, 581; V. 21, p. 276, 294, 322, 534, 612; V. 22, p. 110, 157.)

*Arkansas.*—Rate of taxation, 5 mills. Unfunded debt is mostly held by U. S. The State is in default for interest. By the last assessment for 1872 and 1873 the total valuation of property was $104,972,329. Interest was paid Jan. 1, 1876, on secured sinking fund bonds, issued under the law of December, 1874, to pay expenses. A Board of Finance was appointed in January, 1875, to confer with bondholders of the State and they issued a notice as quoted in V 20, p. 161. See CHRONICLE, V. 19, p. 167, 189, 637; V. 20, p. 139, 161; V. 21, p. 465, 590.

*California.*—California finances appear to be in a particularly sound condition. The State holds in trust for School and University funds the $500,000 Capitol bonds and $2,063,000 of bonds 1873. Total valuation of property, 1874, over $600,000,000. Tax rate, 50 cents per $100. As the debt is now practically extinguished, the Governor advises the gradual cancellation of the bonds held in trust and the purchase of foreign securities in their place. (V. 19, p. 3 of advertisements; V. 19, p. 32.)

*Connecticut.*—The debt of Connecticut was all created for war purposes, and has been reduced since 1866 from $10,000,000 to the present figures by sinking fund purchases. The 1861 bonds are payable at pleasure since July, 1871, and those of 1864 after October, 1874. Assessed value of real and personal property, $358,491,451; rate of taxation, 1 mill.

*District of Columbia.*—The total assessed value of real estate in 1875 was $115,427,692, of which $21,975,000 was exempt from taxation. United States Attorney-General Pierrepont rendered an opinion that the faith of the United States is pledged for the payment of interest on the 3.65 bonds, but conflicting legal opinions have been rendered as to the right of New York savings banks to invest in these, as government securities. (V. 20, p. 83. See also V. 19, p. 15, 61, 142, 189, 477; V. 20, p. 239, 446; V. 21, p. 63, 417, 465; V. 22, p. 181.)

*Florida.*—Less the sinking fund of $49,900, and J. P. and M. loan, the total debt is $1,199,700. Real and personal property are valued about $35,000,000; tax rate, 7 mills. The loan to J. P. & M. RR. secured by mortgage on road, and the question as the State's obligation to the bondholders was hel the United States Supreme Court, and decided December, 1875, (V. 21, p. 591), in favor of t State; no interest has been paid on these bon for some years past, and a late decision of the St Supreme Court holds them unconstitutional. (V. p. 466; V. 22, p. 158.)

*Georgia.*—This is one of the Southern States th has paid the interest on its acknowledged debt, b the State Legislature declared void all the sec annual gold bonds of 1870, and $120,000 of the qu terly bonds held by H. Clews & Co.; the Brunswi & Albany bonds, $1,500,000; and the following ra road endorsements, viz.: Brunswick & Alban $3,300,000; Bainbridge Cuthbert & Columbu $600,000; Cherokee Valley, $300,000; Cartersvi & Van Wert, $275,000. Assessed value of p perty in 1874, $273,000,000; rate of tax, fo mills. Macon & Brunswick Railroad endorseme was declared valid by Legislature of 1872, t the later issue of $600,000 was declared void the Legislature in 1875. Governor's Messa V. 22, p. 87, refers at some length to the tra actions of Mr. Henry Clews with the State wh he was acting as financial agent, and states th bonds retired were issued again without authori (V. 20, p. 83. See also V. 19, p. 111, 350, 375; 20, p. 241, 336, 570.)

*Illinois.*—The debt has been rapidly reduced of late years, and, without the addition of new loans, will soon be extinguished. The Illinois Central Railroad charter tax on earnings contributes over $400,000 per year to the State revenue. The assessment of all property in 1875 was $1,085,529,856. Municipalities in Illinois are in some localities heavily incumbered with debt issued to railroads. (V. 19, p. 15, 38, 526.)

*Indiana.*—There are also $139,000 of war bonds. There is a question as to the State's obligation to pay the Wabash & Erie Canal debt. A reference to the origin of that debt, arising from the State's compromise with the bondholders in 1846, will be found in the CHRONICLE, V. 19, p. 493; see also p. 526. A suit on the question was brought and decree of sale obtained (V. 21, p. 85; V. 22, p. 104). Taxable valuation, 1875—real estate, $621,416,973; personal, $223,667,147; railroads, $38,436,919; corporations, $4,045,503; tax rate, 1¼ mills. A law permitting towns to issue bonds was passed in 1875, the main section being as follows:

"SECTION 1.—*Be it enacted by the General Assembly of the State of Indiana*, That any corporated town in this State which shall have heretofore, by the action of its Board of Trustees, commenced the erection of any public buildings, to be used as a market house, engine house or other public purposes, and shall not have the necessary means with which to complete such building, on the passage of an ordinance authorizing the same by the Board of Trustees of said incorporated town, issue the bonds of such town to an amount not exceeding in the aggregate $10,000, in denominations of not less than $50 nor more than $500, and payable at any place that may be designated in the bonds; the principal in not less than one year nor more than ten years after the date of such bonds, and the interest, annually or semi-annually, as may be therein provided, to provide the means with which to complete such buildings; provided that such bonds shall not be sold at a price less than ninety-four cents on the dollar, nor bear a greater rate of interest than eight per centum per annum."

A similar law was passed for counties, which, referring to contracts that have been made for public buildings, &c., says that in counties where such contracts have been so made, the board of commissioners of such counties are authorized to issue bonds to an amount not exceeding one-half of one per centum on the assessed valuation of the property of such county, in addition to any loan for said purpose for which bonds may have been heretofore issued, negotiated and sold.

*Kansas.*—Kansas has but a small State debt, but the issues of municipal bonds have been large. An extract from the State Auditor's report is given in V. 20, p. 14. The valuation of real and personal property in 1875 was $121,544,344; tax rate, 6 mills for State purposes, and an average of 3.78 per $100 for all purposes. State funds hold $759,250 of the bonds. (V. 20, p. 14.)

*Louisiana.*—A constitutional amendment, passed Decembe r 15, 1870, limited the total debt to $25,000,000, but it was decided that bonds authorized previous to the amendment might be issued. The funding bill passed January 24, 1874, scaled the debt down to 60 per cent of the face value. For coupons lacking on bonds funded, similar coupons are cut from the new bonds issued; interest on consc. bonds is paid in New York, but no interest paid on bonds unfunded; the total consols issued to Dec., '75, were as above, and the old bonds outstanding are given as of that date according to the statement of Gov. Kellogg. His message, January, 1876, gives total bonded debt as $18,472,443; bonded and floating debt, $19,061,645. The gross debt reported January 1, 1875, by the Auditor was—bonds, $21,872,320; warrants, $1,423, 953. Nothing was said of the contingent debt, which was $5,488,602 in January, 1874. The Auditor recommended the same tax, of 14¼ mills, in 1875 as in 1874 (in 1873 the rate was 21¼ mills.) The total assessed value of real estate in 1874 was $155,748,783; personal, $44,825,923; of which New Orleans had $105,901,565 of real and $36,059,220 of personal. The gross revenue in 1874 was $3,514,332 and expenses $3,068,101. The $2,500,000 bonds to New Orleans & Chattanooga Railroad have been declared void. (V. 20, p. 78, 82, 476, 521, 546; V. 21, p. 15, 63, 110, 159, 231, 489, 535, 613; V. 22, p. 62.)

*Maine.*—The sinking funds, January, 1876, reduce the total debt to a net amount of $5,272,688. Valuation of total taxables in 1875, $255,000,000; tax rate, 5 mills. Governor's message in V. 22, p. 62.

*Maryland.*—The assessed valuation of property in 1874 was $463,034,812 on which the rate of taxation was 20 5-16 cents per $100; income from dividends on railroad, canal and other stocks owned by the State was $139,469. The State has largely assisted canals and railroads, and holds $6,068,709 of stocks and bonds of solvent companies, leaving only $5,304,167 of debt without any offset; the State also holds $22,555,188 in unproductive securities. On two investments only, the Comptroller says that the State has met no loss, viz., the Baltimore & Ohio and the Columbia & Port Deposit railroads.

*Massachusetts.*—Governor's message on finances, V. 22, p. 62. All interest on the funded debt of Massachusetts is paid in coin. The credit of the State stands high in London and at home. During 1874 the debt was increased $987,400, and in 1875, $4,500,000. The sinking funds in January, 1876, were $11,725,309. The Hoosac tunnel has cost the State over $14,500,000. Real estate assessed in 1874, $1,289,308,763; personal, including bank shares, $572,861,914; tax rate, 1.23-100 mills; deposits in savings banks, $217,452,320; corporation property (above real estate and machinery), $84,775,750. The loan to Boston Hartford & Erie RR. was secured by deposit of $3,600,000 "Berdell" mort. bonds. (V. 18, p. 63; V. 19, p. 117; V 20, p. 336, 521; V, 21, p. 277; V. 22, p. 62.)

*Michigan.*—The debt has been largely diminished in the last few years. Assessed valuation of real and personal property, 1871-72, $639,000,000, and tax rate 2¼ mills. Surplus revenue is applied to purchase of bonds. (V. 20, p. 139.)

*Minnesota.*—All the State bonds are now held by the permanent school fund. Minnesota is usually classed among the States which have avoided their obligations, in consequence of her refusal to recognize the "State Railroad bonds" of 1858 to the amount of $2,275,000. There seems to be a growing feeling in the State that those bonds should be acknowledged. See Governor's Message, V. 22, p. 63. Property valuation, 1874, $27,000,000; tax, 5 mills. (V. 19, p. 498.)

*Missouri.*—Valuation of real and personal property in 1875 was $549,593,471, upon which the tax is 4¼ mills. Railroad property was assessed at $54,849,312, as returned to County Courts; but at only $19,661,141, as returned to the State Auditor in 1875. The State had $1,428,000 bonds maturing in 1875, and $3,907,000 in 1876. To provide for these, a law of 1875 authorizes the sale of new bonds. The Hannibal & St. Joseph Railroad provides for its own debt. Bonds falling due are paid in currency, pursuant to a resolution of the Legislature, although some of these bonds are payable by their terms in "gold or silver." Some difficulty has arisen about the last six months' interest due on bonds maturing. (V. 20, p. 83, 161, 290, 313, 336, 383, 477; V. 21, p. 277; V. 22, p. 83.)

*Nevada.*—The debt of Nevada is hardly more than nominal.

*New Hampshire.*—The debt of New Hampshire was created for war purposes, and is being rapidly reduced. The Municipal loan of 1872 was issued to cities and towns, the proceeds to be used in reducing their several war debts, which the State thus assumed.

*New Jersey.*—The debt was created for war purposes. Of the first two classes of bonds the principal is payable, $100,000 per year. Valuation of real and personal property in 1875 $613,393,196, against $619,097,903; State tax, 3½ mills.

*New York.*—There is also $68,000 contingent debt to Long Island Railroad, and $7,361 per annum for Indian annuities. The debt of New York State has been created chiefly for canals and for war purposes. The lateral canals are a failure; but the Erie Canal, though expensive (partly through political fraud in its management), has been a great success as an internal improvement. An abstract of the Governor's Message was given in V. 22, p. 64, showing a net reduction of $2,744,505 in the debt for year ending Sept. 30, 1875. The following were valuations and tax rate for State purposes in the year 1859, and from 1870 to 1871:

| Year. | Real Estate. | Personal. | State tax. |
|---|---|---|---|
| 1859..... | $1,097,564,524 | $307,349,155 | 2½ |
| 1870..... | 1,532,730,907 | 434,280,278 | 7 41-156 |
| 1871..... | 1,599,930,166 | 452,607,732 | 5 79-120 |
| 1872..... | 1,644,379,410 | 147,248,035 | 9½ |
| 1873..... | 1,692,523,071 | 437,102,315 | 6 95-100 |
| 1874..... | 1,750,698,918 | 418,608,955 | 7¼ |
| 1875..... | 2,367,780,102 | | 6 |

It appears that the assessed value of real estate by local assessors is $1,750,698,918, while the full value, as estimated by the State assessors, is $4,168,330,757. The Comptroller says the actual value should be adopted as the basis of taxation. The debt decreased in 1873-4 $3,649,570. The actual value of real estate in 1874 was estimated to be $4,168,330,757, and total amount raised by tax, State and local, was $57,811,381. The local debts of cities in New York State are $137,539,6 9; of counties, $46,685,264, and towns, $25,140,181. (V. 19, p. 350; V. 20, p. 28, 60, 615; V. 22, p. 63.)

*North Carolina.*—North Carolina is heavily burdened with debt, in proportion to her taxable property. A lengthy extract from the Treasurer's report was given in V. 20, p. 84. Total property was assessed in 1872 at $123,507,628, a low valuation. Interest is paid on bonds issued to North Carolina Railroad ($2,800,000), as the State holds $3,000,200 stock and receives dividends thereon. Other interest in default. A fund ing bill passed the Legislature March, 1875. (See CHRONICLE, V. 20, p. 336.) In New York bond are classified thus: "Old," being those issued pri to May 1, 1861, coupons on from Jan. '69; "N. C. R. R." issue of $2,800,000 to that road, coups. on sin Jan. & April, '69; same "coup. off" have had coups. paid; "funding act '66 carry coups. Jan '69; "funding act" '68 carry coupons Apri '69. "New"—authorized before war, except $1,500 000 in 1868; "Special tax, 1st," carry coup. Apri '69; "2d" coup. of Oct. '69; "3d" coup. April, 187 (V. 18, p. 166, 629; V. 20, p. 84, 161, 283; V. 21, p. 570

*Ohio.*—Ohio has a very small State debt, bu large local debts, amounting in 1875 to $25,957,58 Valuations in 1874 were: Real estate in cities, &c $366,031,721; other, $696,883,323; personalty, $535 660,818. Tax rate in 1875, 3 2-10 mills for State, an an average of 25 9-10 mills for local purposes. C the 1875 loan above. $868,230 was paid Jan. 1, 187 and the balance April 1. Report on State and loca debts, V. 22, p. 64.

*Oregon.*—The debt is provided for by sinkin funds. Taxable property in 1872 was valued a $37,174,169; ½ mill tax was laid for Relief bond and 1 mill for Bounty bonds.

*Pennsylvania.*—Total debt Nov. 30, $23,233,13 available assets, $9,466,572; net debt, $13,766,56 The financial system is remarkable in Pennsylvani in the fact that no tax is laid for State purposes o real estate. Revenue is raised from numerou sources, principally from corporations. Taxes ar levied on personal property, which was assessed a $165,362,443, and the tax was $535,719 in 1874. Stat expenses have lately exceeded revenue, and sinkin funds have been diverted to meet the deficiency The State holds $1,754,321 in stocks and $9,000,000 railroad bonds. Interest is paid in gold on all th State debt issued prior to 1867. Any coupon bond may be changed to registered. The bonds due 1877 are payable at any time till 1882; those of 189 till 1892. (V. 21, p. 137; V. 22, p. 64.)

*Rhode Island.*—The debt was all created for war purposes and is being steadily diminished. The valuation of real and personal property in 1873 was $247,798,580, and tax rate 20 cents on $100.

*So. Carolina.*—The Governor's message on finances in V. 21, p. 535. The funding law approved Dec. 22, 1873, provided for scaling down the old debt by giving new bonds to the extent of 50 per cent, and declared void the conversion bonds to the amount of $5 965,000. The January and July interest was paid on consolidated bonds, but a loss to the State of about $200,000 cash by failure of a trust company caused a suspension of payments afterwards. Interest due January, 1876, paid February 15. The total debt when funded will amount to $6,187, 441. Total valuation of all property, $176,965,502; rate of taxation in 1874, 12, mills. (V. 20, p. 84, 241, 291, 358, 517; V. 21, p. 489, 614.)

*Tennessee.*—On the first July, 1874, the payment of interest was resumed, and the interest due January 1, 1875, was paid by help of a loan of $300,000, but default again made July, 1875. The Governor's letter in December, 1875, on the finances, discouraged the expectation of further payments soon, and suggested funding. (See V. 21, p. 614.) The State Treasurer, February 25, 1875, gave the following estimates for the current year:

ESTIMATED EXPENSES.

| | |
|---|---|
| Total interest per annum on bonds | $1,430,654 |
| State government expenses | 661,762 |
| Total expenses | $2,092,416 |
| Due fiscal agent Jan. 1, 1875 | 30',000 |
| Outstanding warrants | 224,076 |
| Due poll-tax fund | $37,100 |
| Total requirement for current expenses and floating debt | $2,653,592 |

ESTIMATED RECEIPTS.

| | | |
|---|---|---|
| State tax of 40 cents | | $1,360,000 |
| Privilege tax | 321,000 | |
| Clerks of courts, &c | 108,000 | |
| Total current receipts | | $1,789,000 |
| Deduct 15 p. ct. commiss'ns, &c. | 204,000 | |
| Net receipts | | $1,585,000 |
| To be received from taxes | 838,406 | |
| Total receipts all sources in 1874 | | 2,423,406 |
| Deficit | | $230,585 |

Subsequently laws were passed to tax railroads, which it was claimed would give an increase of revenue over 1871. The law passed in March, 1873, provided for funding all outstanding, legally issued bonds, due between July 1, 1871, and July 1, 1884, as well as all past due coupons, and coupons maturing on or before Jan. 1, 1874, in a 10-40 year 6 per cent bond. The total debt given above is substantially, according to the last report of the Comptroller, January, 1875. The Comptroller estimated debt of solvent railroads at $3,288,896; due from purchasers of railroads then sold, $312,000; value of Knoxville & Charleston road, $100,000. The State's endorsements for railroads are $1,802,000, of which $1,560,000 is taken care of by the roads. Total valuation of real estate, $281,000,000, and railroad property, $51,000,000. The rate of taxation is 40 cents on the $100. Tennessee bonds sold as "Old" are those issued before 1862, and having coupons of July, 1-69; Old "ex coupon," have only the coupon of July, 1875; "New," issued since 1862 carrying coupon of July, 1869, "ex coupon" July, 1875, only; "New Series," the new funding bonds. (V. 18, p. 143, 247, 350, 497; V. 19, p. 167; V. 20, p. 14, 84, 161, 282, 491; V. 21, p. 87, 313, 614.)

*Texas.*—The State Comptroller, August 31, 1875, reported total funded debt $4,107,588; floating debt, $614,326. The valuation of taxable property in 1874 was $241,841,860, against $207,920,526 in 1872. Tax rate in 1874, 50. (V. 19, p. 15, 117, 142; V. 20, p. 84.)

*Vermont.*—This State has a very small debt—all created for war purposes. Of the registered bonds $135,500 are held for Agricultural College. The sinking fund, Aug. 1., 1874, was $37,932.

*Virginia.*—The Funding act of 1871 provided that coupons of the funded bonds should be receivable for State taxes. For 2-3 of the old bonds a new bond was issued, and for the other ⅓ a deferred certificate given (as the proportion due by West Virginia). The act of 1872 amended that of 1871 by not allowing coupons to be received for taxes. All the amounts marked (*) may be funded under the amended act of 1872. The sinking fund holds $2,448,-98[illegible] of State bonds and certificates. Interest due Jan., 1874, was paid in part (2 per cent) in July, 1874. All interest over-due and unpaid to Sept. 30, 1875, (on the basis of 4 per cent.) was $1,199,864. Assessed value of property is $329,424,152; tax rate, 5 mills. Auditor's report, V. 21, p. 604. (V. 19, p. 235 502, 526, 582; V. 20, p. 14, 306, 356, 375, 547; V. 21, p. 527, 604.)

*Albany.*—There are sinking funds for municipal bonds and for water stock. The loan to Albany & Susqueh. is secured by 1st mort. The assessed valuation of property in 1874 by State authorities was: Real estate, $43,161,203; personal, $6,508,101; total, $49,669,304. Estimated true value of real estate, $102,764,770.

*Augusta.*—Bonds created chiefly for city improvements and other municipal purposes.

*Baltimore.*—The fiscal year of Baltimore ends with Oct. 31. The city credit has been loaned extensively to railroads, in exchange for their securities, which it holds to a large nominal amount. The sinking fund for Balt. & Ohio Railroad $5,000,000 loan is $1,746,973; West Maryland Railroad sinking fund, $149,165; and the total of the several other sinking funds, $6,457,861. The Balt. & Ohio RR. pays interest on $5,000,000 loan; Water loan is paid by income of water works, and Public Park by City Passenger Railway, and out of a total debt of $32,943,425 only $16,154,192 is dependent on the tax levy. The assessed value of property in 1875 is $231,242,513; tax rate, 1875, $1 80 on the $100 for city purposes, and .20¼ for State. Population in 1870 was 267,354, against 212,418 in 1860.

*Bangor, Me.*—The valuation of real and personal property is $10,510,694; rate of taxation, 2.90 per cent. The loans to European & North American Railroad and to Bangor & Piscataquis Railroad are secured by first mortgages on those roads.

*Boston.*—The population of Boston in 1870 was 292,497, against 177,840 in 1860. Valuation of real property in 1875, including the recent annexations, was $558,769,500, and personal, $234,998,400; upon which the rate of taxation is $13 70 per $1,000—$12 66 of this for city and $1 04 for State purposes against a total of $15 60 per $1,000 last year. The total debt, both funded and unfunded, at the close of the last fiscal year, April 30, 1875, was $43,512,611, and the sinking funds, bonds, mortgages, &c., $16 218,402. The sinking fund provisions are sufficient to meet the debt as it matures. In March, 1875, Mr. Turner, city auditor, gave his estimates for the revenue required for the coming financial year 1875-76, commencing May 1, 1875, and terminating April 30, 1876. This estimate is based on an assumption of strictest economy in all departments. He says: It is a source of congratulation that in meeting the actual wants of the municipality and avoiding the borrowing of money for other than for the additional supply of water, extension of the water works, and extensive and costly street improvements, the tax per each thousand dollars will be largely reduced from last year. The following is a comparison of the appropriations asked for and income to be received, compared with the estimates for 1874-5:

| | 1875-6. | 1874-5. |
|---|---|---|
| Appropriations | $12,188,805 | $13,645,143 |
| Income | 2,864,425 | 2,728,850 |
| | $9,324,380 | $10,916,293 |
| Per centage | 279,731 | 327,439 |
| | $9,604,111 | $11,243,782 |

Placing the tax to be paid to the State at the same as last year, the estimated tax warrants exhibit the following result:

| | 1875. | 1874 |
|---|---|---|
| City and County | $9,604,111 00 | $11,243,782 00 |
| State | 802,120 00 | 802,120 00 |
| | $10,406,231 00 | $12,045,902 00 |

During the last forty years, with a single exception, the taxable valuation has shown an annual increase. Mayor Cobb's message, January, 1876, gives a net decrease of debt in 1875, amounting to $305,579. (V. 22, p. 61.)

*Brooklyn.*—The statement of debt is from the Mayor's message dated January 1, 1876, which made the whole city debt as follows:

| | |
|---|---|
| Permanent loans | $26,063,000 |
| Sinking funds | 3,462,736 |
| Balance | $22,600,263 |
| Loans chargeable on specified property | 10,052,000 |
| Tax certificates | 2,379,000 |
| Total | $35,031,263 |

—The Mayor, in his message, January, 1876, stated that the debt chargeable on taxation decreased in 1875 $5,22f, against an increase of $512,089 in 1874, $2,426,516 in 1873, $1,591,411 in 1872, and $3,590,581 in 1871. Population in 1870, 396,200, against 266,661 in 1860. Valuation of property in King's County in 1874, by the State Board of Equalization, $179,085,370 for real estate, and personal, $18,975,980; they estimated the true value of real estate to be $426,393,740. The Board of Supervisors value the total taxable property of Brooklyn in 1875 at $225,176,755, or about 63 per cent of true value. The debt of Kings County, separate from the debt of Brooklyn, is $3,936,000, of which the city is responsible for about $3,739,200. Average tax rate in 1875, $3 41 per $100, against $3 52 in 1874, and $3 46 in 1873. (V. 19, p. 142, 632; V. 20, p. 520.)

*Charleston, S. C.*—The bonds of Charleston are mostly held within the State of South Carolina. The total assessed value of property in 1873 was $27,978,991; rate of tax, 2 per cent. Sinking funds reduce the total debt to $4,672,663.

*Chicago.*—The total funded debt at the close of the last fiscal year, April 1, 1875, was $13,456,000. Certificates of indebtedness, $3,317,229. Assessed value of real property, '74, $258,549,310; personal, $45,155,830 —total, $303,705,140. Tax rate, 18 mills. The Illinois State valuation is $224,118,620, and the city debt is limited to 5 p. c. of that. The comptroller says: "Owing to the wise provision in the Constitution of the State our funded debt cannot be increased above the present amount for some years to come. Of our $13,473,000 of funded debt $4,581,000 is on account of the Water Works, which last year yielded an income of $730,144 21, and from the rapid extension of the mains and increase of population, will yield much more largely in future. Practically, therefore, the amount of our funded debt is $8,897,000, being the remainder after deducting the water debt. From other sources the following is compiled:

| Year. | Assessed Value.—Real Estate. | Per. Estate. | Tax Rate. |
|---|---|---|---|
| 1862 | $41,587,545 | $5,552,300 | $15 00 |
| 1863 | 35,143,252 | 7,479,572 | 20 00 |

Population in 1870 was 306,605, and in October, 1874, 395,226, against 109,260 in 1860. Cook Co. debt is all 7 per cent, and interest is all payable in J. & J., or in M. & N. The So. Park, W. Chicago Park, and Lincoln Park loans are not debts of the city, but of distinct corporations. (V. 21, p. 207.)

*Cincinnati.*—By the census of 1870 population was 218,900, against 161,044 in 1860. Tax rate for 1875, $23 82 per $1,000, against $23 38 in 1874. Under the laws of Ohio real estate has been valued for purposes of taxation once in ten years. The following table from the books of the Auditor of Hamilton County, Ohio, exhibits the assessed valuation of the city of Cincinnati since the year 1860:

| Year. | Real estate. | Personal estate. | Total valuation. | Rate tax per $1,000. |

The debt of Cincinnati, exclusive of the new loan for the Cincinnati Southern RR., was small, being less than $5,500,000. The city will be the sole owner of the stock of this railroad, and thus not "*aid* in building railroads," &c. (V. 18, p. 454, 526; V. 20, p. 14; V. 21, p. 511.)

*Cleveland.*—The total valuation of property for taxation is $73,210,144 and tax rate 18 8-10 mills, of which 4¼ mills are levied for interest on the debt. The sewer, street improvement and street opening bonds are for special local improvements, and redeemed by assessments on the property benefitted

*Columbus, Ga.*—The total debt is $582,500, and the annual interest required about $40,000. Bonds are all coupon, and were issued in small amounts as wanted; 25,000 fall due each year. City holds some stocks and other property. Valuation of real estate, 1875, $3,923,575.

*Detroit, Mich.*—The population in 1870 was 79,601; in 1874, by State census, 101,063. The value of waterworks is $1,589,688, against a debt of $1,100,000. The water works bonds are issued on a pledge of the city credit, and $75,000 per year collected in taxes to pay interest on them. Assessed valuation, 1875, real estate, $20,235,875; personal, $7,448,755—total, $27,774,630; true value estimated at $92,582,100. Tax rate, $3 92 per $100.

*Elizabeth, N. J.*—Total debt of the city of Elizabeth August 1, 1875, was stated at $5,400,000, as follows: General debt, $950,000; assessment debt, $4,450,000. The sinking fund has to its credit $900,000. Valuation of real and personal property, $32,000,000; assessed valuation, $16,000,000. Tax rate is $2 66 within the lamp and water district, and $2 18 outside. Population in 1875, 25,000.

*Galveston, Texas.*—The total city debt is $873,000, of which all are 10 per ct. currency except $106,500.

*Indianapolis.*—The assessment of taxable property in 1874 was $67,301,546; taxes for that year, $510,026, or a levy of $1 35 per $100. Total debt June 30, 1875, was $1,455,000. The School Board is a distinct organization from the city, created by a separate act of the Legislature; levies its own tax, which is collected by the City Treasurer. The city warrants are discounted when sold. The floating debt of this character, Jan. 1, 1875, was $200,000, payable during this year.

*Jersey City.*—The total bondad debt of the city, April 1, 1875, was stated at $14,247,500, as follows: General, $3,558,000; assessment debt, $5,060,500; water debt, $4,629,000. The sinking fund was $525,565. Assessed valuation, including railroad property, is $88,496,885, on which the tax rate is $3 00 per $100 on $68,496,855, and 1 per cent on railroad property assessed at $1,000,000. Population by State census in 1875 was 116,883, against 85,000 by U. S. census of 1870. (V. 18, p. 190.)

*Louisville.*—The funded debt, January 1, 1876, exclusive of railroad loans, was $8,330,000, against $8,504,000 January 1, 1875. Of the $8,330,000 there is payable out of the sinking fund $3,705,000; payable by special tax, $4,625,000. Assets of the sinking fund, January 1, 1875, were $3,130,625. The revenue of the sinking fund in 1874 applicable to the payment of interest and principal of this debt was—From licenses, $227,844 46; from wharves, $2,371 54; from taxes, $251,567 45; from interest, $65,829 86; total, $557,612. Population by census of 1870 was 100,750, against 68,033 in 1860; now estimated upon the basis of 7 to a voter makes 120,000. Assessed value of property, about $79,000,000. Real value, $100,000,000. Rate of taxation for all city purposes in 1875 is—Eastern District, $2 27 on $100; Western District, $2 33; State tax, 45c. The following figures give the assessed property valuation for the past six years. For 1868, $59,425,974; for 1869, $63,284,091; for 1870, $70,806,712; for 1871, $76,845,995; for 1872, $77,156,642; for 1873, $77,225,372. In 1868 the taxation per $100 was $1 98; in 1873 it was $2 55 for the Eastern District and $2 47 for the Western District.

*Memphis, Tenn.*—The city has been in default for interest since Jan. 1, 1873. The total floating debt January 1, 1876, was $2,074,572, and there were nominal assets (unpaid taxes, &c.) to balance this of $1,927,608. In 1874 the policy was adopted of receiving proposals for the sale of past due coupons, so far as the funds in hand permitted. The City Council declared the funding and paving bonds issued by Mayors Leftwich and Lofland 1867-8-9 to have been issued illegally, but allowed the coupons to be received, *pro rata*, according to the amount realized by the city for the bonds; but a decision of Tenn. Supreme Court, December, 1875, was against the city on this point. Assessed valuation, $32,000,000. Tax rate, $2 per $100. Population in 1870, 40,230. (V. 21, p. 185, 570.)

*Milwaukee.*—The city cannot issue debt beyond 5 per cent of its average assessed value for five years, which is $43,545,000; in 1874 it was $35,157,000 of real, and $16,167,833 of personal; tax rate, 28½ mills. Sinking funds are provided for all the bonds. Old railroad bonds, $200,000, due 1876 and 1877 (with interest about $400,000), have been held valid against the city. Population by State census, 1875, 101,000. (V. 17, p. 187, 628, 691.)

*Mobile.*—The valuation of property in 1876 is $12,894,625 real estate and $5,377,716 personal property; tax rate, 1½ per cent. Interest has been in default since July, 1873. A settlement with bondholders was offered by Commissioners in New York, Sept., 1875, viz.: $510 in 6 per cent bond for $1,000 of the old 8 per cent. The 5 per cent bonds have a lien on city revenue, and exchange for these is offered at 75 per cent of their face in the new 6 per cents. This has been accepted to a considerable extent, but no report yet given. Population about 38,000. (V. 20, p. 302.)

*Newark.*—The bonds in the first line in the table are payable out of the sinking fund of 1869, which amounts to $355,575; those in second line out of sinking fund of 1864, $690,474; public school bonds out of public school fund, $62,243; Clinton Hill bonds by sale of property; against local improvement bonds the city holds $2,637,276 of assessments unpaid and a lien on the property. Valuation of real estate, 1874, $78,574,390; personal, $27,049,320; tax rate for all purposes, 1875, $1 98 per $100. Population in 1870, 105,059.

*New Orleans.*—Interest was in default December, 1874, but coupons then due were paid May 15, 1875. In July it was decided to pay half the face of coupons on specified issues, on the strength of the financial statement then made. (See V. 21, p. 86.) The total funded debt, July, 1875, was $22,062,030; floating debt, $1,286,870. The assessed valuation of property is $98,976,440 real estate, and $20,322,055 personal. State tax, 14½ mills; city tax, 25 mills; total tax, 39½. The lease of city wharves July, 1875, is considered by many to be advantageous. A scheme for settling the debt by a bond premium drawing plan has been started, and first drawing took place Nov. 3. Population in 1870, 191,418; in 1860, 138,670. (V. 21, p. 64, 86, 159, 278 511 613.)

*New York City.*—The total debt of New York January 1, 1876, was $144,522,028; the amount of sinking funds $27,718,307. The following statement shows the details of funded debt, and the amount in the city sinking fund at the dates named:

| Description. | Jan. 1, '71. $ | Jan. 1, '75. $ | Jan. 1, '76. $ |

The population of New York by the U. S. census in 1870 was 922,531, against 805,658 in 1860. Since Jan. 1, 1861, the valuation of property, the rate of taxation, and the net amount of funded debt have been as follows:

—The true value of real estate is estimated at $1,935,021,540. By an act of 1874 the towns of West Farms, Morrisania and Kingsbridge, embracing about 12,000 acres, were annexed to New York. The debt of these towns was about $1,500,000.

From the termination of the Tweed *regime* in 1871 to January, 1875, the gross increase in debt was $33,252,049, and Comptroller Green claims that the old claims existing when he took office, with the bonds issued to pay deficiency in State sinking fund, and for up-town improvements, aggregate more than this whole increase. He condemns very strongly the law under which the Department of Public Works makes such heavy expenditures. All unadjusted claims against the city Jan. 1875, were nominally $6,971,149, a large part of which the Comptroller claims to be fraudulent and has determinedly opposed. The outstanding assessment bonds (payable out of local assessments on property benefitted) are represented by $5,712,739 advances to contractors; $7,531,447 advances on Boulevard work; and $7,606,500 uncollected local assessments. Great hostility has been shown to Comptroller Green on account of his opposition to claims against the city and chiefly on the charge of his placing many valid and reasonable claims on the same ground as those which are fraudulent or extravagant. Mayor Wickham objects to the present method of authorizing bonds; that the laws are mandatory on the Board of Estimate and leave them no discretion. He says: "The Common Council has no control over the proceedings required to be taken under several of them. But some officer or department of the City Government is by each of them authorized to prosecute a public work of some sort, and to incur obligations for it in the name of the city, and for the payment of such obligations city bonds must be issued." Extract from Mayor's Message of January, 1876, is given in V. 22, p. 63. (V. 20, p. 14, 29; V. 21, p. 86.)

*Philadelphia.*—The Comptroller's statement to form a basis for taxation in 1876, was issued Nov. 1, from which the following is taken:

| | |
|---|---|
| Estimated expenses of the Departments for the year 1876 | $14,533,765 20 |
| Outstanding warrants November 1, '75. | 6,586,903 07 |
| Amount due various loans | 2,925,714 87 |
| Estimated discounts allowed on taxes. | 500,000 00 |
| Estimated amount of warrants which may be drawn prior to Jan. 1, 1876, and special amounts carried forward. | 1,500,000 00 |
| Estimated amount of mandamus and interest on warrants. | 250,000 00 |
| Total estimated liabilities | $26,296,282 64 |

Of this amount $9,296,203 was estimated to come from other sources than taxes, leaving $17,000,080 to be raised by taxes, at a rate of $30 per $1,000 on full city property. These estimates, however, were materially reduced by the Councils, and the tax rate was kept at $2 15 for full city property. The following table exhibits the assessed valuation and tax rate in the city since 1870:

| Year. | Real Estate. | Personal Estate. | Rate Tax per $1,000 |
|---|---|---|---|
| 1870 | $470,851,800 | $8,188,873 | $18 00 |
| 1871 | 491,841,096 | 8,592,786 | 18 00 |
| 1872 | 502,415,863 | 8,608,819 | 20 80 |
| 1873 | 512,224,568 | 8,930,700 | 21 50 |
| 1874 | 539,003,602 | 9,239,983 | 22 00 |
| 1875 | 563,849,095 | 9,434,873 | 21 50 |
| 1876 | 585,408,705 | 10,004,673 | 21 50 |

There is no large amount of city debt maturing in the next five years. Assessed valuations for 1876 are: Full city property, $537,213,282; tax rate, $2 15; suburban property, $38,031,673; tax rate, $1 46: farm property, $20,168,423; tax rate, $1 12½. Population, 1870, 674,022, against 565,529 in 1860. (V. 18, p. 526.)

*Alabama Central.*—In default since January, 1872. Negotiations pending for a new adjustment.

*Alabama & Chattanooga.*—Road sold May 3, 1875, for $1,200,000, subject to lien of receiver's certificates. Time for bondholders to accept extended to June 15, 1876. (V. 21, p. 38, 62, 253, 302, 322, 511; V. 22, p. 61, 87, 135, 157.)

*Albany & Susquehanna.*—This road is leased for 150 years from 1870 to Delaware & Hudson Canal Co., at 7 per cent per annum, on stock and bonds—lessee assuming the payment on both.

*Alleghany Valley.*—This road was embarrassed in 1874, and compromised with creditors. Abstract of operations in 1874 in annual report, V. 21, p. **37**. V. 19, p. 15. 117, 246, 582.)

*Alexandria & Fredricksburg.*—The Pennsylvania Railroad holds $512,000 of the bonds and controls the road. Loss on operation in 1873, $25,074.

*Arkansas Central.*—Most of the bonds were sold in London, where $600,000 of 2d mortgage bonds were also hypothecated. (V. 19, p. 365.)

*Ashtabula, Youngstown & Pitts.*—It is leased and operated by Pennsylvania Co. at cost. Net earnings paid to lessor, but lessee guarantees interest on 1st mortgage for five years. Common stock, $1,500,000; preferred, $500,000. Annual report V. 20, p. **426**.

*Atchison & Nebraska.*—Interest was in default September, 1873, and coupons funded. Gross earnings, 1874, $453,294; net, $82,880; unpaid coupons, $450,000. Annual report V. 20, p. **403**.

*Atchison, Topeka & Santa Fe.*—Interest is paid on $976,000 of the 2d consol. mortgage bonds, but on the balance of that issue the coupons are funded to Oct. 1, 1876. (V. 20, p. 161 357 515; V. 21, p. 63, **136**, 328, 591.)

*Atlanta & Richmond Air Line.*—Defaulted in 1873, and now in litigation. A decree of sale in foreclosure was made October, 1875. Report of earnings, &c., V. 22, p. 135. (V. 20, p. 14, 85; V. 21, p. 14, 85, 328, 418, 488, 612.)

*Atlanta & West Point.*—The road has paid 8 per cent dividends for some years; it has about $200,000 of bonds.

*Atlantic & Great Western.*—This road was leased to the Erie for 99 years from May 1, 1874, but the lease did not go into effect. Shortly after (in July, 1874) default was made on its bonds. The last annual report, to Oct. 1, 1874, will be found in V. 19, p. **637**. Proceedings looking to re-organization are in progress, and a considerable amount of securities has been deposited by holders with the London Committee. (V. 20, p. 85. 139. 289, 499, 592; V. 21, p. 136, 159, 230, 393, 440; V. 22, p. 181.)

*Atlantic & Gulf.*—Gross earnings in 1874 were $1,032,256; net earnings, $285,636. The C mpany also has $500,000 10 per cent coupon notes outstanding. Annual report in V. 21, p. **275**, also p. 488.

*Atlantic, Mississippi & Ohio.*—Of the stock $5,845,700 is common, $800,000 preferred, and $276,200 guaranteed; the company, itself, holds $3,441,200 of the common, all the preferred, and $165,700 of the guaranteed stock. Gross earnings year ending September 30, 1875. $1,782,453; expenses, $1,108,947; net earnings, $673,505. There was a decrease of gross revenue by $42,890, and a decrease of net revenue of $54,114. Of the $15,000,000 loan enough is held to retire all the old debt. The company funded one coupon on old bonds, Jan., 1874, but paid subsequent coupons in part. Funding notes due 1875 and 1879 were issued. In October, 1875, in London, the company made a proposal to fund all the coupons then due, and four-sevenths of coupons due up to 1881, paying three per cent cash on consolidated bond coupons till 1881, and balance, if earned. This proposition is still before the bondholders for their assent. The president remarked in his report of 1873-74: "During the past two years the company has retired, in round numbers, $550,000 of the past due indebtedness of the divisions; besides it has made a net expenditure of about $140,000 on property account in the past year, while it has not increased its own indebtedness, and for these disbursements is entitled to be re-imbursed by the sale of bonds whenever they can be advantageously disposed of. There are of such bonds, subject to the purposes of reconstruction and equipment, the sum of $1,166,000, face value." (V. 20, p. **38**8; V. 21, p. 569, 291; V. 22, p. 110.)

*Atlantic & Pacific.*—This was a consolidation, in Oct., 1870, of the Atlantic & Pacific and So. Pacific. The land grant amounts to some 1,000,000 acres. Interest was passed Jan., '74, on the land grant bonds, the 2d mortgage and the interest scrip, but coupons funded. A break in the company's affairs occurred in October, 1875; the Missouri Pacific lease was surrendered and complicated litigation against the Atlantic & Pacific Company: commenced on the ground of fraud in the Missouri Pacific management. Interest of January, 1876, on land grant bonds was not paid, and interest on the 3d mortgage bonds of the Missouri Pacific is also unpaid. The latter were mostly held by the Atlantic & Pacific Company for improvements claimed to have been put on the Missouri Pacific road. (V. 19, p. 397; V. 20, p. 238; V. 21, p. 9, 418, 440, 466; V. 22, p. 61.)

*Atlantic & St. Lawrence.*—Leased for 999 years, from July, 1853, to Grand Trunk Railway of Canada. Annual rent, 6 per cent on bonds and stock.

*Augusta & Savannah.*—Leased to Central of Georgia for $73,000 per annum; has $129,000 bonded debt.

*Bald Eagle Valley.*—Leased to Pennsylvania Railroad at 40 per cent of gross receipts. The Pennsylvania Railroad holds all the 2d mortgage bonds.

*Baltimore & Ohio.*—The B. & O., in comparison with its rival trunk lines, claims a much smaller capital account in proportion to the value of its property. The gross earnings of main stem and branches, and financial condition of B. & O. Co. for four years were as follows:

| | Gross Earnings. | Net Earnings. | Stock and Debt. |
|---|---|---|---|
| 1874-5 | $10,514,178 | $4,332,206 | $47,173,134 |
| 1873-4 | 11,693,955 | 5,018,060 | 45,876,927 |
| 1872-3 | 12,252,844 | 4,934,796 | 28,567,899 |
| 1871-2 | 10,654,472 | 4,532,072 | 29,161,399 |

The gross earnings of the main and all leased lines in 1874-75 were $14,426,552, and net earnings, $4,490,098. The company claims a surplus of $34,023,566, in the value of its assets above its stock and debt, which surplus is represented chiefly by securities of branch lines, received for advances made by the B. & O. In Dec., 1875, the operating contract with Pittsburgh & Connellsville road was ratified, by which B. & O. guarantees $10,000,000 bonds. See report in CHRONICLE, V. 21, p. 487; V. 20, p. 183, 381, 404, 453, 592; V. 21, p. 371, 511, 591.

*Cayuga.*—The Cayuga Lake road was sold under second mortgage, and this Co. organized. (V. 19, p. 270.)

*Cayuga & Susquehanna.*—Leased in perpetuity to Delaware, Lackawanna & Western. Dividends, 9 per year.

*Cedar Falls & Minnesota.*—Leased to Dubuque & Sioux City, and sublet to Illinois Central at $1,500 per mile yearly, and a per cent of all earnings over $3,500 per mile.

*Cedar Rapids & Missouri.*—Leased to Chicago & Northwestern at $700 of first $1,500 gross earnings per mile; one-third of the next $3,000 per mile, and one-fifth of all above that. (V. 20, p. 162.)

*Central Railroad & Bank, Ga.*—Leases several roads, and guarantees $1,492,500 of bonds. In April, 1875, purchased one-half interest in Western Railroad of Alabama at foreclosure sale. Gross earnings year ending Sept 1, 1875, $2,8-6,536; net, $1,199,831. (V. 18, p. 374; V. 20, p. 289, 335, 398; V. 21, p, 372, 417.)

*Central of Iowa.*—Decree of sale in foreclosure made October, 1875. (V. 20, p. 15, 85. 235, 546; V. 21, p. 85. 393, 417, 465, 511; V. 22, p. 110.)

*Central of New Jersey.*—The annual report for 1874 was given in Vol. 20, p. 264, showing gross earnings of $8,589,830; net, $4,449,029. Of this consolidated mortgage sufficient will be held to pay all the prior issues. This company also assumes $2,310,000 of Lehigh Coal & Navigation Company's debt and $330,723 of the Railroad Car Trust Company. In five years the gross earnings have increased from $4,010,121 to $8,589,631, while the net earnings have risen from $1,367,958 to $4,449,029. The change made in five years in the investments of the Company are as follows:

| | |
|---|---|
| Capital stock, increase | $5,000,000 |
| Bonded debt, increase | 12,607,900 |
| Bonds of other companies assumed | 3,240,723 |
| Undivided profits expended | 1,127,879 |
| | $21,978,502 |

This increase in stock, bonds and liabilities is represented by the following increase in assets:

| | |
|---|---|
| Railroad | $3,800,871 |
| Expenditures at Jersey City | 355,805 |
| Port Johnston Coal Station | 175,221 |
| Station houses, shops, etc | 113,400 |
| New equipment | 4,445,293 |
| Lehigh and Wilkesbarre Coal Co. stock | 5,780,138 |
| Lehigh and Wilkesbarre Coal Co. bonds | 4,500,000 |
| Accounts receivable—increase, less accounts payable | 1,242,066 |
| Total | $21,978,503 |

(V. 19, p. 248; V. 20, p. 60, 264; V. 21, p. 253.)

*Central Ohio.*—Leased to Balt. & Ohio RR. in 1866 for 20 years, rent 35 per cent of gross receipts for 5 years, and 40 after. Pays 6 per cent dividends.

*Central Pacific.*—Gross earnings in 1874 were $14,-531,355 (currency), and net earnings $8,682,378. Land grant statement, V. 21, p. 136. An abstract of the annual report for 1874 is given in the CHRONICLE, V. 21, p. 251, and earnings and expenses later, to July, 1875, on p. 242, showing net earnings for six months of $1,229,793 in mixed coin and currency. Regular dividends of 8 per cent a year now to be declared. A settlement with bondholders of California Pacific has been proposed, by which the Central Pacific guarantees certain new bonds to a limited amount. (V. 20, p. 8, 37, 42, 178, 183; V. 21, p. 159, 488; V. 22. p. 61.)

*Charlotte, Columbia & Augusta*—Stock is $2,578,-000. Net earnings in the year ending September 30, 1875, $250,004, against $225,730 the previous year. Increase in local business, 19 per cent. (V. 21, p. 590; V. 22, p. 134.)

*Chartiers.*—Leased to Pitts. Cin. & St. Louis, and operated by Penn. Co. Net earnings go to lessor. (V. 20, p. 427.)

*Cherry Valley, Shar. & Al.*—Transferred to Delaware & Hudson Canal Co., April, 1875. Interest unpaid in December, 1875. (V. 20, p. 404.)

*Chesapeake & Ohio.*—After the panic, default was made on interest. Net earnings in 1874-75 $346,868. Receiver appointed October, 1875, and foreclosure proceedings will probably be had for the purpose of re-organization. A very complete statement of outstanding liabilities and the plan of re-organization are given in V. 21, p. 569. (See V. 20, p. 162, 184, 357; V. 21, p. 323, 371, 417, 441, 534, 569, 612; V. 22, p. 42, 87, 134.)

*Cheshire.*—Net income, 1874-75, $76,927. Dividends, 4 per year. (V. 18, p. 295; V. 21, p. 590.)

*Chester Valley.*—In hands of trustees and leased to Philadelphia & Reading.

*Chicago & Alton.*—The report for 1874 is given at length in v. 20, p. 295, and shows gross earnings of $5,126,228, and net earnings of $2,224,838, against $2,121,286 in 1873. Joliet & Chicago RR. is leased for interest on stock and bonds. St. L., Jack. & Chic. Railroad leased at $240,000 per year. Louisiana & Mo. RR. built and operated under contract. (See V. 19, p. 479; V. 20, p. 429.) The Chicago & Illinois River bonds had not been sold to January, 1876, and there was some litigation. (V. 18, p. 350; V. 19, p. 16, 479; V. 20, p. 176, 265, 289, 500; V. 21, p. 185, 6 2.)

*Chicago, Burlington & Quincy.*—Stock was issued in exchange for that of the Burl. Mo. River in Sept., 1875. Gross earnings for 1875 were $11,653,000; expenses, $8,400,000; net earnings, $3,30 ,000; interest charge, $2,014,000. The C. B. & Q. leases numerous branch roads, giving them a traffic guarantee (usually 40 or 50 p. ct.) for purchasing their bonds. Enough of the consolidated mortgage is reserved to take up prior debts. In August, 1875, stock of this Company was issued in exchange for Burlington & Missouri River Railroad stock, and the same is also given for the convertible bonds of Burlington & Missouri River Railroad. (V. 20, p. 15, 37, 60, 184, 335, 499.)

*Chicago & Canada Southern.*—Connection of Canada Southern. Interest not paid.

*Chicago, Cincinnati & Louisville.*—No information furnished.

*Chicago, Clinton & Dubuque.*—This road defaulted in 1873. It was built by construction companies in which directors of C. B. & Q. were stockholders. (V. 20, p. 85, 134; V. 21, p. 14, 612)

*Chicago, Danville & Vincennes.*—There is also a 2d mortgage for $1,000,000 and a chattel mortgage of $1,000,000, most of which are pledged. Default was made in 1873, and coupons partly funded, subsequently receiver appointed, and litigation in progress. (V. 20, p. 15, 42, 60, 241, 266, 289, 313, 357, 382, 404, 453, 499, 570; V. 21, p. 157, 185, 347; V. 22, p. 87.)

*Chicago, Dubuque & Minnesota.*—Defaulted December, 1873, same as Chicago Clinton & Dubuque. (V. 20, p. 85, 139, 184; V. 21, p. 14.)

*Chicago & Iowa.*—Has a traffic guarantee of Chic., Burlington & Quincy 40 per cent for purchase of bonds. (V. 22, p. 87.)

*Chicago, Iowa & Nebraska.*—Leased in perpetuity to Chicago & Northwestern, at 37½ per cent of gross receipts.

*Chicago & Michigan Lake Shore.*—The first mortgages, main line, have traffic agreement from Michigan Central. In default for interest since July, 1873, except on first bonds $477,000. (V. 17, p. 188, 211; V. 18, p. 14; V. 19, p. 247; V. 20, p. 60, 312.)

*Chicago, Milwaukee & St. Paul.*—The last annual report is given in Vol. 20, p. 474. The following is a comparison for three years:

| | 1874. | 1873. | 1872. |
|---|---|---|---|
| Miles..... | 1,399 | 1,399 | 1,283 |
| Stock.... . | $27,673,744 | $27,673,744 | $24,224,331 |

| Net earnings. | 3,081,900 | 2 451,663 | 2,262,155 |

The issue of consol. bonds of 1875 was made to substitute for that of 1874; of these bonds $27,339,000 are reserved to take up old debt. Lacrosse Eastern div. 8 per cent extended bonds, due 1874, were called in January, 1876. The dividend on preferred stock March, 1874, was paid in consol. bonds. The sterling bonds of 1872 are convertible into dollar gold bonds of $1,000 each. Dividends have been paid since 1869—on preferred stock in 1874 7 in bonds, 1873 7, 1872 7, 1871 7, 1870 7 and 3 scrip; on common stock in 1871 7 scrip, 1870 3 cash and 7 scrip. (V. 20, p. 60, 163, 186, 474, 476, 593; V. 21, p. 38, 186, 253, 612.)

*Chicago & Northwest.*—The fiscal year ends with May. The last annual report will be found in the CHRONICLE, V. 21, p. 206. The net surplus of the year on the Chic. & Northwest. lines proper, after paying interest, was $1,366,167, and on the whole system, including proprietary roads, $518,266. The net earnings of proprietary roads were $282,004, and the interest on their bonds, $1,129,905. Lands of the company are 2,108,643 acres unsold, and were only recently placed in market. In 1874-5, 24,296 acres were sold at an average price of $4 78 per acre. The nominal surplus balance of the Company, May 31, 1875, was $2,637,612. Operations for the last six fiscal years compare as follows:

| | Gross earnings. | Expenses and taxes. | Net earnings. |
|---|---|---|---|
| 1874-75.... | $12,707,725 | $7,984,694 | $4,723,031 |
| 1873-74..... | 14,410,124 | 9,334,450 | 5,075,673 |
| 1872-73... . | 12,736,607 | 8,178,237 | 4,568,370 |
| 1871-72..... | 11,402,161 | 6,810,026 | 4,592,135 |
| 1870-71..... | 11,694,914 | 6,3 1,506 | 5,383,408 |
| 1869-70..... | 12.535,428 | 8,,13,317 | 4,522,111 |

The trust deed of the gold loan provides contingently for a possible issue of $48,000,000, by ultimately absorbing all the other bonds and also all subsequent issues, including all the bonds of the proprietary roads of the company, together aggregating $35,349,000, which amount is reserved from the $48,000,000. The residue of the gold loan, viz., $12,651,000, represents all the additional indebtedness resulting from the mortgage. Dividends have been paid—July, 1873, 3½ on preferred; December, 1872, 3½ on both; June, 1872, 3½ on preferred; December, 1871, 3½ on preferred; June, 1871, 5 on both; December, 1870, 5 on both; June, 1870, 2 on preferred; December, 1869, 5 on preferred, 4 on common; June, 1869, 5 on both; December, 1868, 5 on both. (V. 19, p. 295, 375 528; V. 20. p. 136, 186, 593; V. 21, p. 109.)

*Chicago & Paducah.*—Completed in July, 1874. (V. 19, p. 16; V. 20, p. 357; V. 21, p. 85.)

*Chicago, Pekin & Southwestern.*—Opened in 1873 Gross earnings first half of 1874, $66,346; net, $33,720.

*Chicago, Rock Island & Pacific.*—Net receipts in year ending April 1, 1875, $3,543,283, against $3,256,684 in 1873-74. The income account for year was as follows: Gross receipts, $7,399,613; net receipts, $3,534,283; dividend payments, $1,678,384; interest, &c., $755,000; surplus for the year, $1,109,899. Chicago & Southwestern road is leased and interest guaranteed on $5,000,000 of its bonds; the others are in default. (V. 20, p. 614; V. 21, p. 38, 186, 253.)

*Cincinnati, Hamilton & Dayton.*—See report in V. 21, p. 62, showing net income of $197,192 in 1874-5. Investigating Committee's report, V. 20, p. 357. (V. 19, p. 183; V. 21. p. 62.)

*Cincinnati, Lafayette & Chicago.*—Lafayette, Ind., to Kankakee, Ill. Gross earnings in 1874, $453,717. net, $223,488. Cost of road, &c., $3,752,870. (V. 20, p. 568.)

*Cincinnati & Martinsville.*—Recently leased again to the Ind. Cin. & Laf. Interest in default some years. (V. 20, p. 289.)

*Cincinnati & Muskingum Valley.*—Is leased for 99 years from 1873 to Pittsb., Cin. & St. Louis for net earnings, but bonded interest is guaranteed. Deficit to lessees in 1874 was $115,228. (V. 20 p. 427.)

*Cincinnati, Richmond & Chicago.*—Leased to Cin., Hum. & Dayton, which owns most of the stock. Net income above interest, 1874-5, $25,623. (V. 21, p. 62.)

*Cincinnati, Richmond & Fort Wayne.*—Leased to Grand Rapids for 99 years. Interest on bonds is guaranteed by Grand Rapids, Cincinnati Hamilton & Dayton, and by Pennsylvania Co. (V. 20, p. 15.)

*Cincinnati & Springfield.*—Leased in perpetuity to Clev. Col. C. & I., with guarantee of interest; on first mortgage half of interest is also guaranteed by Lake Sh. & M. S.

*Cincinnati, Wabash & Michigan.*—Paid interest January, 1876, to bondholders not consenting to pass, and allow funds to be used for completion of road. Some bonds held by Lake Shore & Michigan Southern, but no indorsement by that company. (V. 22, p. 158.)

*Cleveland, Columbus, Cincinnati & Indianap.*—The latest annual report is given in the CHRONICLE, V. 20, p. 335. Net earnings in 1874, $1,066 451, against $1,464,050 in 1873. Floating debt, $543,221. Later statement July, 1875. (V. 18, p. 248, 266, 374; V. 20, p. 241; V. 21, p. 63, 253.)

*Cleveland & Mahoning Valley.*—Was leased to Atlantic & Great Western, but that company defaulted on the rent. See V. 17, p. 512; V. 20, p. 85, 139.

*Cleveland, Mount Vernon & Delaware.*—This company defaulted July, 1874; the Pennsylvania Railroad owns much of its stock. Made a compromise with its bondholders, by which all the coupons due July, 1874, and one-half of coupons from January 1, 1875, to and including July 1, 1877, are to be postponed for ten years to January 1, 1885, and the remaining half to be paid. (See report, V. 20, p. 380.)

*Cleveland & Pittsburgh.*—Leased November, 1871, to Pennsylvania Railroad Co. at 7 per cent on stock, besides expenses and interest. Report for 1874, V. 20, p. 139, 426. (V. 19, p. 638.)

*Cleveland, Tuscarawas Valley & Wheeling.*—This road was sold under a 2d mortgage, Jan. 27, 1875, and re-organized. See V. 20, p. 61, 140, 336.

*Colebrookdale.*—Leased to Philadelphia & Reading. No dividends paid on stock.

*Colorado Central.*—Built by Union Pacific, which holds the bonds, $5,270,593 in all. (V. 21, p. 85; V. 22, p. 61.)

*Columbus & Hocking Valley.*—Gross earnings, 1874, $717,490; net, $357,077, against $376,159 in 1873. See annual report V. 20, p. 476.

*Columbus, Chicago & Indiana Central.*—This was a consolidation (Dec. 4, 1867). On January 22, 1869, it was leased to the Pittsb. Cin. & St. Louis, the lease being guaranteed by the Pennsylvania Railroad. A new or amended lease was made February 1, 1870, also guaranteed by P. R. The first lease guaranteed interest on $15,000,000 of first and $5,000,000 of second mortgage bonds, the amended lease on only $15,821,000 of first and second bonds. Aug., '74, default was made on the $5,000,000 seconds and suit is pending. The Presidents of the Pittsb. Cincinnati & St. L. Company, lessee, and the Pennsylvania Railroad, guarantor, wrote a joint letter to the trustees of the $15,821,000 mortgage bonds, authorizing public notice to be given that the interest on the said $15,821,000 of bonds would be regularly paid by the Pitts. C. & St. L. Co., but the interest on these has not been paid since Oct., 1875, and suit against the Penn. Railroad is pending. Net earnings, 1874, were $933,990. (V. 20, p. 29, 61, 140, 162, 241, 325, 355, 382, 426, 593; V. 21, p. 13, 317, 511, 534.

*Columbus & Xenia.*—This road is leased to the Little Miami Co., and both roads for 99 years to Pittsburg Cinn. & St. Louis Co.; the lease is guaranteed by Pennsylvania Railroad, and the terms are 8 per cent on stock and interest on bonds.

*Concord.*—Pays 10 per cent a year; net receipts in 1874-5, $310,904. (V. 20, p. 499.)

*Concord & Portsmouth.*—Leased to Concord RR. at $25,000 per year.

*Connecticut & Passumpsic.*—Annual report to June, 1875, showed net earnings for year $226,875, against $272,790 in 1873-4. Div. passed Aug., 1875. The new mortgage of $1,500,000 will retire previous issues. (V. 21, p. 277.)

*Connecticut River.*—Net earnings 1873-4, $295,067. Surplus account Oct. 1, 1874, $518,039. (V. 20, p. 61.)

*Connecticut Valley.* Hartford to Saybrook—The stock paid is $1,034,600; floating debt, $1,177,000; cost of road, &c., $2,833,819. (Vol. 2, p. 534.)

*Connecticut Western.*—Net earnings 1874-5, $184,295; interest, &c., $221,296. (V. 21, p. 611.)

*Connecting.*—Leased to Philadelphia & Trenton and operated by Pennsylvania; terms, 6 per cent on $1,2?8,300 stock and interest on the bonds.

*Cumberland & Pennsylvania.*—Owned and operated by Consolidation Coal Company, which guarantees second mortgage. Stock $1,500,000.

*Cumberland Valley.*—The stock is owned in large part by Pennsylvania Railroad Co. Net earnings, year ending Sept. 30, 1875, $260,594. Large advances have been made to branch roads. This company paid 9 per cent in 1871, 5 in 1872, nothing in 1873, but resumed in 1874, and declared 5 per cent. in October, and semi-annually since.

*Danville Hazleton & Wilkesbarre.*—Leased, March, 1872, to Pennsylvania Railroad for 33 years. The coupons due October, 1874, were purchased by Pennsylvania Railroad. In default, April, 1875. (V. 20, p. 334, 476, 500, 570.)

*Danville Urbana, B'oomington & Pekin.*—This is a part of the Indianapolis Bloomington & Western, now in default. See I. B. & W.

*Davenport & St. Paul.*—To be sold in foreclosure, March 2, 1876. (V. 20, p. 61, 313, 593; V. 21, p. 441, 570, 612; V. 22, p. 87.)

*Dayton & Michigan.*—Leased in perpetuity to Cincinnati, Hamilton & Dayton for annual interest on bonds. Dividends of 3½ per year are guaranteed by C. H. & D. on common stock. (V. 21, p. 62.)

*Dayton & Western.* Leased to Little Miami, and with that to Pittsburg Cincinnati & St. Louis.

*Delaware.*—Leased by Philadelphia Wilmington & Baltimore Railroad for 30 per cent of gross earnings. In 1874-5 gross earnings were $510,094, and net receipts therefrom, $153,928.

*Delaware Lackawanna & Western.*—The Lackawanna & Bloomsburg Co. was consolidated with this road in June, 1873, and stock of the Delaware, Lackawanna & Western issued to represent it. The company's operations consist in large part of coal mining and transportation, and no annual report is issued except the statistics required by the State of Pennsylvania. The Morris & Essex Railroad is leased and some of its bonds guaranteed. From the last annual report published in CHRONICLE (V. 21, p. 84), the following comparison is taken:

| | Gross Earnings. | Net Earnings. | Stock and Debt. |
|---|---|---|---|
| 1874 | $5,347,725 | $3,244,693 | $36,535,237 |

For the half year ending July 31, 1875, the gross receipts were £411,188; working expenses, £393,793; net earnings, £17,394. (V. 20, p. **569**, V. 21, p. 442, **540**.)

*Greenville & Columbia.*—This company defaulted several years since, but compromised with its bondholders. (See CHRONICLE, V. 16, p. 220; V. 17, p. 460, 752; V. 20, p. **568**; V. 22, p. 110.)

*Gulf, Western Texas & Pacific.*—Net earnings, 1874–5, $50,000. Overdue coupons, $212,550. Bondholders wait. (V. 20, p. **428**.)

*Hannibal & St. Joseph.*—Of the Missouri State loan $1,500,000 was extended for 20 years. It is stated that the Co. has $2,500,000 in land notes, and 90,000 acres yet unsold. A change in the directors took place Nov., 1875. No report has been issued since 1872. (V. 21, p.442, 488; V. 22, p. 158.)

*Harrisburg, Portsmouth, Mount Joy & Lancaster.*—Leased to Pennsylvania Railroad, which owns a majority of the stock.

*Hartford, Providence & Fishkill.*—This road forms a part of the proposed line of the Boston, Hartford & Erie. The bonds fell due Jan., 1876, but city of Providence declined payment and suit is pending. (V. 22, p. 87.)

*Housatonic.*—Leases Berkshire Railroad, Stockbridge & Pittsfield, and West Stockbridge. Gross earnings in 1874–5 were $582,009; net, $132,740. The mort. bonds due 1877 paid off Nov., '75.

*Houston & Texas Central.*—Gross earnings in 1874 were $3,166,365; net earnings, $1,263,754. Capital, $6,500,000. The company built a large part of its line out of net earnings, and subsequently distributed a large amount of stock. (V. 17, p. 77; V. 20, p. 77, 140.)

*Huntingdon & Broad Top.* Capital stock is $1,998,250. Gross earnings in 1874 were $284,720; net, $100,379. Interest passed on 3d mortgage bonds.

*Illinois Central.*—Net revenue in 1874 was $2,775,362 on the road and $367,756 from lands The company guarantee $5,000,000 bonds of N. O.; also held $1,842,000 of their 7s gold against I. C. 5s above mentioned. The bonded debt in proportion to stocks is still small as compared with most other companies. The management of the road has been one of the best in the country, and its land grant highly profitable. The direct line to New Orleans formed in 1873-4 has not been long enough in operation to show its full effects upon the company's receipts. In 1874 dividends were reduced to 8 per cent. The following is a comparison for four years:

| Year. | Gross Earnings. | Net Earnings. | Interest, &c. |
|---|---|---|---|
| 1874 | $7,900,721 | $2,775,362 | $413,610 |
| 1873 | 8,268,325 | 2,530,890 | 558,437 |

—(Last annual report, v. 20, p. **140**, **288**; see also p. 61; V. 21, p. 489; V. 22, p. 16.)

*Indiana & Illinois Central.*—This road was sold April 26, 1875, and re-organized as Springfield Decatur & Indianapolis. (V. 20, p. 162, 42), 521; V. 21, p. 40.)

*Indianapolis, Bloomington & Western*—Default was first made July, 1874, and affairs are yet unsettled. Receiver's certificates issued to Aug. 1, '75, $205,000. The Danville, Urbana, Bloomington & Pekin is part of this road. Plan of re-organization, V. 22, p. 110. (Vol. 20, p. 61, 95; V. 21, p. 245, 277, 348, 895; V. 22, p. 16, 61, 110.)

*Indianapolis, Cincinnati & Lafayette.*—The company was re-organized in June, 1873, and has since been doing a good business. The last annual report was in V. 21, p. **464**. Gross earnings, 1874-75, $1,767,231; net, $670,980. (V. 20, p. 162. 357; V. 21, p. 207, 277, 465.)

*Indianapolis & St. Louis.*—The stock, $600,000, is owned by Pennsylvania Co. and C. C. C. & I. This company forms part of the Pennsylvania system, and leases the St. Louis, Alton & Terre Haute. (V. 21, p. 395.)

*Indianapolis & Vincennes.*—Road is leased to Pennsylvania Company at 30 per cent of gross earnings, but rental guaranteed to be $306,000 per annum. Gross earnings in 1874 were $274,595; net, $83,207. (V. 20, p. **426**.)

*International & Great Northern (Texas).*—This is a consolidation of the International and the Houston Great Northern. Full report V. 18, p. **519**. Interest passed and funding proposed. The company had an issue of Texas bonds granted it, but the grant was repealed and land given instead. (Vol. 19, p. 17; V. 20, p. 186, 291, 313, 383.)

*Iowa Falls & Sioux City.*—Leased to Illinois Central at 35 per cent. on earnings. Dividend 2¼ per cent, Jan. 1, 1876, on $1,625,000 stock.

*Iron Mountain, Chester & Eastern.*—This was formerly the Chester & Tamaroa. Bonds are in default since 1873, and a receiver has been appointed. (Vol. 19, p. 520.)

*Jacksonville, Pensacola & Mobile.*—This road is mortgaged for a like amount of Florida State bonds. Indefault and litigation. (V. 19, p. 629; V. 21, p. 591; V. 22, p. 158.)

*Jefferson.*—Leased to the Erie Railway Company, which pays interest on the bonds. (V. 14, p. 628.)

*Jeffersonville, Madison & Indianapolis.*—Leased in 1871 to Pittsburgh, Cincinnati & St Louis Railroad for interest and sinking fund of bonds and 7 per cent. a year on stock. Lease transferred December, 1872, to Pennsylvania Company. In 1874, net earnings, $519,070 (V. 20, p. **426**.)

*Jersey City & Albany.*—Road was in progress but was stopped in panic of 1873. Bondholders held off. (V. 19, p. 365; V. 21, p. 613.)

*Joliet & Northern Indiana.*—Mich. Central offered to extend with a 6 per cent. bond, but court decided that total rent must be applied to principal and interest of bonds; still in litigation. (V. 20, p. 85, 140, 429; V. 21, p. 110.)

*Junction (Phil.).*—Owned by connecting companies. Cost of road $898,321; paid-up stock, $185,000.

*Kansas City, St. Joseph & Council Bluffs.*—In addition to these, there are also funding bonds of about $640,000 in different issues. Annual report for 1874 in V. 20, p. **475**, gives the funding arrangements in full. Gross earnings in 1874, $1,436,073; net, $494,908. Stock, $2,776,000. Interest defaulted Sept., 1873. (V. 20, p. 475.)

*Kansas Pacific.*—In 1874 net earnings were $1,685,704, against $1,446,308 in 1873. The land grant is in two trusts, 2,000,000 acres in the first, from the 1st to the 380th mile, and 3,000,000 acres in the second, from 380th mile westward. Interest on income bonds is payable in lands or cash, only out of net earnings. The company now pays half the current interest on its bonds, (except the incomes) as about four-fifths of bondholders have funded. An important settlement with Union Pacific made in May, 1875. See annual report, V. 21, p. **252**. (V. 19, p. **271**, 365; V. 20, p. 8, 85, 476, 501, 544; V. 21 p. 466, 613.)

*Kent Co.*—This road was completed in 1872, but defaulted in 1873. No recent information received.

*Kentucky Central.*—This was formerly Covington & Lexington. The prolonged litigation regarding this Co. has been settled. (V. 20, p. 500; V.21, p. 39.)

*Keokuk & Des Moines.*—Formerly East. Div. of Des M. Valley. Int. on first mort. is funded to April, 1876, except on $452,000 bonds reserved by Co. to be sold. The stock is $1,524,000 pref. and $2,400,000 common. In year 1874-5 gross earnings were $757,381; net, $282,868. (V. 19, p. 82, 583; V. 20, p. **520**.)

*Lake Erie & Louisville.*—This road was a reorganization, and has been financially embarrassed. There is a second mortgage of $500,000. See V. 19, p. 366.

*Lake Shore & Michigan Southern.*—The annual report for 1874 was published in the CHRONICLE, V. 20, p. **451**, and report to June 30, 1875, in V. 21, p. **252**. Other reports, V. 22, p. **41**, p. **61**. The

(V. 18, p. 297, 504, 527; V. 20, p. **311**, 593; V. 22, p. **156**.)

*Little Miami.*—This company leases the Columbus & Xenia, and both are leased to Pittsburg, Cincinnati & St. Louis, guaranteed by Pennsylvania RR., lessees assuming interest payment on bonds and 8 per cent on stock. (V. 20, p. **427**.)

*Little Rock & Fort Smith.*—Foreclosed Dec. 10, 1874. Re-organized and stock issued for old bonds. The new mortgage is for construction to Fort Smith. (V. 19, p. 583, 617, 639; V. 20, p. 62; V. 21, p. 418.)

*Little Rock, Pine Bluff & New Orleans.*—Sold in foreclosure Dec. 16, 1875, for $35,000. V. 21, p. 535, 613.

*Little Schuylkill.*—Leased and operated by Philadelphia & Reading. Dividends, 7 per cent.

*Logansport, Crawfordsville & S. W. of Ind.*—Defaulted in 1874. The total liabilities, September, 1875, reported at $4,097,000, of which $322,000 were receiver's certificates. Litigation in progress. (V. 20, p. 86, **312**, 521, 593; V. 21, p. 302, 613; V. 22, p. 63.)

*Long Island.*—Change of management was made April, 1875, and in January, 1876, a sale of stock was made to Mr. Poppenhasen, of the Flushing, North Shore & Central road, giving him control. (V. 22, p. 135, 158.)

*Louisville, Cincinnati & Lexington.*—There are also $60,000 old bonds. Gross earnings in 1872-3 were $1,212,027; expenses, $976,574; net earnings, $235,452. The company, after paying dividends on preferred stock for some years, defaulted on interest 1873-4. Receiver took possession in September, 1874. See his report to December, 1875, in V. 22, p. 181. (V. 19, p. 351; V. 20, p. 242, 383; V. 21, p. 277, 395; V. 22, p. 181.)

*Louisville, New Albany & St. Louis Air-Line.*—This road is projected from Lonisville to St. Louis, and has 28 miles built. The managers hope to go on if they can sell bonds; few of those out were sold to the public. (V. 17, p. 753; V. 20, p. 16, **357**, 453; V. 21, p. 86.)

*Louisville & Nashville.*—Annual report for year ending June 30 1875, in V. 21, p. **369**. Gross earnings of main stem and branches, $4,308,952, net, $1,518,398. General result of operating whole system and leased lines was a deficit of $31,793, after paying interest and all charges. Net earnings, July to December, 1875, much better, being $1,043,751. Nashville & Decatur is leased, and liabilities for the South & North Alabama are assumed. (V. 20, p. 16; V. 21, p. **157**.)

*Louisville, Paducah & S. W.*—Formerly Elizabethtown & Paducah, to which Lonisville city loaned $2,000,000. In September, 1874, interest was not paid. Foreclosnre in progress. (V. 20. p. 357, 405; V. 21, p. 323, 395, 489.)

*Lykens Valley.*—Leased to Summit Branch Railroad at $62,500 per annum.

*Macon & Augusta.*—Leased and operated by the Georgia Railroad, which guarantees all the bonds except $100,000 of first mortgage. (V. 21, p. **157**.)

*Macon & Brunswick.*—This road being in default was sold June 2, 1875, and bought for the State; offered again for sale or lease January, 1876. The Georgia Legislature declared fraudulent $500,000 of the endorsed bonds issued in 1870. (V. 20, p. 405, 501, 546, 570, 593, 615; V. 22, p. 3 of advertisements.)

*Madison & Portgage.*—Consolidated as Chicago & Superior. No bonds could be negotiated after the "Potter law." (V. 21, p. 15.)

*Maine Central.*—A contract for operating was made with the Eastern, Mass., in June, 1873. The Maine Central leases several roads. The report of the year's operations, ending Dec. 31, 1874, showed:

The total earnings for 1873 were $2,068,077.78; total for 1874, $2,094,080.55, showing an increase of $26,002.77. The operating expenses for 1873 were $1,330,501.44; net earnings for 1873, $737,576.34. The operating expenses for 1874 were $1,281,681.25; net earnings for 1874, $812,399.30; an increase for 1874 of $74,822.96. Receipts from passengers were $910,381.89; from freight, $1,028,965.41; from all other sources, $154,683.25. The report says that a general stagnation of business materially affected the road, so that its gross receipts have only been increased over those of 1873 some $26,000; but the practice of rigid economy in working the road has given an increase of net earnings over last year of $74,822.96. During the year the bonded debt of the company was reduced by the payment of the

These liabilities were met by the sale of consolidated bonds, and by notes payable, increasing liabilities only $14,332. Since the date of the Treasurer's report $40,700 of the Somerset and Kennebec bonds have been paid, which leaves but about $12,000 of these bonds outstanding. (V. 19, p. 190; Vol. 20, p. 313, **356.**)

*Manchester & Lawrence.*—Formerly operated with the Concord Railroad as one line. Net earnings 1874-5, $101,117. (V. 20, p. 569.)

*Mansfield, Coldwater & L. M.*—Leased by Penn. Company for net earnings. In hands of mortgage trustees. (V. 20, p. **426**; V. 21, p. 42.)

*Mansfield & Framingham.*—Leased to Boston, Clinton & Fitchburg, at 25 per cent of gross earnings. Consolidation made June, 1875. (V. 20, p. 615.)

*Marietta, Pittsburgh & Cleveland.*—Net earnings in 1874 were $40,717. Defaulted and in receiver's hands August, 1875.

*Marietta & Cincinnati.*—Gross earnings for the year 1874 were $2,094,510; expenses, $1,571,559; net earnings, $523,151 against $432,539 net earnings in 1873. This road forms a part of the through route, and is operated in close connection with the Baltimore & Ohio Railroad, which has made large advances for recent construction on the "Short Line." Annual report V. 20, p. **356.**

*Marquette, Houghton & Ontonagon.*—This is a consolidation of Marquette & Ontonagon and Houghton & Ontonagon. Lands amount to 125,000 acres, chiefly timber and mineral. Stock, $2,306,600.

*Maryland & Delaware.*—This line was leased by the New Jersey Southern, to form part of the through route. Lately proceedings looking to foreclosure have been started. (V. 20, p. 242.)

*Memphis & Charleston*—This road was leased to the Southern Railway Security Co., but in 1874 the lease was cancelled and Mr. R. T. Wilson, President of the East Tennessee, Virginia & Georgia, road was elected President of the Memphis & Charleston, with a new board of directors. No recent report has been obtainable. (V. 19, p. 424.)

*Memphis & Little Rock.*—Interest has been in default since November, 1872. (V. 17, p. 380, 649; V. 20, p. 336, 615; V. 21, p. 15.)

*Michigan Central.*—The annual report to May 31, 1875, (V. 21, p. **109.**) showed gross earnings on main line and branches of $7,102,284, and net earnings, $2,034,188, or $76 250 less than previous year. The floating debt June 1, 1875, was $770,015, against $1,056,452 on the 1st of June, 1874. The J., L. & S. debt is assumed by Michigan Central, which also pays $70,000 per year on the stock, one-third of which it owns. Semi-annual report to Dec. 1, 1875, in V. 22, p. **41,** showing net income of $185,092 above interest charges, &c. Interest was passed on the Detroit & Bay City bonds, not guaranteed, Nov., 1875. (V. 19, p. 143; V. 20, p. 101; V. 21, p. 15; V. 22, p. 41.)

*Michigan Lake Shore.*—Defaulted 1872, and in receiver's hands. (V. 18, p. 218, 504; V. 21, p. **110.**)

*Midland Pacific.*—This was one of the roads represented by Messrs. Turner Bros. in New York, of which Benj. E. Smith was president. Default in interest was made in February and August, 1875. No litigation as yet.

*Milwaukee & Northern.*—This road defaulted on interest January, 1875. Circular to bondholders, V. 20, p. 615. It is leased to Wisconsin Central and there is said to be some prospect of resumption.

*Milwaukee, Lake Shore & Western.*—In 1873 the net earnings were $7,000; cost of road and equipment, $3,750,000. Sold in foreclosure for $2,509,788, Dec. 10, 1875. (V. 21, p. 277, 591.)

*Mine Hill & Schuylkill Haven.*—Leased to Philadelphia & Reading, May 1864, for 999 years; 8 per cent dividends on stock.

*Mineral Point.*—Total receipts 1873, $128,121; expenses and interest, $130,614; cost of road, &c., $1,200,000.

*Mississippi, Ouachita & Red River.*—Land grant 257,000 acres. Sold in foreclosure, Dec. 16, 1875, for $25,000. (V. 20, p. 405; V. 21, p. 535, 613.)

*Mississippi & Tennessee.*—Stock, $825,400. Net earnings 1874-5, $211,332. V. 22, p. **181.**
